New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

SULPHUR BITTERS. Why suffer with Boils and Pimples? Why suffer with Rheumatism? What makes you miserable? Headaches? Why suffer with Dyspepsia? Why groan with unknown pains? Bad taste in the mouth? Bad blood? Want of appetite? Want of sleep? Want of rest? Want to be free from pain? Want to be free from sickness? Want to be free from medicine? Want to be free from doctors? Want to be free from doctors' bills? Want to be free from nausea? Want to be free from nature? Want to be free from disease? Want to be free from misery? Want to be free from death? Want to be free from hell? Want to be free from the devil? Want to be free from everything that is good? Want to be free from everything that is bad? Want to be free from everything that is indifferent? Want to be free from everything that is neither good nor bad? Want to be free from everything that is both good and bad? Want to be free from everything that is neither good nor bad and yet both good and bad? Want to be free from everything that is neither good nor bad and yet both good and bad and yet neither good nor bad? Want to be free from everything that is neither good nor bad and yet both good and bad and yet neither good nor bad and yet both good and bad? Want to be free from everything that is neither good nor bad and yet both good and bad and yet neither good nor bad and yet both good and bad and yet neither good nor

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

MONDAY, APRIL 17, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The New Hampshire Club.

The *National Republican* thus speaks of the club in Washington last week, at Senator Rollins' reception at the Hamilton house:

This reception was crowded with many prominent officials, and, it is safe to say, every citizen of New Hampshire within the limits of the district. The reception took place in the main parlors of the hotel, which were thrown together for the occasion. Senator and Mrs. Rollins stood in the south room with Governor Bell, and the guests passed out to the north room after paying their respects to the governor and Senator Rollins and his wife. Mrs. Rollins was assisted in receiving by Mrs. Hall, the wife of Representative Hall of New Hampshire; Mrs. Ray, and Miss West, who is a niece of Mrs. Rollins. Mrs. Rollins wore a handsome black satin de Lyon with a front of shirred lilac satin, with jet and diamond ornaments. Mrs. Hall was attired in a beautiful steel-colored silk, with rare old lace garnitures. Mrs. Ray wore an elegant costume of garnet velvet and silk. Miss West's dress was of white albatross cloth trimmed with Spanish lace, and was a most exquisite specimen of the modiste's art. A section of the Marine band was stationed in the hallway, and during the course of the evening rendered a number of choice selections. An elegant lunch was served in the private dining-room of the hotel, and subsequently the main dining-room was utilized for promenading and dancing.

Among the notable persons present were Senator Davis, Sec'y Chandler, Senator Blair, Ex-Sec'y Blaine, Marshall Jewell, Thos. L. Tullock, Montgomery Blair, and Miss Harriet P. Dame.

News and Notes.

George Wm. Ballou & Co., bankers, of No. 72 Devonshire street, Boston, and No. 14 Wall street, New York, offer an excellent list of city, town and railroad securities for investment. They have special facilities for the purchase and sale of stocks on commission in the Boston, New York and Philadelphia Stock Exchanges Having a private telegraph wire to those places they keep early and fully advised on all points of financial interest. They invite correspondence from all parts of New England.

Lieut. Charles Seymour is ordered to the Charlestown navy yard, May 1st.

The President has notified Gen. Fitz John Porter, in answer to his petition for relief from the sentence of the court martial, that he can do nothing in the case, as it is entirely beyond his power. This action is based upon an opinion by Atty. Gen. Brewster, and received the unanimous concurrence of the cabinet.

Miss Sophia Ball, aged thirty-six years, was fatally burned in Roxbury, Mass., Friday evening, by a kerosene accident.

Two negroes, in jail at Brown's station, Ala., on a charge of murder, were taken from jail by a mob of masked men on the 13th inst., and hanged.

The senate at Ottawa, Ont., has passed the bill legalizing marriage with a deceased wife's sister, by a vote of thirty-four to eleven. Those voting against the bill have given notice that they will appeal to the governor general for his veto, and if this fails, they will petition the queen to disallow the bill.

The maple sugar season in Vermont is reported to have been a poor one.

New Hampshire Items.

A train on the Concord & Claremont railroad ran off the track last Thursday night, blocking the road till morning. Two cars were damaged.

At Winchester, on the night of the 14th inst., Henry Swan's palmleaf factory was burned; loss $4000; insurance $3000.

Mrs. Upham, widow of the late Nathaniel G. Upham, died in Concord on the 14th inst. She was the daughter of Rev. Abraham Burnham, D. D., a Congregational clergyman of Pembroke, and a most estimable woman. She went to England with Judge Upham where he served as commisioner in adjusting claims between the United States and Great Britain in 1853, and lived for two years in London. She was active in good works, and previous to her husband's death entertained many of the prominent parsonages who visited Concord. She was a leading member of the Concord branch of the New Hampshire ladies organization in aid of the United States Sainting Commission.

RAILROAD NOTES.

A gang of painters last week spread a coat over the large new building which covers the Eastern railroad's wood-preserving works on Noble's island; they also painted some of the fences, etc., belonging to the road, and will paint the big tank, station house and other property of the corporation in this city before they stop work here.

A schooner last week discharged 760 tons of gas coal at the Eastern railroad wharf, for transportation to Great Falls; and another schooner, with 900 tons of coal for the railroad coal house in this city, was expected to arrive at once. This wharf was a rather dull place during the winter, being used principally for the storage of many cars loaded with bark, in transit from eastern Maine to Boston; but what with the large number of ties recently landed there, and the coal arrivals, it has been quite lively for a few weeks past.

It is stated that if Jay Gould becomes master of the situation of the Eastern railroad the Rye beach extension will at once be built, and a monster hotel erected on the site of the Ocean house, which will eclipse any similar establishment this side of Coney island.

AROUND HOME.

The schooner Good Templar comes off the Kittery marine railway this morning and the Mary S. Hontvet takes her place.

The upper windows of the building next the Atheneum, belonging to the Mathes estate, are being altered so as to correspond with those of the Peirce block—a very great improvement in the appearance of both structures.

The Reform club will hold a meeting at Good Templar's hall opposite the post office this evening at a quarter before eight o'clock. A full attendance is requested.

The steamer James Sampson hauled off on Saturday evening for repairs, which will take but a few days to finish, when she will resume her trips.

It is expected that a larger quantity of coal will be landed at the Concord railroad wharf this season than ever before.

The schooner Dolphin, Chadwick master, arrived at Call's wharf on Saturday from Calais, Me., with a cargo of pine and spruce boards for T. E. Call & Son. The Dolphin is the largest vessel that has passed in through the draw of the Noble's island bridge for years.

The roads in the surrounding country were in very good condition, Saturday, and the farmers' teams on Market square were more numerous than for months. We noticed at one time several loads of hay and straw, a load of charcoal, and five or six wagons filled with potatoes; and other teams loaded with empty barrels, plaster, etc., probably outward bound.

Among the fishing arrivals on Friday were the schooners Young Silim with 1500 lbs. of fish, the Chromo with 3200, the Fannie with 1700, and the Breeze with 2800.

The schooner Lucy, Capt. Wm. Kennison, sailed for the Shoals on Sunday with freight, and Mrs. Brewster and three children as passengers.

Mr. William T. Frye on Saturday shipped to Boston, per steamer Acushnet, two hundred barrels of alewives.

Senator John S. Treat is busily engaged in farming at his suburban residence. Many is the fine acre of potatoes John never planted.

It is reported that Mr. William Pickering, of Newington, is afflicted with a cancer of the jaw, badly affecting the bone; the dangerous nature of the trouble was not discovered until a few days ago, although Mr. Pickering had suffered severe pains in the locality for some time.

Mr. William S. Fraser on Thursday of last week launched his whaleboat, and made a run to the Shoals and back. The entire fleet of pleasure boats will soon be afloat.

The schooner Grace Choate went on the Kittery railway last week, received a coat of paint, and had her calking looked after by Mr. Oliver Adams. Her stay on the ways was brief, there being no repairs of importance needed by her; she came off Saturday morning, and the schooner Good Templar went on.

Large numbers of plaice have been taken with hooks and lines at Sagamore bridge within a few days.

Mr. Edward N. Russell of this city is building a summer cottage at Wallis' sands, Rye beach.

DIED.

GERRISH. At Kittery Point, Me., April 16th, Robert F. Gerrish, Esq., aged 66 years and 10 months.

Oak Hall Agency in Portsmouth.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

THE
Mutual Life Insurance Co.
of New York,
F. S. WINSTON, President.
The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.
It is the largest Company by many millons of Assets in the World.
It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.
It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.
Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.
No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.
Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.
Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)
It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.
It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.
Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

GENERAL AGENT
For the States of Maine and New Hampshire.
Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.
ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of
G. J. GREENLEAF, Agent,
Portsmouth, N. H.

THE RYE BEACH RAILROAD.

President Philbrick of the new seashore line was called upon by a reporter of this paper on Friday, and asked to give his views in relation to the prospects of the construction of the road, when the following conversation ensued:

Reporter. It is said, senator, that a good many of our people are troubled at the prospect of the proposed railroad going near the best houses at the west end, crossing Middle street at grade, and injuring property about town; and also that it will cause a rush of undesirable visitors at Rye. I presume you have considered all of this; now what is your opinion?

Mr. Philbrick. Many of our best patrons at Rye speak of the desirableness of our lands for cottage residents, but at the same time are prevented from purchasing and building because of the inconvenience of reaching the sea side at Rye as compared with places on the line of the Gloucester branch. We have lost the opportunity to sell in Rye very many sites for building purposes, on account of this objection. I recall several instances where gentlemen of great wealth and in large business have been compelled to leave Rye for this reason. A convenient mode of reaching the sea shore would insure the accession of a very large number of wealthy, and in every respect desirable, residents. This is no new idea, as it was discussed as long ago as when the marginal railway was surveyed in Portsmouth; and although Rye has more attractions than any other place on the coast,—I mean a greater combination of attractions,—yet the complaint is constant that we need better facilities to reach Boston and Potsmouth and the White mountain region, a more direct route for the sea side resorts of our town.

Rep. What in your opinion will be the effect on the trade of Portsmouth if the road is built?

Mr. P. We feel confident that wealthy men will locate here. In the words of the chief engineer of the Eastern railroad, "There are in Rye more desirable sites for building than in any similar district along the coast." Nature has done everything to make Rye the best watering place in the country. With wealthy and refined people locating so near Portsmouth, with several trains daily coming and going, necessarily there would be increased life in your stores and business streets.

Rep. But it is said that the best trade will go to Boston, instead of coming to Portsmouth.

Mr. P. I do not think so. The great increase of summer visitors will of course largely increase the patronage of your stores, and a better assortment then would be kept in your city and purchasers would necessarily increase. A large share of this trade is not confined to the necessities of life, but is for luxuries, bought when seen in temptingly displayed places of traffic, and is not that kind of trade which goes to large cities during the summer months.

Rep. Which route into the city do you deem the one likely to be adopted if the road is built?

Mr. P. Three have been surveyed. The president of the Eastern railroad, in order to make an intelligent report to his board of directors, caused these surveys to be made under the charge of Mr. Bissell, the engineer of the corporation. The routes are:

Leaving Great Boar's Head, following the shore to and crossing the road at a point about 300 feet westerly of the Coffin cottages, where will be a station for Little Boar's Head; thence direct to a station westerly of Rye Beach post-office, a few rods in front of the Sea View house; thence to the Ocean House road, where will be a station which will accomodate residents and persons in that vicinity; thence crossing the beach road near Foss' beach, at or near the residence of John I. Rand, where will be a station; continuing, it passes near the house of Emery Woodman, and near the road to Odiorne's point, crossing the Sagamore river at Wendell's woods, then crossing the road to the Gov. Wentworth mansion' on the flat land easterly of the south cemetery, and under South street, crossing Middle street near Richards avenue, thence under State street at Mason's hill, under Islington street, reaching the main track by passing over a part of the Kearsarge mills grounds. The is the most direct line.

A second line crosses Sagamore creek westerly of the present bridge, and passes easterly of the house of the late F. W. Miller; then under Middle street near the corner of Cass street, and thence by the track at Jones' brewery to the main line as now laid out.

A third route crosses the Sagamore still further to the westward, perhaps a thousand feet; then crossing Lafayette road at the foot of Langdon hill, south of the residence of the late Capt. Samuel Langdon, entering the main track by passing the hollow between the powder-house and Daniel H. Spinney's, and crossing Islington road a short distance east of the powder-house.

Rep. Now which of these different routes meets your approval?

Mr. P. I have always desired to see a marginal entrance, passing the wharves at their head, but we find little encouragement from those interested in the property; nay, serious impediments. The easterly surveyed line would give easier grades and be more direct, so that through trains could run as rapidly between Portsmouth and the Merrimac river as over the present line; but the land damages, I infer, would be much less if the road entered by the most westerly line.

Rep. What in your opinion would be the result as to income of your proposed road?

Mr. P. The Eastern road, it is acknowledged, must have additional tracks between Greenland and Ipswich for their immensely increased traffic. Now we propose that our track laid over the route upon which a portion of the trains might run, would be an economical move for the Eastern. The land damages from Salisbury into the settled part of your city, would be of course merely nominal. The road would be an inexpensive road to build, save the last two miles into Portsmouth; and the increased traffic on the main line, added to the short travel between the beaches, Portsmouth, etc., would well support the road. You are aware, perhaps, that the road which paid the highest profit to its owners of any in the country last year, was a beach railroad where before were no railway facilities. The expectation is that an immense addition will be made to the traffic of the Eastern, by the opening of this new line.

Rep. Do you not fear the inroads of undesirable people at Rye, which will reduce the value of your estates?

Mr. P. I should feel less enthusiasm of course for this project, if I had any apprehension that we should bring by this means to Rye an undesirable class of visitors. This matter has been carefully considered. My visits to similar places easily reached by railways, have shown me that local residents whose fine houses, attractive grounds and good surroundings give character and tone to a locality, are free from objectionable visitors. Of course if a low class of patrons are catered for, they will be found, whether coming by rail or in carriages. We believe the character of our resident population and our summer guests is so well established that none but the better class of visitors will be seen at Rye in the future, as has been the case in the past, and that increased facilities will bring us enlarged numbers of patrons of the better class, who have long desired to come to Rye and locate, had we the means of reaching Boston now so easily attainable. In short, I think it a progressive move in the right direction, and that it will be for the equal anvantage of Rye and Portsmouth, neither of which places can in these times afford to be behind similarly situated places of summer resort in their railway conveniences.

POLICE COURT.

SATURDAY, April 15; *Batchelder, J.*

Patrick McMahon, drunk, $9.90, fine and costs; county farm in default of payment.

David Levi Ramsbottom, assault with intent to kill John Gibbs, was bound over in $600 for his appearance at the October term.

THE "PROFESSOR."

The sale of tickets for "the Professor," which will be at Music hall on Thursday evening, commences this morning at Preston's. The Boston *Post* says of the play that in the main its components are "good, healthy fun, and honest, if impossible, sentiment. The Professor is a man of forty-one, who has grown up in the society of books and scholars alone, and is so thoroughly permeated with science that the idea of love has never occurred to him. A managing aunt tries to marry him to a handsome heiress at the White mountains, but he, in his absent-minded, blundering abstraction—he is also dreadfully near-sighted—makes a terrible mess of it, and before he knows what he is about he is engaged to four girls at once. At last, however, he finds his true affinity in a simple child of nature, and all ends happily."

THE BANKER'S DAUGHTER.

To-morrow evening, at Music hall, the great society drama, the "Banker's Daughter," will be presented by the Union Square Theatre Co. of New York. The drama is well known to be one of the most powerful productions of the modern playwright, and the company is endorsed by the press as being worthy of the play.

WEEKLY FISH REPORT.

A summary of the fish receipts at this port for the week ending April 15th, shows light results, nine vessels and market boats landing 14,817 pounds, mostly haddock, against eleven arrivals the week previous with 18,310 pounds. No receipts of halibut worth mentioning, but black salmon of choice quality and with an average weight of eight pounds each were brought in; also about three hundred lobsters of fare size, and 1,000 pounds of cusk, all finding immediate shipment. Prices generally ruled light. Shore fishermen are doing an unusually small business.

The Portsmouth Mercantile Library association held its annual meeting on Friday evening, and elected officers as follows for the ensuing year: President, William G. Billings; secretary, Albert H. Sides; treasurer, William C. Robinson.

Mr. Chandler assumes the duty of secretary of the navy to-day.

Mr. George Dexter Lowd, who has been travelling with Anthony & Ellis' Uncle Tom's Cabin Co. as property man, arrived home on Wednesday of last week after an absence of eight months.

[*For other local matter see second page.*]

Auction Sales.

TRUSTEE'S SALE

— OF —

REAL ESTATE, AT AUCTION.

UNDER license from the Court of Probate for this county, I shall sell at Public Auction on the Premises,on

SATURDAY, the 22d day of April, at twelve o'clock noon,

The lot of land situate at the corner of Austin and Summer Streets with the three story dwelling house and stable thereon, being the former mansion house of the Trustee Joseph W. Pickering.

The lot measures one hundred feet on each street. The land is high and well drained, and the situation one of the most pleasant and eligible at the west end of the city.

Three-quarters held on trust, and one-quarter on fee will be sold together, making a title to the entire estate. Further particulars of

WALLACE HACKETT,
Trustee under will of L. Pickering.

Portsmouth, April 7, 1882.

H. F. WENDELL, Auctioneer.

AUCTION SALE

— OF —

REAL ESTATE

IN GREENLAND, N. H.

THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on

Tuesday, April 25th,

At 11 o'clock in the forenoon, on the premises,

A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.

Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.

The house on said lot is a two-story building, measuring eighteen by thirty-six ft.

ALSO, AT 12:30 P. M.,

The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnecut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Whildden.

This tract of land has running water the entire year, and is regarded as the best and most valuable pasture in this vicinity.

The interest of the said Whiddens in said pasture will also be sold at the same time and place, if desired.

GILBERT A. MANN, Executor.

GREENLAND, N. H., April 7th, 1882.

MORSE & HASLEY,

AUCTIONEERS,

Money, Real Estate and Mortgage Brokers, Insurance and House Agents.

13 PLEASANT ST. - - EXCHANGE BUILDINGS.

To the Hon. Judge of Probate for the County of Rockingham.

RESPECTFULLY REPRESENTS Kate E. Miller, Executrix of the last will of Frank W. Miller late of Portsmouth in said County, deceased, that the Personal Estate of said deceased is not sufficient to pay the just demands against his estate by the sum of Six Thousand Dollars. That the said deceased at the time of his death was seized of certain real estate situated in said Portsmouth on the west side of Union street, bounded south by land of B. F. Webster, 155 feet; north by Lincoln Avenue, 155 feet; east on Union street, 112 1-2 feet; and west by land of Robert Shillaber 112 1-2 feet.

Also one other lot situated on the east side of Broad street. Bounded on Broad street, 200 feet; north by land of C. E. Myers, 150 feet; south by land of J Janvrin, 132 feet; and east by land of J. Miller, 200 feet.

Also said deceased was seized at his death of the right of redeeming the following described real estate, situated in said Portsmouth, being his homestead place, bounded south on South street, north by land of Portsmouth Savings Bank, east by land of said Savings Bank, and west by the western line of Willow lane, the same being subject to a mortgage of J. W. F. Hobbs.

WHEREFORE she prays that she may be licensed to sell at public auction said two first described parcels of land, and the right of redeeming said last described land, or so much of the said real estate of said deceased as may be sufficient for the payment of said demands.

The 21st day of March, A. D. 1882.

KATE E. MILLER, Ex.

State of New Hampshire. Rockingham ss.

PROBATE COURT at Portsmouth in said County, March 21, A. D. 1882.

UPON the foregoing Petition it is *Ordered*, that a hearing be had thereon at the Court of Probate to be holden at Portsmouth in said County, on the second Tuesday of May next; and that the Petitioner notify the heirs of said deceased and all persons concerned or interested therein, to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the PORTSMOUTH CHRONICLE a newspaper printed at Portsmouth in said County, the last publication whereof to be at least one week prior to said Court.

By order of Judge,

THOMAS LEAVITT,
Register of Probate.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. Freeman.)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS THE Great LIQUID **FOOD** FOR BLOOD, BRAIN AND NERVES.

IT IS SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK.

Medical Inspector A. C. Rhoades is ordered to duty at the naval academy.

Medical Inspector A. C. Gorgas is detached from the naval academy, and ordered to the Chelsea hospital.

Books, Magazines, Etc.

Mr. Charles L. Brace's article on "Wolfreared Children," in the May "St. Nicholas," will tell the story of the street waifs of the metropolis from the time they first find refuge in the Newsboys' lodging-houses till they are provided with homes among the farmers of the western states, where, in many cases, they are growing up to become thriving farmers themselves, ready to provide homes for the next generation of newsboys. Mr. Brace, as secretary of the Children's Aid society, has had opportunities to thoroughly master his subject, and it is said that his paper, aided by the twenty pictures which Messrs. W. M. Chase, Share, Birch, and Pennell have furnished, will be one of the most striking that St. Nicholas has ever had. In the same number Mr. James C. Beard will have some comical pictures of the baby elephant.

In the Massachusetts legislature, Friday, Representative Brown of Boston resented an imputation of lobbying which had been made against the Boston & Maine railroad and, said the Eastern railroad had been persistently lobbied for; he had been solicited every day to withdraw his opposition to the Eastern scheme. Mr. Allen, of Lynn, said a member of the house had that morning been offered a yearly pass over the Boston & Maine road, if he would change his vote. After further talk the bill relating to the Boston & Maine road was referred to the next legislature, and a committee was appointed to investigate the charge that an attempt had been made to bribe a member with a railroad pass.

Six cases of smallpox have developed in the almshouse at Harrisburg, Pa., during the past week. It is feared the disease will spread through the institution.

In countries where malaria is prevalent, or where the climate is subject to sudden changes—should be found in every house Brown's Iron Bitters.

Mrs. Sarah W. Cady has given $1000 to the Young Men's Christian association of New London, Conn.

Miasma poisons the blood, promoting the "chills," "malaria" and "shakes." A sure antidote and preventive is "Wheat Bitters."

A letter carrier in Meriden, Conn., whose wife has inherited $60,000, still goes his rounds, although the postmaster has several applicants for his place.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single month.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and pains.

W. W. Sharpor, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Loris says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Deo says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success has *called* it into being because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS. Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

Druggists

AND

Physicians

Have Signed or Endorsed the Following Remarkable Document:

Messrs. Seabury & Johnson, Manufacturing Chemists, 21 Platt St., New York:

Gentlemen:—For the past few years we have sold various brands of Porous Plasters. Physicians and the Public prefer Benson's Capcine Porous Plaster to all others. We consider them one of the very few reliable household remedies worthy of confidence. They are superior to all other Porous Plasters or Liniments for external use.

Benson's Capcine Plaster is a genuine Pharmaceutical product, of the highest order of merit, and so recognized by physicians and druggists.

When other remedies fail get a Benson's Capcine Plaster.

You will be disappointed if you use cheap Plasters, Liniments, Pads or Electrical Magnetic toys.

A SURE REMEDY FOR CORNS AND BUNION PLASTER.

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clear and smooth. *These Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you use SULPHUR BITTERS. Why suffer with the great blood purifier, which has cured many of the worst cases of Humor in the blood, and can be relied on in all cases where there is a good chance for recovery. Why suffer with Rheumatism? Why let your kidneys and liver become torpid and inactive? Why let your system become poisoned with the impurities which SULPHUR BITTERS will remove? Why let your blood become thick and sluggish? Why let your blood become impure and your system run down? Why do you not take a dose of SULPHUR BITTERS when you find yourself out of order? It will make you feel like a new person. Why do you not take SULPHUR BITTERS when you find your system is out of order? It will make you sleep well, eat well, and feel like doing good to your fellow-creatures. Why do you not take SULPHUR BITTERS when you find your blood is impure and your system run down

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

TUESDAY, APRIL 18, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Going Out of Business.

The firm of A. T. Stewart & Co., of New York, is to go out of the dry goods business. After the death of Mr. Stewart, in 1876, Judge Hilton, the legal adviser of Stewart, paid Mrs. Stewart the million of dollars given him by Mr. Stewart in his will, for her interest in the business of her husband's firm.

The dry goods trade had been built up by Stewart from 1825 for fifty years, until he had the largest retail dry goods store in the world, employing 2000 persons, and making a profit of a million of dollars annually. Hilton was perhaps a good lawyer, judged by the New York standard, but he could not keep a dry goods store any better than a hotel, and in both of these operations he has proved an utter failure. He tabooed the Jews, and the Jews retaliated and made him "take in his sign." Not a Jew nor any one whom a Jew could influence, after the Saratoga-hotel edict would patronize the Stewart store; and with its immense assortment, fair prices and attractive building, it gradually shrank as to traffic, and ceased to pay. The building may be taken by some other concern, but is now "down town" for some of the best trade, and like the Chambers street store, may be idle for some time.

Mr. Stewart, like many other successful men, knew more of the process of making money in his business than of anything else, and his wish was that the business should be continued after his death. His mistake was in selecting Hilton for the executor of his will. The latter had men under him not selected with the discriminating judgment of the dead merchant, and the Women's hotel (now the Park Avenue) was a failure, and blunders have been made all along in its subsequent management. Doubtless Judge Hilton can manage to decrease the Stewart estate in about the same ratio in which the "Merchant Prince," as he was called, accumulated it. This is one of the inevitable rules regulating wealth in this country. Men of brains and financial ability gather largely; and incompetent executors, unfaithful trustees, or heirs blessed with less knowledge of the uncertainty of worldly possessions than their ancestor or patron, soon succeed in scattering the fortune which the assiduous millionaire may have so assiduously labored to accumulate.

Books, Magazines, Etc.

In the "North American Review" for May, Carl Schurz, treating of "Party Schisms and Future Problems," presents many observations which cannot fail to interest in the highest degree that large and growing class of citizens who refuse to be influenced by obsolete party cries. "Days with Longfellow," by Samuel Ward, contains personal reminiscences of the beloved poet just deceased, extending over a period of forty-five years. Elizabeth Stuart Phelps, in an article entitled "What does Revelation Reveal?" seeks to prove the objections brought against the Bible by modern unbelievers are based upon a misconception of the true intent and scope of the sacred volume. Lieutenant-Commander Dorringe writes of "The Navy," with abundant knowledge of its needs, and with a degree of frankness almost, if not quite, unprecedented in the naval service. W. H. Mallock, the well known English essayist, in the first of a series of "Conversations with a Solitary," very ingeniously contrives to put the advocates of democracy and modern progress on the defensive. Finally, Gail Hamilton contributes a paper, "The Spent Bullet," in which science, the pulpit and the law are with exquisite wit taken to task for the part they respectively played in the Guiteau-Garfield tragedy.

News and Notes.

Charles Varney, taxidermist, of Rochester, aged thirty-five years, son of Samuel Varney, was found dead in bed Saturday morning. He retired to rest Friday night apparently in good health. Death is assigned to congestion of the lungs.

As Mrs. Hammond, wife of A. D. Hammond, of Gilsum, and a Mrs. Schaffner, were driving into Keene last Saturday afternoon, they were thrown out by coming in collision with another team, and Mrs. Hammond very severely, and perhaps fatally, injured by striking her head upon the pavement.

Friday morning the cottage house of Charles McGregor on Lake street, Nashua, was destroyed by fire. The loss on the house is about $1,000; insured.

A freight train broke apart in the Hoosac Tunnel on Sunday, and the two parts of the train came together with a crash. Five cars were smashed, and the track blocked for ten hours.

The Newburyport *Herald* says: "The Boston & Maine railroad company will, it is understood, refuse to allow any modification in the pooling contract with the Eastern road, which expires in June. The latter, on the other hand, asserts that it will no longer submit to the present terms, under which it is compelled to pay excessively for its through business; the officials claim that they can control the Maine Central road in any event, and have no fear of any material reduction in their business, even though the pooling contract is done away with altogether. The Boston & Maine officials also are determined either to continue their present arrangements or abandon the whole thing."

Capt. Philpot's gondola last week took six hundred bushels of oysters from a schooner, and bedded them at the head of Sagamore creek, above the bridge.

Mr. Charles Gove of this city, living near the Newington line, while chopping wood one day last week had one instep split open by a glancing blow from his axe, making a very bad wound.

A pair of black horses belonging to Hon. Frank Jones ran away with a heavy wagon from the Concord railroad station, Monday, down Deer street its entire length, and overboard. For a time it was feared the animals would drown, but they were finally cleared from the harness and towed around to Noble's island, where they landed apparently unhurt.

The Eldredge Brewing Co.'s bock beer is on draught at N. W. Lord's, Vaughan street.

Frank A. Philbrick, Esq., of Rye, has been elected a director of the New Hampshire national bank, to fill the vacancy occasioned by the resignation of Mr. James P. Bartlett.

Hon. James W. Emery, Gen. Gilman Marston and Col. William H. Hackett, have been appointed a committee to draft suitable resolutions of respect to the memory of the late Albert R. Hatch, to be presented to the supreme court of this county at its present term.

The Marine Bicycle company are having sawed out at Mason's steam mill over 17,000 feet of pine lumber, to be used in the manufacture of their novel boats. Many of the boards are twenty-six inches in width, and perfectly free from knots or blemish of any kind; in fact, Mr. Mason considers it the finest lumber ever sawn in his mill. Two of the logs yielded over 900 feet of boards. The company are making for a wealthy New Yorker a racing bicycle twenty-five feet in length, the floats to be of Spanish cedar, and all the exposed iron work to be silver plated. Since April came in the company have shipped thirty boats.

A new pleasure boat appeared on the river on the 16th inst., called the "Abbydilla." She is owned by Messrs. Cobbitt and Bennett of the Portsmouth shoe factory.

Messrs. Peach and Dennett, of this city, secured a brace of field ducks at Gerrish's island on the mornings of the 16th and 17th insts.

Mr. Ira A. Stevens, formerly of this city, has recently been appointed superintendent of the large wool scouring and sorting mill of San Juan, about six miles from San Antonio, Texas. His office is one which will require his attention in Texas about nine months of the year, and the prospects for his future, provided he takes to the business, seem quite flattering. Mr. Stevens has been in that state about four years.

The president and directors of the Eastern railroad, with General Passenger Agent Tuttle, General Purchasing Agent Fisher, and Superintendent Sanborn, visited Salem on Saturday afternoon and inspected the ruins of the depot. The western tower was burned out inside, and its walls weakened and chipped. The western wall is very weak in spots. It is believed that it would prove a very expensive job to rebuild the old depot, and the idea of a modern station with tracks upon either side and a handsome square in front gains favor.

DIED.

BENEDICT. In this city, April 17th, Annie M. Benedict, widow of John M. Benedict.

REMICK. In Eliot, Me., April 17th, Martin F. Remick, aged 63 years.

ALLEN. In Boston, Mass., April 16th, Mrs. James Allen, formerly of this city.

Treat Your Teeth

Rather than have them pulled. Let your dentist save all he can. You desire to have trouble, because you have not used SOZODONT. When properly fixed, then rub on the SOZODONT, and keep them all right for time to come.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan22

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON. President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policyholders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Further information and applications furnished by

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
April 18, 12:00 A. M.

Probabilities for New England:—Fair weather, westerly backing to southerly winds, stationary or lower barometer higher temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 42 degrees above zero.

Cloudy.

A GRAND SHOW.

There was a magnificent display of the aurora borealis on Sunday night, commencing early in the evening, and lasting till daylight with varying intensity. Perhaps the most remarkable appearance was presented shortly before midnight, when there was an irregular ring of light, the hub of a wheel, exactly overhead, with rays of light extending from it like spokes in all directions, to within ten or fifteen degrees of the horizon; at the same time the whole western sky was red, and purple and pink tints streamed out in other quarters. On the fading away of the big wheel there was a gorgeous display of dancing and trembling flashes over a large part of the southern sky. The light from the aurora was frequently so powerful as to preceptibly dim the gas-lights, and altogether the show was such as is not seen many times in a lifetime. The telegraph lines were so much affected that the operators had to give up work, and we were unable to get the signal service "probabilities" for our paper Monday morning in consequence.

MEMORIAL RESOLUTIONS.

On Saturday evening the directors of the Portsmouth Howard Benevolent society elected George Annable, Esq., as treasurer *pro tem.*, to fill the vacancy occasioned by the death of Mr. John Stavers. The following expression was made at the same meeting:

Whereas, it has pleased Divine Providence to remove from us by death one of our most honored and respected members, Mr. John Stavers, we cannot let the event pass without paying our tribute to his character, and expressing our regard and esteem for his wise counsels, and our appreciation of his kind feelings and sympathetic expressions towards all worthy applicants for the bounty of this society.

Resolved, that while the society meets with a great loss in the death of our brother, we are richer by the memory of his many virtues and sterling qualities, knowing that his example is well worthy of our imitation.

Resolved, that by the death of Mr. Stavers this community loses an upright citizen, and his family a kind husband and father, but they have the assurance that he will be affectionately remembered by those who knew him best, and that of him may be truly said, "Well done, good and faithful servant."

HE TOOK A WALK.

The genial proprietor of the Seaside Lodge at Pocahontas point, Gerrish's island, Kittery, spent Wednesday night of last week at the point, and started bright and early on Thursday morning to take the steamer Fearless on her first trip up from Kittery Point, for this city. The little steamer's first trip is made soon after six o'clock in the morning, to accommodate the navy yard workmen who live at the point, and is not down in her advertised time-table; and whenever the portly Seaside stops down over night he has a Kittery Point boy come for him in a boat, to transport him from a convenient place on the island to the steamer. The boat was on hand all right at the appointed place, but pulled by the boy's father, who thought the water was rather too "hubbly" for his son to contend against; and the Portsmouth-bound traveller was quickly on board the steamer.

Looking at his watch, our friend found that it was about ten minutes before the time for the boat to start; but no signs of life could he see. There was no hissing of confined steam, no clanging of iron doors, no rattling of coal, "no nothing." He had no person to talk to, nothing to read, and time passed slowly. He waited an hour, as he thought, and then looked at his watch again. Ten minutes past six—time for the boat to start. What could it mean? He would enquire.

"Hi! Charley, Charley Hart!" he warbled, in tones which startled the gulls on the end of Odiorne's point; "Where are you, anyway?" No Charley answered; and having failed to arouse the engineer, our friend essayed to call forth the captain, with no better success. He was just beginning to talk *about* the derelict officers, instead of *at* them, when he saw the small boat again approaching, and as soon as it was within hailing distance the oarsman called out, "Aint we two confounded fools? To-day's fast day in Maine, and the boat don't make any navy yard trip, 'cause there aint no work! I'll pull you across to Newcastle, and you can walk up!"

There was no help for it; and after giving the boatman seventy-five cents not to say anything about the little matter, our friend of much avoirdupois bravely footed it from Fort Constitution up to the city, arriving just in time to reach his daily business at the proper hour, without bothering to wait for breakfast.

It is supposed that if the governor of New Hampshire next year selects a different day for fast from that appointed in Maine, much trouble will be occasioned.

POLICE COURT.

MONDAY, Apr. 17; *Batchelder, J.*

Rudolph Bermuth, drunk, was assessed $9.90, fine and costs; paid.

A. R. Chase, drunk, $9.90; paid.

Willie Morton, drunk, $9.90. We don't know whether he paid or not.

"A SILLY FARCE."

Ed. Chronicle: The little comment which I wrote (and which *you* headed as above) concerning the absurdity of the grand jury publishing a card of thanks, to the county solicitor for doing the duty which he is sworn to perform and paid for performing, stirred up the wrath of one "Truth" to the extent of over half a column of the *Times* on Saturday.

Some people thought "Truth's" screed was written by the county solicitor himself, but that opinion I believe to be incorrect, even tho' that gentleman *was* in this city on Saturday. One reason why I am confident that "Truth" and the county solicitor are not identical is, that the solicitor is a gentleman, which "Truth" by his writing proves himself not to be; another reason is, that no gentleman could so extensively bepraise himself as "Truth" bepraises the solicitor; and a more convincing reason than all is to be found in his answer to my question, "Was the condition of the jury so disagreeable, or their labors so arduous, as to require special kindness on the part of the solicitor?" to which he replies:

Now "B." asks something which he has no right to know; the affairs of the grand juries are secret, not at all any of "B.'s" concern, unless he be concerned for fear of indictment.

Now the county solicitor is a lawyer, and no lawyer would make such a glaring blunder as to attack his own witnesses. If I have "no right to know" the affairs of the grand jury, nor to enquire into their "secrets," how came the entire grand jury to sign a paper setting forth how the county solicitor conducted himself in the grand jury room? Decidedly, whoever "Truth" may be, he is not Mr. Harriman. P.

AROUND HOME.

The "Banker's Daughter" at Music hall this evening.

The first fish brought up from the weirs at Gerrish's island this season arrived on Monday.

The story of Daisy Browne and the learned but blundering "Professor" will be told at Music hall on Thursday evening by the Madison Square Theatre Co.

The temperance lecture delivered by Mrs. Shuff of Epping at the Pearl street church on Sunday evening, under the auspices of the Woman's Temperance League, was largely attended. Mrs. Shuff is an excellent speaker and made some very good hits, and the League was fortunate in securing the services of so cutivated a lady.

A fine display of trimmed hats and bonnets in all the latest styles will be made to-day and to-morrow at Nos. 3 and 14 Market street, by J. M. Tebbetts.

On Saturday evening, at Music hall, the eminent comedian John T. Raymond, supported by the Park Theatre Co. of New York, will appear as "Fresh, the American," a character he is making as notable as that of "Col. Sellers."

The steamer Kanawha, from Richmond, Va., with 653 tons of coal; the schooner Adeliza, with 315 tons, the Active with 360 tons, the Telumah with 400 tons and the Pacific with 208 tons, all from Hoboken; and the Paragon, from Perth Amboy with 245 tons, arrived at the Concord railroad wharf between Saturday and Monday evenings, all for J. Albert Walker.

Mr. George E. Herbert has established his office in the store on Water street which he formerly occupied for about fifteen years. Mr. Herbert has during the winter just ended bought a large proportion of the fish brought in by the small boats from York, Cape Neddick and Wells, and from the New Hampshire coast; most of this fish was resold to peddlers who traded in this city and adjacent towns, and the rest was dried. He will still carry on the fish business at his wharf.

Capt. William Walker, of Concord, visited Straw's point, Rye, on Friday. The captain says he shall take up his summer abode at the point early in June.

A petition asking the trustees of the Rice free library to restore the newspapers to the reading room, is being circulated in Kittery.

Cod-fish weighing several pounds, and numerous small pollock, were caught off the wharves last week. Lump-fish were also taken in the river.

The schooner Cocheco, Seawards master, chartered to take three hundred tons of rubble stone from Seal Harbor, Me., to Mayport, Fla., gets $1.80 per ton loaded. Coal freights from Perth Amboy to Dover are $1.15 per ton. Brick freights from the up-river yards to Boston are $2; last year the rates in this branch of the carrying trade varied from $1.25 to $2, the average for the season being about $1.50.

The Ogunquit correspondent of the Kennebunk *Star* says: "For four weeks or more, the schooners Ocean Eagle, Lillie and J. M. Eaton have been all loaded (with wood) waiting for a chance out. This shows the great need of a breakwater at the entrance of our harbor."

[*For other local matter see second page.*]

Auction Sales.

TRUSTEE'S SALE
— OF —
REAL ESTATE,
AT AUCTION.

UNDER license from the Court of Probate for this county, I shall sell at Public Auction on the Premises on

SATURDAY, the 22d day of April, at twelve o'clock noon,

The lot of land situate at the corner of Austin and Summer Streets with the three story dwelling house and stable thereon, being the former mansion house of the late Joseph W. Pickering.

The lot measures one hundred feet on each street. The land is high and well drained, and the situation one of the most pleasant and eligible at the west end of the city.

Three-quarters held on trust, and one-quarter on fee will be sold together, making a title to the entire estate. Further particulars of

WALLACE HACKETT,
Trustee under will of L. Pickering.

Portsmouth, April 7, 1882.

H. F. WENDELL, Auctioneer.

AUCTION SALE
— OF —
REAL ESTATE
IN GREENLAND, N. H.

THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on

Tuesday, April 25th,

At 11 o'clock in the forenoon, on the premises,

A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.

Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.

The house on said lot is a two-story building, measuring eighteen by thirty-six ft.

ALSO, AT 12:30 P. M.,

The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnecut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Whidden.

This tract of land has running water the entire year, and is regarded as the best and most valuable pasture in this vicinity.

The interest of the said Whiddens in said pasture will also be sold at the same time and place, if desired.

GILBERT A. MANN, Executor.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containg likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 43 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. my15

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. Freeman.)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend to all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS THE Great LIQUID FOOD FOR BLOOD, BRAIN AND NERVES.

☞A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEMICAL, ALCOHOLIC DRINK. ☞I Highly recommended by Chemists and Physicians as

A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE,

as it does not stimulate the brain or irritate the system and leave deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, strengthens and quiets the nerves, purifies the heart's blood, and thereby makes only the best flesh, bone and muscle. ☞It works wonders during NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA. Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influences, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food tonic. ☞For sale by all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTERS CO., Office 19 Park Place, New York City.

FISTULA AND PILES.

John H. Tilton's

Harness Dispensatory,

18 CONGRESS STREET.

MAIN & WINCHESTER BLOCK.

"A Little Too Previous."

Mrs. Col. Cooper of Concord, an active agent of the New Hampshire S. P. C. A., arrested a butcher the other day in Concord for carrying three calves in a wagon with their legs tied in a painful manner. The undeveloped stature of the poor creatures aroused suspicions that the calves were not old enough to be taken from their mothers. They were traced to the place of their nativity, which proved to be a farm attached to a public institution. It was also ascertained that the older of the poor calves was but one week old. The junior of the trio was but *one day old!*. Comment is unnecessary.

Blood and Thunder.

"The Thunder Bolt" is the quiet appellation of a bi-monthly journal published at Holderness school, Plymouth, N. H., and "Devoted to Art, Literature and Science." There are three editors, one of whom is C. F. M. Guild, and the "editorials" have affixed the initials of the perpetrators of the compositions. Much of the matter, indeed all, seems local, or (we will not say scholastic, but) pertaining to the scholastic sojourners at Plymouth, who since the publication of the number before us have been compelled by reason of the fire to forego for a season the pleasures of school. Of course we cannot appreciate the good things therein from our standpoint. A goodly number of "ads." seem to have been secured by the printer, C. H. Kimball of Plymouth. The composition, spelling, etc., reflect credit upon the editors and proof readers of the "Bolt."

The boarding house of the Granite State mills, at Newport, was destroyed by fire Sunday. Loss about $4,000; insured.

Referring to the charges and counter charges made in the Massachusetts house of representatives last week against the Eastern and the Boston & Maine railroads, and the statement made that a legislator had been offered a yearly pass by the latter road if he would change his vote, a correspondent says: "The Boston & Maine railroad, when it requires legislation in New Hampshire, sends all the members free passes for the session, and yearly passes to members of the lobby only. In Massachusetts the session of the legislature is so long that the passes might as well read for a year as for a session."

George W. Curtis has just succeeded in securing the appointment of a neighbor to the New York custom house without a competitive examination, which the great reformer demands for the friends of other men.

Civil service reform would find more advocates if such things as the above were not occurring every day, and brought about by men who profess to be in favor of reform. The actions of the leaders in the movement are so well known to professional politicians by their incessant importunings for friends and neighbors who have never succeeded in business with their own money, but are considered qualified to hold any government position, that it is no wonder that they are held in utter contempt by a majority of the people. P.

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

R. W. Stubbs, of Polk City, Iowa, was shot dead in his house by burglars on the night of the 15th inst.

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

Cristfield, Md., had a $75,000 fire on the 16th inst., seventeen stores and dwellings being destroyed.

How Often

We see some young man who has squandered his money and ruined his health by excesses, and before thirty years of age is an all broken down and played out man! In all such cases I prescribe nature's tonic and nervine, Sulphur Bitters. They supply food for the brain, strengthen the nerves, and are successful in nine cases out of ten.—*Old Physician.*

D. J. Price of Bay View, Wis., the postmaster, and recently a member of the legislature, tried ineffectually to kill his wife, Saturday, and then shot himself dead. The cause was long dissipation.

In countries where malaria is prevalent, or where the climate is subject to sudden changes—should be found in every house Brown's Iron Bitters.

The steamer Alaska, of the Williams & Guion line, arrived at New York on the 16th inst. in six days and twenty hours from Liverpool—the shortest passage on record.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharper, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is entirely because of its merits. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing it thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Benefical results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffs it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. or on receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

Over 5000 Druggists AND Physicians

Have Signed or Endorsed the Following Remarkable Document:

Messrs. Seabury & Johnson, Manufacturing Chemists, 21 Platt St., New York:

Gentlemen:—For the past few years we have sold various brands of Porous Plasters. Physicians and the Public prefer Benson's Capcine Porous Plaster to all others. We consider them one of the very few reliable household remedies worthy of confidence. They are superior to all other Porous Plasters or Liniments for external use.

Benson's Capcine Plaster is a genuine Parmaceutical product, of the highest order of merit, and so recognized by physicians and druggists.

When other remedies fail get a Benson's Capcine Plaster.

You will be disappointed if you use cheap Plasters, Liniments, Pads or Electrical Magnetic toys.

A SURE REMEDY AT LAST. Price 50c. HEAL'S Moccasins CURES and BUNION PLASTER.

The American Popular Dictionary, $1.00

This useful and elegant volume is a complete Library and encyclopedia, as well as the best Dictionary in the world. Superbly bound in cloth and gilt. It contains EVERY WORD IN THE ENGLISH LANGUAGE, with its true meaning, derivation, spelling and pronunciation and a vast amount of absolutely necessary information upon science, Mythology, Geography, American History, Laws, etc., being a perfect Library of reference. Webster's Dictionary costs $6.00, and the American Popular Dictionary costs $1.00, and ten times the money.—N. Y. Atlas. "We have never seen its equal either in price, finish or contents."—The Advance. "A perfect Dictionary and Library of reference"—Leslie's Illus. News. N. Y. Sun. One copy of the American Popular Dictionary (illustrated), the greatest and best book ever published, post-paid to any address on receipt of $1. Satisfaction guaranteed. Two copies postpaid $2. Order at once. This offer is good 60 days only, and will never be made again. Six copies for Five Dollars. Get five of your friends to join with you and get your copies free. Address, World Manufacturing Co., 120 Nassau St., New York.

Our readers will find this wonderful book the cheapest Dictionary published. The information it contains is worth many times the amount asked for it, and it should be in the possession of everybody. With this book in the library for reference, many other much more expensive works can be dispensed with, and ignorance of his country, history, business, laws, etc., is inexcusable in any man. Note the price, $1, post-paid.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive months of the year which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and derangement of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may really result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR.

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered Free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2833.

$30 PER WEEK can be made in any locality. Something entirely new for agents. $5 outfit free. G. W. Ingraham & Co., Boston, Mass. my1

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Humor, Blotches, Pimples and Eruptions? Why suffer with Dyspepsia, Biliousness, Nervous and all Liver Complaints, when SULPHUR BITTERS will restore you to health? Why let your blood become impure, your system poisoned, your appetite gone, your strength and energy all prostrated, when a few bottles of SULPHUR BITTERS will restore you to health and vigor? Why let your children suffer with Humors, Eruptions, Scrofula, Sores, Swellings, Rickets, Nervous Debility, Want of Appetite, Loss of Flesh, Dyspepsia, Biliousness, Fever and Ague, Chills and Fever, Kidney and Urinary Complaints, when SULPHUR BITTERS will cure them? Why let your wives suffer with Female Weakness, Irregularities, Prolapsus, Leucorrhœa, Ulceration, Inflammation, Pain in the Back, Nervous Prostration, Sleeplessness, Depression, Mental Anxiety, Hot Flashes, Sick Headache, Dizziness, Spasms, Convulsions, Fits, Nervous Neuralgia, Tic Doloreux, Hysteria, Dancing Sensations, Sudden Flushes of Heat, Burning Sensations, Wakefulness, Dragging Pains, Bearing Down Pains, Inflammation, Ulceration, Tumors, Irregular, Suppressed, Painful Menstruation, Leucorrhœa, Falling and Displacements of the Uterus, Prolapsus, Flooding, Dropsy, Gravel, Diseases of the Urinary and Kidneys, Female Weakness, Nervous Debility, Want of Appetite, Loss of Flesh, Dyspepsia, Biliousness, Fever and Ague, Chills and Fever, Kidney and Urinary Complaints, when SULPHUR BITTERS will cure them? Why let your children suffer with Humors, Eruptions, Scrofula, Sores, Swellings, Rickets, Nervous Debility, Want of Appetite, Loss of Flesh, Dyspepsia, Biliousness, Fever and Ague, Chills and Fever, Kidney and Urinary Complaints, when SULPHUR BITTERS will cure them? Why let your wives suffer with Female Weakness, Irregularities, Prolapsus, Leucorrhœa, Ulceration, Inflammation, Pain in the Back, Nervous Prostration, Sleeplessness, Depression, Mental Anxiety, Hot Flashes, Sick Headache, Dizziness, Spasms, Convulsions, Fits, Nervous Neuralgia, Tic Doloreux, Hysteria, Dancing Sensations, Sudden Flushes of Heat, Burning Sensations, Wakefulness, Dragging Pains, Bearing Down Pains, Inflammation, Ulceration, Tumors, Irregular, Suppressed, Painful Menstruation, Leucorrhœa, Falling and Displacements of the Uterus, Prolapsus, Flooding, Dropsy, Gravel, Diseases of the Urinary and Kidneys, Female Weakness, Nervous Debility, Want of Appetite, Loss of Flesh, Dyspepsia, Biliousness, Fever and Ague, Chills and Fever, Kidney and Urinary Complaints, when SULPHUR BITTERS will cure them? Why let your children suffer with Humors, Eruptions, Scrofula, Sores, Swellings, Rickets, Nervous Debility, Want of Appetite, Loss of Flesh, Dyspepsia, Biliousness, Fever and Ague, Chills and Fever, Kidney and Urinary Complaints, when SULPHUR BITTERS will cure them? Why let your wives suffer with Female Weakness, Irregularities, Prolapsus, Leucorrhœa, Ulceration, Inflammation, Pain in the Back, Nervous Prostration, Sleeplessness, Depression, Mental Anxiety, Hot Flashes, Sick Headache, Dizziness, Spasms, Convulsions, Fits, Nervous Neuralgia, Tic Doloreux, Hysteria, Dancing Sensations, Sudden Flushes of Heat, Burning Sensations, Wakefulness, Dragging Pains, Bearing Down Pains, Inflammation, Ulceration, Tumors, Irregular, Suppressed, Painful Menstruation, Leucorrhœa, Falling and Displacements of the Uterus, Prolapsus, Flooding, Dropsy, Gravel, Diseases of the Urinary and Kidneys, Female Weakness, Nervous Debility, Want of Appetite, Loss of Flesh, Dyspepsia, Biliousness, Fever and Ague, Chills and Fever, Kidney and Urinary Complaints, when SULPHUR BITTERS will cure them?

SULPHUR BITTERS

The Dose is small—only a Teaspoonful. It is the best and cheapest medicine. Try it and you will be satisfied. Get it of your druggist. DON'T WAIT. GET IT AT ONCE

A. P. ORDWAY & Co., Chemists,

Sole Proprietors for U. S. & Canadas.

SULPHUR PLASTERS cure pain in the side. KAUFMANN'S PILLS do not gripe. 25 cents.

PARKER'S HAIR BALSAM.

The Best, Cleanest and most Economical Hair Dressing.

Never Fails to Restore the youthful color to grey hair. 50c and $1 sizes at druggists.

Floreston Cologne.

A new and exceedingly fragrant and lasting perfume. Price 25 and 75c.

PARKER'S GINGER TONIC

A Pure Family Medicine that Never Intoxicates.

If you are a mechanic or farmer, worn out with overwork, or a mother run down by family or household duties try PARKER'S GINGER TONIC.

If you are a lawyer, minister or business man exhausted by mental strain or anxious cares do not take intoxicating stimulants, but use PARKER'S GINGER TONIC.

If you have Dyspepsia, Rheumatism, Kidney or Urinary Complaints, or if you are troubled with any disorder of the lungs, stomach, bowels, blood or nerves you can be cured by PARKER'S GINGER TONIC.

If you are wasting away from age, dissipation or any disease or weakness and require a stimulant take GINGER TONIC at once: it will invigorate and build you up from the first dose but will never intoxicate. It has saved hundreds of lives. It may save yours.

Y.—Agents wanted everywhere.

Daily Chronicle.

Kelly and Tilden.

John Kelly is likely to be a power in New York politics for some time yet, as he seems to have the Tammany society almost solidly at his back. The annual election of Tammany was held on the night of the 17th inst., when the "regular ticket," headed by John Kelly, was elected, receiving 416 votes against thirty-five for the anti-Kelly ticket.

The Whispering Sage of Gramercy Park also appears to be preparing for the fray once more, as at a meeting of the Young Men's Democratic club of New York, held the same night, resolutions were offered putting Samuel J. Tilden in nomination for governor.

Quickly Settled.

At St. Joseph, Mo., on the 17th inst., the Ford brothers were indicted by the grand jury for murder in the first degree, for killing the outlawed ruffian, Jesse James. The brothers, who are hardly more than boys, were brought into court, pleaded guilty to the indictment, and were sentenced to be hanged May 19th. Gov. Crittenden immediately granted them an unconditional pardon.

Growing Melons and Cucumbers.

Mr. Samuel Johns, of Eldora, Iowa, describes in the Kansas *Farmer* his method of raising cucumbers by the barrel:

"Take a common salt barrel, knock both ends out, set it in a convenient place, and fill nearly full of well-rotted manure. Form three hills for the vines, one on the west and the others on the south side of the barrel. Have but three plants in a hill, then place brush to keep the vines up from the ground. Keep the barrel well watered, and if these three hills don't furnish enough pickles for a large family, then think me a false prophet." The same method is employed just as successfully in growing melons. We have tried it with the best success. Water should be poured into the barrel daily. Half-rotted manure serves admirably for filling the barrel.

Plans are being made for building the Holderness school for boys, recently burned, as fast as possible. Bids for the stone work will be received very soon. The main building will be brick, costing about $20,000. The recitation rooms will be in a separate frame building.

The New Hampshire Fire Insurance company voted last fall to increase its capital stock to $500,000, and each of its 182 stockholders have subscribed for their full share of the new stock, which is to be paid in before July 1st, and over $80,000 have been paid into the treasury this month.

The Pemigewasset Valley railroad will penetrate the heart of the lumber country, and immense saw mills will be erected the coming summer. The towns along the line of the road rejoice at the change, as they expect to receive the money that has been paid for labor in the Lowell lumber mills.

Lewis Simmons and wife, of Lebanon, celebrated the 60th anniversary of their marriage a few days ago.

A shock of earthquake was felt at Hopkinton at two o'clock Monday afternoon.

Poor digestion frequently causes trouble, which is all impossible when "Wheat Bitters" are used.

Mrs. John B. Duston of West Hopkinton died on Friday under peculiar circumstances. On Sunday a committee of inquest decided that she died from criminal malpractice by some unknown person. The deceased leaves a husband, who was absent at the time of her death.

"When I publicly testified that I had been cured of a terrible skin humor by Cuticura Remedies, I did so that others might be cured, and do not regret the time given to answering inquiries."—Hon. Wm. Taylor, Boston.

J. H. Wilkinson, secretary of the Lafayette Building association of Philadelphia, has disappeared. The disaster would not be so bad were it not that $10,000 of the association's money has also disappeared.

Ladies and all suffering from neuralgia, hysteria, and kindred complaints, will find without a rival Brown's Iron Bitters.

At Simsbury, Conn., last week, Joseph R. Toy, aged seventy-two years, whose wife died last September, married his daughter-in-law, Mrs. Mary Toy, aged thirty years, whose husband died in March.

There is a Balm in Gilead.

The success which has marked the introduction of Cream Balm, a catarrh remedy, prepared by Ely Bros., Owego, N. Y., is indeed marvelous. Many persons in Pittston and vicinity are using it with most satisfactory results. A lady down town is recovering the sense of smell, which she had not enjoyed for fifteen years, through the use of the Balm. She had given up her case as incurable. Mr. Barber, the druggist, has used it in his family and commends it very highly. In another column a young Tunkhannock lawyer, known to many of our readers, testifies that he was cured of partial deafness. It is certainly a very efficacious remedy.—*Pittston, Pa., Gazette,* Aug. 15, 1879.

Price fifty cents.

Capt. James A. Greer is ordered to the Washington navy yard, as captain of the yard.

Having examined the formula from which Adamson's Botanic Cough Balsam is prepared, we recommend it as a safe and reliable medicine for the cure of asthma, coughs, colds and all diseases of the throat, chest and lungs.

GEO. W. MARTIN, M. D.
I. H. STEARNS, M. D.,
Formerly Surgeon N. M. Asylum, Togus, Maine.

Rear Admiral E. H. Cooper is ordered to command the North Atlantic station, May 1st.

Catarrh.

Relief in five minutes in every case; gratifying, wholesome relief beyond a money value. Cure begins from first application, and is rapid, radical and permanent. Ask for Sanford's Radical Cure. Complete for $1.

The Powhatan arrived at Port Royal, S. C., on the 16th inst.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells Health Renewer." $1. Depot, J. H. Thacher's.

Comdr. F. M. Bunce is ordered to command the Wabash, April 27th.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in local circles whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Popular Monthly Drawing of the

COMMONWEALTH DISTRIBUTION Co.

In the city of Louisville, on

SATURDAY, APRIL 29th, 1882.

These drawings occur monthly (Sunday excepted,) under provisions of an act of the General Assembly of Kentucky.

The United States Circuit Court on March 31st rendered the following decisions:

1st. That the Commonwealth Distribution company is legal.

2d. Its drawings are fair.

N. B.—This Company has now on hand a large reserve fund. Read the list of prizes for the

April Drawing.

1 Prize	$30,000	100 Prizes	$100 each	$10,000

Whole Tickets, $2. Half Tickets, $1.
27 Tickets, $50. 55 Tickets, $100.

Remit money or bank draft in letter, or send by express. Don't send by registered letter or post office order. Orders of $5 and upward, by express, can be sent at our expense. Address all orders to R. M. BOARDMAN, Courier-Journal Building, Louisville, Ky., or R. M. BOARDMAN, 309 Broadway, New York.

DENNIS SHEA,

MANUFACTURER OF

Cement Stone Pipe

— AT —

26 WATER STREET, PORTSMOUTH

The best Pipe made for Sewers, Culverts, Cellar and Sink Drains, Water Closets, etc. Give perfect satisfaction wherever used. Is proof against frost, acids, and all substances which pass through the Pipe.

For sale at wholesale or retail, or laid in the best manner.

Orders for Pipe and laying left at the factory will receive prompt attention.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. 3tawfsun28

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y. cod&wtyr3

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poi-onous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

WEDNESDAY, APRIL 19, 1882.

(Entered at the Post-Office at Portsmouth, N. H. as second-class matter.)

The Loss at Rye.

The ruins of the Farragut house were visited by many of our citizens on Tuesday, and the sad sight of the waste of fine buildings was lamented by all. A hotel kept as was the Farragut is an important element in keeping the attractions of Rye properly before the public. Here for three generations the Philbricks had labored to build up this business. The new hotel, its fine hall and its promenade, were enjoyed by a large throng of visitors. The Farmers' club had done much to add to the attractions to gentlemen sojourning at the hotel, and it was a place where the guests at Rye had much social enjoyment. We are not informed as to Mr. Philbrick's plans. There is not time to devise and construct such a hotel as should be erected upon the site of the former establishment, this season. That such a hotel should be maintained at Rye has never been more apparent than since the fire, and Mr. Philbrick should have every encouragement in at once setting about the projecting of a new "Farragut."

News and Notes.

A ship arrived at Salem, Mass., on Saturday last, direct from Calcutta, with jute-butts for the bagging company. This seems like the good old days.

A census was taken of the church attendants in Boston on Sunday.

Failing to come to any agreement with the strikers, the owners of the Pacific mills at Lawrence, Mass., have ordered the closing of the upper mill for six months. This includes the entire cotton-manufacturing department and one-third of the worsted department, throwing out of employment 2500 hands. During the time of idleness, repairs and alterations of the machinery will be completed.

John H. Havlin, who has successfully managed the favorite comedian John T. Raymond, will star Miss Minnie Maddern next season in a new play entitled "Fogg's Ferry." Miss Maddern is said to be a bright little soubrette of undoubted talent, who will assuredly make a success on the road. Havlin is one of the best young managers in the profession.

There is a case of small-pox in Fall River, Mass.,—Rev. R. Fothergill, Methodist clergyman. He has just returned from attending a conference in Pennsylvania.

Mrs. Mary D. Boynton died at Peppercell, Mass., on Friday last, aged 101 years and seven months.

The central post office in Paris has been robbed of registered letters, etc., to the amount of a million francs, $200,000. An iron safe was broken open.

Before Justice Merrill, in Boston, on the 13th inst., Warren Curtis, George Brownell, George Stubbs, Frank Wagner, and William and Frank Parker of Wakefield, arrested by the agents of the Massachusetts Society for the Prevention of Cruelty to Animals for indulging in a pigeon-shoot at Peabody on Sunday, the 2d inst., severally pleaded guilty to the charge, and also to the charge of violating the Sunday law, and were severally fined five dollars, with a proportionate amount of the costs for the first offence, and one dollar for the last offence. This is the first prosecution in Massachusetts by the society, for violation of the statute which prohibits the shooting of live pigeons for sport. No prosecution under the anti-pigeon shooting law of New Hampshire has yet taken place.

The electrical condition which produced the extraordinary auroral display Sunday night, more or less seriously affected a great many persons in Cleveland, Ohio, particularly those troubled with nervous disorders. Rev. G. L. Pinkley, pastor of the Prospect street Methodist Episcopal church, was prostrated in his pulpit while praying, by what was at first supposed to be paralysis. Ladies fainted in the churches during the services, and people who were out of doors as well as in, experienced generally of strangely oppressive sensations similar to those attendant upon an earthquake.

The 24th annual examination of the State Industrial school will occur on Wednesday, April 26th, the school exercises commencing at one o'clock in the afternoon. Trains will stop opposite the institution for the convenience of visitors.

Capt. E. P. Meeker, U. S. M. C., is to be detached from the Brooklyn and as fleet marine officer of the South Atlantic squadron, and return home in the Marion. Capt. L. E. Fagan is detached from the marine barracks at Norfolk, Va., June 1st, and ordered to relieve Capt. Meeker.

AROUND HOME.

"Fresh, the American," with quaint, humorous John T. Raymond in the title role, comes on Saturday evening of this week. The original scenic effects which so brilliantly emphasized its original production and successful run at the Park theatre, New York, will be presented. The cast is a powerful one composed as it is of such well-known favorites as Misses Agnes Proctor, Lizzie Creese, Katie Baker, Messrs. Atkins Lawrence, H. Pierson, Geo. F. DeVere, D. H. Chase, Wm. Cullington and C. Helmrich. The play is founded on the elopement of a young girl from the harem of the ex-khedive of Egypt with a foreigner—"Fresh, the American," of course; and genial Raymond has a character that fits him as perfectly as did "Col. Sellers," in which he won such wide renown. The scenes are laid partly in France, and partly on the borders of the bay of Naples.

The schooner Lucy, which went to the Shoals on Sunday, took out lumber, provisions, salt, fuel and a general outfit for the fishing station of E. S. Newton & Co. on "Lunging" island. This firm proposes to do an extensive business this season, and will buy all sorts of fish, including lobsters and black salmon; they will prepare boneless fish, and manufacture cod liver oil on the spot. They will do some fishing from the island, when fares enough to keep the establishment running are not brought in, but the bulk of the business done will be in purchasing and curing.

Mr. Plummer Spinney has some choice hens that supply him with extra-sized eggs; last week they laid eight eggs that together weighed two pounds, good weight. Mr. John Carleton, who does a large business in the poultry-raising line on Peirce's island, had 250 "spring chickens"—real ones—hatched out up to Saturday last. It is said that Mr. George W. Blaisdell, who has for some time past raised ducks and chickens for the market at his place on the southerly side of the south pond, will take charge of the large henery on the bank of Chauncey's creek, Kittery, which has been unused for several years.

Persons having carpets which they want beaten, or any similar jobs which they wish done, can get what they want by leaving their orders for John H. Burns, whose order-box can be found on the Warren street front of the Custom House Exchange, across Warren street from the post-office.

The long-anticipated anchor test will take place on Wednesday afternoon, the 19th inst., at three o'clock, on Marvin's island, at the end of the first Newcastle bridge. The anchors used will be the new patent anchor of Major Urch, and the improved anchor adopted and used by the United States government. Major Urch has for several days been erecting a suitable trestle work to get the proper elevation for his purchase from which the anchor cables will draw, the tests being made on dry and hard ground. The Newcastle bridges will be free for carriages and foot passengers from two to five o'clock P. M., on the day of the tests. Should the weather prove stormy on Wednesday the test will take place on the first fair day following.

Mr. Dennis Shea, manufacturer of cement drain pipe in this city and Dover, reports better sales this spring than ever before. On Monday he sent from this city to South Berwick, Me., a car-load of pipe of all sizes.

Mr. Willmore Twombly, of Goose point, Christian Shore, armed himself with a revolver one day last week, and sallied out to exterminate an undesirable cat. Taking up a favorable position he commenced operating with the deadly weapon, but about the fourth shot the cat evidently had her suspicions aroused, and took to a hole in the stone wall to let the hail-storm pass over. Advancing to the wall, the destroyer blazed away into the hole until his ammunition was all gone, when he retired, assured that he had reduced the cat to sausage meat; but next morning, just as breakfast was ready, the cat crawled out from under the stove and stole the best piece of steak off the plate, as naturally as ever. On examining the cat to count the bullet-holes, the only result of the fusillade that could be discovered was a singed place on the end of pussy's tail. The gentleman's friends think he must be qualifying himself for service on the police force, and that he will soon be able to kill unlicensed dogs with the requisite neatness and dispatch.

If the talk about selling the Charlestown navy yard should amount to anything more than talk, the government ropewalk there—the only one owned by the government, we believe—will have to be put up somewhere else, and no place could be better fitted for it than the yard opposite this city. There is room enough on the eastern end of Seavey's island, with what land could be easily made by filling the shoal water between Seavey's and Preble's islands, to put up a ropewalk half or three-quarters of a mile long, if required; and the land is not needed for any other purpose at present, nor likely to be soon.

The new gondola "H. P. Spinney," built at South Berwick, Me., for Capt. Cheney, came down the river on Friday of last week, and was fitted out at Martin's mast yard at the north end. Her yard is seventy-one feet long, and fourteen inches in diameter at the slings; the stick was cut in North Conway, partly gotten out by James Goodwin of South Berwick, formerly of this city, and was finished by Mr. Wm. A. Neal. She has a good cabin, and will have cost when finished about $2000.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

ARRIVED April 17th.

Stmr Williamsport, Willetts, Philadelphia, with 1860 tons coal to J Albert Walker.

ARRIVED April 18th.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

For the States of Maine and New Hampshire.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountains over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessable*. This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

Increasing cloudiness and rain, southerly winds, lower barometer, stationary temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 32 degrees above zero.

Cloudy.

ROOM FOR IMPROVEMENT.

Passengers taking the 3:10 P. M. train for Boston find a great want of accommodation at the Eastern railroad station in this city. The train from Portland is apt to be quite crowded, and the passengers who alight from the cars to visit the lunch room leave a notice of occupancy in their seats, but for two persons or one doth not appear. After the eastern-bound train has left, a rush is made for the western-bound train, and if a car is to be added it is beyond the track on which stands the outward-bound train, and inaccessible to passengers. There should be some arrangement whereby the large number of persons leaving this city at 3:10 P. M. should be provided with a car which could be filled and then attached to the train, instead of the company compelling passengers to crowd into other cars and then pass from car to car after the train is in motion,—a kind of improper treatment which will one day cost the road a round sum in damages. The starting out of the train which is to return for a fresh car, often causes some fast running which must interfere with the digestion of persons who on a false alarm leave the lunch room in the belief that the train has started for Boston. There is a large chance for an improved arrangement of these starts and of seating passengers at this station.

A FAMILY OFFICE.

Col. Thomas J. Parsons of Rye, who perhaps is the senior justice of the peace in continuous service in the county, has recently been re-appointed to that office, and qualified.

The Parsons family have long been represented in this office in Rye. Capt. Joseph Parsons, of Revolutionary fame, and a physician of Rye, was first appointed as a justice of the peace on Oct. 4th, 1788, and held the office until his decease in 1832.

His son, John W. Parsons, also a physician of that town, and in 1826, '27 and '28 a state senator, was appointed justice on June 10th, 1808, and remained in office by several re-appointments until his death in 1849.

His son, Hon. Thomas Jefferson Parsons, was first appointed Dec. 30th, 1828. After serving as clerk in the ship chandlery store of his cousin, the late Isaac D. Parsons, in Merchants Row in Portsmouth, he returned to Rye and began business in that town. He was senator from District No. 1 in 1835 and 1836, and has held other official positions in his town; and has always been in office as justice of the peace since December, 1828.

His son, Dr. John W. Parsons of this city, has in like manner been a justice since July, 1871, making a record of official appointment for four generations and extending for nearly a century.

SUPREME COURT--CARPENTER J.

On Monday, April 18th, State vs. James Bailey, alias Alfred Lee, alias Alfred Legg, for picking the pocket of Nellie Niles in a car at Newmarket Junction, was tried; verdict, guilty. J. W. Towle for deft.

Luther J. Austin, convicted at the April term, 1875, of breaking and entering at Plaistow, had his case brought forward, and was sentenced to five years in the state prison, at which institution he has just completed a term of seven years. Austin is a "third termer," and takes to stealing so naturally that it was deemed best to return him to his old quarters.

John C. Sanborn and John S. Cram vs. John S. Stevens, an action of damages for breach of contract for not allowing the plaintiffs to pile their lumber on land of Stevens according to an alleged agreement, was on trial Tuesday. Eastman for plff.; Wiggin and Frink for deft.

THE FARRAGUT HOUSE BURNED.

A serious fire occurred in Rye on the morning of the 18th inst., when the Farragut house and cottages, and the Abbott cottage, were destroyed, everything between the old Atlantic house and the sea being swept away. The fire was discovered at about one o'clock, in the issuing room of the Farragut, but it was then beyond control. The stables and club house were saved by cutting away the covered walk between the cottage and the old Atlantic house. But little furniture was saved from the hotel, and nearly all the personal effects were burned; the papers were saved. Most of the furniture in the Abbott cottage was removed.

The Farragut house was owned by Mrs. J. C. Philbrick and her son, Frank A. Philbrick. The loss will reach nearly $50,000, on which there is insurance amounting to only about $20,000. The magnificent new hall was uninsured.

ROBERT F. GERRISH.

Robert Follett Gerrish was born at Kittery, Maine, June 5th, 1815, and died April 16th, 1882, aged sixty-six years, ten months and eleven days.

Mr. Gerrish began active business early in life at Portsmouth, N. H., but soon returned to Kittery Point, where he engaged in trade, which he continued until 1862, when he moved to Franklin, Me., with his family. At the latter place he was agent of the Franklin Land, Mill & Water Co.; he was also engaged in trade on his own account.

In 1871 he returned to Kittery Point, and purchased the Gerrish estate at Gerrish's island, which was connected with a smaller farm owned by him at that place. This he managed for several years; but his health failing, he has been unable to do much business for two or three years past.

Mr. Gerrish was proprietor of the first summer hotel at Kittery Point. He took a deep interest in whatever improvements were made in the town, the parish and the neighborhood in which he lived.

By his death this community suffers the loss of an active business man, who will be greatly missed; and his friends deeply sympathize with his family in their bereavement.

In 1840 Mr. Gerrish married Miss Sarah Caroline Lewis of Portsmouth, by whom he had one son and three daughters, all of whom survive him, and mourn the loss of a kind and affectionate husband and father.

Storer Post, No. 1, Grand Army of the Republic, will hold its regular meeting this (Wednesday) evening at half-past seven o'clock. The meetings will be held on the first and third Wednesday evenings of the month, until after Memorial Day.

Mr. George Riddle, whose readings here will be pleasantly remembered by so many, and whose great performance in the Greek tragedy at Cambridge a year since gave him so much fresh fame, has we understand signed a contract to star this country and Europe for the next five years. Previous to entering on this he proposes to give a few farewell readings, and we are glad to learn that Portsmouth is one of the places he intends to visit.

The sale of tickets for "Fresh, the American," commences on Thursday morning at Preston's.

The first lot of fresh mackerel of the season arrived from New York on Tuesday, and are for sale at the store of C. Sullivan & Co.

The Piscataqua Association of Congregational Ministers met at Durham on Tuesday.

Barry & Fay's Comedy Co., with "Muldoon's Picnic," will appear in Music hall on Wednesday evening, the 26th inst.

Hon. Joseph C. Moore, of the Manchester *Union*, was in this city on Tuesday.

A salute of minute guns was fired at the navy yard on Tuesday at noon, in memory of Commodore John Lenthall, formerly chief of the bureau of construction and repair.

Mr. O. G. Sawyer, clerk to the commandant at the navy yard, has returned to duty after a brief absence in Washington, where the evil climate of the Federal capital told upon his system.

The funeral of Robert T. Gerrish, Esq., late of Kittery, Me., will take place this (Wednesday) afternoon at three o'clock, from the Congregational church at Kittery Point. The steamer Fearless will leave this city at 2:30 o'clock, returning after the funeral.

Mr. Samuel Lamprey will on Saturday afternoon next commence in Franklin hall his dancing school for young ladies, masters and misses, to continue thereafter each Wednesday and Saturday afternoon for a term of twenty lessons. The announcement that Mr. Lamprey is to form a class in dancing is all the information required by parents or other persons having charge of young people whom they desire to be taught this graceful accomplishment.

The vigorous language with which the mayor on Sunday evening addressed a half-dozen or so of young men who had been standing under the awning of Mr. John Laighton's store long enough to make the sidewalk for half its width a big puddle of tobacco juice, was fully justified by the occasion, and served to scatter the young fellows for the rest of that evening.

[*For other local matter see second page.*]

Treat Your Teeth

Rather than have them pulled. Let your dentist save all he can. You desire to have trouble, because you have not used SOZODONT. When properly fixed, then rub on the SOZODONT, and keep them all right for time to come.

He Never Told His Wife Until--

Mr. B. L. Holt, who lives near Quitman, sent to M. A. Dauphin, New Orleans, La., about three weeks since in a letter a dollar bill. He was advised by mail that his ticket had drawn $15,000 in the March drawing of The Louisiana State Lottery, and he drew his money by express. He was careful to say nothing about it to his wife until he found out he was a lucky man. This is the sixth time he has invested, and once before he came within four of the numbers of the capital. Holt's haul is a good one.—*Maryville, Mo., (Democrat.) March 23.*

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup." It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan82

TRUSTEE'S SALE

— OF —

REAL ESTATE, AT AUCTION.

UNDER license from the Court of Probate for this county, I shall sell at Public Auction on the Premises on

SATURDAY, the 22d day of April, at twelve o'clock noon,

The lot of land situate at the corner of Austin and Summer Streets with the three story dwelling house and stable thereon, being the former mansion house of the late Joseph W. Pickering.

The lot measures one hundred feet on each street. The land is high land well drained, and the situation one of the most pleasant and eligible at the west end of the city.

Three-quarters paid on trust, and one-quarter on fee will be sold together, making a title to the entire estate. Further particulars of

WALLACE HACKETT,
Trustee under will of L. Pickering.

Portsmouth, April 7, 1882.

H. F. WENDELL, Auctioneer.

AUCTION SALE

— OF —

REAL ESTATE

IN GREENLAND, N. H.,

THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on

Tuesday, April 25th,

At 11 o'clock in the forenoon, on the premises,

A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.

Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.

The house on said lot is a two-story building, measuring eighteen by thirty-two feet.

ALSO, AT 12:30 P. M.,

The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnecut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Whildden.

This tract of land has running water the entire year, and is regarded as the best and most valuable pasture in this vicinity.

The interest of the said Whildden in said pasture will also be sold at the same time and place, if desired.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also endorsements of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 43 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. tuy15

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. Freeman.)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE Great LIQUID FOOD FOR BLOOD, BRAIN AND NERVES.

IS A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK. Highly recommended by Chemists and Physicians as

A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE,

as it does not stimulate the brain or irritate the system and leave deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, strengthens and quiets the nerves, purifies the heavy blood, and thereby makes only the best flesh, bone and muscle. For weak women, curing NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA. Produces healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influences, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food, as it Tones up all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTER CO.

Office 19 Park Place, New York City.

Naval Affairs.

Rear Admiral Nicholson, commanding the European station, reports under date of Leghorn, Italy, April 3d, the arrival that day of the flagship Lancaster, three days from Messina, and that a case of varioloid had appeared on board, which was removed to the hospital at Leghorn.

Commander Merriam, commanding the United States steamer Adams, reports his arrival at Panama, April 3d. He expected to leave on the 11th for San Francisco.

Commander McCormick, commanding the United States steamer Essex, reports his departure from Port Praye, St. Jago, March 14th, for Monrovia, Liberia.

The U. S. S. Alert arrived at Panama on the 16th inst.

The navy department has received a letter from Engineer Melville, dated Jan. 31st, while en route from Delta Lena, when 500 versts from Irkutsk, Russia, saying he has every reason for hoping to find De Long and party and the books and papers, and says he is confident he can search all the coast with the force at his command between March 1st and June, when the floods will set in and sweep over everything in the low lands. Danenhower was expected to reach St. Petersburg on April 20th.

Mrs. Veazie, a wealthy widow lady of Bangor, Me., who had been slightly ill and was recovering, died on the 16th inst., within half an hour after taking some rank poison through a mistake of a druggist in putting up medicine for her.

At Emporium, Pa., April 17th, Preston Gowers, a house painter, in a drunken frenzy went to the house of his brother-in-law, Clarence Linsey, and shot him dead. Returning to his own house Gowers murdered his wife by cutting her head nearly off, and then shot himself to death. The murderer had been considered a peaceable man.

A tunnel on the Baltimore & Ohio railroad, thirty miles from Cumberland, Md., caved in on the 17th inst., burying twelve men; all were gotten out alive, but some of them will die.

"It pleases me to state that St. Jacobs Oil cured my father of chronic rheumatism. Many others in our section have been cured by this most wonderful liniment," writes Mr. G. O. Couvillon, P. M., Couvillon, La.

Lieutenant Commander Francis Morris and Lieutenant F. A. Miller have been ordered to examination for promotion. Commander Charles V. Gridley has been ordered to attend torpedo instruction, Newport, R. I., May 1st.

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material, than all other forms of malt or medicine, while free from the objections urged against malt liquors.

Capt. J. N. Miller is detached from command of the Wabash, and ordered to command the Tennessee, European station.

Miasma poisons the blood, promoting the "chills," "malaria" and "shakes." A sure antidote and preventive is "Wheat Bitters."

Captain Matthews, commanding the United States ship Powhatan, reports his arrival at Port Spain, Trinidad, March 24th, after having visited Kingston and St. Georges. The Powhatan left on the 28th for Laguayra.

For tremulousness, wakefulness, dizziness, and lack of energy, a most valuable remedy is Brown's Iron Bitters.

Rear Admiral Balch, commanding the Pacific station, reports under date of Callao, Peru, March 21st, that the flagship Pensacola arrived at that port on the 18th; that the Lackawanna is at Valparaiso.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:

In flesh wounds, aches, pains, sores, etc., it is the most effectual remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:

We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:

After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:

It is a panacea for all bruises and burns.

From R. L. Adams, Saco, Me.:

It gave me immediate relief.

R. Lewis says:

In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:

I use your PAIN KILLER frequently. It relieves pain and soreness, and *heals* wounds like magic.

J. W. Dos says:

For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use, and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills may *often be saved* by prompt application of the Pain Killer. *Unlike most medicines it is perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breath through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

Over 5000 Druggists AND Physicians

Have Signed or Endorsed the Following Remarkable Document:

Messrs. Seabury & Johnson, Manufacturing Chemists, 21 Platt St., New York:

Gentlemen:—For the past few years we have sold various brands of Porous Plasters. Physicians and the Public prefer Benson's Capcine Porous Plaster to all others. We consider them one of the very few reliable household remedies worthy of confidence. They are superior to all other Porous Plasters or Liniments for external use.

Benson's Capcine Plaster is a genuine Parmaceutical product, of the highest order of merit, and so recognized by physicians and druggists.

When other remedies fail get a Benson's Capcine Plaster.

You will be disappointed if you use cheap Plasters, Liniments, Pads or Electric and Magnetic toys.

A SURE REMEDY FOR CORNS AND BUNION PLASTER

The American Popular Dictionary, $1.00.

This useful and elegant volume is a complete Library and Encyclopædia, as well as the best Dictionary in the world. Superbly bound in cloth and gilt. It contains EVERY WORD IN THE ENGLISH LANGUAGE, with its true meaning, derivation, spelling and pronunciation and a vast amount of absolutely necessary information upon science, Mythology, Biography, American History, Laws, etc., being a perfect Library of reference. Webster's Dictionary costs $6.00, and the American Popular Dictionary costs only $1, worth ten times its money.—N. Y. Atlas. "We have never seen its equal either in price, finish or contents."—The Advocate. "A perfect Dictionary and library of reference"—Leslie's Illus. News. N. Y. Use copy of the American Popular Dictionary (illustrated), the greatest and best book ever published, post-paid to any address on receipt of $1.00. Entire satisfaction guaranteed. Two copies postpaid $2. Order at once. This offer is good for 60 days only, and will never be made again. Six copies for $5 Dollars. Get five of your friends to send with you and you get your own book free.

World Manufacturing Co., 120 Nassau St., New York.

Our readers will find this wonderful book the cheapest Dictionary published. The information it contains is worth many times the amount asked for it, and it should be in the possession of everybody. With this book in the library for reference, many other much more expensive works can be dispensed with, and ignorance of his country, history, business, laws, etc., is inexcusable in any man. Note the price, $1, post-paid.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of cold with that of heat and roses. No loss in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical infirmities to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, contained and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR,

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered Free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2831.

$30 PER WEEK can be made in any locality. Something entirely new for agents. $5 outfit free. G. W. Ingraham & Co., Boston, Mass. tuy1

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS. Why suffer with Boils? Why have that terrible Headache? Why have that dull pain, with rheumatism? Why are you troubled with Nervous Complaints? Sulphur Bitters is not a cheap whisky drink to add to your excesses, but is a medicine, which will cure you, if any thing can. Your nerves are all unstrung, you tremble, sleep is broken, you are nervous, and feel as if a little whisky would do you good. Why not take Sulphur Bitters, which is not whisky, but a medicine, which will cure you? Why suffer with Rheumatism? Why have that Dyspepsia? Why have that Liver Complaint? Why have that Kidney Disease? Why have that Blood Poison? Why have that Costiveness? Why have that Nervous Headache? Why have that Female Complaint? Why have that Skin Disease? Why have that Pain in the Back? Why have that Pain in any part of the system? Why have that Feeling of Lassitude? Why have that Feeling of Nervousness? Why have that Feeling of Sleeplessness? Why have that Feeling of Dullness? Why have that Feeling of Despondency? Why have that Feeling of Dizziness? Why have that Feeling of Fickleness? Why have that Feeling of Forgetfulness? Why have that Feeling of Timidity? Why have that Feeling of Shyness? Why have that Feeling of Cowardice? Why have that Feeling of Fear? Why have that Feeling of Evil? Why have that Feeling of Ill-Will? Why have that Feeling of Ill-Nature? Why have that Feeling of Ill-Health? Why have that Feeling of Ill-Everything? Why have that Feeling of Ill-Anything? Why have that Feeling of Ill-Something? Why have that Feeling of Ill-Nothing? Why have that Feeling of Ill-Anything? Why have that Feeling of Ill-Ever

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

THURSDAY, APRIL 20, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Naval Affairs.

All the vessels of the North Atlantic squadron are under orders to rendezvous at Hampton roads on May 1st, as on that day Rear Admiral Wyman will be relieved from the command of that station by rear Admiral Cooper. The Vandalia arrived there on the 18th inst., from Port Royal. The other vessels are expected within the ten days following.

The training ships Saratoga and Portsmouth sailed from Newport, R. I., for Europe, on the 17th inst.

First Lieut. S. N. Gibson, U. S. M. C., is ordered to duty at the marine barracks at this navy yard, relieving First Lieut. David Whipple, who is granted leave of absence for one month from April 20th.

Secretary Chandler attended his first cabinet meeting on Tuesday.

New Hampshire Items.

The stockholders of the Dover Horse railroad have chosen directors and fixed the capital stock at $30,000, which is enough for the amount on which dividends can be paid; $17,250 has been subscribed, and a part of the remainder will be held as company stock to enlarge the route in the future. Col. Chas. H. Sawyer is one of the directors, which is a pretty good assurance that the work will go on. Mr. Sawyer was, more than all others, the leading spirit in Dover in causing the Portsmouth & Dover railroad to be built; he is the king bee of Dover in all matters of progressive industry, and the big gun which one day, not far distant, our Dover neighbors will bring forward for high political honors.

Seven boys ran away from the State Industrial school at Manchester on Tuesday, the 18th inst. Superintendent Ray caught two of them the same day. The remaining five disappeared in the country east of the city and search is making for them. Two of the boys are a pair who went out all last winter on a furlough of their own.

It is reported that Rev. Wm. Hayne Leavell, who is about to resign his pastorate of the First Baptist church in Manchester, is an applicant for the Austrian mission.

Mr. and Mrs. Henry Wilkinson of Rochester buried their entire family of four children, the eldest twelve years old, within nine days. Two were buried at the same time. They died of diphtheria.

At a special meeting of the Rochester Agricultural and Mechanical Association, it was decided to rebuild the large exhibition building which was blown down by the gale last winter, and to hold an annual fair Sept. 26th, 27th and 28th.

Wm. Buzzell, thirteen years of age, living in the family of Herbert Flanders of Gilford, felt so badly one evening recently because the lady of the house left him to care for the children while she called upon a neighbor, that he took a large dose of paris green, and at last accounts his recovery was considered doubtful.

In the town of Rindge, with a population of 936, there has been but one death during the last five months. Since April 1st, 1881, only five deaths have occured, three of them being of persons over eighty while one was ninety-two.

The young man Huntoon, of Farmington, who some weeks ago attempted to wreck a train between Rochester and Farmington, has been taken from the Strafford county jail to the insane asylum at Concord.

The Jennie Cramer Murder.

The trial of Walter E. Malley, James Malley and Annie Kearns, alias Blanche Douglass, charged with the murder of Jennie E. Cramer, opened in the superior court at New Haven, Conn., April 18th, before Judge Granger. The defence will claim that Jennie Cramer was an habitual arsenic eater for the purpose of improving her complexion, and will also claim that she committed suicide.

The "Atlantic Monthly" for May is a noteworthy number. Mr. Longfellow's poem on "Mad River, in the White mountains," possesses peculiar interest as being the last one from his pen, and the final proof of it was revised by him only a day or two before his last brief illness. The opening chapters of Mr. Thomas Hardy's new serial, "Two on a Tower," are given, and promise a story of unusual interest. The Atlantic has secured the sole right of serial publication of this story, both in America and England. John Fiske contributes an article on "The Arrival of Man in Europe," which supplements his popular scientic treatise on "Europe before the Arrival of Man," in the April number. H. H. writes a capital character sketch, entitled "Aunty Lane," and Edward G. Mason gives an entertaining history of "Old Fort Charters," one of the early French forts in Illinois, some traces of which yet remain, and in the vicinity of which many descendants of the Old French settlers are still living. Miss Phelp's serial, "Doctor Zay," and Mr. Bishop's story, "The House of a Merchant Prince," are both continued, and Eugene W. Hilgard concludes his paper on "Progress in Agriculture by Education and Government Aid," in which he makes some criticisms on the conduct of the Department of Agriculture, and suggests needed improvements in it. The third chapter in the valuable series of "Studies in the South" treats of methods of emigration, life in colonies, the fortunes of the negroes, fertilizers, cotton, the cypress swamps, and the Texas climate. Miss Elizabeth Robins contributes a curious article on the "Evolution of Magic," and J. Lawrence Laughlin gives a clear and instructive account of the recent "French Panic." Poems by Edith M. Thomas and Mary W. Plummer, a review of "Renan's Marcus Aurelius," the Contributors' Club, and Books of the Month, are the other contents of the number. A brief obituary notice of Mr. Longfellow refers to the fact that the very first number of the Atlantic contained his tribute to Florence Nightingale, and that the present number of the magazine is privileged to present to its readers his last poem. A fine steel portrait of Mr. Longfellow will appear in the June number. Houghton, Mifflin & Co., Boston.

"Meals for the Million; the People's Cook-book: by Juliet Corine." A second edition of this collection of receipts not found in the former books of this author has been published by the New York School of Cooking, 1519 Broadway, N. Y., and is sold at twenty cents in paper covers, and thirty cents in cloth,—low enough to come within the reach of every one interested in the subject of wholesome cooking.

The Providence Tool Co. has failed.

During the nine months ending March 31st, 440,325 immigrants arrived in the principal customs districts of the United States, against 350,531 for the corresponding period last year.

Gen. Wm. Sutton, of Peabody, Mass., died on the 18th inst. in the 82d year of his age. He has long been prominent in military and masonic circles.

The action of a portion of the minority in the national house of representatives on Monday, when the bill concerning the construction of new ships of the navy was under discussion, shows that we may make enquiry of other nations if they bite their thumb at this great country, and if the answer is "Yes; what are you going to do about it?" Uncle Sam must say, "Oh, nothing!"

—The way to correct an evil is to correct it. To sit down and cry, never mended any situation.

—"It may be true that time brings all things even," soliloquized Jeems; "but I wish it would balance my debts."

—Carter Harrison, in a recent speech, said Chicago was his bride. We shouldn't blame Carter if he applied for a divorce.

—A party of New Mexico miners made a bonefire of an Apache Indian, and the coroner's jury returned a verdict of "overcome by the heat."

—A Chinese doctor has hung out his sign in London, and a Chinese lawyer has opened an office in Paris. The Chinese do go away from China.

—The Zuni Indians, it is said, worship bodies of water. Most Indians are equally worshipful of water, but they make a distinction in favor of fire water.

—In a public communication Mr. P. T. Barnum speaks of the necessity of redeeming his moral character. As the veteran showman, in order to avoid the payment of duties amounting to $2,000, has deliberately made affidavit that he imported the elephant Jumbo for breeding purposes, it is pleasant to know that he is fully aware of the importance of reformation.—*New York Graphic.*

Tea per ℔, Black 40c @ 70c; Green 50c @ 60c.
Wood per cord, Hard $6; Pine $4.

A Wise Dog.

Pat Rossiter has a remarkably intelligent dog. Some time since he sold him to the travelling agent of a mercantile house of Philadelphia, who was in Dover on business, and received for him $10. The new owner took the dog on the cars for Boston, thence to Fall River, thence by sound steamer to New York, where he put up at Lovejoy's hotel. As night came on, and it got to be about time to go to bed, the dog was let out of doors for a moment to satisfy him, but just as soon as he was over the threshold he made off as fast as he could, and the owner saw no more of him. A few days later the dog was back to Rossiter's house here in Dover. The owner from whom he escaped in New York became satisfied that the animal had started back to Dover, and a little later he found out that he went to the steamer pier, got aboard, sailed back to Fall River, took the cars there for Boston, tramped across that city to the Boston & Maine depot, got aboard the cars there and came to Dover a "dead head." The purchaser told Rossiter he could keep the dog and money both, for carry him wherever he might the brute would find the way home again. Yesterday Rossiter paid the city a couple of dollars to license the dog, and he means to keep him. —*Dover Democrat.*

—Nothing will make hens lay so well as seeds scratched from a neighbor's garden.

—The proof of the pudding is the rapidity with which the children get away with it.

THE
Mutual Life Insurance Co.
of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will assure the sale of no more stock. Shares are now selling for a short time only, at $5.00,—no *assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

"THE PROFESSOR"

RAN FOR ONE HUNDRED AND FIFTY NIGHTS AT THE

HAZEL KIRKE THEATRE.

THREE HUNDRED AND TWENTY-THIRD PERFORMANCE!

THURSDAY EV'G, APRIL 20.

AT MUSIC HALL!

SUCCESS EVERYWHERE! New York! Philadelphia! St. Louis! Chicago! Boston! Montreal!

W. H. GILLETTE, THE SUCCESSFUL AUTHOR, PLAYS AND CARRIES OFF THE DARK-EYED HEROINE!

Special New York Scenery! A Fall of Real Water! Bewitching Costumes!

Muslin Dresses. Moonlit Piazzas. Flirtation, Courtship and Marriage.

The "Professor" comes with the famous Original New York Company who played it at the Madison Square Theatre, the celebrated Hazel Kirke Theatre, for 150 consecutive performances. The success of this play of "The Professor," which is original, unique and remarkably amusing, is one of the events of the theatrical decade. "The Professor" will open here with the 323d consecutive performance. The success of "The Professor" in the West has been remarkable. In St. Louis it followed Patti and Geistinger with crowded houses, and the newspapers of that city show how enthusiastically it was received. The features of "The Professor" are that it is a light, vivacious, frivolous, delightful comedy, making no pretentions to Shakspearian massiveness. It is merely a charming recreative piece that men who work all day in their shops delight to see. The man who is too tired to read, or too tired to appreciate the merits of a great tragedy, or too tired to listen to a symphony even by a great master; who is too tired to enjoy the prolonged extravaganzas of a comic opera, finds positive relaxation and refreshment in seeing "The Professor." It is full of girls, full of wit, full of bright sayings and sparkling with effervescing repartee. The young people like it, the old people like it, the solid men of business like it, the fastidious belle of society likes it. In fact, everybody says "The Professor" is "The Hit" of the season. Mr. Gillette, the author, plays the part of the Professor, and his success is admitted. His character is entirely original, the acting is quaint, unique, sarcastic and at the same time refreshingly delightful. The girls are good looking. Their dresses are picturesque as apple blossoms, and when five or six of them make love to the Professor at one time, the ushers are unable to restrain the merriment of the delighted house. The man who forges steel ten hours a day; the man who superintends the vast business of a great establishment or the airy clerk with a waxed mustache who manipulates the destinies of a bank ledger—all are equally charmed with the Professor, if you don't believe it, consult the sheet at the box office, its logic is invincible. "The Professor" will show the prettiest girls and the finest fall of real water, the most artistic scenery and complete stage appointments ever presented in the city. All the ingenuity of the Madison Square Theatre, with its remarkable resources, has been exhausted in presenting "The Professor" in the highest style of art. There is no doubt there are people in various parts of the world, some now being shipwrecked upon stormy coasts, some being frozen in northern latitudes, some dying of hunger in the wilderness, some perishing under the blazing rays of a tropical sun, who would be delighted to attend the Professor performances next week. But neither the faithful missionary who is being torn to pieces by cannibals, nor the hunter who has lost his way in the northwest, nor the man who has been cashier of a bank and has absconded to Australia, can possibly get here in time to see "The Professor." But all good citizens may congratulate themselves that "The Professor" will be here with a fall of real water and original mother-in-law, flirting girls, and a programme that extends through three hours of continuous satisfaction, and will be the attraction at Music Hall.

Charles McGeachy, Manager.
Madison Square Theatre. Gen'l Managers.

THE RED-SKINNED DREAMER.

A great many years ago, long before the big buildings were seen in Portsmouth, there was a little Indian boy who lived in a wigwam among the trees, just beyond the bridge. One night as he was asleep in a brown leather tent that his painted father had given him, he awoke with a terrible scream. His mother, who did not wear calico, and who had never seen a dry-goods store in her life, leaped from her bed with a sheepskin wildly adjusted to her shoulders, and rushed to her little boy and asked him what was the matter. "Oh, mamma," said he, as his face pressed her brown cheeks with terror, "I've had an awful dream." "What did you dream, my little bear-killer?" said the dusky mamma, as she drew the sheepskin tightly around her mahogany shoulders. "Oh," said he, trembling in every muscle, "I dreamt that the big white men came sailing up the river in fire ships and tied them to trees, leaving a brave captain with a long iron rod with a hole in it, to watch the boats, to see that they did not pull down the trees and sail away. Then these men went up to where the little river runs into the big river, and took guns and axes and powder, and in one day built a thousand wigwams out of wood and stone. And then big fire ships with iron masts followed. And iron wagons came roaring over the country, and in two days there were more people in the pale men's wigwams than there are hairs in my head. When I walked through the wide stone-paved trails I was awfully frightened. Nobody seemed to notice me, but I afraid, all the same." "Well," said the Indian boy's mother, "don't get scared. Give us the rest of your story. I can't read dime novels, and I want to hear all you have to say." "Well," said the little bear-killer, vainly searching for some tobacco, "you won't believe it, but the number of white men increased, and the number of fire ships increased, and the number of iron wagons with iron wheels increased, until the whole country seemed to roar like thunder. And the pale men were buying goods and digging iron from western mountains, and selling it, until business became so good that oil ran out of the hills and down into the rivers. When I looked out over the land I saw no Indians. For thousands of miles the pale-faces seemed to cover the earth, and I grew awfully frightened. I looked around to see if there were any bears to comfort me among the strange people, but there were no bears; only one, and he was in a big cage. The pale-faces stood around, and one wicked man took money from the other pale-faces who came to see him, while another man turned a wheel and played a whistling machine. I thought it was awful to see how the world had become corrupted by the wickedness of the pale-faces." "Well, that is all very good," ejaculated the Indian boy's mother, "but what else did you see?" "I saw beautiful faces in the windows, and on the walls there were pictures of pretty white girls, playing among the trees by the waterfalls in the mountains. Then I was very sad, for I thought of the forests I had seen by sparkling rivers in the west. A pale-faced captain, who seemed to be in great authority, came along with his squaw, whose beads glistened like drops of dew. 'Oh,' said she, in the white man's tongue, 'Dearest Hubby, take me to see 'The Professor.' The pale man smiled and bowed his head. Then she seemed very happy, and I was about to ask her to take me too, when I awoke." The reply of the Indian mother to her darling little bear-killer is not given, but the lady whose gems glistened like drops of dew will attend the 323d performance of "The Professor," on Thursday evening, and she will sit in the front row of the parquette circle.

RAILROAD ACCIDENTS.

A ten-years-old boy named Rochette was killed at Manchester on Tuesday afternoon, the 18th inst., by the train bound for this city.

The train which left this city at 8:30 A. M. on the 19th inst., when near Castle hill, Salem, collided with a gravel train, the iron saloon car of the latter striking the locomotive of the passenger train, scraping the whole length, and then tearing out the side of the bagagge car.

Frank Woodbury, of Bell's Beverly express, was injured on the head and arm, and internally; he was removed to the hospital, and it was supposed would die.

Harry Jackson, of Jackson & Co.'s express, received injuries to his hip and back by jumping from the train.

Frank Piveaux, messenger of the Amesbury express, had a leg broken.

D. Webster Sanborn, of Kittery, baggage-master, was somewhat injured, but not seriously.

The accident was occasioned by a switchman of the freight train leaving the switch connecting the side track with the cross rails unclosed after running his train off from the main track. Both engineers are exonerated from blame.

The damage to cars will not be above $500, and the passenger locomotive, although disabled, was not badly injured. Engineer Brown had a narrow escape, the whole side of his cab being raked off.

THE ANCHOR TEST.

A large crowd, including many representative men from this city and Newcastle, assembled at Marvin's island on Wednesday afternoon of this week, to witness the trial between the anchor recently patented by Major Urch and the improved anchor adopted and now used by the United States government.

The anchors weighed respectively 421 and 436 lbs., the lighter one being Major Urch's. A heavy spar had been erected and stayed in every direction, and to it about thirty feet from the ground were lashed huge blocks carrying a six-inch hawser, connecting the anchors (which were two hundred feet apart, the strain coming equally on each) with a windlass a hundred and fifty feet to one side.

All being in readiness a committee was appointed, composed of the following-named gentlemen: Mayor Sise, Capt. J. Gilman Moses, Aldermen Martin and Vaughan, and Commander A. R. Yates, U. S. N., to see that the tests were fairly made and properly conducted; and after a brief examination of the anchors and testing apparatus, word was given to "go ahead," and the strain was put on.

Urch's anchor took ground at once and held on, while the government anchor was "brought home" a distance of one hundred feet in less than four minutes, making a deep furrow in the hard earth. The anchors were then shifted, each taking the other's ground; this time Urch's yielded a little, owing to one of its flukes getting into the furrow previously made by the other anchor; nevertheless it took its opponent home in eight minutes. A third trial resulted the same as the first.

It was then suggested that a 600-pound anchor of a fishing schooner which was at hand be substituted for the one obtained at the navy yard; this was done, and the fisherman's anchor came home in five minutes and a half, Urch's anchor yielding but eighteen inches.

Comdr. Yates then proposed that the government anchor should be buried up to its shank, Urch's anchor to "go-as-you-please" against it. This too was done, and as Capt. Moses expressed it, "the grave gave up its dead" in two minutes, Major Urch's anchor holding from the start.

It was supposed by the spectators that this test, which was loudly applauded, was the finish. Not so. Mayor Sise proposed that the fisherman's anchor be backed by the government anchor, and the two, weighing over a thousand pounds, be pitted against the little "claw-hammer." Everybody laughed, but everybody said "Yes, yes!" excepting the astonished major, who stoutly protested that this was too much; but the committee insisted on having their own way.

The anchors were hooked on, increased horse power was applied to the capstan, the spectators gave the straining hawsers a wide berth, and the blocks creaked; the united anchors ploughed and jumped, but came home all the same in six minutes and a half. The same old story—Urch's anchor did not yield.

The surprise and gratification expressed over the result of the final trial must have been pleasing to the inventor of the winning anchor, and we presume that when the committee report to Mayor Urch their statement will be worth something to him.

SUPREME COURT--CARPENTER J.

James Bailey of Boston, alias Alfred Lee, alias Alfred Legg of New York, was sent to state prison for four years for picking the pocket of Nellie Niles of Portland, Me., in the cars at Newmarket Junction. James McCabe of Methuen, Mass., for breaking and entering a house in Salem, N. H., last November, was sent to state prison for two and a half year.

POLICE COURT.

WEDNESDAY, Apr. 19; *Batchelder J.*

Daniel Brown, vagrant and tramp, sixty days at the county farm, costs $8.04.

Samuel L. Rand, drunk, fine $3, costs $6.30; paid.

AROUND HOME.

This evening, at Music hall, the "Professor" will appear, as might be suspected from the advertisement at the top of this page. There will be a large audience to witness the love making of the Professor and Daisy Browne. The comedy is endorsed by such papers as the New York *Times* and *Post* as being not only amusing in the extreme, but absolutely free from even the suggestion of indelicacy; the Madison Square Theatre Co., which plays the piece, of course needs no endorsement.

The Massachusetts legislature on the 18th inst. passed to be engrossed a bill to compel the Eastern railroad to rebuild the draw-pier of its bridge over the river at Newburyport, the railroad to pay all the cost in the first instance, and to recover from the city of Newburyport the amount which shall be decided upon as equitable by three commissioners appointed by the supreme court of Massachusetts.

The Boston *Globe* of the 19th inst. says: "While the schooner William Thomas, laden with coal, from New York for Dover, was being towed up the Cocheco river, she was run ashore by the tug. She filled with water and the cargo was lost." The schooner William Thomas arrived at Dover all right on the 17th, and was discharged on the 18th. In towing up the river she was blown out of the channel by the high wind, and was obliged to discharge a gondola-load of coal to get off, which she did on the next tide. Not a pound of coal was lost, nor was the vessel injured.

"Fresh, the American," was first presented at the Park theatre, New York, on February 8th, 1881, and ran there upward of 100 nights. Its subsequent success, which is mainly due to the comedy ability and undoubted talent of Mr. Raymond, is a matter of record. Messrs. Brooks & Dickson, the directors, have spared no expense in putting the comedy on the road, and the company is strong and specially selected. The scenery includes the famous harem, which is claimed to be the only correct representation of the eastern holy of holies ever placed on the stage, and is the original, as used in New York.

The office of E. F. Sise & Co. and the fish market of G. W. Randall & Co. have been connected with the central telephone office.

There is one serious objection to the discontinuance of the Charlestown navy yard which has recently come to light. It seems that a designing lobbyist from New Hampshire has offered an immaculate representative of the Massachusetts legislature a free pass to vote for some scheme of the Boston & Maine railroad now pending in the General Court, and until the adjournment of that body Secretary Chandler will insist that the big guns of the naval battery shall be in range of the gilded dome, while such demoralization is permitted to be attempted. An eminent counsellor of this city, who has a pasteboard retainer from the B. & M., visited Boston this week to use his influence in remedying the mischief.

The funeral services of Robert F. Gerrish were held in the Congregational church at Kittery Point on the afternoon of the 19th inst., the little church being well filled with the relatives and friends of the deceased, including a number of persons from this city. The remains were intered in the old cemetery opposite the church.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 45 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. tmy16

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. Freeman.)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE Great LIQUID FOOD

FOR BLOOD, BRAIN AND NERVES.

IS A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK. Highly recommended by Chemists and Physicians as

A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE,

as it does not stimulate the brain or irritate the system and leave deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, strengthens and quiets the nerves, purifies the heart's blood, and thereby makes only the best flesh, bone and muscle. It works wonders, curing NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA. Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influences, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food tonic. For sale by all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTERS CO., Office 19 Park Place, New York City.

FISTULA AND PILES.

John H. Tilton's

Harness Dispensatory,

18 CONGRESS STREET.

MAIN & WINCHESTER BLOCK.

"The History, Jurisdiction and Practice of the Court of Claims of the United States: by William A. Richardson, LL. D., one of the judges of the court; republished from the Southern Law Review," has been issued from the general printing office at Washington.

A statement of the mode of proceedure, summary of business, list of judges, and other matters of interest, are given. The first designated judges was John James Gilchrist, who was appointed March 31, 1855. He was then chief justice of New Hampshire. Judge Richardson says he held that office by a tenure of good behavior. That might do for Massachusetts, but in New Hampshire the constitution prohibits the holding of office by any judge or sheriff after he has attained the age of seventy years, a provision by which in some cases the loss of the services of able jurists has been felt, but which tends to give the state the benefit of vigorous men upon the bench. The Massachusetts judge probably lost sight of the additional fact that whenever in our state, with its narrow political margin, a change in the political power occurs, it is always discovered that there are defects in the then existing system of courts, and an act is passed for its abolition and a new court comes into existence which requires the newly inaugurated governor to appoint a new set of judges; so that when the New Hampshire chief justice was tendered the place at Washington by his friend the president from his state, he eagerly accepted it, having a decided taste for Washington life.

—"Woman," says Mrs. Eastman, "is a problem." So she is; and though a problem we can never hope to solve, it is one we shall never, never be willing to give up.

—The New York *News* says that "it requires a deal more art to pop the question than to avoid." We don't know about that. It takes a good deal of art either way.

How Often

We see some young man who has squandered his money and ruined his health by excesses, and before thirty years of age is an all broken down and played out man! In all such cases I prescribe nature's tonic and nervine, Sulphur Bitters. They supply food for the brain, strengthen the nerves, and are successful in nine cases out of ten.—*Old Physician.*

Brownsville, Mo., was almost destroyed by a cyclone on the 17th inst; seven persons were killed, and over twenty injured, some fatally.

For tremulousness, wakefulness, dizziness, and lack of energy, a most valuable remedy is Brown's Iron Bitters.

Elias Klinger, a noted citizen of Mifflin, Pa., is under arrest charged with burning the barn of Geo. Wagner, and sending a threatening letter of the Molly Maguire class.

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

Steamer City of Sydney, at San Francisco from New Zealand, brought about 300 passengers, nearly half of whom are Mormon converts, en route for Salt Lake, mostly Danes and Norwegians. Many were refused passage from Auckland on account of lack of accommodations.

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

John Schriver of Philadelphia on the 18th inst. went to the house of Lillie Cross and shot the girl in the head, inflicting probably a fatal wound, and then shot himself. Jealousy is believed to have been the cause. Schriver will probably recover.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

No affection of the SKIN, however of obstinate nature, can resist the soothing, healing and conquering power of SWAYNE'S OINTMENT. On account of allaying the intense itching and lessening sweat relief is felt by many as THE GREAT CURE FOR ITCHING PILES.

DR. SWAYNE & SON, PHILA.

SOLD BY ALL DRUGGISTS.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:

In flesh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:

We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:

After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpar, Valdosta, Ga., says:

It is a painless for all bruises and burns.

From R. W. Adams, Saco, Me.:

It gave me immediate relief.

R. Lewis says:

In forty years' use it never has failed me.

W. W. Lum, Mobileville, N. Y., says:

I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:

For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, hundreds of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued than *ever before*. Every family should have a bottle *ready for use*. Much pain and heavy doctors' bills may *often be saved* by prompt application of the Pain Killer. *Unlike most medicines*, it is *perfectly safe* even in the hands of a child. Try it once and thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing it thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipts of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.

Because they are genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will not even relieve.

Fifth.

Because over 1000 physicians and druggists have voluntarily testified that they are superior to all other plasters & medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

Benson's Capcine Porous Plaster!

Malt Bitters Company

A NOURISHING FOOD

WHICH OVERCOMES

Deep-Seated Coughs, Bronchitis, Dyspepsia, Wasting of the Kidneys, Bright's Disease, Dropsy, Emaciation, and Mental, Physical and Nervous Debility.

Indorsed by the best Physicians.

The American Popular Dictionary, $1.00

Our readers will find this wonderful book the cheapest Dictionary published. The information it contains is worth many times the amount asked for it, and it should be in the possession of everybody. With this book in the library for reference, many other much more expensive works can be dispensed with, and ignorance of his country, history, business, laws, etc., is inexcusable in any man. Note the price, $1, post-paid.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The cure of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you tired or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own tonic, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets free machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR,

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered Free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 1833.

$30 PER WEEK can be made in any locality. Something entirely new for agents. $5 outfit free. G. W. Ingraham & Co., Boston, Mass. tmy1

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS

Why suffer with Rheumatism? Why suffer with that terrible Headache? Why have your blood in such a bad condition? Why let your system become a prey to Dyspepsia? Why let your Liver become torpid? Why let Constipation, Costiveness and Piles make life a burden? Why let Malaria, Fever and Ague, Chills and Fever, Intermittent Fever, Typhoid Fever, Typhus Fever, Scarlet Fever, Yellow Fever, Bilious Fever, Nervous Fever, Puerperal Fever, Spinal Fever, Brain Fever, Fever and Ague, Dumb Ague, Congestive Chills, Bilious Colic, Nervous Headache, Neuralgia, Sciatica, Rheumatism, Gout, Kidney Complaints, Dropsy, Diabetes, Stone and Gravel, Nervous Debility, Female Weakness, Sleeplessness, Nervousness, Loss of Appetite, Dizziness, Coldness of the Extremities, Cold Sweats, Dry Cough, Night Sweats, Nervous Irritation, Sick Headache, Jaundice, Pain in the Side, Back and Limbs, Sudden Flushes, Burning Sensation, Blotches, Eruptions, Pimples, Boils, Tetter, Ringworm, Scald Head, Salt Rheum, Scurvy, Itch, Mange, Scaly Skin, Erysipelas, Mercurial Disease, Blood Poisoning, Mercurial Rheumatism, Syphilitic Rheumatism, Syphilitic Blood Poisoning, Ulcers, Abscesses, Tumors, Tumor on the Neck, Swelling of the Joints, Fever Sores, Ulcerated Throat, Ulcerated Mouth, Ulcerated Nostrils, Ulcerated Limbs, Ulcerated Leg, Ulcerated Stomach, Ulcerated Bowels, Ulcerated Kidneys, Ulcerated Bladder, Ulcerated Womb, Ulcerated Lungs, Ulcerated Consumption, Ulcerated Liver Complaint, Ulcerated Piles, Ulcerated Fever, Ulcerated Sore Eyes, Ulcerated Ears, Ulcerated Nose, Ulcerated Face, Ulcerated Fever Sores, Ulcerated Rheumatism, Ulcerated Neuralgia, Ulcerated Gravel, Ulcerated Dropsy, Ulcerated Nervous Debility, Ulcerated Nervousness, Ulcerated Sleeplessness, Ulcerated Female Weakness, Ulcerated Blood Poisoning, Ulcerated Mercurial Disease, Ulcerated Mercurial Rheumatism, Ulcerated Syphilitic Rheumatism, Ulcerated Syphilitic Blood Poisoning, Ulcerated Scurvy, Ulcerated Itch, Ulcerated Mange, Ulcerated Scaly Skin, Ulcerated Erysipelas, Ulcerated Boils, Ulcerated Tetter, Ulcerated Ringworm, Ulcerated Scald Head, Ulcerated Salt Rheum, Ulcerated Blotches, Ulcerated Eruptions, Ulcerated Pimples, Ulcerated Tumors, Ulcerated Tumor on the Neck, Ulcerated Abscesses, Ulcerated Swelling of the Joints

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

FRIDAY, APRIL 21, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Lost Rodgers.

The crew of the Arctic exploring steamer Rodgers, intelligence of the burning of which has been received, is as follows: Lieut. Robert M. Berry, commanding; Master H. S. Waring, executive officer and navigator; Master C. T. Putnam; Ensigns, H. J. Hunt and G. M. Storey; Surgeon, Meredith Jones; Asst. Engineer, A. V. Zane; Pay Clerk, W. H. Gilder; one carpenter, one officers' steward, one officers' cook, ship's cook, blacksmith, three firemen, and three machinists, making a total of thirty-seven. The Rodgers before her purchase by the government was a whaler under the name of the Mary & Helen. She was built in 1879 at Bath, Maine, and was the first American whaling steamer, though steamers have long been employed by the British for Greenland whaling. It has been decided to send the United States steamer Iroquois now at Mare Island, California, to the relief of the officers and crew of the Rodgers at once.

News and Notes.

Nine persons were killed and property to the value of $300,000 destroyed by the tornado at Brownsville, Mo., April 17th. Several other persons will probably die from their injuries.

At Portland, Me., April 18th, in the suit of Nathaniel Hubbard against the Boston & Maine railroad company, for injuries caused by a collision between two cars, the jury awarded damages to the amount of $10,000.

There is a strong suspicion that an unknown man found dead in a brook in Sutton, Quebec, a few days ago, was murdered in a hotel at Sweetsburg. No arrests have been made yet, but a hearing will be held in Sutton, when witnesses will be examined. There are two very strong witnesses, two servant girls, going to testify to a man being murdered in the Sweetsburg hotel last fall. Jackson (for that is believed to have been the murdered man's name) was about twenty-four years old, and dressed in English style. From a letter found on his person it appears that he came from England to Canada to purchase land, and had a large sum of money.

A despatch from Croton Falls, N. Y., says the Farmers' & Drovers' National bank there was visited by masked burglars about one o'clock Wednesday morning, April 19th, but a time lock defeated the robbers. They stole a horse, wagon and harness from Stephen Brown, a farmer, and escaped, leaving behind a sledge, a drill, two packages of explosives and an empty powder flask.

Charles Burnett of Stowe, Vt., tried for the second time to kill himself with Paris green on the 18th inst., and is in a critical condition.

Two boys named Ryan, aged respectively eighteen months and four years, are dying in Camden, N. J., from trichinosis, caused by eating boiled ham a week ago. The doctors say the parasites have penetrated every portion of the children's bodies.

British steamer Renpor, from West Hartlepool, Eng., for Boston, with a cargo of iron, potatoes and wire, has been abandoned at sea in a sinking condition, having been stove by ice. Crew saved.

A special post office inspector has arrested Ernest Turner, late postmaster at Point Pleasant, La., charged with embezzling a registered letter containing over $200. The prisoner gave $1,000 bail.

Mr. Olin Williams became greatly excited, and dropped dead, at the annual school meeting in Brandon, Vt.

The Collateral Loan company of Boston announces its 44th semi-annual sale of unredeemed articles, beginning April 24th. This will furnish a rare chance to purchase fine goods.

The "Granite Monthly" for April has a sketch of Hon. Thomas L. Tullock, by Geo. N. Roberts, preceded by a fine engraving. Who the biographer of our modest townsman may be, we wot not, but he seems to have been somewhat successful in detailing a few of the numerous positions, honorary, religious, charitable, business, official and ornate, held by Mr. Tullock, who seems to have been everything in New Hampshire from selectman and justice of the peace up to the incumbent of the highest federal office—a director, treasurer, trustee, auditor, collector—indeed we cannot make a schedule, the contemplation of which never can before have been seen, save perhaps in Ohio.

Hardly does our friend, with his inherited Scotch persistency, take hold of one position and begin to master it, ere he is called to some other post. We are told that our former common councilman has been sought out, and most of the offices he has held have been voluntarily bestowed, without application on his part; while the places he has declined in the United States treasury, nominations for mayor, congressman, etc., treasurerships of railways, cashierships, presidencies of national and savings banks and life insurance companies, and agencies of factory and other corporations, are too numerous for his biographer to mention. In fact, Mr. Tullock has been one of those valuable, hard-working, practical, exact, systematic men who are always in demand, and can never be found unemployed. The sketch does not refer to Mr. Tullock's intimacy with Gen. Grant, nor how he and the late Chief Justice Chase were on social terms of friendship, nor does it hint at Mr. Tullock's shrewd advice to President Arthur to appoint Mr. Chandler secretary of the navy. There is enough however to show that the young man who watched the fall of the Major's marble hammer at the auction sales at No. 70 State street, nearly fifty years ago, has led a busy life, and had honors unmeasured thrust upon him. But he has deserved them. He is an honest man, a firm friend, a charitable brother, and has withal about as much gumption as the average man who goes out of New Hampshire to wrestle with the cold charities of the world, and comes off "first best."

A paper upon Saint Andrew, the patron saint of Scotland, who was made a mason in 1737 and for whom a flourishing lodge of masons in this city is named, written by Mr. Tullock, is also contained in this number.

The other papers do not seem to be of especial interest.

"The American Journal of the Medical Sciences," edited by I. M. Hayes, A. M., M. D., for April, is at hand. The list of contributors to this volume embraces some of the ablest physicians and surgeons in the country. For the medical practitioner there can be no similar publication of such importance. It is published quarterly by the old-established Philadelphia publishing house of Henry C. Lea's Son & Co., at five dollars per year.

AROUND HOME.

The heavy rainfall of Wednesday evening, the 19th, was greatly needed, to lay the dust in the streets if nothing more. The grass, which had previously looked brown and half-baked, before Thursday evening showed a wondrous improvement in color. A day or two of fairly warm weather would make a great change on the face of nature just now.

Mr. John T. Raymond and his company will present "Fresh, the American," a highly amusing and laughable comedy, at Music hall on Saturday evening, April 27th. Mr. Raymond attained great celebrity in his famous role of "Col. Sellers;" the piece which he is now playing is the successor of "The Gilded Age," and thought by many to be its superior.

The schooner Storm King, with 5200 lbs. of fish, the Nettie Adams with 3000 lbs., and the Helen Mar with 2000 lbs., went into Boston on Monday of this week, and arrived at this port on Wednesday. The schooner Albert Woodbury left Ipswich bay for Boston on Wednesday with a fare of fish. On the 16th inst. Wilbur Haley, one of the crew of the Storm King, caught in Ipswich bay a cod weighing nearly one hundred pounds, containing ten pounds of spawn by actual weight.

Mr. J. C. Corey, lately night telegraph operator at the Eastern railroad station in this city, has been transferred to the train dispatcher's office in Boston, and his place filled by W. H. Cutter of Portland, Maine.

At a meeting of the Portsmouth Cavalry, held on Tuesday evening of this week, John P. Tebbetts was elected treasurer, and Daniel M. Lenigan and John S. Perry committee on finance.

Portsmouth Wholesale Prices.

Reported by JOHN LAIGHTON, Grocer.

Butter, per ℔ 30 to 35c.

Tea per ℔, Black 60c @ 70c; Green 50c @ 60c.
Wood per cord, Hard $6; Pine $4.

Hon. C. A. Haley, formerly of Newmarket, has received his third election as mayor of Fernandina, Fla.

John Buckley of Biddeford some time ago went to Ireland to get help for the mills of that city, and arrived back on the 17th inst. with fifty-seven young Irish girls, some of whom are "quite pretty," according to the editor of the Biddeford *Times*. The girls have gone into the mills.

A sail boat belonging to Douglass Brothers of East Gloucester, Mass., and used as a ferry boat, was stolen some days ago by unknown thieves. It has been found at Cape Porpoise, in a damaged condition.

Notice to Mariners.

Two circulars have been received at the custom house from the Canadian Department of Marine and Fisheries, one stating that from and after the opening of navigation this year, the light established last year upon the most westerly point of St. Peter's island, in Hillsborough bay, on the west side of the entrance to Charlottetown harbor, Prince Edward island, will show a fixed red, instead of a white light, as heretofore. This change has been made to prevent confusion with Blackhouse Point and Point Prim lights.

The other circular announces that the lighthouse tower on the west end of Sable island, off the coast of Nova Scotia, has been undermined by the sea, and that in consequence it has been impossible to exhibit the light since the 1st of February last. Every effort will be made to re-establish this important light at the earliest possible date, of which due notice will be given.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
April 21, 12:00 A. M.

Probabilities for New England:—

Fair weather and westerly winds, higher barometer, stationary or lower temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 40 degrees above zero.

Cloudy.

FIRE.

The large barn at the junction of Islington road and Spinney's lane, owned by the Peirce heirs, was burned last Thursday night, the alarm being given shortly before twelve o'clock. There was a quantity of hay in the barn, and some farming tools, etc. The fire was incendiary.

THE MINISTERS' MEETING.

The Piscataqua Association of Congregational Ministers met at Durham on the 18th inst., Rev. Dr. George P. Spaulding, moderator; present, Rev. Messrs. Street, Byington, Chapman, Peabody, Robie, Rand, White, Borchers, Fitts, Titcomb, Woodbridge, Stearns, Lewis, Williston, Evans and Pike.

Clarence Pike, a member of the middle class of Andover seminary, and son of Rev. Ezra B. Pike of Atkinson, was examined, and was granted a license to preach.

F. S. Williston, at present supplying the pulpit at Newcastle, was examined for a renewed license, which was granted.

A public service was held in the afternoon, in the church. Rev. George E. Street, of Exeter, preached a sermon, after which the audience were addressed by Rev. E. H. Greely, secretary of the Home Missionary society of New Hampshire. Before adjourning, the condition of affairs at the Andover seminary was discussed, but no conclusion was arrived at.

The historical discourse and remarks delivered at the centennial of the association, held in Portsmouth in October, 1881, making a pamphlet of eighty-three pages, have been printed, and are now ready for distribution.

It was decided to hold the July meeting of the association in North Conway.

THE "PROFESSOR."

A large audience gathered at Music Hall on Thursday evening, to enjoy the blunders of "The Professor" in his love-making to Daisy Browne, the wild flower of the White mountain region, and incidentally to lots of other girls. The learned and skeptical but terribly near-sighted professor made love in the most delightfully impartial manner, and in consequence made a terrible mess of things right along, though of course all came out right in the end. The piece is ridiculously comical, yet perfectly clean, and was greeted with abundant expressions of approbation and mirth.

SENATOR SHERBURNE'S TALK.

There was a public meeting at Charlestown, Mass., on the evening of the 18th inst., "in opposition to the sale of the Charlestown navy yard." The first speaker was State Senator Sherburne of Massachusetts, who among other things said:

The proposition to sell the Charlestown navy yard is a most remarkable one. It is the most perfectly appointed, the most efficient naval station and the best situated in the country. There is not a single yard on this coast that compares with it for an instant. The nearest yard is that of Portsmouth. There are many drawbacks on the efficiency of that station. The current there is so strong that you cannot swing a ship in it. They have such weather there that it is impossible to set a rigging except in the warm season. This yard has no excuse for being where it is; but there are some people who think that if they abolish the Charlestown yard that possibly the Portsmouth station may grow into more importance.

Senator Sherburne may be a very judicious legislator, but what he doesn't know about handling ships, and about the Portsmouth navy yard, would fill a large book. Whether ships can be swung in our harbor or not, they are swung without difficulty; not merely men-of-war, in light sailing trim, but the long and deeply-laden coal steamers that carry over sixteen hundred tons of coal each. As to what Senator Sherburne says of the weather, it is simply bosh. The difference of latitude between the two navy yards is so trifling that it cannot possibly make any material difference in the temperature, and when rigging can be fitted or set up in one place it can in the other. There have been times when the Charlestown yard was frozen in for weeks together, in such manner that a ship could not get within miles of it, while at the same time Portsmouth harbor was free of ice. Mr. Sherburne further remarked:

Why, it [the Charlestown yard] contains the best rope walk in the United States. Its immense shops are full of machinery of the costliest kind, the equal of which is not to be found in any other naval station in the country. It has a magnificent iron foundry. There is only one like it in the United States, and that is at Washington, and there is not another such dry dock in the United States, except that at Norfolk. I would not impugn the motives of Chairman Harris of the committee which reported this bill, or of anybody else, but I do say that if this yard is abolished the value of the one at Portsmouth is enhanced.

Well, let it be enhanced. Who cares? As to the big ropewalk, and magnificent iron foundry, and the immense shops full of the costliest machines, we have room for them all, and twice as many more, down here. The Charlestown yard includes sixty-five acres of land; the Portsmouth yard originally included sixty-three acres, to which has since been added the one hundred and five acres of Seavey's island; and a dozen or twenty acres more could be made without great cost, and without in any way interfering with commerce or navigation. The yard at this port is not needed for mercantile purposes, and the one at Charlestown is; and the records of the navy department show that work can be and is done cheaper at this navy yard than at any other, including the one at Charlestown.

If Mr. Sherburne depends for the effectiveness of his speech on making the public believe that the climate of Portsmouth is much more rigorous than that of Boston, and the Piscataqua river unnavigable, he might just as well have not talked.

POLICE COURT.

THURSDAY, Apr. 20; *Batchelder J.*

John Crowley, drunk, $9.90. Brentwood.

George Bemis, drunk, $9.90. Jail.

John Zimmer, drunk, agreed to leave town.

SUPREME COURT--CARPENTER J.

In case Sanborn and Cram vs. Stevens, the jury on the 19th returned a verdict for the defendant.

THURSDAY, April 20th.

William N. Cochrane vs. the Town of Exeter; action to recover damages incurred by the plaintiff in consequence of an alleged defect on one of the highways in the town in January, 1881, namely, the "great bridge" over the Exeter river, whereon he was travelling on the sidewalk, and fell by reason of the icy condition of the walk and broke his left leg, the ice being very thick, uneven and difficult of passage, and as was contended had been in that condition for several weeks and during that time nothing had been done by the town authorities to remove the defect. He fell violently on his back, breaking the rim of a Derby hat, and was unable to move. The break of the leg was a slanting one, and the case was difficult of treatment. [In the course of the opening by Judge Leavitt, Gen. B. F. Butler came into the court room. The general looked fresh and wore a tasty boutonniere, and was the object of interest in this, his first visit for many years to one of the shire towns of his native county.] The jury took a view of the bridge.

At the assembling of the court in the afternoon the resolutions reported at the bar meeting, of respect to the memory of the late Albert R. Hatch, were presented by Hon. W. W. Stickney, president of the bar. Eulogistic remarks were made by Messrs. J. W. Emery, William H. Hackett, John S. H. Frink and Calvin Page, and were responded to by the court.

The new docket was called. During the call the large crowd in attendance, who had come to see and hear the Essex statesman, were able to contemplate the hero while he indulged in a quiet nap.

The case of Cochrane vs. Exeter was resumed. The plaintiff rested at four P. M., and Gen. Marston opened the case for the town, contending that the town was not in fault, that the plaintiff was negligent, and that the accident occurred at a different place from that specified in the notice served on the town, and consequently the plaintiff could not recover. Unfinished. Butler and Leavitt for plff.; Marston & Eastman for Exeter.

In case Daniel C. Bartlett vs. Ellen M. Bartlett, a divorce was decreed, with custody of child, as prayed for. Drury for libellant.

The Concord *Monitor*, in swinging around the state for a republican candidate for governor, says: "In Portsmouth we are told, Mr. Winchester overtops all others." There is probably no one in Portsmouth who has the gubernatorial bee in his bonnet; certainly Mr. Winchester has not, as he has at present far better use for his time in looking after his business matters. Did he care for the nomination he is a man of too much good sense to wish to be considered a candidate before the next state convention, when the county of Rockingham has for four years past had the office within its borders. Mr. Winchester would prove a strong candidate and a good executive, but if our friends in other sections of the state desire the nomination, the farmer of Lafayette road can afford to wait.

Considerable work has been done on some of the streets lately. Gravel has been put on several of them in the vicinity of Puddle dock, not before it was needed. Court street, from near Haymarket square to the court house, has been graded up and covered with crushed stone.

The schooner Addie & Hattie arrived at this port on the 19th inst. from her first trip to the eastward after lobsters, bringing in 3000 nice ones for Randall & Caswell.

STATED MEETINGS.

TRUSTEE'S SALE

— OF —

REAL ESTATE,

AT AUCTION.

UNDER license from the Court of Probate for this county, I shall sell at Public Auction on the Premises on

SATURDAY, the 22d day of April, at twelve o'clock noon,

The lot of land situate at the corner of Austin and Summer Streets with the three story dwelling house and stable thereon, being the former mansion house of the late Joseph W. Pickering.

The lot measures one hundred feet on each street. The land is high and well drained, and the situation one of the most pleasant and eligible at the west end of the city.

Three-quarters held on trust, and one-quarter on fee will be sold together, making a title to the entire estate. Further particulars of

WALLACE HACKETT,
Trustee under will of L. Pickering.
Portsmouth, April 7, 1882.

AUCTION SALE

— OF —

REAL ESTATE

IN GREENLAND, N. H.

THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on

Tuesday, April 25th,

At 11 o'clock in the forenoon, on the premises,

A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.

Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.

The house on said lot is a two-story building, measuring eighteen by thirty-six ft.

ALSO, AT 12:30 P. M.,

The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnecut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Walden.

This tract of land has running water the entire year, and is regarded as the best and most valuable pasture in this vicinity.

The interest of the said Whildens in said pasture will also be sold at the same time and place, if desired.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy vigorous and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 43 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. tmy15

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. Freeman.)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS THE Great LIQUID FOOD FOR BLOOD, BRAIN AND NERVES.

☞ A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK. ☜ Highly recommended by Chemists and Physicians as

A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE, as it does not stimulate the brain or irritate the system and leave deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, strengthens and quiets the nerves, purifies the heavy blood, and thereby makes only the best flesh, bone and muscle. ☞ It works wonders, curing NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA. Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influences, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food tonic. ☞ For sale by all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTERS CO., Office 19 Park Place, New York City.

FISTULA AND PILES.

WILLIAM READ, (M. D. Harvard 1842,) and ROBERT M. READ, (M. D. Harvard 1876,) have associated themselves together at 41 Somerset street, Boston, and give especial attention to the treatment of Fistula, Piles, and all Diseases of the Rectum, without detention from business. Abundant references given. Correspondence answered. Offices hours—12 to 3 o'clock P. M. tmy19

MAIN & WINCHESTER BLOCK.

New Hampshire Items.

Gilman C. Fisher has resigned the office of superintendent of public schools in Dover, and accepted a similar position at Weymouth, Mass., at a salary of $1800.

Surveyors have commenced on the branch road connecting Franklin Falls with the Boston, Concord & Montreal railroad at Tilton. The distance is about four miles along the Winnipesaukee river. Work on the roadbed will commence at once.

A "people's" convention is called to meet at Concord on the 2d of May "to take such action as may be wise to secure the enforcement of the prohibitory and all other laws of the state." All temperance organizations are invited to send delegates.

First quality loose hay commands $23 a ton in Concord.

A grand military and civic ball, levee and concert, given by the third regiment, took place at White's opera house in Concord, Wednesday night, the 19th inst., and was very successful. Several prominent military gentlemen from Massachusetts, and dignitaries of the state, were present.

Miss Belle Streeter, a servant in G. T. Ordway's family at Plymouth, aged about twenty years, attempted suicide April 19th, by taking Paris green. Her recovery is doubtful. The motive is unknown.

Judge Clark of St. Paul, Minn., has been spending a few weeks with his mother and brother at the old homestead at Plaistow.

It is reported that a bachelor of East Concord, past middle age and of excellent reputation, wishes to marry some young woman of good looks and of good fame, and will settle $10,000 on her on the wedding day, with reversion of all his property should she survive him.

The population of New Hampshire, according to the census of 1880, is 346,991, of which number 242,337 were born in the state, 20,524 in Massachusetts, 14,999 in Vermont, 14,112 in Maine, 3,729 in New York, 839 in Connecticut, 709 in Rhode Island, 399 in Pennsylvania, 325 in Illinois, 271 in Ohio, and 1,751 in other states. The foreign born population is 46,294, Canada furnishing 25,703 of the number, and Ireland 13,052. Nearly one-half of the native Canadians resident in the state are to be found in Manchester.

"Sonnets and Canzonets: by A. Bronson Alcott." Boston; Roberts Brothers; price $1.00.

The poems are preceded by a letter from Frank B. Sanborn, formerly of Hampton Falls in this state, but for many years a friend and neighbor to Mr. Alcott and his family. This is followed by an essay on the sonnet and canzonet, by Mr. Sanborn. Youth seems the period for the production of sonnets, but Mr. Alcott, at eighty-two years, shows a poetic vigor which Mr. Sanborn induces us to believe is a unison of youth and age, of the past and present, and of the future—not the second childhood so often seen at four-score, but a state of mental thrift which can afford writings which the junior philosopher of Concord commends and admires. Sold by W. G. Myers.

Miasma poisons the blood, promoting the "chills," "malaria" and "shakes." A sure antidote and preventive is "Wheat Bitters."

The liabilities of the Providence Tool Co. exceed $500,000. It is supposed the embarrassment will be but temporary.

For tremulousness, wakefulness, dizziness, and lack of energy, a most valuable remedy is Brown's Iron Bitters.

The democrats of Pennsylvania talk of nominating Chauncey F. Black for lieutenant-governor, and J. Simpson Africa for secretary of state. It will sound queer indeed to hear the whiteman's party cheer for "Black and Africa."

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

Swayne's Ointment

A RELIABLE REMEDY FOR ALL DISEASES OF THE SKIN, SUCH AS TETTER, BLOTCHES, RINGWORM, ERYSIPELAS, BARBER'S ITCH, SORES, ULCERS, &c.

No. of Cases of the skin, however or obstinate, can resist the soothing, healing and conquering power of SWAYNE'S OINTMENT. On account of allaying the intense itching and insuring sweet repose, it is known by many as THE GREAT CURE FOR YOUNG FOLKS. DR. SWAYNE & SON, PHILA.

SOLD BY ALL DRUGGISTS.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:

In flesh wounds, cuts, bruises, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:

We have *seen* its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:

After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharper, Valdosta, Ga., says:

It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:

It gave me immediate relief.

R. Lewis says:

In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:

I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:

For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. Unlike most medicines, it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membranes.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment is directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.

Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will but even relieve.

Fifth.

Because over 7000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

Benson's Capcine Porous Plaster!

The American Popular Dictionary, $1.00

This useful and elegant volume is a complete Library and Encyclopædia, as well as the best Dictionary in the world. Superbly bound in cloth and gilt. It contains twice as much as THE ENGLISH LANGUAGE will bear the usual definition, derivation, pronunciation, and a vast amount of other matter necessary information, including Mythology, Biography, American History, Geography, Law, Medicine, Chemistry, Phonetics, Phrase Book, Dictionary of Synonyms, Words, Phrases, Quotations, Proverbs, Abbreviations, Ten thousand Words, Phrases, etc., not to be found in any other Dictionary, and yet they are not in price, bulk, or contents "Webster's Abridgments." Defiance and Illustrated Dictionaries." Nuff Ced." Use copy of the American Popular Dictionary Illustrated, the first and best book ever published, post paid to any address on receipt of $1.00, satisfaction guaranteed. Two copies postpaid $2. Order at once. Agents wanted everywhere. Sold with Webster's Unabridged. Six copies for Five Dollars. Get some of your friends to join with you and you can buy cheap. Address, World Manufacturing Co., 150 Nassau St., New York.

Our readers will find this wonderful book the cheapest dictionary published. The information it contains is worth many times the amount asked for it, and it should be in the possession of everybody. With this book in the library for reference, many other much more costly works can be dispensed with, and ignorance of his country, history, business, laws, etc., is inexcusable in any man. Note the price, $1, post-paid.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those subject to any form of kidney trouble, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically ailing in any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The cause of prevention may be had where loss of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR.

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered Free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2853.

New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clear and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? Why be troubled with Humors? Why have your blood on fire with Rheumatism? What makes you tumble out of bed with Headache? Why languish and groan with pain in your bones? Why have your nerves unstrung and your system racked with nervous prostration? Why let your digestive organs become so disordered as to require the aid of pills? Why let your liver become torpid, causing Dyspepsia, Constipation and Piles? A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for Infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

SATURDAY, APRIL 22, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

RESOLUTIONS AND EULOGIES

IN RESPECT TO THE MEMORY OF THE LATE

ALBERT R. HATCH.

At the coming in of the Supreme Court on Thursday afternoon, April 20th, Judge Stickney of Exeter announced the death of the late Hon. Albert R. Hatch, and in a few appropriate and well-chosen remarks presented a series of resolutions adopted by the members of the bar. Judge Stickney said:

May it please your Honor: At a meeting of the members of the bar of this county, held immediately after the adjournment of the court this forenoon, resolutions were passed in relation to our late brother, Albert R. Hatch, who died early in March last at his residence in Portsmouth, and I was requested to present the resolutions to the court and ask to have them entered upon the records of the court.

Mr. Hatch was a native of Greenland in this county, and was born on the 26th day of October, 1817.

He prepared for college at the Brackett academy in Greenland, and graduated at Bowdoin college in Maine. He studied law in the office of the late Ichabod Bartlett and of James W. Emery in Portsmouth, and was admitted as a member of the bar in 1841. He immediately commenced the practice of the law in Portsmouth, and continued in the practice there until a short time previous to his death.

For many years last past Mr. Hatch has been a leading member of the bar in this county; he had a large and extensive practice, and was engaged in many important suits, which he managed with marked ability and success. He was distinguished for his extensive knowledge of the law, for his practical good sense and judgment, and for his remarkable quickness of perception and the readiness with which he saw and comprehended the material points of matters in controversy, and the bearing of the evidence upon these points. Those of us who have been engaged with him or against him in the trial of causes, can bear testimony to his ability and learning as a lawyer, to his fidelity and devotion to the interests of his clients, and to his untiring energy and perseverance in the management of his cases.

He was among the older members of the profession in this county; most of those now in active practice are much younger than he was; nearly all of the older members of the bar, who were in practice when he was admitted, are now gone, and those who remain are now reminded that they must soon follow.

I now present the resolutions, and ask that they may be entered upon the records of the court.

At the conclusion of his remarks Judge Stickney read the following resolutions:

Resolved, That we have received with deep sorrow the intelligence of the death of Honorable Albert R. Hatch, for many years a constant and eminent practitioner in the courts of this county.

Resolved, That in his varied professional practice both in the state and federal courts, he had few equals and no superiors; and we remember with much appreciation his devotion to his clients, and the care he bestowed in the preparation, and the ability he displayed in the trial, of cases in which he was so largely engaged.

Resolved, That by the death of Mr. Hatch the bar of this state has lost one of its ablest members, who had done much to dignify the profession of the law in a career of practice extending for over forty years.

Resolved, That we request these resolutions to be entered upon the records of the court.

Resolved, That a copy of these resolutions be transmitted to his family, with the expression of our sincerest sympathy with them in their deep affliction.

Hon. James W. Emery, who occupied an office with the late Ichabod Bartlett where Mr. Hatch pursued his legal studies, then addressed the court, making brief allusion to Mr. Hatch's life and habits as a student, and his early practice at the bar, where in former years he had frequently met him as counsel. Mr. Emery seconded the request of Judge Stickney that the resolutions be entered upon the records.

William H. Hackett said:

May it please the Court: Thirty years ago, when I was honored by an admission to this bar, I was examined by two lawyers of this county, each then in large practice; one, since confessedly at the head of the Rockingham bar, has served with Mr. Emery and myself upon the committee which has reported the resolutions just read; the other was he of whom our tribute of respect and professional appreciation is now being rendered.

From the time of my admission to the bar, down to the close of his life, I was accustomed to see Mr. Hatch, almost daily, in his professional capacity. The younger members of the bar invariably ascertained, whenever they became engaged in the trial of a cause, wherein Mr. Hatch was the opposing counsel, that they could achieve no victory over his client except after a severe contest. He was remarkable for the thoroughness with which every phase of his case was prepared and presented. Nothing was too insignificant to escape his careful anticipation. He was one of the lawyers who could always be careful of details, and still maintain a correct and comprehensive grasp of the strong points in a case. He never seemed surprised, either at the evidence developed upon the opposite side, or the legal positions maintained by the adverse counsel.

He appeared to enjoy the labors of a trial just as much, if not more, than any of his other and less wearying efforts. He accepted defeat philosophically, and regarded victory simply as a vindication of his client's rights, and an endorsement of his counsel. He had a natural aptitude for jury trials. By this I would be understood as meaning, that it seemed a congenial and ordinary labor for him to be engaged in a trial of a case, not a constrained or nervous effort, succeeded by prostration, but he would be ready to begin a new trial just as soon as the jury had retired to their room, after he had spent perhaps days before them.

When he had tried a cause, he seemed to review his work. He knew just what evidence he might expect to be offered on the side of his opponent, as well as that upon which he was engaged; the authorities likely to be cited, and the positions which counsel or the court would maintain, seemed perfectly familiar to him.

This was a result of his untiring industry. He was never idle, and no cause was ever presented to him, from the most insignificant by that involving the largest amounts, or the most important questions, without a full, careful and painstaking previous investigation.

This was alike his labor and his pastime. He had taste for politics; he was fond of literature; he appreciated and loved tilling the soil, visiting his farm, and admired fruits and flowers; but the law was his delight. His profession was the end and aim of his life. *For* it he had a taste, and *to* it he devoted his energies. He never sacrificed any professional duty to achieve political honors, or indulge in schemes to increase his wealth. Indeed, while he knew not only the value of money, but appreciated the power of wealth, he never seemed to care for its accumulation if it was to be attained by any departure from his career as a practitioner at the bar.

He had an intimate knowledge of the rules and mode of practice in the Federal courts. Before his appointment by Judge Woodbury, as a clerk of the courts of the United States in this district, he had become familiar with the admiralty practice, and one of the last cases he argued in Portsmouth, was a cause of this kind before the District court. I think the last case he argued, was before the Circuit court of the United States at the October term at Concord, and while I regretted to witness what seemed to be an effort of his voice, the effects of which I deplored, I could but notice that his accustomed thoroughness had induced him to make a closing supplemental argument, notwithstanding he had capable associates with him, through whom he might have presented his positions.

In the preparation and trial of the most important case which has been sent from this district to the Supreme courts of the United States for many years, Mr. Hatch expended much time and hard work, required to trace a title to very valuable tracts of land through several holders

He appeared before the Federal courts in more cases than did any other member of the bar of these courts in our state, and yet all the preparation and trials of causes in these courts were effected without any interference with the large business in which he was constantly engaged in the state courts. Nothing but a devotion to his profession could have enabled Mr. Hatch to have his legal practice so well in hand. He knew the advantage of having his case well prepared long before the time of expected trial, and was seldom if ever taken unawares by a cause coming on for trial before he was ready.

I have lingered so long upon this prominent trait of the departed counsellor, that I have consumed, perhaps, more time than I ought in this respect; but its results in giving prominence to Mr. Hatch's position as a lawyer have always been marked, and for the younger members of our profession, who may suppose that however they may be favored by natural gifts, eminence in the law can be achieved save by the discipline of constant and uninterrupted work, perhaps the lesson may be of value. I think I am warranted in the beleif that the Bench, as well as the Bar, always appreciated this characteristic of our departed friend.

May we who survive profit by the example of professional learning, honor, diligence and zeal, of our deceased brother.

John S. H. Frink spoke substantially as follows:

Your Honor: I have not arrived at middle age without feeling the absolute verity of the lines of Dr. Young—

"Men drop so fast, ere life's mid stage we tread
Few know so many friends alive, as dead."

Already I can count as many friends among those who have solved life's problems, and learned death's solution of it, as among those whose life-task is still unaccomplished.

Of all those who have gone before me to that mysterious land, I have never lost a more valued friend than Mr. Hatch. Associated with him, not only by professional ties of long standing, but by those of blood and of a friendship that knew no discord, I should do violence to my own feelings if I remained silent on this occasion.

I do not propose to speak of Mr. Hatch as a lawyer or a citizen. That task has been assigned to other and more disinterested gentlemen who have preceded me. I desire only to offer the tribute of a personal friendship, that no professional antagonism ever disturbed.

Although related to Mr. Hatch, yet I have no particular recollection of him before I entered his office. I do not mean that I did not know him well; but I have only that general remembrance of him that the school-boy has of the man already established in business. From the time I became his student until the day of his death, his kind offices to me were innumerable and uninterrupted.

Many members of this bar undoubtedly feel his loss as a personal bereavement, yet it would seem that it can come home to none of you so closely as it does to me. In him I have lost my early instructor, my personal and professional friend, my kinsman.

He was to me as an elder brother. Not a day passes but what I am reminded of my loss. If I am at my office, some paper in his well-known hand recalls his memory; some expression of sorrow and regret at his untimely death, if I go into the streets.

No form has been more familiar, no voice, oftener heard, within this court room for the last twenty years, than his. As I enter it, it seems to me I see his slight and erect figure, and hear his clear and deliberate utterance, as he addresses the "panel." His death is quite beyond my realization.

It was my privilege to see him often during his last sickness. He fully recognized the final issue of his disease. The knowledge of it he neither concealed from his friends, nor obtruded upon them. He met death, as he had every duty in life, without "fear or trembling."

"The sense of death is most in apprehension."

The man who bravely faces this last enemy, upon the field of battle, is justly denominated a hero; but how much stronger and braver is he who, like our friend, awaits its near and more near approach day by day, with calmness and resignation. 'Tis said—

"To live in the hearts we leave behind is not to die."

If this is a true sentiment, then Mr. Hatch still lives, and will live so long as the heart of the last of his cotemporaries at this bar shall beat, and be capable of emotion.

Calvin Page with much feeling made the following remarks:

May it please your Honor: I rise to the performance of a duty which is to me the saddest of any that has fallen to my lot since I became a member of this bar. As term after term of this court has come and gone, I have missed from his accustomed place one after another of those older brothers, whose presence was to us an inspiration and whose friendship is yet a fragrant memory; but none of them have been to me what Albert R. Hatch was, and with none of them have I been so intimately connected or associated.

It was my good fortune to enter his office in July, 1865, and from that time to the day of his death I was in almost constant intercourse and association with him. I have met him when harrassed by the thousand daily cares that beset a lawyer engaged in practice in a small New England city; I have met him in official and public positions, in the private walks of life, in his own home and by his own fireside. For ten years I have met him daily in his office and for two years in his own home, and standing today by his new made grave, I can here truthfully say he never gave me an unkind word, and I ever found him to be the truest of true friends

Under such circumstances I fear I can hardly be trusted to bear impartial testimony to his character and worth. But, your Honor, there is so much to create passion, prejudice and ill will in the contests imposed upon us in the discharge of our duties, that he who finishes a long career of active practice at the bar with the universal good will and respect of his brethren is most surely worthy of commemoration and honor, and I am certain that when our friend last walked from this room he left no one within its walls who did not feel for him respect, kindness and esteem. I will only say that I heartily concur in all that has preceded me.

His life in the court room is known to us all. But let no one think that the success he here achieved came without the preparatory labor and toil. His incomparable industry, the thoroughness of his investigations and the vast labor expended by him upon all matters that came under his charge, made an early impression upon me, and proved how true it is that success in the practice of the law, like success in every other profession or business, can be attained only by constant and unremitting toil.

"The heights by great men reached and kept
Were not attained by sudden flight,
But they, while their companions slept,
Were toiling upward in the night."

I shall ever remember the saddened and worn expression upon his face as he took my hand at parting when I saw him for the last time, and said, "come again tomorrow." But the to-morrow was too late for him, and before the allotted years of three score and ten had been reached, he finished his labors and left another vacant place in our ranks, which it seems impossible to fill.

Judge Carpenter, in replying to the addresses, said:

My personal acquaintance with Mr. Hatch was of the slightest, but for almost a full generation I have known him by reputation as one of the leading members of the bar, not only of this county but of the state.

I have known too, that as well by reason of his distinguished learning and ability as by reason of his untiring industry, his faithfulness to the court no less than to his clients, and his strict integrity, he adorned and honored the profession.

It illy becomes me, however, to attempt to add anything to the very appropriate, appreciative and just words of eulogy and remembrance which have here fallen from the lips of his life-long friends and intimate associates at the bar.

The loss of such a man is a great loss to the court as well as to the bar; and to the community in which he lived, a far greater loss than to either. The court concurs heartily in the sentiments expressed in the resolutions, and it is ordered that they be entered upon the records.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Adams Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2600 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00.—Not speculative. This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

SUPREME COURT--CARPENTER J.

FRIDAY, April 21st.

Case Cochrane vs. Exeter occupied the day. At eleven o'clock the court took a recess while the deposition of a lady witness unable to appear in court was taken at her residence. The evidence closed at three o'clock P. M., and the case was argued by Gen. Marston for the town. Gen. Butler made his closing argument late in the afternoon. There was a large attendance of the townspeople, and the Massachusetts general seemed to create far more interest for the students of the academy than could the combined teachers of the institution.

Attention is called to the sale at noon to-day by H. F. Wendell, auctioneer, of the eligibly located house and lot at the corner of Austin and Summer streets known as the Joseph W. Pickering estate. The sale is under a decree of court, and made to close an estate.

This afternoon at three o'clock, in Franklin hall, Mr. Lamprey will form a class of young ladies, masters and misses, in dancing. No better opportunity will ever be offered the young people to acquire this graceful accomplishment. See advertisement.

Miss Edith Wendell was bitten on the arm by a dog on Friday. She had been calling upon friends on Daniel street, and on leaving the place stopped for a moment on the sidewalk to have a parting word with the lady of the house, when the dog approached and without any provocation flew at her and bit her as above stated. The dog, a large black Newfoundland, is said to belong to Mr. Lenigan, and needs taking effective care of.

The schooner Satellite was at Noble's island on Friday, having the head of her foremast spliced by Mr. Warren Keen. The schooner Active, at the Concord railroad wharf, was having her topsides calked by a gang of men under the superintendence of Mr. Jesse Wilson.

Mr. James T. Walker had one of his hands hurt between two cars on the Concord railroad wharf, Friday; he came very near losing his hand, but escaped with a painful squeeze and a patch of skin knocked off.

It was a subject of comment at the anchor test on the 19th inst., that not even one member of the Young Men's Board of Trade, which recently organized with a flouri-h of trumpets, manifested interest enough to be present on that occasion. The members of the old board are worrying the juniors with a good deal of "chaff." J.

As a horse drawing a store-wagon was going down Vaughan street toward the railroad, Friday morning, when near the bottom of the hill he stepped on a loose stone and fell flat, pitching the driver out of the wagon clear over the horse's head. The spectators thought both horse and driver must be seriously hurt, but they gathered themselves up and went on, apparently none the worse.

The Middle street Baptist society will on Monday evening give a musical entertainment in Franklin hall. Beside local attractions Mrs. H. F. Knowles will appear in solo, with Mrs. Martha Dana Shepard as pianist. Supper will also be served during the evening. The entertainments gotten up by this society are always highly enjoyable and successful, and this one will undoubtedly be like all others in that particular.

"Muldoon's Picnic," which is to be played in Music hall next Wednesday evening, we are informed by a Portsmouth gentleman who has seen it is "a screaming comedy." At the Howard Atheneum, Boston, while the Barry & Fay Comedy Co. were there, even standing room was scarce; and at Lawrence the largest audience ever in the opera house greeted them.

George Herbert received 500 lobsters on Wednesday, the 19th inst., and about 2000 lbs. of fish by small boats on Thursday.

Frank Woodbury of Salem, Mass., who was supposed to have been fatally injured by the accident on the Eastern railroad in that city on the 19th inst., is reported as being in a comfortable condition, and likely to recover. Frank Prevaux, the Amesbury expressman who had a leg broken in the same accident, is also doing well. The engineer of the gravel train which collided with the passenger train has been suspended.

Sunday, April 30th, will be the one hundred and eleventh anniversary of the birth of Hosea Ballou, one of the fathers of Universalism, and who was for some years pastor of the church in this city. In many of the churches of the denomination the day will be recognized by appropriate and special services.

On Thursday last the British schooner "Mary E." arrived at this port from Port Medway, Nova Scotia, with 1550 railroad ties, or "sleepers," as they used to be called. On Friday the British brig "Vesta," with 2900 ties, and the schooner "Pleasantville," with 2800, arrived from Port Medway, and the British schooner "Ocean Gem" arrived from La Have, N. S., with 1600. All these ties are for the Eastern railroad, and will be treated with the wood-preserving process at the company's works on Noble's island before being put under the rails.

The real estate of John Wooldredge of Lynn, Mass., late president of the Eastern railroad and the Maine Central, has been attached for $120,000 in a suit in which the plaintiffs are Frank B. Dole, of Boston, James P. Cook of Salem, James O. Cutler of San Francisco, Cal., and Charles A. Sinclair of Portsmouth, N. H. The case is returnable to the supreme judicial court in Boston on the second Tuesday in September, and is presumed to have arisen out of railroad transactions.

"FRESH, THE AMERICAN."

Some years ago several of the daughters of high Egyptian officials were sent to Paris to be educated, by order of the khedive. In 1879 the khedive was expelled from his kingdom, and sailed with his harem and suite on his steam yacht to Naples, and there purchased and occupied a palace, into which he removed his harem and attendants. Less than a year since a young girl eloped from his harem with a foreigner, with whom she had fallen in love. "Fresh, the American," the comedy drama which is to be presented at Music hall this evening, is founded on the above facts. One of the scenes is claimed to be an accurate representation of an eastern harem. The play is by many considered superior to the "Gilded Age," and Mr. John T. Raymond, who fills the title role, is said by the press of the large cities to be even more amusing as Ferdinand Nervy Fresh, the New York stockbroker on his travels, than he was as "Col. Sellars."

SUNDAY SERVICES.

The subject of Rev. Mr. McGinley's discourse on Sunday evening will be "The Divine Conception of Liberty."

Mrs. H. C. Berry, of Portland, will conduct a circle and give tests at Good Templars' hall, over Morse & Ilsley's, Pleasant street, at 2:30 and 7:30 P. M. on Sunday, under the auspices of the Portsmouth society of Spiritualists. To defray expenses, a collection will be taken.

Rev. A. Ross will preach in the Advent church.

Rev. J. Herbert Yeoman will give an illustrated sermon, on the "Sowers and the Reapers," in the Pearl street church on Sunday evening.

Rev. G. M. Harmon will preach in the Universalist church.

On Sunday evening the Reform Club will hold a gospel temperance meeting at the Court street Christian church, at 7:30 o'clock.

MARRIED.

The fifth annual Grove Meeting of the Unitarians of New Hampshire will be held at the Weirs, Lake Winnipisseogee, commencing July 23d and continuing to July 30th. A good number of prominent preachers have pledged their services. Topics of general and special interest will be discussed.

The pleasures of the table cease,
Whenever the teeth begin to fail;
The beauties of the mouth decrease;
The breath's no more a spicy gale;
And all must soon in ruin lie,
Unless to SOZODONT we fly.

A Cough, Cold or Sore Throat
Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. cod4 w1jan82

Auction Sales.

TRUSTEE'S SALE
— OF —
REAL ESTATE,
AT AUCTION.
UNDER license from the Court of Probate for the county, I shall sell at Public Auction on the premises on
SATURDAY, the 22d day of April, at twelve o'clock noon,
The lot of land situate at the corner of Austin and Summer Streets with the three story dwelling house and stable thereon, being the former mansion house of the late Joseph W. Pickering.
The lot measures one hundred feet on each street. The land is high and well drained, and the situation one of the most pleasant and eligible at the west end of the city.
Three-quarters held on trust, and one-quarter on fee will be sold together, making a title to the entire estate. Further particulars of
WALLACE HACKETT,
Trustee under will of L. Pickering.
Portsmouth, April 7, 1882.
H. F. WENDELL, Auctioneer.

AUCTION SALE
— OF —
REAL ESTATE
IN GREENLAND, N. H.
THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on
Tuesday, April 25th,
At 11 o'clock in the forenoon, on the premises,
A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.
Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.
The house on said lot is a two-story building, measuring eighteen by thirty-six ft.
ALSO, AT 12:30 P. M.,
The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnecut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Whidden.
This tract of land has cunning water the entire year, and is regarded as the best and most valuable pasture in this vicinity.
The interest of the said Whiddens in said pasture will also be sold at the same time and place, if desired.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for relief.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE Great LIQUID FOOD

FOR BLOOD, BRAIN AND NERVES.

IS A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK. It Highly recommended by Chemists and Physicians as

A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE,

as it does not stimulate the brain, or irritate the system and leave deleterious effects. On the contrary, it furnishes just what is necessary to the brain, strengthens and quiets the nerves, purifies the heart's blood, and thereby makes only the best flesh, bone and muscle. IT IS a wonderful tonic during NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA. Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influences, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food tonic. It is sold by all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTERS CO., Office 19 Park Place, New York City.

FISTULA AND PILES.

WILLIAM READ, (M. D. Harvard 1828,) and ROBERT M. READ, (M. D. Harvard 1876,) have associated themselves together at 41 Berkeley Street, Boston, and give exclusive attention to the treatment of Fistula, Piles, and all Diseases of the Rectum, without detention from business. Absolutely painless, and a few days treatment generally sufficient. Office hours—12 to 5 o'clock P. M. tmy10

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 45 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. tmy15

New Hampshire Items.

A rotary boiler bleach in the Sugar River paper mill at Claremont exploded last Friday morning, killing one man, scalding several others, and badly damaging the mill and machinery.

Mrs. Rebecca Sargent of Concord, aged eighty-five years, committed suicide on the 19th inst. at the home of her son in that city, while insane.

In the supreme court at Concord the jury has returned a verdict of one cent damages on all but one of the flowage cases of the Amoskeag corporation of Manchester vs. the various Hooksett parties. Questions have been reserved in each case, and they will be carried to the United States court.

At Mont Vernon, Pa., on the night of April 19th, a tornado threw down trees, houses and fences; one woman was killed, and many persons were hurt.

At West Somerville, Mass., April 20th, Edwin R. Prescott, aged sixty-six years, killed his mother-in-law, Mrs. Mary Russell, aged eighty-nine years, by beating her on the head with a shovel, and then cutting her throat. Prescott's wife had previously asked to have him sent to an insane asylum, but the family physician did not deem it necessary.

What was it John

That made your face so free and clear in pimples? said his sweetheart. Why, don't you know, Eva? For over a year I took everything I could think of without helping me, then I bought two bottles of Sulphur Bitters, and now I haven't one pimple on my face. It is the best blood cleanser I ever saw.

The navy department received a dispatch on the 20th inst. from California, stating that the Iroquois, now at San Francisco, will not be ready for sea before April 25th.

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

A Washington despatch of the 20th inst. says: "It has been decided to send the revenue steamer Thomas Corwin to the relief of the crew of the steamer Rodgers at Tiapka. The Corwin is now at San Francisco under orders to sail on the 25th inst. for a cruise in Alaskan waters. The plan now is that she shall continue her cruise to Tiapka."

A Remarkable Floor Covering.

The floor cloth "Linoleum" has now been manufactured for some years, and is much commended by all who use it. It is composed mainly of finely ground cork and solidified oil. Remarkable alike for durability, beauty and cleanliness, the demand must continue to increase. It has stood the test of time; but imitations being on the market, buyers should look on the back of the cloth for the word "Linoleum," which on the genuine is printed on every square yard. All carpet dealers keep it.

Mr. Isaac Soule and wife and Mr. Rudolf Fuller and wife celebrated their golden weddings at the residence of the former, in Jordan, New York, on the 28th ult. The brides are sisters, and they were married at the same time at the parental home in Jordan.

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

A venerable publisher, Mr. George R. Graham, lies in a Newark, N. J., hospital, suffering from nervous prostration. He was well known more than forty years ago as the founder and conductor of *Graham's Magazine* in Philadelphia, and was noted for his enterprise and his liberality towards his contributors—among whom were Fenimore Cooper, G. P. R. James, Longfellow, Lowell, Poe and Bryant. Mr. Graham is now in his 70th year. His memoirs of the early literary history of New York and Philadelphia would be interesting reading.

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material, than all other forms of malt or medicine, while free from the objections urged against malt liquors.

A writer in the Rochester *Express* says that he has heard a "young woman of respectable parents" in that city remark to her sister at night: "Let us go out and see if we can find some fool who will buy us the oysters."

For tremulousness, wakefulness, dizziness, and lack of energy, a most valuable remedy is Brown's Iron Bitters.

April 30th is the 103d birthday of Aunt Sally Stockwell of Brattleboro, Vt., and will be fittingly observed by her relatives and friends.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:

In flesh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:

We have *seen* its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:

After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpar, Valdosta, Ga., says:

It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:

It gave me immediate relief.

R. Lewis says:

Infort years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:

I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:

For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills may often be saved by prompt application of the Pain Killer. *Unlike most medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; then snuff strongly through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing it thoroughly.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.

Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will not even relieve.

Fifth.

Because over 1000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

The American Popular Dictionary, $1.03

This useful and elegant volume is a complete Library and Encyclopædia, as well as the best Dictionary the world. Superbly bound in Morocco, gilt, it contains nearly WORD IN THE ENGLISH LANGUAGE, with its true pronunciation, derivation, spelling and pronunciation of Proper Names; and a vast amount of absolutely necessary information upon science, Mythology, Biography, American History, Laws, etc., etc., making a complete Library of reference. The Dictionary costs $6.00, and the American Popular Dictionary costs $1.03, and ten times the money. "The Advocate" says: "We have seen no other in popular or cheap form." "The Advocate." "A perfect Dictionary and library of reference."—Rochester Union and News, N. Y.: "Has every of the American Popular Dictionary (illustrated), the greatest and most useful book ever published to any subscriber on receipt of $1.03. 25 Entire satisfaction guaranteed. Two copies cost only $2. Address, Publisher, this office. It is good for 30 days only, and will never be made again. Six copies for Five Dollars. Get it and let your friends to send with you and you get your own book free.

World Manufacturing Co., 120 Nassau St., New York.

Our readers will find this wonderful book the cheapest Dictionary published. The information it contains is worth many times the price asked for it, and it should be in the possession of everybody. With this book in the library for reference, many other much more expensive works can be dispensed with, and ignorance of the country, history, biography, etc., is inexcusable in any man. Note the price, $1, post-paid.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive avenues of a bridge by which comes the season of ice with that of leaves and roses. No less in respect of health than onward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints or Disorders of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember, Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR,

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2833.

$30 PER WEEK can be made in any locality. Something entirely new for agents. $5 outfit free. G. W. Ingraham & Co., Boston, Mass. tmyi

Daily Chronicle.

The Charlestown Navy Yard.

In the national house, April 20th, under the call of committees, Representative Morse of Massachusetts, for the committee on naval affairs, made a favorable report upon the bill to authorize the sale of the Charlestown navy yard. The report says that since the naval authorities have decided upon steel ships of war it will be necessary to incur a great expense to supply the yard with the plant required for their construction; that the government does not need the yard; that the ground it occupies is worth from $6,000,000 to $8,000,000; that if sold the treasury will be benefitted to that extent, while the government will also save the $150,000 per annum which it now spends to keep the yard in repair, besides $420,000 per year interest upon the value of the property, a sum sufficient to purchase a steel ship of war every four years; and in addition, the city of Boston will gain by the sale $7,000,000 of taxable property. The report, therefore, recommends the passage of the bill.

Putting The Girls on a Solid Basis.

A Chicago father of several girls put fashionable thin-legged chairs in his parlor, and was annoyed by the frequency with which the frail furniture was broken. He asked the girls about it, and one of them said:

"I was sitting in the easy chair by the fire, and Charl—that is to say, Mr. Smith—was sitting on the sofa by the window, when suddenly 'crack,' down went the little rocking-chair, that no one was sitting on at all. It must be the poor glue they use, or perhaps it was the frost."

The father studied the subject a few days; then he gave to each daughter a locket plainly inscribed with her name and weight, and on each chair riveted a silver plate bearing the words, "Warranted to bear up 125 pounds." Calling in the girls he said; "Now, if there's any more chairs broken, it is because your young men can't do a sum in simple addition, or else because they are bent on malicious mischief and destruction of property."

The accountant for Messrs. Walker & Maxey, Gardiner, Me., Mr. Robert Gould, recently wrote: "About one year ago I was taken with the genuine sciatica. I employed the best physicians, but they could only relieve me for the moment. Finally I used St. Jacobs Oil and was entirely cured."

—The New York *News* says that "it requires a deal more art to pop the question than to avoid." We don't know about that. It takes a good deal of art either way.

The residence of S. C. Holmes, in Albany, was robbed of $5.000 worth of bonds on the 19th inst., by a stranger who pretended to have been sent there to repair furniture.

Capt. James Hickey, of schooner Sarah B. Harris, which recently arrived in Boston from Eastport, Me., has eloped with a Mrs. Dickson of Arlington, Mass. Capt. Hickey had borne a reputable name before this occurrence, and has a family living in Eastport. Mrs. Dickson, who is a highly educated lady, lived with her husband and family in Arlington, they being in well-to-do circumstances. It is alleged that on the arrival of the schooner at her dock, Capt. Hickey collected the money on the freight of the vessel, and likewise part of the money on an outward cargo, the whole amounting to $500. The husband of Mrs. Dickson, with the police and the captain's oldest son, are in pursuit of the guilty pair.

There is a Balm in Gilead.

The success which has marked the introduction of Cream Balm, a catarrh remedy, prepared by Ely Bros., Owego, N. Y., is indeed marvelous. Many persons in Pittston and vicinity are using it with most satisfactory results. A lady down town is recovering the sense of smell, which she had not enjoyed for fifteen years, through the use of the Balm. She had given up her case as incurable. Mr. Barber, the druggist, has used it in his family and commends it very highly. In another column a young Tunkhannock lawyer, known to many of our readers, testifies that he was cured of partial deafness. It is certainly a very efficacious remedy.—*Pittston, Pa., Gazette*, Aug. 15, 1879.

Price fifty cents.

The New York democrats are said to have agreed that Congressman Flower shall be their next candiate for governor. His strong points are that he is a millionaire, has never been in politics until last fall and has therefore made no political enemies, and is as innocent of all knowledge of troublesome state questions as Hancock was of the tariff.

Ladies and all suffering from neuralgia, hysteria, and kindred complaints, will find without a rival Brown's Iron Bitters.

The *Presse Medicale Belge* describes a pair of interesting united children lately on exhibition in Vienna. Each has a well formed head, perfect arms, and a chest of its own. They unite at the sixth rib, and have an abdomen in common. The spines unite symmetrically. Each possesses a leg, but as the right obeys the will of Baptiste, and the left is controlled by Jacob, walking is impossible, though the limbs are strong. Their personality is well marked; one often talks and sings while the other is sleeping.

Having examined the formula from which Adamson's Botanic Cough Balsam is prepared, we recommend it as a safe and reliable medicine for the cure of asthma, coughs, colds and all diseases of the throat, chest and lungs.

GEO. W. MARTIN, M. D.
I. H. STEARNS, M. D.,
Formerly Surgeon N. M. Asylum, Togus, Maine.

Professor Smyth, whose election as professor of theology at Andover (Mass.) seminary had been challenged on account of his views on future punishment, has been pronounced by the board of visitors "in substantial agreement with the characteristic doctrinal position of the seminary." This settles his installation, although Dr. Smyth's published works show that he is not a believer in the eternal punishment of the heathen to whom the gospel has never been preached.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

THE
New Hampshire Gazette!
Established 1756.
The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items: carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

PATENTS!
R. H. EDDY,
No. 76 State St., Opposite Kilby, Boston,
SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*
R. H. EDDY, Solicitor of Patents.

Testimonials.
I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.
"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.
BOSTON, October 19, 1876.
R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1865, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, your line, and advise others to employ you. Yours truly, GEORGE DRAPER.
BOSTON, January 1, 1882. 3tawtjan28

STARTLING DISCOVERY!
LOST MANHOOD RESTORED.
A victim of youthful imprudence, causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y.
eod&wtu6

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

MONDAY. APRIL 24, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Naval Affairs.

Secretary Chandler of the navy department has issued orders that salutes shall be dispensed with when he visits the navy yards.

Capt. Louis E. Fagan has been detached from the navy yard at Norfolk, Va., and ordered to the U. S. S. Brooklyn, as fleet marine officer of the South Atlantic squadron.

A naval review will be held at Hampton roads during the first three days in May. President Arthur will attend with Admiral Porter on the torpedo steamer Alarm. The secretary of the navy will take a party of invited guests on the Tallapoosa, and the heads of bureaus of the Navy Department will go on the Speedwell.

News and Notes.

Charles Robert Darwin died at Orpington, England, April 20th, in his 74th year. No scientist of modern times has been more widely quoted than Mr Darwin, whose "Origin of the Species by Means of Natural Selection," published in 1859, gave him a world-wide fame and whose "Descent of Man," published in 1871, has caused more prolonged and bitter controversy than any similar work ever did.

Peter Barry of Georgetown, Mass., committed suicide Friday morning by cutting his throat with a razor. Several of his children died recently, and the suicide was committed probably in a fit of despondency.

Emma Rice, daughter of Eber Rice, a respected farmer of West Granby, Vt., while temporarily deranged, jumped into a bonfire Wednesday evening of last week, and was so badly burned that she died in a few minutes. She was thirty years old.

A Morgan City, Texas, despatch says the steamer Tom Parker, which left that port for Sabine Pass on the 10th, has not reached her destination. She was probably lost in the storm of the 12th.

Mrs. Thomas Wood of Monterey, Mass., was found by her husband on Tuesday of last week in a well, where she had been drowned in attempting to rescue a lamb.

A despatch from Richardson, Texas, says: Brown Pierce, a farmer, found his wife hanging from a door-knob, and his three children lying dead on the floor, side by side. The supposition is that Mrs. Pierce strangled the children, and then hanged herself.

Luther B. Taylor was hanged at Corning, Ark., George Bohannon was hanged at Rolla, Mo., and one Sindram was hanged in New York, Friday, all for murder.

Eleven deaths have resulted from the tornado at Brownsville, Mo., and several others are expected to die.

A man, a woman and two boys were killed by the cyclone at Pennsville, Pa., last week.

A steamship arrived at Victoria, British Columbia, last week, from Hong Kong, with 547 Chinese laborers on board. Nine hundred more are to arrive at the same port before August.

Huldah Sargent Robertson of Randolph, Vt., was born April 30th, 1779. She is still living, and will, therefore, be 103 if she lives until her next birthday. She is in good health for one of her years.

New Hampshire Items.

Miss Belle Streeter, who attempted suicide at Plymouth, on the 19th inst., is improving, and will probably recover. The cause was some love difficulty with an employe of the Pemigewasset railroad. She says she will try again, and is very determined to die.

Charles Foss of Northwood Centre, a cooper on whaling voyages in vessels sailing from New Bedford, attempted suicide in New Bedford, Mass., Friday morning, by taking a heavy dose of chloral. He will recover.

A West Randolph justice decides that cats are of no account, and discharges Jake Ford, who shot J. V. Newton's pet feline. Newton's expenses at court, which he had to pay himself, amounted to about $25.

The recent Catholic fair in Lancaster was very successful, the receipts being about $800. A gold-headed cane was voted to Hon. Chester B. Jordan.

AROUND HOME.

Hon. Wm. Jackson Armstrong, who by a mission abroad during the presidency of Lincoln became well acquainted with the working and leaders of the modern political parties of both Spain and France, will give a lecture in Franklin theatre on the evening of May 2d, upon Castelar, the great orator and leader of the liberal party of Spain. After the delivery of this lecture in Brooklyn, Mr. Armstrong was invited by Hon. Abram S. Hewitt, Oliver Johnson and others, to give it in Chickering hall, New York city. He has also the best recommendations from Drs. Storrs and Scudder of Brooklyn, and from Henry Ward Beecher and Dr. Bellows. The lecture will be for the benefit of the public library. For terms, etc., see advertisement.

The schooner William Thomas, which last week arrived at Dover from New York with a cargo of coal, and which went aground while proceeding up the Cocheco in tow of the tug Ann, came down the river on Thursday evening, and was taken on the marine railway at Kittery for survey and repairs. Her keel was found to be split, but she is apparently not injured otherwise, and can safely make the trip to her home port in Maine without repairing, if desired. Her captain claims damages from the tug, alleging that the accident was her fault, which is denied by the captain of the steamer.

Rev. J. Herbert Yeoman and Mr. Hosea Q. Mason of this city have hired for the season the Frisbee house on Gerrish's island, Kittery, and with their families will occupy the same in June.

In taking up a floor of the old Gardner house, at the foot of Gardner street, on Friday, in the progress of repairs now being made on the building, two English half pennies were found, one dated 1720 and the other 1740. They were quite bright, but from their worn appearance had been many years in circulation before being lost under the floor.

Mr. Dennis J. Lynch, Market street, has for sale the famous bock beer, bottled by Mr. Martin Garrity.

Representative Ray has our thanks for a copy of Mr. Blaine's memorial address on the life and character of James Abram Garfield, delivered on the 27th of February last before both houses of Congress.

The cottage of E. A. Abbott, which stood near the Farragut house in Rye and was burned with it last week, was valued at $5000. The cottage was insured to the amount of $2500. The cottage was built on land leased from Mr Philbrick.

Three hundred bales of foreign wool are on the way to this city, to go in bond at the custom house. The wool is to be sent as required to Sawyers' woolen mills at Dover.

The barn on the corner of Islington road and Spinney's lane, burned last Thursday night, was owned by Mr Robert C. Peirce, and not by the Peirce heirs. The hay stored in the barn was owned by Mr. Floron Barri, and some of it had been hauled away on the afternoon previous to the fire. A mowing machine and hay tedder, owned by Mr. Daniel H. Spinney and stored in the building, were destroyed. As the first persons who arrived at the barn after the fire was discovered found the doors fastened and the inside of the building all in flames, it is thought the fire may have resulted from accidental carelessness, instead of incendiarism as was at first supposed. The property was insured.

Mr. William T. Dodge, the Portsmouth representative of the Manchester *Union*, takes exception to the statement of "J." in the CHRONICLE of Saturday that there was "not even one member of the Young Men's Board of Trade" at the anchor test on Marvin's island, Wednesday of last week, as he was there, and is a member of the new board; but he owns up that he was the only one.

Jones' (or steamboat) wharf, near the foot of Deer street, and the wharf next south of it, were replanked last week, and otherwise put in good condition. Broughton's wharf, at the foot of Daniel street, was also undergoing repairs, a gang of men superintended by Freeman Hurd of Kittery, with a pile-driver, being employed there.

The ladies who signed the application for a charter for a Ladies' Relief Association in connection with the local post of the Grand Army of the Republic, will hold a meeting in Grand Army hall on Tuesday evening, the 25th inst., to effect an organization in readiness for the proper installing officer to institute the lodge. A full attendance is requested.

There is a strong probability of a company being formed in this city for the manufacture of anchors under the patent granted to Major Urch, and it is suggested that no better site can be found for the erection of buildings suitable for this purpose than the Kearsarge mill lot. Major Urch is endeavoring to procure a Trotman anchor—the English standard anchor—with which to have another test, though everybody is satisfied that the Trotman can make no better showing than the two sturdy anchors which received such a walloping on Wednesday of last week.

The prominent friends in this city of Secretary Chandler have received from him a letter in answer to the congratulations sent him by them, in which he earnestly expresses his acknowledgements of the good will displayed.

MARRIED.

Notice to Mariners.

Capt. Atwood, of schooner Mary Swan, at Pawtucket, R. I., from Virginia, reports that when running from Montauk to Point Judith the Mary Swan came in contact with a sunken vessel but sustained no damage. The wreck was in a very dangerous position, about four miles southwest by south from Point Judith. The Mary Swan was steering in a northwest course when she collided with the sunken vessel, and was making seven knots an hour.

LECTURE

— BY —

Hon. WM. JACKSON ARMSTRONG,

Of Brooklyn, N. Y., upon

CASTELAR,

The great leader of the Liberal party in Spain, at the

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Further information and applications furnished by

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00.—*see assignable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

CITY APPROPRIATIONS.

The Common Council had a session on Thursday evening last, and the annual appropriation bill was introduced. It is as follows:

AN ORDINANCE making appropriations for the year 1882.

Be it Ordained by the City Councils of the city of Portsmouth as follows:

There shall be raised and is hereby ordered to raised on the polls and estates of the inhabitants of this city and non-residents, to pay the current expenses of the city for the year ending December 31st, 1882, and to pay such debts as are required to be paid the current year, the sum of ninety-five thousand dollars, which with the sums to be received from the railroad and savings bank taxes and other income of the city shall be appropriated as follows:

State tax	$16,400.00
County tax	20,675.74
City debt	5,000.00
Interest	8,000.00
Salaries of city officers	5,000.00
Streets	6,700.00
Fire department	8,000.00
Support of the poor	5,000.00
Police	2,000.00
Watch	4,000.00
Street lights	2,800.00
Repairs and rents of school houses	1,500.00
Public library	500.00
Printing	400.00
Roads out of compact part of city	1,800.00
Repairs of bridges	100.00
Schools (in addition to literary fund)	19,500.00
Sidewalks	500.00

Sprinkling streets	500.00
Health committee	125.00
Memorial day	150.00
Repairs of almshouse and buildings	200.00
Contingent	3,000.00
Collector's commissions	750.00
Discount on taxes	6,000.00
For the completion of Vaughan street extension	900.00
To pay the bonds of the city of Portsmouth, N. H., due in 1869, with eleven coupons attached to each, being numbers 51, 52 and 53, issued March 3d, 1869, and presented for payment since January, 1882	3,442.50

And be it further *Ordained*:

That the cash receipts of this city from all sources shall be paid as cash to the city treasurer, and not credited to the several departments.

And the treasurer of this city is hereby instructed and ordered not to pay any bills against the city for account of any department or apportionment of the appropriations for 1882 according to this ordinance, after he has received bills regularly approved and ordered paid amounting to the sum of money hereby appropriated for such department or apportionment.

Within ten days after the passage of this ordinance a copy thereof shall be given to the city treasurer.

Referred to the committee on bills on their second reading, to report.

The bill as introduced we understand is the production of the city councils, and not of the board of aldermen alone, or of the joint committee on finance, the items of appropriation for each department having been carefully considered by the joint committee on such department before being incorporated in the bill, which foots up $124,543.24.

THE FIRST NATIONAL BANK.

At a meeting of the stockholders of the First National bank in this city on Saturday it was voted that the bank go into liquidation on the 29th inst. The new First National bank, composed of the same stockholders and the same directors, begins business on Monday, May 1st, on which day the last dividend of the old bank will be payable.

The new organization is simply a continuance of the present stockholders under a new charter, with the assets of the existing bank. This being the first organized national bank in the country, its charter is of course the first to expire.

After the other business before the meeting had been disposed of, Mr. Hackett stated that it was a fit time for the stockholders on this occasion to take some action concerning the death of the late John Stavers, who had been a stockholder in the bank from its organization, and whose father had been prominent in the councils of the predecessors of this corporation. Mr. Hackett said he had prepared resolutions which he asked to submit, and they were read, as follows:

Whereas, the stockholders of the First National bank, in this their last meeting previous to the expiration of the bank's charter, are desirous of showing their appreciation of the character of a gentleman who as a stockholder since the organization of the bank, and a member of the board of directors, has been faithful in the discharge of every duty—

Resolved, that in the recent death of Mr. John Stavers the bank has sustained a loss in being deprived of the services of an officer of integrity and sound judgment, whose connection with the corporation has been uninterrupted since its commencement.

Resolved, that a copy of the foregoing be sent to the family of the deceased, and published in one of the papers of the city.

Hon. I. Goodwin, the president, feelingly alluded to his long connection with Mr. Stavers as an officer of the bank, and paid a high tribute to his integrity and worth of character.

The resolutions, on motion of Chas. H. Mendum, Esq., were unanimously adopted.

WEEKLY FISH REPORT.

The receipts of fresh fish for the week ending Saturday, April 22d, show very light results, only 10,210 pounds of cod and haddock having been brought in, mostly by market boats; about 500 pounds of black salmon was also landed, all of which had ready sales at good rates. Fishermen generally complain of an unusual scarcity of fish. The principal arrivals of the week were lobsters, of which about 5000 of good size and quality were landed, one firm receiving 3000 in a single day from the east per schooner Addie & Hattie. Prices ruled high, with large orders on file for future receipts.

SUPREME COURT--CARPENTER J.

SATURDAY, April 22d.

In the case Wm. D. Cochrane vs. the town of Exeter, the jury after being out all night returned a verdict for the defendant at 10:30 o'clock Saturday forenoon.

The Reform club will hold a meeting in Good Templars' hall this (Monday) evening at 7:30 o'clock, for the election of officers.

A sale of fancy and useful articles will be held at Franklin hall on Thursday afternoon, April 27th, at two o'clock, and in the evening of the same day, for the benefit of the Children's Home. Supper from six to eight o'clock in the evening.

The flag at Liberty bridge was flying at half-mast on Sunday, in honor of Mr. John F. Marden, whose funeral took place at two o'clock in the afternoon on that day.

Civil Engineer Craven has been detached from this navy yard, and Superintendent E. C. Nealley of the yard fire department discharged; and it was reported on Saturday that both had gone to Washington. The supposed reason for these changes is the recent trouble between the gentlemen named, which resulted in one or more boards of investigation being convened at the yard.

The Manchester *Union* says Rev. Dr. Allen of Portsmouth has purchased a residence on West street in Charlestown, this state.

The bank wall and surmounting fence on the westerly side of Market street, near Deer street, received a thorough overhauling last week. A tree which formerly grew inside the wall and close to it, and whose roots had dislocated the stones to such an extent as to allow water to flow through and run across the sidewalk, making the walk exceedingly dangerous in cold weather, was removed, the wall entirely rebuilt and laid in cement, and stout iron rods set in the wall to support the fence.

Frank W. Woodbury, the messenger of Bell's express between Beverly and Boston, who was injured in the accident on the Eastern railroad at Salem on Wednesday of last week, died in the hospital at Salem on Saturday forenoon.

The Pickering mansion on the corner of Austin and Summer streets was sold at auction by Mr. H. F. Wendell on Saturday, to Mr. John Conlon, for $2580.

Ex-Gov Cheney was in town on Saturday, and went to take a look at things at Straw's point, Rye. The ex-governor and Mrs. Cheney will go to Europe by the Cunard steamer Caledonia, which is to leave New York for Queenstown on the 3d of May. They will make a tour through Ireland and Great Britain, and go on the continent for the summer.

Several small fares of fresh fish were brought in by small boats on Saturday, from the Shoals and along shore.

The schooner Addie & Hattie sailed on Sunday for Long island, Me., on her second trip east this season for lobsters. On her first trip she found lobsters scarce and high, which the captain thought was largely due to their thinning out in seasons past by the men who catch for the canning factories, which use all that are taken, big and little. The lobster fishermen in this vicinity report the season as very backward, the lobsters being neither numerous nor large as yet.

The schooner Mary S. Hontvet, which was on the marine railway last week, is being painted, and will sail for the Grand banks in a few days. The schooner Christie Campbell was reported below on Saturday, waiting for bait. Capt. Haley, of the schooner Storm King, is at home sick, and Capt. Shields is in command this trip. The schooner Grace Choate sailed on Sunday shore fishing, and will salt her catch.

Besides the vessels already reported as having arrived at this port last week with ties for the Eastern railroad, the schooner Fleetly came in on Friday with 2250, and the Maggie Smith and Regina B. on Saturday, the former with 2000 and the latter with 1941, all for the Eastern road. The three vessels named are all British, and arrived from Nova Scotia ports.

A raft of 15,000 feet of boards on Friday last left Mason's mill in this city, where the boards were sawed, bound for Mathes' brick-yard in Eliot, Me., the logs from which the lumber was cut having come from Mr. Mathes' place. A large number more of logs will be brought from up river this season to Mason's mill, where nine men are now employed.

[*For other local matter see second page.*]

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup." It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfect y safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. cod&wlyjan22

Auction Sales.

AUCTION SALE
— OF —
REAL ESTATE
IN GREENLAND, N. H.
THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on
Tuesday, April 25th,
At 11 o'clock in the forenoon, on the premises,
A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.
Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.
The house on said lot is a two-story building, measuring eighteen by thirty-six ft.
ALSO, AT 12:30 P. M.,
The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnecut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Whidden.
This tract of land has running water the entire year, and is regarded as the best and most valuable pasture in this vicinity.
The interest of the said Whiddens in said pasture will also be sold at the same time and place, if desired.
GILBERT A. MANN, Executor.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work of life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, *not by fermentation* but by solution and are richest in the Phosphates, while the starch and hard parts are eliminated. These take in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is a tonic healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as curealls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

WHEAT BITTERS CO., BTFS. N. Y.

Train Robbers.

A despatch from Kansas City, Mo., says that a passenger from the west reports that the east-bound passenger train on the Atchison, Topeka & Santa Fe road was ditched on Sunday night, the 16th inst., near Rincon, N. M., and that five heavily armed men attempted to rob the express, but got in the baggage instead of the express car, and before they could rectify their mistake and get into the right car the train hands and the passengers appeared in such numbers that the robbers fled. The engine, baggage and express cars were thrown from the track. The fireman was killed, and the engineer and Wells, Fargo & Co.'s messenger were badly wounded. The express is supposed to have had $200,000 in silver from Arizona mines, bound for Norfolk, and it is thought the would-be robbers were informed of the fact by telegraph at Rincon, and that they belong to the band of desperadoes who have been committing all kinds of depredations in New Mexico and Arizona for months past.

A dispatch from Dallas, Texas, says: A car of the Texas Express company was ransacked early Friday morning, near Ranger, on the Texas Pacific railroad, by eight men. The guards fired upon the robbers, and one of them is thought to have been mortally wounded. The night was very dark. Booty to the amount of $460 was secured.

The Cramer Murder.

The jury for the trial of the two Malleys and Blanche Douglass was completed at New Haven, Conn., on Friday. It is said that nearly all of the twelve are grey headed, look respectable and intelligent, and all are Americans. The state opposed the Irishmen and the defense the Germans, and the one negro summoned was peremptorily challenged. In all, 316 persons were summoned to get the twelve jurors. In the afternoon the indictment was read, charging the three prisoners with poisoning Jennie E. Cramer with arsenic. The trial is expected to be one of the most exciting that has ever taken place in Connecticut. The prisoners all persist in saying that they cannot fail to be acquitted.

Catarrh of the Bladder.

Stinging irritation, inflammation, all kidney and urinary complaints, cured by "Buchupaiba." $1. Depot, J. H. Thacher's.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Fifteen persons were injured by a cyclone at Carrollton, La., on the night of the 18th inst.

For tremulousness, wakefulness, dizziness, and lack of energy, a most valuable remedy is Brown's Iron Bitters.

Lucy Dunning, aged ninety-eight years, of Pownal, Vt., was buried last week. She outlived all her children and grandchildren, and two nephews were the only relatives who followed her remains to the grave.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., it is the most *effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have *seen* its magic effects, and *know* it to be a perfect article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharper, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use Your PAIN KILLER frequently. It has been in constant use, and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breath through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Rimball & Co. and F. B. Coleman.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable rubefacient which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.

Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will not even relieve.

Fifth.

Because over 2000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

Benson's Capcine Porous Plaster!

SEABURY & JOHNSON,

Manufacturing Chemists, New York.

A SURE REMEDY AT LAST. Price 25cts. at HEAD'S Medicated CORN and BUNION PLASTER.

The American Popular Dictionary, $1.00

This useful and elegant volume is a complete Library and Encyclopedia, as well as the best Dictionary in the world. Superbly bound in Cloth, Gilt and Flexible, CONTAINS EVERY WORD IN ENGLISH LANGUAGE, with its true pronunciation, definition, spelling and pronunciation and a vast amount of absolutely necessary information upon science, Mythology, Biography, Ancient History, Laws, etc., etc., and is a perfect Library of reference. Worth ten times its price. Only costs $1.00, and the American Popular Dictionary (illustrated), the greatest and best book ever published, but costs only a trifle more, and with you and you get your own book free.

World Manufacturing Co., 120 Nassau St., New York.

Our readers will find this wonderful book the cheapest Dictionary published. The information it contains is worth many times its cost, and should be asked for it, and it should be in the possession of everybody. With this book in the library for reference, many other much more expensive works can be dispensed with, and ignorance of his country, history, business, laws, etc., is inexcusable in any man. Note the price, $1, post-paid.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connects the season of ice with that of leaves and roses. No less in respect of health than outward nature's phenomena is this time. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Illnessness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not be alone when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR,

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2833.

$30 PER WEEK can be made in any locality. Something entirely new for agents. $5 outfit free. G. W. Ingraham & Co., Boston, Mass. tmy1

Daily Chronicle.

Naval Affairs.

Commander Smith W. Nichols has been placed on the retired list, from April 14th inst.

The furlough of Lieut. A. M. Thackara has been extended three months from the 15th inst.

The United States steamer Powhatan, four days from Kingston, Ja., arrived at Havana April 21st, all well.

Assistant Surgeon William Martin has been ordered to special duty at New Orleans, under special instructions from the National Board of Health.

Medical Inspector A. C. Gorgas, recently attached to the naval academy at Annapolis, has relieved Medical Director W. T. Hord in charge of the naval hospital at Boston. The latter has gone to Washington as a member of a medical board.

Medical Director Francis M. Gunnell has been ordered to St. Paul, Minn., as a delegate to represent the medical corps of the navy at the meeting of the American Medical association in that city on June 6th next.

The junior members of the pay corps of the navy are making a vigorous fight against the bill, which has been favorably reported from the senate committee on naval affairs, restoring Edward Bellows to a position at the foot of the list of paymasters.

Rear Admiral Spotts, who died on the flag-ship Brooklyn at the Falkland islands, a few weeks ago, sent an odd dispatch to the navy department at Washington just before his death. The dispatch, which outlined the course of the Brooklyn, was addressed to "Hon. George S. Boutwell, Secretary of the Navy."

"I happen to know of a great many cases of rheumatism, sprains, etc., in which St. Jacobs Oil proved itself a never-failing panacea," said Mr. Wm. A. Davidson, of Cincinnati, Ohio. "I severely sprained my ankle while searching for geological specimens, and suffered so severely until I tried St. Jacobs Oil. It cured me, leaving me in a mood to extol the great German remedy."

A despatch from Charleston, S. C., says the board of county canvassers of Sumter county pleaded guilty to neglecting and refusing to count the votes of three election precincts in the county. After a statement by Gen. E. W. Morse, their counsel, in explanation of their action, Judge Bond stated that all the government wanted was a vindication of the law, and then allowed them to go without sentence.

What was it John

That made your face so free and clear from pimples? said his sweetheart. Why, don't you know, Eva? For over a year I took everything I could think of without helping me, then I bought two bottles of Sulphur Bitters, and now I haven't one pimple on my face. It is the best blood cleanser I ever saw.

George Scoville, late council for Guiteau, has forwarded to Washington a letter addressed to the supreme court justices, withdrawing formally from the case, and giving his reasons, personal and judicial, for doing so.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells Health Renewer." $1. Depot, J. H. Thacher's.

Kidney Disease.

Pain, irritation, retention, incontinence, deposits, gravel, etc., cured by "Buchupaiba." $1. Depot, J. H. Thacher's.

John Skae, or "Johnny," as he used to be called at champagne suppers, so manipulated Sierra Nevada stock six years ago that he became a millionaire to whom San Francisco paid obeisance. Then he slipped, lost every dollar, became a vagabond, and last year was committed to prison for drunkenness. Now he is out again in broad-cloth and beaver, and persons say that he recently cleared $250,000 in mining speculations.

Parlor Decoration.

Horse-shoe, painted plaque and Sunflowers have each in its turn been the popular parlor ornament, but are now superceded by the Tamborine, which when tastefully decorated is very ornamental. For fifteen cents the Wheat Bitters Co., 19 Park Place, New York, will send free a beautifully decorated Tamborine.

The last service was held in St. Paul's Methodist church in Manchester on Sunday, the pastor, Rev. A. E. Drew, preaching a historical sermon appropriate to the occasion. The church is one of the landmarks of the city and has been occupied by the society for forty years, and is now to be converted to business uses. The society are erecting a new edifice.

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

Shipley W. Ricker, of South Berwick, has been appointed a trial justice for York county.

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

Annie Louise Cary's sister, Mrs. Ada Cary Sturgis, is announced to sing at a concert in Biddeford on the 5th of May.

Ladies and all suffering from neuralgia, hysteria, and kindred complaints, will find without a rival Brown's Iron Bitters.

Oscar J. Brown of Claremont completed on April 8th fifty years of service as driver and proprietor in lines of staging in western New Hampshire and Vermont, his first route being from Hanover to Royalton, and made in the night. He is now seventy-three years old, and in good health, the result of a temperate life, he having in early life discarded the use of intoxicating drinks.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

Sponges, Chamois Skins and WHIPS

at reasonable prices, at

JOHN S. TILTON'S

Harness Maker and Trunk Repairer, 18, Congress Street.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States, and in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most expert and successful* practitioners with whom I have official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 10, 1878.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER, HOPEDALE, January 1, 1882.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having lost his entire vitality, by a simple remedy, has discovered a simple self cure, which he will send free to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poi-onous drugs should never be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

TUESDAY, APRIL 25, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

News and Notes.

The Nevins Bagging Co., of Salem, Mass., lost about $35,000, and the Boston & Lowell railroad about $15,000, by a fire in the storehouse and works of the bagging company, Sunday evening. Insured.

A terrific gas explosion occurred at the National hotel at Saratoga, N. Y., Saturday afternoon, blowing out one-half of the west wall and damaging property in the vicinity.

A regular nest of railroad car thieves was arrested at Buffalo, N. Y., on Saturday. The robbers proved to be all employes of the company, and had committed extensive depredations. There were fifteen in all, embracing a conductor, a number of switchmen, watchmen, etc.

The mayor of Long Island City, Mr. Henry De Revoise, was arrested Saturday on a charge of illegally issuing and selling $108,000 of city bonds. He was sent to jail in default of $50,000. The arrest will result in an investigation by the city committee.

A movement to present a strong petition to Gov. Long of Massachusetts for the pardon of ex-state-senator L. W. Pond, who is serving a fifteen years' sentence in the state prison for forgery, has been started in Worcester. The chief reasons are that he has already been punished more than many criminals who have committed serious crimes against persons, and his health is somewhat broken. His wife is said to be nearing her end with an incurable disease.

Five years ago Miss Ada M. Crosby, clerk in the dry goods store of F. S. McKerny, in Haverhill, Mass., was detected in the larceny of goods amounting to $375, and confessed her guilt. Proceedings against her were stayed at the time, and she escaped. Since then she has resided in the west, in Montreal and other places, and has married. Friday last she was arrested in Boston, and Saturday was arraigned in Haverhill, where the case will be heard this week. Her present name is Haynes.

A gang of roughs belonging to a party of bridge builders took possession of Greenfield, Mass., on Saturday night, and had things pretty much their own way for some hours, assaulting many persons and fatally wounding one. Seven of the party were arrested next day, by the town constables and citizens.

Charlotte O'Neill, while temporarily insane, jumped over the cliff at Niagara Falls last Friday morning, but lodged in the branches of a tree two hundred feet down. A brave teamster was let down by a number of his associates, who tied their driving lines together for that purpose. The girl, and then the heroic driver, were drawn up in safety.

The investigation at Sweetsburg, P. Q., in the Sutton murder mystery, still further mystified matters. Bashaw, the girl servant in the American house, told the story of the murder committed in July, and then identified a French pedlar from Montreal as the man she thought was the murderer.

John S. Howland of Dennisport, Mass., shot himself through the head on Saturday. He died in a few hours.

Hallett Kilbourne has been awarded $100,000 damages against John G. Thompson, formerly sergeant-at-arms of the national house of representatives, for false imprisonment. Kilbourne was locked up on a warrant issued by Speaker Kerr, and served by Thompson, for refusing to produce the books of the Washington real-estate ring, of which he was secretary.

A ruby ring valued at $10,000 was seized in New York on Friday for nonpayment of customs duty. It came from Spain, where it was once the property of Queen Isabella. It is the largest ruby ever seen in this country, being three-quarters of an inch broad. It was sold in Paris with the other jewels of the Spanish queen a few months ago, but the present owner is not known.

Samuel G. Mayberry of Bangor, a travelling salesman for Shaw, Godding & Co. of Portland, shot himself in his room at the Collins house at Fort Fairfield, Me., Sunday afternoon. He put five shots in his head. Overwork and extreme fatigue was probably the cause. He was a man well and favorably known.

The Kingston, N. Y., *Freeman* says "The industry of train-robbing, which the lamented Mr. James built up, does not seem to languish, as it was thought it would, after the fostering care of the mind which created it had been removed."

A despatch from Fort Fairfield, Me., says a house was burned at Salmon river, Saturday, and two children of Mr. Rideout perished in the flames. Mr. Rideout was severely burned in attempting to rescue them.

The following is an account of a remarkable meeting at sea after years of separation of three Searsport, Me., brothers, Capt. J. G. Park and Samuel Park, in ship Alert, and Capt. Charles C. Park, in ship Sumner R. Mead, off the island of Madagascar: Both vessels got becalmed while on a passage to New York. Charles and Jerry had not seen each other before for six years, and Charles and Samuel had not seen each other for twelve years. They were together for one day, and it must have been a joyful meeting.

John Gehring, Lewis Millert and their wives, of Parma, Ohio, were arrested last Saturday for murdering a farmer named Alexander Humbel. One of the assailants held Humbel's hands behind him, while the others fatally pounded him.

Serious Indian outrages are reported from New Mexico, teamsters and settlers being killed and cattle run off.

Peleg Peck, aged sixty-five years, of Pawtucket, R. I., committed suicide on Saturday by shooting himself through the head. He leaves a wife and four married children.

Monticello, La., a village of 150 inhabitants, was destroyed by a tornado on Saturday afternoon, only three houses being left standing. Ten persons were killed outright, twenty badly injured, some of whom will die, and nearly every one in town was hurt.

The sentinels which were placed at Garfield's grave on September 23d, 1881, have never left it unguarded night or day since. Thousands of people visit the vault. The bronze doors are thrown back, and the bier, strewn with withered flowers, is shown to visitors.

David C. Wall, a farmer living near New Egypt, N. J., found guilty of beating and throwing pork pickle on the bare back of Rachel Layton, has been fined $500.

When to Plant Corn.

Formerly almost every farmer was anxious to get his corn planted the last week in April or at least the first week in May. One of the principal reasons for this was that it was less liable to be injured by the grub and wire worm, on account of early growth. Another was that in case of the seed rotting or the plant being damaged from any cause, there would be plenty of time to replant. A trial of this method has not resulted successfully, as it is found that early planted corn is frequently delayed in sprouting by unfavorable weather; and when it does make its appearance it is yellow and stunted, and sometimes does not recover. Whereas, by planting from the 10th to the 20th of May the ground is sure to be warm and adapted to early germination, the seed starts to sprout at once, and comes up strong and healthy. To combat enemies, six grains should be placed in each hill, properly separated, and then, should the plants escape injury from the grub and wire worm by the use of salt placed around the hill after the corn is up, remove all plants above three. Again, farmers are beginning to put their hills closer in the row, and with the increased number of grains to each hill they are seldom disappointed of a good crop, if well attended to.—*Germantown Telegraph.*

—The mistake they make: The conceited Britishers claim we have no literature of our own. They don't know anything about our circus posters, evidently.

—While the Queen of England was on her way to Cherbourg on the yacht Victoria and Albert, a little bird flew on board and was caught and sent to Windsor as a memento of her trip.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, April 5.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 1810; Sheep and Lambs 8800; Swine 12,900; Veals 185; number of western cattle 1345; eastern and northern cattle, milch cows, etc., 265.

Prices of Beef Cattle per 100 lbs, live weight—Extra quality $7 37½ @ 8 00; first quality $6 75 @ 7 25; second quality $6 00 @ 6 62½; third quality $5 25 @ 5 87½; poorest grades of coarse oxen, bulls, etc., $3 75 @ 5 12½.

Brighton hides 6½c ℔ lb.
Brighton tallow 6½ @ 6 ¾c ℔ lb.
Country hides 7c ℔ lb.
Country tallow 5c ℔ lb.
Calf skins 12 @ 12½c ℔ lb.
Sheep and Lamb skins $1 @ $1 75 each.

The quality of the western cattle brought in this week was mostly of a good grade, some of them very extra beeves. Nearly half of the cattle which came in Tuesday were intended for the English markets, to be shipped per steamers the present week. Cost higher at the west, and prices here were advanced ¼c ℔ lb over those obtained one week ago for the same grades of beef. On account of the high prices there was not much activity in the market, and the trade was very slow.

Working Oxen—The demand for them has been moderate. A tighter supply being required than were a few weeks since. We note sales of 1 pr, girth 6 ft 10 in, live weight 2600 lbs, at $165; 1 pr, extra, girth 6 ft 4 in, live weight 2200 lbs, $107; 1 pr, girth 7 ft, live weight 3000 lbs, $189; 1 pr, girth 6 ft 10 in, live weight 2900 lbs, at $185.

Milch Cows—Extra $55 to $80; ordinary $31 to $50; springers $18 to $65 per head. Good cows sell well, but ordinary grades are not in so good demand. We note sales of 1 new milch cow at $50; 1 springer at $45; 3 new milch cows $130 the lot; 1 do $40; 4 do $30; 2 do at $35 each; 1 Ayrshire new milch $60.

Veal Calves sell quick at 4 @ 6½c ℔ lb live weight.

Sheep and Lambs—Western sheep and lambs cost higher at the west. Those handed here were mostly owned by butchers, sheep costing from 7½ @ 8c, lambs from 7½ @ 8½c ℔ lb live weight.

Swine—Store pigs sell at 6 @ 6c ℔ lb live weight; small pigs $3 @ $4 50 ℔ head. Fat Hogs—Those from the west were all owned by butchers, cost landed at the slaughter houses from 7¾ @ 8½c ℔ lb live weight. Store pigs were mostly brought in from the immediate vicinity in wagons.

BORN.

FLYNN. In this city, April 23d, to Mr. William H. Flynn, a daughter.

CONNORS. In this city, April 23d, to Mr. Thos. Connors, a daughter.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Further information and applications furnished by

GENERAL AGENT

For the States of Maine and New Hampshire.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—so assessable. This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

Sky clear.

PARISH MEETING.

At the annual meeting of the South Parish, held in the stone church on Monday, William H. Hackett was elected moderator and president. The wardens elected were William H. Sise, William W. Cotton, John W. Parsons, Andrew P. Preston and A. Coburn Hoyt. Joseph Miller Foster was re-elected parish clerk.

The customary appropriations were voted, the sum for music to be derived from the unexpended funds after other previously appropriated sums are provided for, and from subscriptions.

The subject of vesper service was referred to the wardens and pastor.

The meeting was graced by the presence of several ladies, who shew an appreciative interest in the welfare of the parish.

METHODIST APPOINTMENTS.

The New Hampshire Conference of the Methodist Episcopal church closed its sessions at Lawrence, Mass., on the 24th inst., dissolving at noon, when Bishop Warren, who had presided, announced the appointments for the ensuing conference year. The appointments for the Dover district are as follows:

George J. Judkins, Presiding Elder, South Newmarket; Amesbury, G. W. Buland; Auburn, A. R. Lunt; Candia and Chester, W. H. Stuart; Derry, supplied by F. C. Pillsbury; Dover, C. E. Hall; East Kingston, A. McGregor; East Rochester, supplied H. H. French; East Salisbury, D. W. Downs; Epping, F. E. White; Exeter, J. W. Walker; Fremont and Danville, to be supplied; Great Falls—High Street Church, R. L. Green, Main Street, G. C. Noyes; Greenland, W. H. Jones; Hampton, J. F. Spaulding. Haverhill—Grace Church, supplied by F. K. Stratton; Wesley Church, J. McLaughlin. Kingston, E. C. Berry. Lawrence—Bodwell Street Mission, supplied by Wm. Ramsden; Garden Street Church, G. W. Norris; Haverhill Street Church, E. C. Bass. Londonderry, J. M. Bean; Merrimackport, C. H. Chase; Metheuen, G. S. Blaketel; Milton Mills and Union, J. P. Frye; Newmarket, C. B. Pitblado; North Salem, to be supplied; Portsmouth, J. E. Robins; Raymond, A. B. Carter; Rochester, Wm. Eakins; Salem, W. C. Bartlett; Salem, Pleasant Street, O. P. Wright; Sandown, to be supplied; Seabrook, G. W. Brozzell; South Newmarket, M. Howard; South Tamworth, J. T. Davis; Tuftonboro', Wolfeboro', Moultonville, Wakefield and Brookfield, J. H. Knott, and are to be supplied. C. H. Dunning, chaplain of Essex County House of Correction and member of the Garden Street, Lawrence, Quarterly Conference.

O. H. Jasper is presiding elder of the Claremont district, and M. T. Cilley of the Concord district. G. H. Hardy is sent to Gilford Village, and C. M. Dinsmore to Jefferson; Wm. A. Loyne is designated to supply the People's Mission in Manchester.

AROUND HOME.

Mr. A. Q. Wendell was on Monday reported to be dangerously ill.

A schooner commanded by Capt. Edward Jameson of this city, recently master of the schooner Christie Campbell, arrived at Gloucester on Sunday evening from a short trip to the banks, with 90, 000 lbs. of cod.

Portsmouth & Dover railroad stock sold at auction in Boston last week at 106 1-4. The Concord railroad, and the Manchester & Lawrence railroad, will each pay the usual semi-annual dividend of five per cent, May 1st.

We are informed that Mr. Henry W. Taylor is to be appointed superintendent of steam fire engines at the navy yard, in place of E. C. Nealley, late in charge; and that a Mr. Smith of Biddeford will take Mr. Taylor's place as machinist in the department of yards and docks.

The *Journal* of Lewiston, Me., says "Rumors are afloat that there is a prospect of the consolidation of the Eastern, Maine Central and European & North American railroads, thus making a through line from Boston to St. John, N. B., and the prospect of having the superintendency of the consolidated roads is what induced Superindent Tucker to decline the recent offer of the Northern Pacific."

The young ladies of the several religious societies of this city will hold a sale and supper at Franklin Hall on Thursday afternoon and evening of this week, the proceeds to be for the benefit the Children's Home.

The pupils of the Kittery high school are to give a dramatic entertainment in Trefethen hall at Kittery village on the evening of May first, at which time will be presented the drama entitled "Michael Earle: or, the Maniac Lover." The proceeds will be used in purchasing a botanical apparatus for the use of the school.

The announcement of Mr. Riddle's reading in another column sets forth a very attractive programme. The opportunity to hear selections from the Œdipus in the original is one that may never present itself again, and alone ought to insure a good house.

The *Army & Navy Register* says: "Mrs. Dodge, wife of Lieutenant Fred. L. Dodge, Twenty-third Infantry, left New York by the Lloyd steamer 'Neckar' on April 8th for a European tour. She will be absent until the last of July, and will rejoin her husband, who is on duty at the United States military prison at Fort Leavenworth, Kan., some time during next September. Their son Hubert is visiting the Misses Williams at their country-seat, 'Ranger's Lodge,' Harford county, Md., and will remain there until the return of Mrs. Dodge."

"Muldoon's Picnic" has "caught on" at the Howard Athenæum to such a degree that the house has been crowded to its utmost capacity all the week. On nearly every night the seats have been all sold by 7:45 o'clock, and by 8 it has been extremely difficult to obtain standing room with a view of the stage.—*Boston Globe.*

At Music hall to-morrow (Wednesday) evening. See advertisement.

Dr. William Perry, of Exeter, who is now ninety-four years of age, is with one exception the oldest graduate in years of Harvard college. He was born in Norton, Massachusetts, but has resided in Exeter since 1814.

THINGS ARE SELDOM WHAT THEY SEEM.

The hours were approaching midnight, while hanging low over the ocean the gray leaden clouds were swiftly scudding in before the chill easterly winds. The pale new moon struggled feebly to pierce the gathering pall and to afford a little light to the shivering stationer's clerk, who in hunter's garb slowly and noiselessly paced the piazza of the 'Lodge' at the point, solemnly determined to have the hide of the Mephitis Americana which had been so offensive to his olfactory senses since night came on.

Had he not that very day demonstrated to the merry party within his ability as a marksman? was not the woodchuck pelt, riddled with shot and nailed to the lobster car, proper evidence? Certainly. And hadn't it taken six men, including lawyer M—, to skin it? Certainly. And hadn't Frank promised not to disclose what part Emery's dog played in the dispatching of that woodchuck? Certainly. And could he not, if successful in this venture, dispel all doubts from the minds of the most skeptical of his friends respecting his gunning proclivities? Undoubedly.

Thus mentally reasoned our Market square friend as the sounds of mirth gradually died away within the domicile, and the quiet which he had been hoping for, was followed by a stillness that became oppressive. Hush! From the edge of the nearest cliff came noises like the suppressed crushing of egg shells, causing large-sized shivers to run down his spinal column, as he slightly retrograded to a safer position. At this juncture he was quite accidentally (as it were) joined by two of his companions from within, their attention at once being attracted by this peculiar and increasing noise waiting for the next flash of the light at Whalesback, they descried creeping along the edge of the rocky acclivity towards the house a huge black and white object apparently as large as a Newfoundland dog. It ought to be remarked here that the young man in hunting raiment had placed a saucer of milk in front of the steps, having read somewhere that skunks were particularly fond of lacteal fluid. Towards this the varmint was coming. The gunner, safely ensconced behind a friendly post, awaited the supreme moment now at hand. The reflection of a light from a window betrayed the intense excitement of the man—a nervous twitching at the corners of the mouth, firmer setting of the teeth, detension of the eyeballs, nervous grasping of his musket, showed all. Half imploring a comrade to have another gun ready in case his should miss fire, he quickly raises his gun, takes steady aim at the "critter," now not twelve feet away, and fires. Loud was the report, but louder than report, louder than the roar of the surf, louder than ten fog horns blowing in unison, were the shouts and roars of the five lusty men, who so quietly planned and carried into execution the little joke.

It only remains to say that an old overcoat done up in a Boston *Globe* and attached to a line running through a key hole in the front door, and which so was slowly drawn along the greensward was completely riddled, and rendered unfit for further use. Our young friend suddenly lost interest in further gunning, and before that moon waxed an hour older was speeding o'er the lee to Portsmouth.

JEAU.

I. O. O. F.

New Hampshire Lodge, No. 17, will have an entertainment at Odd Fellows hall, consisting of a picnic supper and dance, on Wednesday evening, April 26. Dancing to commence at 8 o'clock.

Per Order of Committee.

Five Swedes were drowned at Peekskill, N. Y., Friday, by the swamping of a boat. They were all temperate young men.

The pleasures of the table cease,
Whene'er the teeth begin to fail;
The beauties of the mouth decrease;
The breath's no more a spicy gale;
And all must soon in ruin lie,
Unless to SOZODONT we fly.

A Cough, Cold or Sore Throat
Should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan82

Auction Sales.

AUCTION SALE
— OF —
REAL ESTATE
IN GREENLAND, N. H.

THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on

Tuesday, April 25th,
At 11 o'clock in the forenoon, on the premises,

A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.

Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.

The house on said lot is a two-story building, measuring eighteen by thirty-six ft.

ALSO, AT 12:30 P. M.,

The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnecut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Whildden.

This tract of land has running water the entire year, and is regarded as the best and most valuable pasture in this vicinity.

The interest of the said Whiddens in said pasture will also be sold at the same time and place, if desired.

GILBERT A. MANN, Executor.

Carpet Sweepers, Clothes Wringers, etc.

J. P. SWEETSER, - - - - - - 46 Market Street.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Office, 251 Broadway, N. Y., and 43 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays. Boston, Wednesdays, Thursdays and Fridays, every other week. may15

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

FISTULA AND PILES.

WILLIAM READ, (M. D. Harvard 1848,) and ROBERT M. READ, (M. D. Harvard 1876,) have associated themselves together at 41 Somerset street, Boston, and give undivided attention to the treatment of Fistula, Piles, and all Diseases of the Rectum, without detention from business. Abundant references given. Correspondence answered. Offices hours—12 to 5 o'clock P. M. may10

The Chilians Amused.

A Washington despatch of April 21st says:

A private letter has been received here from one of the officers of the United States steamship Pensacola, who has been for some weeks at Santiago de Chili. It presents the Chilians as being greatly amused at the attitude of the United States government to-day. The letter states that the assertions which have been made in some American newspapers that the United States had no navy which could complete with the navy of Chili, and that Chili could send her iron-clads to San Francisco and bombard that place, have not only been copied in all the Chilian newspapers, but have also been the subject of many cartoons in the illustrated newspapers. The editorial comments in Chili are those of great glee, and the joy of the people there at the change in the policy begun by Secretary Blaine is open and avowed. The letter says that there is no doubt that Chili has been receiving moral support from England, and the writer asserts it as the general belief that England and Chili have come to some understanding respecting the isthmus canal. He declares that it is everywhere there believed that England intends to control the whole canal or a fair share in it. The officer says that in some way the Chilians are kept informed of the purposes of this government, and Mr. Trescott has been astonished to find that information which should have reached him first has been known to people in Chili before he himself had received it officially or privately.

How Often

We see some young man who has squandered his money and ruined his health by excesses, and before thirty years of age is an all broken down and played out man! In all such cases I prescribe nature's tonic and nervine, Sulphur Bitters. They supply food for the brain, strengthen the nerves, and are successful in nine cases out of ten.—*Old Physician.*

Trains on the Boston & Maine railroad commenced stopping at the new station known as Cummingsville, in South Berwick, on the 16th inst.

For tremulousness, wakefulness, dizziness, and lack of energy, a most valuable remedy is Brown's Iron Bitters.

The Underhill Edge Tool company are enlarging their factory at Nashua; 125 hands are employed, and 900 axes are turned out a day.

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

Gen. Fitz John Porter has addressed a letter to President Arthur requesting a remission of his sentence.

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

At Fall River, Mass., April 21st, Rev. Ralph Fothergill of the Primitive Methodist church died from small pox. At the same time four of his children were sick with the disease. He was an opponent to vaccination, and would allow neither himself nor his family to be vaccinated.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From Rev. Cincinnati Dispatch:
We have *seen* its magic effects, and *know* it to be a good article.

From I. S. Foster, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a priceless for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills may *often be saved* by prompt application of the Pain Killer. *Unlike* most *medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO.; Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.

Because they are genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will not even relieve.

Fifth.

Because over 7000 physicians and druggists have voluntarily certified that they are superior to all other plasters or medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

Benson's Capcine Porous Plaster!

Send for circulars to A. D. WORTHINGTON & CO., Hartford, Conn.

The American Popular Dictionary, $1.00

This useful and elegant volume is a complete Library and Encyclopædia, as well as the best Dictionary in the world, superbly bound in cloth and gilt. It contains the English language, with its true meaning, derivation, pronouncing and pronunciation and a vast amount of absolutely necessary information, Biography, Mythology, Biography, American History, etc., being a perfect library of reference. Webster's Dictionary sells for $10.00, and the American Popular Dictionary, Webster's Unabridged, for twenty times the money—$20.00. Both books have never been in equal, either in price, finish or contents. The Advertiser, in purchasing Dictionary and library of reference, chose Webster's Dictionary, and the American Popular Dictionary (illustrated, see cut), and for most books recently published, post-paid to any address on receipt of $1.00, or satisfaction guaranteed. Two copies postpaid $2. Order at once. This offer is good for 60 days, and will not be repeated. Six copies for Five Dollars. Get up a club your friends to join with you and you get your own book free.

World Manufacturing Co., 120 Nassau St., New York.

Our readers will find this wonderful book the cheapest Dictionary published. The information it contains is worth many times the amount asked for it, and it should be in the possession of everybody. With this book in the library for reference, many other much more expensive works can be dispensed with, and ignorance of his country, history, business, laws, etc., is inexcusable in any man. Note the price, $1, post-paid.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in impact of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are peculiarly subject to many of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where pounds of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR,

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered Free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2333.

$30 PER WEEK can be made in any locality. Something entirely new for agents. Sample free. G. W. Ingraham & Co., Boston, Mass. may1

Daily Chronicle.

Origin of the Tomato.

A good many years ago a scamp who arrived from the Bermuda islands, was sent to the New York county (Pennsylvania) jail, for some offence committed against the laws of the commonwealth. He had with him a few seeds which he planted in the rich soil of the jail yard. Before the plants which sprang from the seed matured he was discharged, and no one knew the name of them. They grew luxuriantly, bearing fruit of a large size and unusual appearance. As this strange fruit ripened, its color changed from green to a brilliant red, and became an object of wonder and admiration to all the inmates of the jail. Mrs. Klinefelter, the lady keeper, cautioned all the prisoners against eating any of the fruit, as she was sure it was poisonous, and besides that, she had promised the man who had planted the seed that she would endeavor to preserve specimens of it for him should he return in time. Just when the fruit was fully matured the Bermuda prisoner revisited the jail and asked to see the plant. This request was granted, he next called for pepper and salt, and to the horror of the good lady commenced to eat of the supposed poisonous fruit with a relish that astonished the beholders. After enjoying the strange repast, he informed Mrs. Klinefelter that the fruit or vegetable was the tomato, or love apple, and it would be found wholesome and nutritious. The seeds of the remaining tomatoes were carefully preserved and distributed among the friends and neighbors of the lady, and thus this now popular esculent was introduced into the ancient and goodly borough of York. For many years thereafter it was cultivated as an ornament rather than for table use, but by degrees its merits began to be more fully understood and appreciated, and there as elsewhere, it grew into public favor.—*American Grocer.*

"Rough on Rats."

Clears out rats, mice, roaches, flies, ants, bed-bugs, skunks, chipmunks, gophers. 15c. Druggists.

"Buchupalba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists. Depot. J. H. Thacher's.

—"How do they say 'pig' in German?" asked an Englishman of an American, as the vessel neared Antwerp. "You needn't say anything," replied the American; "you will be recognized without explanation."

There is a Balm in Gilead.

The success which has marked the introduction of Cream Balm, a catarrh remedy, prepared by Ely Bros., Owego, N. Y., is indeed marvelous. Many persons in Pittston and vicinity are using it with most satisfactory results. A lady down town is recovering the sense of smell, which she had not enjoyed for fifteen years, through the use of the Balm. She had given up her case as incurable. Mr. Barber, the druggist, has used it in his family and commends it very highly. In another column a young Tunkhannock lawyer, known to many of our readers, testifies that he was cured of partial deafness. It is certainly a very efficacious remedy.—*Pittston, Pa., Gazette,* Aug. 15, 1879.

Price fifty cents.

—A pretty school girl of Norwich married a journeyman tanner, a German immigrant, some weeks ago, unbeknown to her parents, and kept the fact a secret until her mother found the marriage certificate and told the bride's father. The latter individual went hunting for his son-in-law with a shot-gun, whereupon the young people fled the neighborhood. The funny part of the story is that the parents of the bride attended the wedding under the supposition that it was merely a birth-day party.

"Pinafore" never goes to sea without a good supply of that famous remedy, Adamson's Botanic Balsam, for coughs and colds. Trial bottles, 10 cts.

—If one can't be wholly good he ought to be as good as he can be without too great inconvenience. "I stoled your money," wrote a thief to his employer. "Remorse naws my conshence and I sent some of it back. When remorse naws agin I will send some more."

"When I publicly testified that I had been cured of a terrible skin humor by Cuticura Remedies, I did so that others might be cured, and do not regret the time given to answering inquiries."—Hon. Wm. Taylor, Boston.

—A Washington pension agent was almost paralyzed with astonishment the other day when he found a veteran of the late war who had sustained a permanent injury while in the army, and had not applied for a pension. The veteran had cut an artery in his wrist while opening a bottle of whiskey stolen from the colonel's headquarters, and he said he didn't know a wound of that character entitled him to a pension. The agent soon convinced him of his error, and in a few days he will receive $2,800 back pension, minus $1,100 pocketed by the agent.

Catarrh.

Relief in five minutes in every case; gratifying, wholesome relief beyond a money value. Cure begins from first application, and is rapid, radical and permanent. Ask for Sanford's Radical Cure. Complete for $1.

—The Texas *Christian Advocate* says that thousands of good men are spoiled by marrying the wrong woman. The woman who marries thousands of good men must be very wrong, and no wonder the good men are spoiled.

Parlor Decoration.

Horse-shoe, painted plaque and Sunflowers have each in its turn been the popular parlor ornament, but are now superceded by the Tamborine, which when tastefully decorated is very ornamental. For fifteen cents the Wheat Bitters Co., 19 Park Place, New York, will send free a beautifully decorated Tamborine.

—Uncle Eb entered the house of an ancient maiden lady—"staid, tidy, and discreet"—without wiping his feet. The offended spinster exclaimed, "Did you not observe the scraper at the door, sir?" "Yes'm," said Uncle Eb, "and I intend to use it when I go out."

Composed of the best known tonics, iron and cinchona, with well known aromatics, is Brown's Iron Bitters. It cures indigestion, and all kindred troubles.

—Oscar Wilde fell ill upon his arrival in Leadville, the change from a low to a high altitude being too much for him. Mr. Wilde says he doesn't like Denver, because the young men in the streets called out as he was riding by: "Oscar! Oscar, dear! put out your head and let us see you."

Mr. Clif. P. Kennedy, general passenger agent of the L., N., & Chicago railway, Louisville, Ky., says: "Those who are suffering from rheumatism and general bodily ailments coming from diseases of a similar nature, should use St. Jacobs Oil. I was cured of a case of rheumatism of twenty years standing by St. Jacobs Oil, after everything else had failed."

—A bell weighing 2000 pounds was smuggled into the tower of Plymouth church, Lansing, Mich., a few days ago, and the people thereabouts knew nothing of it until they were startled by its ringing for service.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftines dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequent by the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

Operates with Energy upon the Kidneys, Liver, Bowels, and Pores of the Skin, Neutralizing, Absorbing, and Expelling Scrofulous Cancerous, and Cankerous

HUMORS,

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any patent published by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1878.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1860, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the agencies in New York; Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

HOPEDALE, Mass., January 1, 1882. 13 tawlyr

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence, causing Premature Decay, Nervous Debility, Lost Manhood etc., having tried in vain every known remedy, has discovered a simple remedy, which he will SEND FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y. eod&wtyr

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

The revised edition of the "Satchel Guide to Europe" for 1882 will be ready about the first of May. The Guide is a most admirable hand-book for the vacation tourist abroad, and its popularity increases from year to year.

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material, than all other forms of malt or medicine, while free from the objections urged against malt liquors.

Portsmouth Chronicle.

WEDNESDAY, APRIL 26, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

New Hampshire Items.

J. C. Aiken, formerly superintendent of John O. Ray's farm in Dunbarton, was found dead in a haymow in the barn on the 25th inst., with his throat cut. He had been missing since March 19th. He was forty years old, and is supposed to have committed suicide from disappointment in love.

The house and farm buildings of Thomas B. Hall, in Milford, were entirely destroyed by fire Sunday afternoon. Loss $1500; insured $1000, on house, barn and furniture.

Naval Affairs.

The house naval committee has agreed to favorably report the bill to restore Commander Henry B. Seely to his former position on the register.

The frigate Hartford, now undergoing repairs at the navy yard, Boston, is under orders to be ready for sea by June 1st next. The sloop Juniata, now in the dry dock at New York, will be the next vessel put in commission, after which the frigate Trenton, at the same yard, will receive the attention of the naval constructors.

News and Notes.

The celebrated Bon Marche, which is the Jordan & Marsh of Paris, is advertising its establishment extensively in the United States through S. R. Niles of Boston. If its pays for a Parisian dry-goods store to advertise in the United States for the American trade which goes to Paris, it perhaps would be safe to guess that the American merchant could protect his own trade by a liberal amount of advertising.

Ralph Waldo Emerson is very ill with pneumonia at his home in Concord, Mass.

The steamer City of Sanford was burned on the St. John's river, about five miles above Jacksonville, Fla., at four o'clock Monday morning, and became a total loss, with her contents; nine lives were lost, and probably more; three ladies were among those who perished.

The trial of Dora Avery, charged with poisoning five other inmates of a house of ill-fame, kept by a woman named Mrs. Turner, was begun in Providence, R. I., Monday. The alleged crime was committed last February.

Mrs. Edward Murphy of Portland, Conn., is in trouble because, when in a state of intoxication on Thursday night last she, put a bullet in her husband's thigh.

A. B. Taylor of Gardiner, Me., an employe of the Maine Central railroad, engaged in shackling cars at the Maine Central depot in Bangor, Monday, slipped under the cars and both legs were crushed. His recovery is doubtful.

Jeremiah Mahoney was killed at the mill of Hodgkins, Hall & Co. in Bangor, Me., on Monday. A plank from the edging machine was thrown about 150 feet and struck Mahoney, fracturing his skull and cutting his throat. Deceased was about thirty-eight years of age, and unmarried.

A serious shooting affray, resulting in the death of one person, took place in Sandgate, Vt., on the 19th inst. It seems a difficulty arose between a party of gypsies and two families named Whitten and Williams. One of the Whittens was killed, and a gypsy was mortally wounded.

The Lewiston, Me., *Journal* says it is somewhat curious that Minot's political summersault has not previously been noted. It was formerly the abode of T. B. Swan, and a nest of fusionism; but at the March election not a democratic or a greenback vote was cast in the whole town. Every officer is now republican.

The light of the American Electric Light Co., of Massachusetts, has gone out; the concern has "busted."

A terrible cyclone swept through Mississippi, Alabama, Georgia and North Carolina on Saturday; its track was very narrow, but very little was left in it, trees, fences and buildings being made into kindling wood in an instant; thirty lives are reported lost, and the number is probably much greater.

AROUND HOME.

The Exeter correspondent of the Dover *Democrat* says the Muldoon Picnic company played in Exeter last Saturday evening to a full house, and gave "an excellent entertainment, much better than the general run of Exeter shows."

The next session of the Rockingham County Temperance association will be held in South Newmarket, May 4th.

Mr. Henry Beane, of Newington, has purchased the old Foye place at Woodman's point, and Mr. G. W. Pickering has bought the house on the place of Mr. Beane, and will move it to the Brackett lot, so-called, on the line of the Portsmouth & Dover railroad.

The steamer Mystic towed the Gangway rock sloop, with a load of stone taken from the ledge, to John Neal's wharf in Kittery on Tuesday afternoon of this week.

The trustees of the Free Library association of Kennebunk have received from Hon. Stillman B. Allen, of Boston, a gift of Thackery's works in twenty volumes.

On Friday morning of last week Mr. Joseph W. Call of Kittery, mate of the schooner H. Prescott, lying in Pepperell's cove, in attempting to get into the schooner's boat, which was alongside, to go on shore for Capt. Dorr, fell overboard, and being encumbered with heavy clothing and sea boots, had a hard struggle to regain the boat. After getting on board he found that he had lost his watch, which he prized highly on account of its having been a gift from his father, who died a few years since; and divesting himself of his clothing he went down again, and was fortunate enough to recover the keepsake. He was seen by people on shore, who thought a man must be insane who would want to go in swimming on such a morning, after having once been involuntarily ducked.

Francis Winn, a well-known cattle driver of Shapleigh, went to Biddeford several days ago and put up at a hotel. He afterward took his team and rode out into the country, and has not been seen since. About one o'clock the next morning his horse came into the yard of Irving Cleaves, in Kennebunkport, but all efforts to find Mr. Winn have so far proved unavailing.

A water bicycle is the latest thing for aquatic sports. Russ B. Walker of Boston, who has a fine cottage at Fortune's Rocks, owns one, and this season his portly form will be seen plowing the briny, astride of the "Masheen."—*Biddeford Journal.*

"SILLY FARCES."

Mr. Editor: The following amusing conglomeration of adjectives, misrepresentation, italics and self conceit, which I some days ago clipped from a communication in the *Times* headed "Silly farces" and signed "Truth," seems to me worthy of being handed down to future ages as a literary curiosity:

"B.", in his article, publicly, under an assumed name, made a *cowardly, malicious, cowardly* attack, upon one who, he has confessed, is a gentleman. Such a method of attack may be *safe*, but it is not honorable. If "B." has any grievance let him state it openly. Mr. Harriman did not write the article signed "Truth," and no one thought he did. I shall enter into no newspaper controversy with "B.", for my purpose is accomplished.

As "Truth" has crawled into a hole and hauled the hole in after him, it would be ungenerous in me to throw a brick at the place he formerly occupied; so I will merely set him right on a couple of points wherein he errs.

In the first place, my friend "Truth," though he undoubtedly knows a great deal, is hardly competent to answer for the thoughts of all the people of Portsmouth, as he assumes to do. Some people did think Mr. Harriman "wrote the [first] article signed 'Truth,'" and said so; I thought he did not, and said so; from the vealy flavor of the article I should rather have supposed it to be the production of some immature youth who might perhaps be employed to sweep the floor and dust the furniture in a lawyer's office, but certainly could not be a lawyer.

"Truth" also wastes his adjectives and italics in defending the county solicitor, who was not attacked. The grand jurors published a card thanking the solicitor "for the uniform courtesy and kindness with which he has directed us,"—as though the grand jury was an infant class liable to be spanked into due submission, instead of a body of men above and beyond the "directing" power of anybody. If to call this act of the grand jurors "a silly farce" is to attack the county solicitor, then I again make that attack.

"Truth" further says:

I may not be a gentleman, when measured by "B.'s" standard, but I doubt if he is capable to judge what the qualifications of a gentleman are. If to deny false, cowardly, malicious innuendoes, written against a friend, be ungentlemanly, then I am no gentleman.

Why he should make this latter growl is more than I can understand, for I have certainly not charged him with being a gentleman; I should as soon think of accusing him of possessing the ability to understand plainly-written English. B.

MARRIED.

JOHNSON—WOODBURY. In North Berwick, Me., April 9th, Francis Johnson and Mrs. Lydia Woodbury.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Further information and applications furnished by

C. M. GIGNOUX

For the States of Maine and New Hampshire.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of 100 per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00.—*no assessments.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in pending the tunnel. For further particulars enquire of

POLICE COURT.

TUESDAY, Apr. 25; *Batchelder J.*

Frank Oates was brought before the court in the morning on a charge of drunkenness; as he still had a "bad head" from his performance of the night before, he was locked up until afternoon, when he was allowed to depart on his promise to abstain from Portsmouth whiskey in future.

SUPREME COURT--CARPENTER J.

MONDAY, April 24th.

The following is a list of the jurors returned to serve for the third and subsequent weeks:

George L. Ilsley, Izaak A. Browne, Exeter; Meshech Bell, Marcus M. Collis, Charles H. Clough, John H. Downing, Jabez Dodge, Portsmouth; Edward I. Blodgett, John F. Gill, Kensington; Paul Aunt, John B. Hanson, Kingston; William Butterworth, Andrew J. Benson, Londonderry; Alexander Amazeen, Rufus A. Preble, Jr., Newcastle; Frank L. Whidden, William H. Badger, Newington; George W. Hoitt, Enoch Seavey, Newton; Thomas I. Batchelder, John L. Smith, North Hampton; Holland P. Montgomery, Samuel N. Towle, Northwood; William F. Holmes, Harrison March, Nottingham; James M. Quimby, William Hazeltine, Plaistow; Edward S. Healey, Bartlett O. Tilton, Raymond.

The case of Luella Brown vs. Town of Deerfield was commenced on Monday morning. Action to recover damages for an injury to plaintiff resulting from an alleged defect in the highway, in the month of February, 1881. The case was opened for the plaintiff by Judge Wiggin, and from his statement it appeared that the plaintiff was riding in a sleigh with her husband on the highway in question, and they encountered a soft place in the snow, variously called a "pitch hole," a "cradle-hole" or a "thank-you-marm." The sleigh banged into it, and the plaintiff was thrown violently against the front and bottom of the sleigh, causing severe internal injuries. A dozen or so witnesses were examined to prove the condition of the road and the injuries to the plaintiff. The testimony was all of a high character, and one witness was especially intelligent. His examination was something like this:

Astute Counsellor. "Now tell the jury how deep this hole where the accident occurred was when you saw it?"

Intelligent Witness. "Saw what?"
A. C. "Saw the hole."
I. W. "When?"
A. C. "At the time of the accident."
I. W. "How deep?"
A. C. "Yes," expectantly.
I. W. "Couldn't tell; didn't measure it."
A. C. "Well, was it a foot deep?"
I. W. "Might been and might not."
A. C. "Was it an inch deep?"
I. W. "Might been and might not."
A. C. "Was there a hole there?" despairingly.
I. W. "Might been and might not."

The case was given to the jury on Tuesday, after which a jury was empannelled in the Ingalls case, which will occupy the rest of the week.

THE FREE PUBLIC LIBRARY.

The new rooms of the public library are convenient and attractive, and are frequently visited by persons interested in the success of this important element of our social improvement.

The great demand for books, seen for example on a Saturday evening when two hundred and fifty volumes are issued, shows the need of an increased library, which should be the outgrowth of the present institution, to the care and development of which some of our generous well wishers devote no small amount of time and labor. But what is needed is money to purchase new books. The librarian informs us that works of a mechanical and scientific character, books which instruct, and gratify an advanced degree of taste, are frequently asked for. A generous patron has recently presented a set of Chamber's Cyclopædia, and now is required a discriminating outlay for standard and mechanical works.

What is needed is money. This can be acquired by a timely donation just at this time; while the purchase of tickets for the interesting lecture upon Castelar, the leader of the Spanish liberal party, to be given at Franklin theatre on Tuesday evening of next week at eight o'clock, is one of the modes by which addition to the means of the library can be secured. There is every incentive for this good work. The library will grow if every one shows a proper degree of interest in its welfare, and let us hope that Tuesday evening will give evidence of the appreciation of the good results of such an institution.

ANOTHER BITE.

In the CHRONICLE of Saturday last we reported an attack made by a dog the previous day upon Miss Edith Wendell, as she was leaving a house on Daniel street where she had been making a call.

On Tuesday afternoon of this week two young ladies (one of them being Miss Foster, grand-daughter of Mr. Samuel W. Moses) made a visit at the same house, and as they were leaving it the same dog—a large, black animal of the Newfoundland breed—sprang upon them, and bit Miss Foster on the cheek with such force as to draw blood, besides tearing her clothing.

Tuesday evening we were told that the owner of the dog, Mr. D. M. Lenigan, had promised that he should be killed.

A BAD PRECEDENT.

Under the above heading the *Times* of Monday evening says:

It is rumored about town to-day, that the people of Rye will hold a meeting to see if the town will not vote to exempt from taxation such buildings as Mrs. J. C. Philbrick & Son of the Farragut house may rebuild, if they will commence operations this spring. For the tax payers of Rye, we hope that no such precedent will be established. Its effects are much deplored by the tax-payers in this city, where several industries have been exempted.

There are two sides to every question; and in this matter of the exemption of property from taxation, the arguments advanced by either side seem conclusive until the other side is heard.

The opponents of exemption urge that an enterprise which needs coddling by the city or town to enable it to live, can be of no practical value to the community in which it is situated; if it cannot support itself, it cannot aid much in advancing the prosperity of the municipality. Further, they point out that the exempted property must have the streets in its vicinity attended to, and be protected by the police and fire departments, etc., just the same as though it paid taxes; and they claim that it is unjust to tax the owners of other property to pay for the protection of the taxed property.

On the other hand, the advocates of the exemption of proposed business enterprises from taxation for a term of years, as a means of inducing the inauguration of such enterprises, argue that such exemption may enable a manufacturing venture which can barely struggle along at first, to establish itself on a firm basis—may make just the difference between an unsuccessful venture and a permanent success; that even tho' the exempted business pays no direct tax, it helps very materially, if indirectly, to support the place in which it is located, by giving employment to persons who do pay taxes direct and indirect; and that the argument about the injustice of protecting the exempted property at the expense of that which is taxed is specious, as the taxed property must be protected in any event, and the exemption of new property adds nothing to the expense of protecting the old.

But the strongest argument of the exemptionists is put something in this way: Is it better for us to exempt this proposed enterprise from taxation for ten years, and have it established here, or refuse to exempt it, and have it go somewhere else; in the former case we shall get no taxes from it for ten years, but it will aid our working population to live, and after the ten years expire we can tax it; in the latter case we shall get no taxes from it for ten years, nor afterward, and it will aid no one, now or at any other time.

The only question properly to be considered in this connection is this: Will the proposed exemption in the end result to the benefit of the community? If this question is answered in the affirmative, exemption is all right; if in the negative, exemption is all wrong; and each will be apt to answer it for himself.

Capt. Frank P. Cram has been appointed by Sheriff Kent to take charge of the Exeter jail after June 1st, in place of T. B. Hoyt, the present jailor.

On Monday evening Mr. Andrew J. Smith got into a boat at the wharf of Goodrich's tan-yard, and standing up in the stern pulled off from the wharf with one oar, the boat going stern foremost. A line which Mr. Smith had not noticed was fast at both ends, one end to the wharf and the other to the boat, and when it came taut he went backward over the stern in a hurry. Mr. Smith is unable to swim, but was fortunate enough to get hold of the boat on coming up, otherwise he would quite likely have been drowned.

Seven small boats came in on Tuesday with large fares of fish. David Slaney's fare, 1600 lbs., and Isaac Printham's, 1000 lbs., were bought by George Herbert. John Hall came in from the Shoals on Tuesday with 450 lobsters, which were bought by C. Sullivan & Co.

The supreme court of the United States has given a decision in favor of the First National bank of this city against the city of Ottawa, which case was carried by the city on a writ of error from the circuit court of the United States for the northern district of Illinois to the supreme court. The question as the validity of certain bonds was decided in favor of the bank by the circuit court, and this judgment is now affirmed by the supreme court, with interest and costs. The debt was the bonds of the city issued in aid of the construction of a dam by which the water of the Illinois river at Ottawa was made available for manufacturing purposes.

Mr. John A. Peterson, who has been for some time employed with his gondola on the Merrimac river in transporting stone for the Newburyport jetties, has sold the gondola to the owner of the quarries from which the stone is being procured. Mr. Peterson has bought the old gondola of Capt. Cheney, used by the latter before his new one was built.

The government engineers have examined Little Harbor with a view to see if the channel can be deepened so as to permit steamers and yachts to approach the Wentworth.

Mr. C. Berrer, attached to Gen. Thom's office, is engaged in surveying Goat island ledge, otherwise known as Pull-and-be-d——d point.

Mr. B. A. Kimball of Concord has nearly completed his new seaside residence at Straw's point, Rye.

The Newburyport *Herald* of Monday had the following item concerning the Eastern railroad: "The estimated cost of the Eastern railroad addition from this city to Portsmouth, by way of the beaches, is about one million dollars."

The steamer Reading arrived from Philadelphia on Tuesday, with 1663 tons of coal to J. Albert Walker.

Capt. Watson's gondola brought down from Newmarket on the 23d inst. a lot of logs, and landed them on the Aqueduct Co.'s wharf at the south end.

In the superior court at Boston, in the case Patrick Conlon vs. Eastern Railroad company, action to recover damages for injuries received by plaintiff by the fall of a derrick while plaintiff was in the employ of the defendant road, he alleging carelessness in the construction of the derrick, the defence being a general denial, the verdict gave $3150 for the plaintiff.

It was a very large audience that at the Howard Athenæum last evening, and the Barry & Fay comedy company added another to its list of Boston successes. "Muldoon's Picnic," with Barry and Fay in their immitable and fairly perfect Irish impersonations, was, as usual, received with abundant laughter and applause, and persons desiring to laugh until tears roll down their cheeks have only to see Mr. Muldoon and family going to the picnic.—*Boston Herald.*

This company will appear at Music hall this evening. The "picnic" is preceded by a short olio, in which a number of noted specialists appear, including some remarkable acrobats.

I. O. O. F.

New Hampshire Lodge, No. 17, will have an entertainment at Odd Fellows hall, consisting of a picnic supper and dance, on Wednesday evening, April 26. Dancing to commence at 8 o'clock.

Per Order of Committee.

Oak Hall Agency in Portsmouth.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

He Had Faith Among Doubters.

Samuel E. Palmer, a young employee in the Gents' Furnishing Store of T. Miller, No. 355 Sixth ave., New York City, has invested regularly in the Drawings of The Louisiana State Lottery by sending to M. A. Dauphin, New Orleans, La. He failed to get a ticket in the February drawing, as he sent too late, but received one in the March distribution. He was laughed by his friends, but he offered to bet $1.0 that he would some day win a large prize. Sure enough he found that his was a half of ticket No. 6?68, which had drawn $5,000. He collected it through Adams Express Company, and as he has frequently drawn small prizes of $20 and $10 before, will send in time for May 9th, to be in the next drawing under the special supervision of Gen'ls G. T. Beauregard of La., and Jubal A. Early of Va., as usual.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfect y safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan22

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 13 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. may15

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS. THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the stress of every day work and life, and in order to avert sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. They take in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be compounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

WHEAT BITTERS CO., N. Y.

FISTULA and PILES.

WILLIAM READ, (M. D. Harvard 1842,) and ROBERT M. READ, (M. D. Harvard 1876,) have associated themselves together at 41 Somerset street, Boston, and give especial attention to the treatment of Fistula, Piles, and all Diseases of the Rectum, without detention from business. Abundant reference given. Correspondence answered. Offices hours—12 to 5 o'clock P. M. tmy10

Books, Magazines, Etc.

Mr. M. M. Ballou, whose "Treasury of Thought" and "Pearls of Thought" have found a place in many libraries and homes as valuable works of reference and consultation, has now prepared a collection of "Notable Thoughts about Women," which Houghton, Mifflin & Co., will publish this month. Mr. G. P. Lathrop's new novel, "An Echo of Passion," which will be published by Houghton, Mifflin & Co. this week, will have a unique cover designed by his artist brother, Mr. Francis Lathrop of New York.

"American Classics for Schools: Hawthorne." This is an interesting little book designed to make pupils familiar with the writings of one of our most attractive literary men. It has a brief account of Mr. Hawthorne, and extracts from several of his books. The frontispiece is a good likeness of the author of the books from scenes narrated in which are several illustrations, the whole making a neat and attractive little volume of nearly a hundred pages. The series are published by Houghton, Mifflin & Co., of Boston, and sold at sixty cents per copy by W. G. Myers in this city.

The May number of the "Eclectic Magazine" is full of good things, and opens with a new novel by the author of "The Wreck of the Grosvenor;" the title of the story is "The Lady Maud," and it promises to be a fascinating tale of sea adventure, and will be read with interest by those who have admired the other story. The remaining contents of the number are as follows: "The Yellowstone Geysers," by Francis Francis; "Living Death-Germs;" "Jane Austen;" "Sunset with Clouds," a poem; "The Revised Version and its Assailants," by F. W. Farrar, D. D.; "The Geological Influences which have Affected British History," by Dr. Archibald Geikie; "Dutch Etiquette;" "Admiration;" "Hetty," by Joseph Mackay; "The Great Discovery at Thebes," by W. J. Loftie, A. M.; "Monkeys," by Alfred Russell Wallace; "Western Wanderings: the Newest American Railroad;" "The Sleeper," by James Thompson; "The Decay of Criticism," by Professor Grant Allen; a timely paper, "Bishop Berkeley;" "The Vistas of the Past: the Moon and the Earth," by Richard A. Proctor; literary notices; foreign literary notes; science and art; and miscellany. Published by E. R. Pelton, No. 25 Bond street, New York. Terms, $5 per year; single copy, forty-five cents; trial subscription for three months, $1.

A sure cure for impoverished blood, pimples, and sallow complexion, is Brown's Iron Bitters. It will produce a healthy color, smooth skin, and is absolutely not injurious.

—"What good deed have you done today, Johnny?" said a benevolent father to his heir. "I gave a poor boy a cent, papa," was the good child's answer. "An! that was right. And why, my son, did you give him the cent?" "I gave it to him dear papa, for a good three-cent stamp that he thought was only a piece of green paper."

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Polter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharper, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It relieves pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.* Its success is *entirely* based on its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued than *ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever or Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing it thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.
Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered, powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effect.

Second.
Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.
Because they are the only plasters that relieve pain at once.

Fourth.
Because they will positively cure diseases which other remedies will not even relieve.

Fifth.
Because over 7000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.
Because the manufacturers have received the only medals ever given for porous plasters.

Benson's Capcine Porous Plaster!

SEABURY & JOHNSON,
Manufacturing Chemists, New York.

A SURE REMEDY AT LAST. Price 25cts.

The American Popular Dictionary, $1.00

This model and abridgment volume is a complete Library and Encyclopædia, as well as the best Dictionary in the world. Supplies the place of ten books. Gives in clear and concise language, the full meaning, derivation, pronunciation, pronunciation and a vast amount of absolutely necessary information upon science, Mythology, Biography, Ancient History, Laws, etc., being a perfect Encyclopædia. Worth ten times the money. Webster's Dictionary cost $18, and American Popular Dictionary $1, which ten times the money. Webster's Dictionary cost $18, and American Popular Dictionary $1, which ten times the money. "We have never seen its equal either in price, finish or contents." Boston Commercial Bulletin. "Decidedly the best and cheapest." Boston Times. New York Sun. "The copy of the American Popular Dictionary (illustrated), the greatest and best book ever published, post-paid to any address on receipt of $1.00." Dry Goods Chronicle. Trade copies postpaid $2. Order at once. This offer is good for 60 days only, and will never be made again. Six copies for FIVE Dollars. Get up a club among your friends to send with you and you will be astonished at the result. World Manufacturing Co., 120 Nassau St., New York.

Our readers will find this wonderful book the cheapest Dictionary published. The information it contains is worth many times the amount asked for it, and it should be in the possession of everybody. With this book in the library for reference, many other much more expensive works can be dispensed with, and ignorance of his country, history, business, laws, etc., is inexcusable in any man. Note the price, $1, post-paid.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. Nature in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who utilize, or are liable to utilize, from Biliousness, kidney complaints and Constipation of the bowels, and for women who are peculiarly subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indigestion or pimples in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The cause of prevention may be had where cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own bitter, combined and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instantaneous in its action, you does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR.

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2833.

$30 PER WEEK can be made in any locality. Something entirely new for agents. $5 outfit free. G. W. Ingraham & Co., Boston, Mass. tmy1

From the Cradle to the Grave.—A large elegant page, illustrated Circular & family with graphic sketch of his life, sent free on the one heavy plan. The family prospectus contains the secret plan. Sing Service Co., $6 per hundred.—200,000 sold in New York and Brooklyn in two weeks. N. Y. Bibbery Co., Publishers, 33 Barclay street, N. Y.—Agents wanted everywhere.

Daily Chronicle.

The Ohio Liquor War.

The liquor men of Ohio appear to have entered upon a war of extermination against every man and every interest that opposes free whiskey. Their latest point of attack is the Cincinnati Southern railroad, and their grievance is that its president, Hon. Theodore Cook, favored the Sunday-closing bill which the legislature passed at its recent session. One prominent brewer is reported in the Cincinnati *Enquirer* as saying that the whiskey men, the brewers, the maltsters, the cigar and tobacco men intend to withdraw their patronage from the Southern railroad, and not ship a pound of freight over that route that can be sent to its destination in any other way. Mr. Cook, who is a prominent democrat, when questioned on the subject said: "This coercion business will not win. If such a statement were published, I believe it would have a contrary effect to what the brewers wish. It would intensify the feeling against Sunday desecration, and those who think as I do upon the subject would indignantly repel any attempt to bulldoze them into concession."

Briefs to Know.

Plant peas as soon as you can. A little frost does not injure them.

To have fine roses the soil must be thoroughly enriched. Dig deep.

In this latitude it is not safe to set in the open ground tender plants that have been wintered in the house before the 20th of May.

The soil of flower beds must be fine and rich in humus.

Do not uncover the strawberries too early. They will bear protection in spring and ripen their fruit as soon as those exposed to the sun.

Pear trees will endure a goodly quantity of ashes and cinders at their roots. The sweepings of the blacksmith shop are excellent.

Never bruise the bark of the cherry tree.

After coloring, currants will hang on the bushes a month and improve all the time. But for jelly pick as soon as colored.—*Agricultural paper.*

Plowed-In Potatoes.

One of the *Homestead's* subscribers gave us an account of an experiment that he made last season in potato culture, and which he mentioned to confirm the claim of some as to the advantage to be derived from deep plowing of potatoes. In the experiment, the field used was a greensward, a portion of which was first plowed and manured on the surface with stable manure and harrowed in. It was then lightly furrowed and some standard commercial fertilizer dropped, and the potatoes planted. The remaining portion of this field was first manured with the same quantity and quality of barnyard manure as used on the other portion; three furrows turned over, the potatoes dropped in the last furrow made, and which was covered by the next bout of the team and plow. Three or four furrows next followed, then another row of potatoes dropped and covered by the plow, and so on until the job was completed. This portion of the field received, nor did it require, but a small amount of labor or expense in its cultivation, as compared with the other portion, yet the yield, we are informed, was eight times as large as the other portion.—*N. E. Homestead.*

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1. Depot, J. H. Thacher's.

Don't Die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

"The country is prosperous without a commercial marine or a navy," remarks one of the rural solons at the national capital. There are men who are hearty, rich and prosperous, with but one eye and only half an outfit of legs. Still there is a prejudice in favor of two eyes and a full complement of limbs.

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

Henry James, Jr., has minutely revised his novel of "Roderick Hudson," and the new edition, which is nearly ready for publication, will contain a large number of verbal alterations. Several passages have been entirely rewritten.

A sure cure for impoverished blood, pimples, and sallow complexion, is Brown's Iron Bitters. It will produce a healthy color, smooth skin, and is absolutely not injurious.

Efforts are being made by Governor Hamilton, of Maryland, to annul the marriage between his daughter Clare and her husband John Stanhope. The marriage was a clandestine one and took place last summer.

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

Residents near Brimstone hill are complaining because the light removed from Randall's corner of State and Pleasant streets, which the committee on street lights were empowered to set up in the vicinity of Brimstone hill, is not yet in place.

My Family Doctor

For the last two years has been Sulphur Bitters, and until I began using them in my family we had more or less sickness, and our doctor's bill had been very large. Since we began their use we have had no doctor to pay, and three dollars invested in Sulphur Bitters has kept health in our family.—*E. Knott, Postmaster, Waverly, Iowa.*

A letter from a person on board the Lancaster reports that George O'Donnell, who went out from this city as second class fireman, has been promoted to first class.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

Sponges, Chamois Skins and WHIPS

at reasonable prices at

JOHN S. TILTON'S

Harness Maker and Trunk Repairer, 18½ Congress Street.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week'y invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y.

eod&wtys

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Mrs. Clarissa Raymond of Wilton, Conn., reached her 100th birthday on Tuesday, April 26th. The lady, who was born six years after the declaration of independence was signed, is now as hale and hearty as most women at seventy.

Composed of the best known tonics, iron and cinchona, with well known aromatics, is Brown's Iron Bitters. It cures indigestion, and all kindred troubles.

Portsmouth Chronicle.

THURSDAY, APRIL 27, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Sale of the Charlestown Navy Yard.

The question of the sale of this property seems to have become one of economy. On the one side are found the mercantile interests of Boston seeking to have utilized a tract of land with water front which the export trade of New England must have if it competes at all successfully with New York; on the other is the protest of the foremen and a few office holders in and around the yard, who think everything should be shaped for their own convenience.

The proposition offers a golden opportunity for Boston. Had Portsmouth any such opportunity to exchange its navy yard with the small sums niggardly doled out for the labor of our mechanics and workmen, for the splendid opportunity presented to Boston to increase its business and give permanency to its importance as a commercial port by the exchange of an uncertain amount of government patronage for a substantial business not dependent upon congressional whims for its annual appropriation, our people would with one accord advocate the exchange of the navy yard for a commercial opportunity. But we have no such boon offered us.

Hon. Leopold Morse, one of the representatives from Boston, who has served on the naval committee, and as a Boston business man knows the difference between the results of a navy yard and the more advantageous uses of the land, now idle, for business purposes, in a letter referring to the recent resolution of the board of aldermen of Boston, which asserted that the sale of the yard would be "prejudicial to the interests of the general government and of Boston," says:

In the performance of my duty as a member of Congress, in order to represent the interests of my district, without considering party politics, and without prejudice against any one, having nothing but the good of the city at heart, I believed that if the Boston navy yard could be sold without injury to the general government, I should, by promoting the sale, perform a duty worthy of my position.

The maintenance of the navy yard—and no work is done there—costs the government to-day $400,000 a year. It costs the city of Boston $150,000 in the loss of taxes which could be collected if the property were owned by private persons. Moreover, if that large property were once in full use, it would afford employment for thousands where it now employs hundreds. Prosperity in Charlestown would reach East Boston and Chelsea, for people employed in the old navy yard grounds would naturally seek homes there. This property once sold, the naval hospital would follow, and this would give Chelsea a half million more taxable property. In that event I should feel that I had done something to materially benefit the people who have honored me with their votes that I might represent them in Congress.

It is thus the purpose of my bill to save the general government $400,000 and the city of Boston $150,000 a year, and the men who might be thrown out of employment temporarily would, in the end, receive much more than they could possibly lose. I feel it my duty to say, in addition, that the introduction of this bill is my own work, and that no one but myself is responsible for my action. * * *

The great benefit to be reaped in the future by the improvement of the territory now occupied by the navy yard can hardly be estimated, should it be used by the carrying trade by rail or water. By an improvement which such use would make necessary, Boston would have the most magnificent terminus in the country. The saving of the annual expenditure now necessary for the maintenance of the yard, and of the interest on the money realized from the sale, would give the country one of the so-much-needed new steel ships every year. The estimate of the value of the land without the buildings, by the official assessors of the city, is $7,250,000. It should be recollected by my critics that Boston pays its fair share of the taxes for the support of the general government, and it is not just that the city should be additionally burdened by the loss of the tax that would be paid by this great property, unless the government's occupancy of it is necessary.

Proposed New Harbor at Cape Ann.

An editorial correspondent of the Chicago *Advance* gives the following information about a proposed new harbor on the north side of Cape Ann:

A magnificent project, like some which the west boldly undertakes and accomplishes, is talked over along Cape Ann. It is to run a breakwater out from Pigeon Cove toward the well-known and dreaded "Salvages," and thus enclose Sandy bay with its beaches near the present little harbor at Rockport, in a safe and spacious roadstead where the navies of the world can safely anchor. Protruding far out into the stormy Atlantic at a point convenient to the fishing grounds, opening a safe refuge to all storm-driven vessels, with its inexhaustible granite quarries along the shore to draw upon for building or exportation, and an excellent railroad connecting with the entire country to the Pacific coast, it is surprising that the place should have been so long overlooked. A navy yard consolidated of those at Kittery, Me., and Charlestown, docks for steamships, elevators, and such an extension of the Eastern railroad from Beverly westward as would connect directly with the Hoosac tunnel, are among the plans breeding in these fertile Yankee brains. Measures are on foot to secure an immediate survey by Congress of the proposed harbor. If a breakwater could be secured no doubt other enterprises would immediately follow. Scores of annual wrecks and the loss of hundreds of lives and millions of money might thus be saved to the country and the world. Probably no one point on the Atlantic coast is so thronged with coasting, fishing and foreign-bound vessels as that eastward of Cape Ann.

Naval Affairs.

Engineer-in-Chief W. H. Shock, chief of the bureau of steam engineering, has had completed the drawings for the steel boilers for the fifteen-knot ships, as recommended by the naval advisory board. There are sixteen of them in each ship, each twelve feet in diameter and nine feet in length. Plans are also in course of preparation for the engines and other machinery of these vessels. All will be in readiness by the time Congress acts upon the bill for their construction.

During the recent sessions of the naval advisory board the heads of bureaus were called before the board to give such information as they could regarding the condition of the navy. One day the chief constructor was before the board, and remarked that a certain ship probably had ten years of life remaining. "She won't last ten years any more than I will!" was the sharp comment of Constructor Lenthall, who was sitting as a member of the board, and everybody joined in the laugh that followed. The venerable man knew too well that his race was nearly run.—*Army and Navy Register.*

News and Notes.

Sunday afternoon, April 23d, while the family of Alexander Smith of Limington, Me., were attending a baptism in a distant part of the town, leaving Mr. Smith's mother, a lady eighty-five years of age, at home, in some manner her clothes took fire and she was frightfully burned, dying Sunday night.

The Biddeford *Journal* says: "Messrs. J. H. & George Leavitt, of Pine point, near Old Orchard, have prepared and sold upwards of 16,000 gallons of clams during the past winter. The business has given employment to quite a number of men in the neighborhood. The clams were sent away, in kegs and barrels, by the Boston & Maine railroad, to consumers in Portland, Boston and elsewhere."

Frederick Colund of Chelsea, Mass., committed suicide Monday afternoon, April 24th, by shooting himself through the heart with a revolver. His body was found in a patch of woods in the vicinity of Togus, Maine, with two bullet holes in the left breast. He was fifty-two years of age, and served in Company F, 19th Maine, during the war. He was not an inmate of the Soldiers' home, having been discharged from the institution in 1879.

Eben F. Swetzer, drummer for a Boston oil-stove firm, was knocked down as he was leaving the opera house in Lawrence, Mass., Monday night of this week, by ex-Mayor Caleb Saunders, whose wife the runner had insulted. Swetzer received a wound an inch and a half long near the eye, and was also arrested and locked up on a charge of assaulting Mrs. Saunders.

On the 20th day of April the ice at Summerside, Prince Edward island, was eight or nine feet thick, and extended twenty to thirty miles seaward.

At Danville, Va., April 25th, Dr. John P. Lipscomb, a wealthy merchant, was shot and instantly killed by his father-in-law, Sterling Edmunds. Lipscomb recently became intemperate, and lived unhappily with his wife, whom he drove from home on the evening of the 24th. Next morning Edmunds called upon Lipscomb, when a quarrel ensued, Lipscomb firing first; Edmunds returned the fire, killing his antagonist, and in the mayor's court was acquitted on the ground of self-defence.

Ex-Governor Tilden received the first prize at the New York dog show.

J. R. Young, minister to China, was married at Hartford, Conn., April 26th, to Miss Coleman, a niece of Ex-Gov. Jewell. A large party, including Gen. Grant and others from New York, were present.

At West Chester, Pa., April 25th, Prof. Andrews, the well known "lightning calculator," who recently developed symptoms of insanity, killed his wife with one blow on the head with a rolling pin.

The Bell Telephone company tried its underground cable in Attleboro, Mass., April 25th, working single wires and a circuit of 100 miles successfully.

Some weeks ago a one-armed man, apparently a tramp, applied at several houses in the south part of Pittsfield, Mass., for food and a place to sleep. He was refused, and that was the last seen of him until he was found dead in a field near where he had applied for entertainment. There was nothing on him to indicate his name or the place where he belonged. It is supposed he died while sleeping in a lot, from starvation and exposure.

Dr. O. W. Holmes says that the young scribblers who send him their verses have no more right to do so than they have to stop him in the street, show him their tongues and ask what remedies they shall take for their stomach's sake.

A. A. Osgood, who died in Portland, Me., April 24th, had kept a market there for over fifty-six years.

In the case of Bangor vs. Rising Virtue lodge of Free Masons, Chief Justice Appleton of Maine has decided that a Masonic lodge is not a charitable benevolent institution. Its real and personal estate is subject to taxation, and must bear its just proportionate share of the expenses required for the support of government.

Mrs. Jennie Dixon, wife of a commercial traveller for the Lorillards of New York, and highly connected in St. Louis, where she was formerly a prominent belle, has eloped during her husband's absence with John Curtis, a young man with a fast reputation.

Three German daily papers are published in Cincinnati, and hitherto they have all been republican. Recently they have all become democratic and invited their subscribers to follow their example, as the republican party opposes free rum and free beer.

Rev. J. B. Morrison, of Lancaster, will be the orator in that town on Decoration day.

Beware of Frauds.

The original and only genuine "Rough on Rats" is manufactured by and has the name of Ephraim S. Wells, Jersey City, N. J., on each box. He employs no traveling agents, nor peddlers.

Soothe the Invalid.

A few drops of SOZODONT mixed with water, and placed in the mouth of the invalid, will refresh him. It aromatizes what else would be dry and uncomfortable, and gives infinite pleasure, and incites appetite. No nurse should neglect SOZODONT.

Oak Hall Agency in Portsmouth.

Messrs. C. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. "Brown's Bronchial Troci es" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wfp8t82

Proposals for Painting,

CUSTOM HOUSE,
PORTSMOUTH, N. H.,
Collector's Office, April 21, 1882.

SEALED PROPOSALS will be received at this office up to 12 o'clock M. on Saturday, April 29th, 1882, for furnishing the materials and labor for freezoing the ceiling, painting the walls, wood and iron work throughout the entire first story of the government building at Portsmouth, except the Postmaster's private room; also for freezoing the ceiling of the hallway in the second story; painting the stairway leading from the first to the second story, and the walls and windows of the hallways in the second and third stories, and varnishing doors in second story.

The specifications for this work are on file in this office and subject to examination by all parties desiring to bid.

All proposals should be sealed and directed to the undersigned, marked, "**Proposals for Painting.**"

The Department reserves the right to reject any and all bids.

A. F. HOWARD,
Collector.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountains over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00.—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

RAILROAD NOTES.

The directors' car of the Eastern railroad, having on board the president and directors of the road, passed through this city shortly after eleven o'clock in the forenoon on the 26th inst., on the way from Boston to Portland, and returned in the evening. Another special train, carrying Mr. Bissell, Mr. Perkins and others, went up over the Portsmouth & Dover road, to inspect the bridges, culverts, etc.

The management of the Eastern railroad have decided to rebuild the passenger station at Salem, destroyed by fire on the night of April 18th, according to the original plans. At present the granite front towers and connecting arch is all that remains standing secure. Waiting and baggage rooms and ticket offices are to be arranged as heretofore on both sides of the tracks, and an iron roof is to span the granite walls which are now being replaced substantially.

The Concord railroad has completed the one-hundredth of the fifteen-ton coal cars used on the Concord & Portsmouth line for taking coal from the wharves. It is intended to build fifty more of these cars, which can be used on the Portsmouth wharf better than at other ports, where the sharp curves on the wharves prevent their being drawn loaded without great friction.

The president and directors of the Eastern railroad have investigated the recent collision at Salem, by which one man was killed and several injured. The blame is said to rest solely with the brakeman who altered the switch of the side track, after the conductor of the gravel train had seen it properly opened and ordered him to keep it so.

The Eastern railroad company have sent $250 to the Maine General hospital for the support of a free bed.

STORER RELIEF CORPS.

A large number of ladies, wives and daughters of veterans of the late war, met in Grand Army hall on Tuesday evening of this week, and organized Storer Relief Corps, auxiliary to Storer Post, No. 1, G. A. R., of this city. The following named ladies were elected officers:

President, Mrs. Mattie A. Mason;
Vice Presidents, Mrs. Mary A. Drown, Mrs. Adeline P. Kent;
Secretary, Mrs. Angelia Hayes;
Treasurer, Mrs. Emily S. Knight;
Chaplain, Mrs. Mary A. Sanborn.

By-laws were adopted, and other business transacted.

SUPREME COURT--CARPENTER J.

WEDNESDAY, April 26th.

In the case of Luella J. Brown against the town of Deerfield, for damages sustained by being thrown from a sleigh, caused by a cradle hole in the snow, the jury, after being out all night, returned a verdict of $300 for the plaintiff.

The case of Edmund R. Ingalls, for embezzlement while treasurer of the town of Candia, was opened Wednesday morning.

POLICE COURT.

WEDNESDAY, Apr. 26; *Batchelder, J.*

Dennis Ledden, drunk, $9.90; jail.

LIVELY RUNAWAY.

On Wednesday afternoon of this week, about three o'clock, a heavy farm team belonging to Mrs. Denny, of Greenland, was stopped in front of the grocery store of John H. Wells & Son on Market street, and the driver, in jumping from the vehicle, caught his feet in the reins. This frightened the horse, a large and powerful animal, and he dashed off at a gallop up Market street toward the bridge, dragging the driver several rods, when the man luckily got clear. The heavy team soon struck a light grocer's wagon belonging to Whalley & Mitchell and occupied by two small boys, and knocked off one of the wheels, starting up the grocer's horse on a run, which was warmly encouraged by the plucky little fellow who was driving, who kept "putting on the string" as the light wagon went tearing furiously up the street on three wheels, with the heavy farm team thundering along close behind. Everything that could get out of the way, did so, and the spectators could only admire the cool courage displayed by the two boys in their perilous position, while unable to aid them in any way. At Mr. George Scott's saloon the farm team ran foul of Mr. Warren Keen's turnout, which was hitched to a post, knocking a wheel off the buggy and otherwise smashing it, and tearing it clear of the horse. The procession kept on over the Noble's island bridge, and when near the scene of the late fire on the island the boy who was driving the grocery team steered his horse to one side and up the bank, and allowed the farm team a free passage. A short distance further on was a wagon belonging to Mr. Fred Remick of Kittery, with no horse harnessed to it; this wagon the runaway team struck, breaking the shafts, and then kept on at a gallop through the toll-gate and over Portsmouth bridge. Where the team finally brought up, and how much more damage, if any, was done, we did not learn.

The selections from "Midsummer Night's Dream" which Mr. Riddle announces embrace the rehearsal and presentation of the most doleful tragedy of Pyramus and Thisbe by the Athenian artisans, about the funniest scenes Shakespeare ever wrote. Those and the scene from Œdipus strike the extremes of tragedy and comedy, and make as great a variety as can be conceived of.

After the delivery of Hon. Wm. J. Armstrong's lecture on Castelar (which is to be given in Franklin theatre on Tuesday evening, May 2d,) he received the following letter:

Dear Sir: Recognizing the originality of their plan, and having learned of the exceptional favor which your lectures on modern contemporaneous history in Europe have received in Brooklyn and elsewhere, we, the undersigned citizens of New York city, have the honor to solicit that at some date in the early future you will arrange to deliver four of them at Chickering hall, or some other central locality.

This letter was signed by Abram S. Hewitt, Oliver Johnson, Geo. H. Yeoman, S. S. Cox, M. F. McMahon, and several other prominent citizens of New York city.

"The Danites" will be presented at Music hall on Tuesday evening, May 2d, by McKee Rankin's authorized company, Mr. H. W. Mitchell taking the part of "Sandy," and all of the other members of the company having their original characters.

The contractors' sloop resumed her position at the Gangway rock "bandstand" on Wednesday of this week, having discharged the cargo of stone from the ledge which she took to Neal's wharf, Kittery, on the previous day.

Herring are reported to have "struck in solid" at the Shoals, and large numbers of large cod-fish are being taken in that vicinity.

A letter received in this city from Capt. John Hall of the schooner Chilion, dated Bangor, Me., April 25th, reports the schooner's arrival at that port from Boston on the previous day. Capt. Hall reports the business season as not fairly opened yet at Bangor; lumber freights to Boston are quoted at $2, and brick freights at $2.25; the Chilion was loading lumber for Hingham, Mass. On her last trip from this port to Boston she took 73,000 bricks.

We are informed that Cedar island, at the Shoals, is to be plowed up this spring, and planted with potatoes, by Mr. John Caswell of Rye. The island is about fifteen acres in extent, as near as we remember, but how much of its surface is fit for cultivation we do not know. Prof. Gardner, the violinist, will go out with a yoke of oxen from Capt. Albert Dow's farm in Rye, to do the plowing. Capt. Dow, who is the surveyor of the eastern road district of Rye, is now engaged in putting the carriage road to Wallis' sands in good repair.

Mr. John Caswell commences this (Thursday) morning to boil lobsters for the retail market, at his premises near the Spring market, where also fresh halibut can be procured.

It is said that the farmers in this vicinity on both sides of the river are preparing to plant potatoes to a much greater extent than last year, the increase being estimated at fully twenty-five per cent. On the Pierce farm at Greenland twenty-five acres will be put in.

All the way from Fort point, Newcastle, to Straw's point, Rye, the water a short distance from shore is thickly dotted with the buoys which mark the location of lobster pots, but the fishermen report the catch as only moderate, so far. Later in the season lines of pots will extend from Whalesback to Kitt's rock, and from there to Sea point, Gerrish's island, fringing the Sisters on the way; but few if any have been put down on that side of the harbor's mouth as yet.

On Wednesday of this week there were seven British schooners at the north end wharves, all with cargoes of railroad ties for the Eastern railroad. Three of them were discharging at the Eastern railroad wharf on Noble's island, and four of them were lying on the north side of the Concord railroad wharf, waiting for berths. All these vessels came from Nova Scotia ports; all of them belong to that province, and most of them to the port of Lunenburg; three of them are bran-new, this being their first trip; and all of them are of handsome model. It is very seldom that so many foreign vessels are to be seen in our harbor at one time.

The schooner Emily A. Staples, Coleman master, arrived from Boston on Wednesday, the 26th inst., and proceeded up the river to Eliot for another cargo of bricks. The schooner D. K. Ham, Garland master, which arrived April 23d from Rockland with a cargo of lime for Dover, was reported on the 26th as being loaded at Eliot with bricks for Boston; and the schooners Triton, Freeman master, and Hattie Lewis, Capt. Brewster, as being so nearly loaded that they would sail next day if the weather was favorable.

Mr. William F. Brown of Newington, who received a serious injury on the seventh of July last by falling on a scythe, which partially severed his knee joint, is just getting able to be out. Some time ago Mr. Brown had so far recovered as to be up limping around the house, when he accidentally fell, breaking open the partially healed wound, since which time he has been confined to his bed till within a few days. We hope he will be lucky enough not to fall again. Mr. Brown is about twenty-two years of age, and highly respected by all his acquaintances.

Mr. John S. Batchelder of Stratham accepts a call to the Congregational church of Auburn, Maine.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the tissues which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impurities are eliminated. These take in themselves a basis, to which is added the best and choicest medicinal qualities necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is only effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

WHEAT BITTERS CO., M'f'rs. N. Y.

TRUNK REPAIRING!

a specialty. Trunks called for and returned without extra expense at

John H. Tilton's

Harness Dispensatory,

15 CONGRESS STREET.

MAIN & WINCHESTER BLOCK.

We Don't Believe It.

An exchange says that "young men's fashionable coats are now aptly styled 'cutaways,' for the skirts of them have been cut away so much that they are now precisely the length of boys' jackets. The fashion in Derby hats has also reduced that article of dress to the size of a soupplate; but the latest agony of the masculine mind, however feminine it may be, is that of 'banging' the hair, a silly style that some young men exhibit, to the extreme amusement of all sensible people." This is probably a slander, for it is hardly credible that even the most idiotic male follower of "fashion" could be so silly; but if there is such a simpleton in existence, he should be be "banged" somewhere else than on his head.

I Was a Fool.

Yes, they said I was a fool not to try Sulphur Bitters for rheumatism, from which I had suffered over two years; but I had tried so many doctors and medicines without getting relief that I was discouraged. I am now on my fourth bottle and almost cured. I was a fool that didn't try that wonderful remedy before. —*O. G. Pratt, Manchester.*

—A little fellow, who knew Mother Goose better than he knew his Bible, was asked in his class: "Who were thrown into the fiery furnace?" This was too much for him. The answer came promptly: "Shadrach, Meshach and Abednego." This was a mortification to the little fellow, and when the next question came, "Who put them in?" he answered, with a jump, "Little Johnny Green."

"We learn with rare pleasure that Ex-Sanitary Commissioner Rufus K. Hireman, of New Orleans, was cured of a severe attack of rheumatism by St. Jacobs Oil," says the Columbus (Ga.) *Enquirer-Sun*

If the call of the Maine republicans for a state convention is an indication of the spirit that actuates the party in that state, conciliation and harmony are the order of the day there. All who oppose the policy of the fusionists and the obstructive acts of the present governor are invited to seek representation in the convention. The call assumes that the state will not be redistricted, as it says that the nomination of four congressmen-at-large will be one of the duties of the convention. It will meet June 15th in Portland, and an energetic campaign will be begun at once.

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

Pay Director George F. Cutter, retired, formerly paymaster-general of the navy, was in Paris April 8th.

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

The third volume in the new edition of Bret Harte's complete works will complete his "Tales of the Argonauts," and this will be followed by his novel "Gabriel Conroy."

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

Swayne's Ointment

A RELIABLE REMEDY FOR ALL DISEASES OF THE SKIN, SUCH AS TETTER, BLOTCHES, RINGWORM, ERYSIPELAS, SALT RHEUM, ITCH, SORES, ULCERS, &c.

No. of Boxes to Order of the SKIN. However so obstinate, can resist the soothing medicated composing power of SWAYNE'S OINTMENT. On account of allaying the intense itching and causing sweet repose, it is known by many as THE GREAT CURE FOR ITCHING PILES.

DR. SWAYNE & SON, Phila.

SOLD BY ALL DRUGGISTS.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpar, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From E. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is entirely because of its merit. Since Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. Dealers *believe* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

ELY'S CREAM BALM CONVENIently Cures CATARRH COLDS IN THE HEAD CATARRHAL DEAFNESS HAYFEVER. HEALS SORES IN THE NASAL PASSAGES. PRICE 50 CENTS. ELY BROTHERS, OWEGO, N.Y. U.S.A.

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 49 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. imy13

CHEAP FARMS

NEAR MARKETS.

The State of Michigan, having 50 years of improvements, still contains large tracts of unoccupied lands suitable for farms, some of them subject to free settlement under homestead laws, and all of them for sale at low prices. A pamphlet, prepared under authority of the state and containing a map, descriptions of its climate, soil, industries, crops and resources, and an account of its lands, will be sent free to any one writing for it to Commissioner of Immigration, Detroit, Michigan.

AGENTS! BOOK AGENTS!

SUNLIGHT AND SHADOW

By John B. Gough

Hundreds of Agents have sold over and over, to sell this famous book, and yet we want 500 more. For Tender Pathos, Rich Humor, and Thrilling Interest, it is without a peer. Everyone laughs and cry over it. Ministers say "*God speed*." Tens of Thousands now want it, and it is the best selling book for Agents ever issued. We want good *AGENTS, Men and Women*, in this vicinity. $100 to $200 per month. Easily made. Special Terms given. Send for circulars to A. D. WORTHINGTON & CO., Hartford, Conn.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A cold attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. Nor medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by means still. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in your pocket more in case you render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR.

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2883.

$30 PER WEEK can be made in any locality. Something entirely new for agents. $5 outfit free. G. W. Ingraham & Co., Boston, Mass. tmyl

Y.—Agents wanted everywhere.

Daily Chronicle.

Old-Fashioned Æsthetics.

Let us not flatter ourselves that the matter of high æsthetic dress is something which is understood only by us Americans and English of the latest days. Listen to a description of the clothes worn by the Duchess of Queensbury at a royal entertainment in the year 1740: "A white satin petticoat, embroidered at the bottom with brown hills covered with all sorts of weeds, and every breadth had an old stump of a tree that run [sic] up almost to the top of the petticoat, broken and ragged and worked with brown chenille, round which twined nasterslans [sic] ivy, honeysuckles, periwinkles, convolvulues, and all sorts of twining flowers which spread and covered the petticoat, vines with the leaves variegated as you have seen them by the sun, all rather smaller than nature, which made them look very light; the robings and facings were little green banks with all sorts of weeds, and the sleeves and the rest of the gown loose twining branches of the same sort as those on the petticoat; many of the leaves were finished with gold, and part of the stumps of the trees looked like the gilding of the sun. I never saw a piece of work so prettily fancied, and am quite angry with myself for not having the same thought." How is that for a costume? It seems to equal those of Bunthorne's twenty adorers. And the Duchess of Queensbury was not the only lady of fashion who could boast of such a wonderful garment. On another occasion the Duchess of Bedford, a court dame of the same period, wore a "petticoat of green padusoy; the pattern was festoons of shells, coral corn, corn-flowers, and seaweed; everything in different works of gold and silver, except the flowers and coral, the body of the gown white satin, with a mossaic pattern of gold facings, robings and train the same as the petticoat." One wonders who devised these costumes,—the ladies themselves or some matchless mantua-maker of their day. I often question if the time will ever arrive when women's taste shall become so educated that fashion's despotic rule shall cease. If only a minority should in this way become educated, the majority might perhaps be led by them; and then, although the larger number were still mere imitators, it would be good taste that they were imitating, and so taste, not fashion, would be supreme. So long as fashion is omnipotent a true good taste is impossible. To adopt a style of dress simply and solely because others do it shows unintelligence, but to follow the suggestion of a person of good taste because we can see that it is good taste, though we may not have had originality enough to invent for ourselves; is sensible. The essential bad taste of fashion-followers is the fact that they are quite indifferent to æsthetic considerations, their aim being to dress in the latest mode, whatever it may be, and their highest satisfaction to go a little before or beyond others. The leaders of fashion are not those who wear the most beautiful or even the most costly dresses, but the newest invented ones. It is the fashion at present, at least in some circles, to dress "æsthetically," and the hideous results that follow some of the attempts to be æsthetic prove that the desire of being fashionable, and not an educated taste, has been the guide.

Mrs. Delany, whose description of the Duchess of Queensbury's gown we have quoted, thought it very prettily fancied; but was it so, for a dress? The effect a lady should produce is hardly that of a walking landscape. The description reads a good deal like that of one of Mr. Tiffany's designs for the curtain at the Madison Square Theatre, New York. Many women seem to have no perception of the artistic necessity of fitness as an element of beauty. If a color appears which they hear labeled "æsthetic," and which they see used in wall-papers and hangings, they think it does equally well to dress themselves in. Tones which serve a good purpose in house decoration may be simply ugly on a woman's person, for the reason that the color is not in itself beautiful, but can be made of use when put in combination with other shadings of the same color or with its proper contrast. All this seems too obvious to need saying. Mrs. Delany herself can see the folly of some of the æsthetic dresses her acquaintance indulge in, for she says of a certain "petticoat of black velvet embroidered in chenille, the pattern a large stone vase filled with ramping flowers, and between each vase gold shells and foliage, with two or three of the vases on the tail," that it was a "labored piece of finery much properer for a stucco staircase than the apparel of a lady." Another dress's costume of white satin, with leaves and rosebuds and convolvuli embroidered upon it, she justly approves of, remarking that the lady was in herself so far beyond this "masterpiece of art" in dress that one could hardly look at her clothes. Let us have embroidered dresses, by all means, and put sunflowers on them if any one likes them, though lilies seem certainly preferable; only let us exercise ourselves somewhat in the acquisition of a few artistic ideas before we set up to dress in a purely æsthetic manner.—*May Atlantic.*

A sure cure for impoverished blood, pimples, and sallow complexion, is Brown's Iron Bitters. It will produce a healthy color, smooth skin, and is absolutely not injurious.

—Recent cases are noted in the medical papers of tetanus, or "lockjaw," having occurred in infants on account of being bathed in too hot water. A single nurse reports several cases of the kind.

Parlor Decoration.

Horse-shoe, painted plaque and Sunflowers have each in its turn been the popular parlor ornament, but are now superceded by the Tamborine, which when tastefully decorated is very ornamental. For fifteen cents the Wheat Bitters Co., 19 Park Place, New York, will send free a beautifully decorated Tamborine.

—The process by which the wool on sheepskins may be transformed into velvet promises to become an important industry in France, where an ingenious chemist, after long and continuous experiments, has finally succeeded in accomplishing this result.

There is a Balm in Gilead.

The success which has marked the introduction of Cream Balm, a catarrh remedy, prepared by Ely Bros., Owego, N. Y., is indeed marvelous. Many persons in Pittston and vicinity are using it with most satisfactory results. A lady down town is recovering the sense of smell, which she had not enjoyed for fifteen years, through the use of the Balm. She had given up her case as incurable. Mr. Barber, the druggist, has used it in his family and commends it very highly. In another column a young Tunkhannock lawyer, known to many of our readers, testifies that he was cured of partial deafness. It is certainly a very efficacious remedy.—*Pittston, Pa., Gazette,* Aug. 15, 1879.

Price fifty cents.

—Jay Gould does not smoke. Neither does Gulteau. Neither did Jesse James. All three could boast of no small vices.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficiosa exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

JOHN S. TILTON'S

Harness Maker and Trunk Repairer, 18, Congress Street.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week's invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 10, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. 3aw13w

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers. Address J. H. REEVES, 43 Chatham St., N. Y. eod&wtyr

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

—Customer—"Give me some fish?" Waiter—"What will you take sir, bluefish?" Customer—"It makes no difference; I'm color-blind."

B. F. Stillwell, Esq., corner Twelfth and Broadway, Oakland, Cal., had been confined to his room for days with a severe sprain. In answer to a San Francisco newspaper reporter he said: "My speedy recovery is due entirely to St. Jacobs Oil. My injury was a severe and painful one. Other remedies failed to benefit me. With the use of the Oil the swelling disappeared quickly, as did also the pain, and I am as well as ever. Credit to what credit belongs, I say."

—An exchange says: "A dozen women ride now where one woman rode a few years ago." It will be seen that this arrangement must be hard on the old horse

Composed of the best known tonics, iron and cinchona, with well known aromatics, is Brown's Iron Bitters. It cures indigestion, and all kindred troubles.

Portsmouth Chronicle.

FRIDAY, APRIL 28, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Literary Piracy.

Messrs. Houghton, Mifflin & Co., of Boston, affirm that a cheap edition of Longfellow's "Hyperion" just published in New York is an infringement upon the copyright edition published by this Boston house.

In the meantime, as the copyright is the property of Mr. Longfellow's estate, and Mr. Dana, who was nominated as executor of Mr. Longfellow's will, died before the death of the poet, delay in obtaining an injunction necessarily occurs. Houghton, Mifflin & Co., with the sanction of Mr. Longfellow's family, in order to protect the property in his works have issued excellent cheap editions of "Hyperion" and "Outre-mer," with Mr. Longfellow's latest corrections and revisions, which books are sold in paper covers at fifteen cents per copy; and the trade and the public are asked to purchase these copies, instead of the unauthorized New York editions, in justice to the memory of the departed poet and the rights of his heirs.

Mr. Myers has the books for sale in this city.

Naval Affairs.

The Tennessee, flagship, and the Kearsarge, Vandalia and Yantic, of the North Atlantic squadron, had all arrived in Hampton roads previous to April 25th, preparatory to the naval review appointed for May 1st, the date set for the command of the squadron to pass from Rear Admiral R. H. Wyman to Rear Admiral George H. Cooper. The Alliance and Enterprise were expected to arrive in the roads in time to join in the review; also the torpedo boat Alarm, with President Arthur and Admiral D. D. Porter on board, the Tallapoosa, with Secretaries Chandler and Lincoln, and the Speedwell, with the heads of the several bureaus of the navy department.

Mr. Hoar has introduced in the United States senate a resolution requesting the president to give the senate any information in his possession as to the title by which the United States holds the navy yard at Boston, and whether, in case the land is no longer used for a navy yard, the title will revert to other parties.

News and Notes.

A despatch from Shakespeare, New Mexico, received at San Francisco April 26th, says the town of Gualleysville, in Arizona, just over the New Mexico line, was burned and completely destroyed on Monday, April 24th, by the Indians. Thirty-five white people were killed. The Indians are scattering into small bands and making for the Chiricahua mountains. Forsyth, with his entire command, is in pursuit.

A disgraceful affair took place near Lynn, Mass., April 24th, being a cocking main between fowls owned in Lynn and and New York, against fowls alleged to be from Farmington, N. H. The Farmington birds won all the contests.

McMullen, convicted of wife murder, was sentenced at Taunton, Mass., April 26th, to the state prison for the remainder of his natural life.

Chester H. Davis, a witness against the alleged robbers of the post-office at Derby, Conn., was shot at Naugatuck recently, and is in a critical condition. A young man named Bristol did the shooting, and claims that it was accidental, but as Davis had been threatened by friends of the prisoners there are suspicions that it was an attempt at murder.

Eben F. Sweetzer, the Boston drummer who was arrested for insulting the wife of Mayor Saunders of Lawrence, Mass., pleaded guilty in the police court, and was discharged on payment of costs.

A despatch of April 26th from Shakespeare, New Mexico, says twenty people were killed by Indians at Clifton, and on the road from Clifton to the Gila river.

Mary J. Baldwin of Chelsea, Mass., ten years old, was fatally burned April 25th while lighting a fire.

Miss Carrie Barton, of West Medway, Mass., was thrown from a buggy while riding with a young man on the evening of April 25th, and killed.

The Pentucket navigation company have contracted in Pennsylvania for a steamer to run on the Merrimack river to Lawrence and Lowell, Mass., from Newburyport.

Mr. Bartlett Allen of New Bedford, Mass., has just completed a beautifully modeled surf boat for King Kalakaua of the Sandwich islands, to be used to run between the islands.

At Jeffersonville, Vt., April 26th, A. J. Thomas, suffering from despondency, shot himself twice with a revolver, the balls lodging just above the heart. The wounds will probably prove fatal.

A man of Peacham, Vt., crawled up through a hole in the roof of a barn, with his boards, shingles, nails, etc., repaired the breach, and then discovered for the first time that he had left himself no means of descent.

A case of attempting poisoning is reported at Fall river, Mass., which, happily, did not prove fatal. Two lovers who lived at the same boarding house, quarrelled, and the girl put poison in the glasses of herself and lover, and both drank of the poisoned water. Prompt medical assistance prevented serious consequences.

Ex-Sergeant-at-Arms Thompson says that he has no doubt that the verdict against him in the Kilbourn case will be set aside and a new trial ordered. In the event of a new trial he shall take testimony as to the actual damage to the business of Kilbourn, which was not done on the former trial. Mr. Thompson said that if the judgment had been $15,000, or even $25,000, he might have paid it, and have gone to Congress for relief with some confidence of success.

The Springfield *Union* says "The Boston *Post* and Boston *Herald* are having a go-as-you-please contest as to which has the best-informed religious editor. Honors seem to be easy thus far, the *Post* having spoken of Andover seminary as a Baptist institution, and the *Herald* having described the Methodists as Calvinists." The *Post* has the grace to copy the *Union's* item without comment.

On Monday morning, the 24th inst., over four hundred very handsome shad were taken at one haul with a seine in Taunton river, Mass., and nearly a ton of them were taken to East Providence, the wholesale price being ten cents per pound.

A Sensible Democratic Governor.

Governor Crittenden, the democratic governor of Missouri, is said to have lost largely of his popularity in his state on account of the "murder" of the ruffian Jesse James. As the governor knew that the infamous assassin and thief could not be captured in the ordinary couse of law without the probable loss of valuable lives, his pitting of one murderer against another was wholly commendable. The evident hero-worship accorded the dead scoundrel by the majority of the people of Missouri, goes far to explain the immunity he enjoyed while living.

New Hampshire Items.

Geo. F. Parker, late of the Washington *Post*, has arrived in Manchester, and will try his hand at editing the *Union*.

The new building which is to be erected this season at the state asylum for the insane, Concord, will be placed a few rods south of the present edifice, with which it will be connected by a covered passage-way. The expense will be $25,000. This addition is designed for the accommodation of female patients who desire and are able to pay for better surroundings than they can now have.

It has been decided to hold the 100th anniversary of Phillips academy at Exeter on the 20th and 21st of June, 1883. Hon. George Bancroft has been invited to preside, and in his reply says: "If I live till Phillips Exeter academy completes its 100th year, I will very gladly join in celebrating the event, and express my gratitude for the instruction and welfare I found under its auspices."

During the first year the Concord & Claremont railroad was in operation, only 1,200 tons of coal were taken into Claremont. Last year the receipts were 6,000 tons.

Ground has been broken for the erection of a Unitarian church at Franklin Falls. It will be near the residence of Hon. Alvah W. Sulloway.

The governor and council met Wednesday, April 26th. Henry A. Shute was appointed special justice of the police court of Exeter. The application for the pardon of James Perkins from Dover jail was refused, and the petition for a pardon for Charles W. Bingham was postponed. Considerable routine business was considered.

President Arthur on April 26th renominated George S. Leavitt to be postmaster as Exeter.

The 24th annual examination of the State Industrial school was held at that institution in Manchester, April 26th. A large number of visitors, and the full board of trustees, were present. The various exercises showed commendable proficiency on the part of the inmates. Portus Palmer of Manchester, George Greeley of Londonderry, and Harry A. Glazier and William B. McCrillis of Meredith were granted honorable discharges for good conduct. Palmer had served five years for larceny; Greeley four years for breaking and entering; and Glazier and McCrillis four years for larceny. Hon. George A. Ramsdell of Nashua was re-elected president, and Hon. Daniel Clark of Manchester secretary, of the board of trustees.

DIED.

GIBSON. In East Boston, Mass., April 25th, Nehemiah Gibson, aged 76 years, a native of Epping.

Oak Hall Agency in Portsmouth.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of you rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup." It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan82

BRIGHTON CATTLE MARKET.

For week ending Wednesday, April 26.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 1029; Sheep and Lambs 6800; Swine 13,250; Veals 160; number of western cattle 747; eastern and northern cattle, milch cows, etc., 288.

Prices of Beef Cattle per 100 lbs. live weight—Extra quality $7 37½ @ 8 00; first quality $6 75 @ 7 25; second quality $6 00 @ 6 62½; third quality $5 25 @ 5 87½; poorest grades of coarse oxen, bulls, etc., $4 75 @ 5 12½.

Brighton hides 8½c ℔ lb.
Brighton tallow 6½ @ 6¾c ℔ lb.
Country hides 7c ℔ lb.
Country tallow 5c ℔ lb.
Calf skins 12 @ 15c ℔ lb.
Sheep and Lamb skins $1 @ $1 75 each.

Trade did not open so actively for beef cattle this week as it did one week ago. The quality of those from the west was mostly of an extra grade, a few being extra oxen, selling at $8 35 ℔ 100-lbs live weight, but the larger portion of sales ranged from 7 @ 7¾c ℔ lb live.

Working Oxen—The market has been well supplied thus far this spring and the trade for oxen is not so active as it has been for some time past. We note sales of 1 pr, girth 7 ft 2 in, live weight 3100 lbs, $170; 1 pr, girth 7 ft, live weight 3000 lbs, $160; 1 pr, girth 6 ft 8 in, live weight 2800 lbs, at $140; 1 pr, girth 6 ft 3 in, live weight 2300 lbs, at $125.

Milch Cows—Extra $55 to $80; ordinary $20 @ $50; springers $18 to $60; farrow cows $16 @ $25 ℔ head. We quote sales of 2 new milch cows for $90 the lot; 1 Jersey heifer at $35; 1 new milch cow at $50; 1 do $32; 2 do at $65 the two; 5 new milch cows at $30 @ $40 each.

Veal Calves sell quick at 4¾ @ 6½c ℔ lb live weight.

Sheep and Lambs—Western sheep and lambs cost higher at the west than those brought in one week ago, sheep ranging from 7¼ @ 8c, lambs from 8 @ 8½c ℔ lb live weight, all owned by butchers. Some of them were intended for the English markets to be sent the latter part of the week.

Swine—Store pigs sell at $2 50 @ $ 00 ℔ head for small pigs; shoats at 8 @ 8½c ℔ lb live weight. Western fat hogs cost landed at the slaughter houses from 7¾ @ 8½c ℔ lb live weight.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00, *non assessable*. This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
April 28, 12:00 A. M.

Probabilities for New England:—Partly cloudy weather or rain, variable winds. Stationary or lower barometer, stationary or higher temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 32 degrees above zero.

Cloudy.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, April 27th, Mayor Sise in the chair:

The records of last meeting were read and approved.

The bill of George S. Leach, $25, for taking the vital statistics of ward four, was ordered paid.

Petition of Charles E. Myers for sidewalk in front of his residence was granted.

Request of Mr. Cole for use of Elm street ward room as a band room, the band to pay for lighting the same, was referred to the committee on city lands and buildings.

Request of Frank Jones for the placing of lights on North and Creek streets, was referred to the committee on street lights, to report.

Voted not to appoint a city liquor agent.

City marshal's quarterly report was accepted.

The north millpond question was brought up, and after considerable desultory discussion, further consideration of the matter was postponed for three weeks.

It was reported that there was no quorum in the Common Council, only six members having appeared.

Ald. Martin called up the matter of the closing of Russell alley by the Eastern railroad, and asked that the city solicitor be instructed to consider the question. There was talk concerning the proposed shifting of the stone abutments of the Eastern railroad at the Creek, but no action was taken in either case.

Statement of Mr. Willey that if any more gravel was removed from the pit near his residence his right of way would be infringed upon, was referred to the committee on city lands and buildings.

Request of Miss Lowd for the use of the Plains school-house on Sundays during the summer, for religious purposes, was granted.

John W. Wood asked leave to pasture two calves on Pest Island during the summer, for the sum of $5. A member thought the calves would eat all the huckleberries, — but the request was granted.

Adjourned.

POLICE COURT.

THURSDAY, Apr. 27; *Batchelder, J.*

Frank Oates was before the court for drunkenness, and the charge was proved. He was up on a similar complaint not long ago, and was then let off on promising good behavior; this time he was sent to Brentwood for ninety days, and ordered to pay $6.90 costs.

INSTALLATION OF OFFICERS.

The following officers of Old Oaken Bucket Division, No. 2, Sons of Temperance, were installed on Monday evening of this week:

W. P., Charles T. Wiggin;
W. A., Mrs. Daniel G. Raitt;
W. F. S., Mrs. A. L. White;
W. R. S., Miss Fannie L. Deverson;
W. A. S., Walter N. Meloon;
W. T., Mrs. Amanda Holbrook;
Conductor, Miss Annie Cate;
Ass't Conductor, Miss Lizzie Fernald;
W. I. S., Mrs. A. A. Brock;
P. W. P., William A. Plaisted.

AROUND HOME.

A feature of Mr. Riddle's programme this evening which has not been mentioned will be his reading of a comedietta from the German entitled "Come Here," translated and adapted especially for him by the famous actress Genevieve Ward. This with the selections from the Midsummer Night's Dream, Œdipus, Nicholas Nickleby and Southey's poems, make a programme of rare attractiveness and this last opportunity to hear this gifted young reader should not be neglected.

"Muldoon's Picnic" attracted a large audience to Music hall on Wednesday evening of this week. There is much that is amusing in the piece, but the fun is not always of the most refined description.

The schooner Lydia A. Davis on the 26th inst. towed to this port from Newburyport a gondola which has been employed at the latter place for some time in the transportation of stone for the government jetties.

A board of inspection consisting of Capt. A. E. K. Benham, Naval Constructors Webb, Mintoyne and Steele, and Asst. Constructor Mallett, convened at the navy yard on the 27th inst. to inspect the U. S. S. Plymouth. After this ship was brought up to the yard several strakes of her planking and ceiling were taken out, and her timbers and woodwork found in a good state of preservation—much better than the Omaha, which has been hauled out on the dry-dock ways under orders to be repaired. Her engines were inspected several weeks ago by a board of engineers, and found in good condition.

The McKee Rankin combination gave an enjoyable presentation of "The Danites" at Peck's Grand Opera house yesterday afternoon and evening. The performance proved a most satisfactory one, H. W. Mitchell admirably sustaining the role of "Sandy," while G. T. Ulmer, the "Judge," and Miss Ulmer, of the original cast, did excellently work. The play ran smooth, and the scenery was all that could be desired.—*New Haven Union.*

At Music hall next Tuesday evening; see advertisement.

The order detaching Civil Engineer Henry S. Craven from this navy yard has been suspended.

Capt. Cheney's new gondola, the "H. P. Spinney," went to Newmarket on Tuesday of this week with sixty tons of coal, and came down on Thursday in the teeth of a northeast gale, bringing a load of planks for Mr. Daniel Littlefield. Capt. Cheney says she works like a top, and will carry seventy tons of dead weight when fully loaded.

The schooner E. A. Williams, Captain Amee, went into Boston on Friday, the 21st inst., with 6000 lbs. of fish, and sailed the same day for Casco bay after herring, which she found plentiful there; she arrived at this port on the 27th, having made a very quick run from Portland, splitting her foresail on the passage. The captain reports the gale as very heavy outside, and as having come up very quickly. Five fishing vessels and ten coasters ran into the lower harbor during the day, for shelter.

The May ball which is to be held in Franklin hall on Tuesday evening next will be the wind-up of a series of excellently-managed and select dances given during the winter by a party of young gentlemen styling themselves the "Owlets;" the success of the May party is assured, a good number of tickets having already been disposed of, and the managers will spare neither pains nor expense to make it a fitting close for their highly-enjoyable course. May flowers, made into tasteful bouquets, will be on sale at the door.

The first salmon was taken in the Harding weir at Gerrish's island on Thursday morning of this week; it was a handsome fish, weighing about ten pounds, and was purchased by George W. Randall & Co., and by them sent to the Parker house, Boston.

Hon. Wm. P. Frye has forwarded to the Rice Public Library, of Kittery, the reports of the United States Commissioners at the Paris Expedition, reports of the Bureau of Ethnology, Geological Survey of the Black Hills of Dacota, with atlas, reports of the Regents of the Smithonian Institute, and several other valuable public documents, comprising fifteen volumes in all, which are highly appreciated because they are almost the first valuable works which the library has received of such a character from such a source.

Rev. D. W. Murphy, pastor of the Catholic church in Dover, was in this city on Wednesday, the 26th inst., and officiated at the funeral of Miss Palmer at the Church of the Immaculate Conception.

John Laighton has a fine lot of new maple sugar.

The fine residence of Chas. E. Myers on Austin street has been improved in its appearance by a new porch, built by W. A. Hodgdon from a tasteful design by Willis G. Myers. The painting has been done by W. J. Sampson & Co., whose skill in preparing and laying on colors is second to that of no artists in their business in the country.

The Freewill Baptists of Massachusetts held their quarterly convention in Somerville on Wednesday, April 26th. Rev. J. D. Waldron was appointed corresponding messenger to the quarterly meeting of York county, Me., and Rev. T. H. Stacy to the Rockingham county quarterly meeting.

A single porgie was caught in one of the weirs at the mouth of the harbor on Thursday morning of this week; this is about a month ahead of the time porgies are expected to arrive in this region

Mr. Elias Smith, of Newington, recently lost a highly valued dog which had been in his family a long time, and was a great pet; it is believed the animal was purposely killed by some one.

Messrs. Cobbitt & Bennett, of the Portsmouth Shoe factory, have purchased the boat Redwing, of about five tons burthen, for a pleasure yacht.

Messrs. Miller & Furber, brass founders, at their foundry on Bow street are making the composition work for the schooner now building at Freeman's point by Mr. Fernald. Mr. Miller in years gone by did an extensive business in this line, for George Raynes, Raynes & Fernald, Fernald & Pettigrew, Samuel Badger, Charles Raynes, Tobey & Littlefield, and other once noted shipbuilders.

RAILROAD NOTES.

Henry S. Gray, for several years past station agent for the Eastern railroad at Dover, has resigned that position, and will take charge of a hotel in Great Falls which he has purchased. Edward Hayes of Dover will succeed Mr. Gray as station master.

The Boston & Maine railroad pays a dividend of four per cent, May 15th.

The Eastern railroad has progressed so far toward the removal of the obstructions across the foot of Russell alley as to paint the fence.

The Massachusetts legislative investigation as to bribery of one of the members of the house of representatives is simply a discovery of what has been patent for years, that when one of the rival railroad lines between Boston and Portland gives a man a free pass, the lobbyist of the other line wants to be equally politic with the cards for the route he represents. Its significance hath that extent, no more.

STATED MEETINGS.

CITY GOVERNMENT.

In the City Building, Market Square.

Board of Mayor and Aldermen—Thursday evenings.

Carpet Sweepers, Clothes Wringers, etc.

J. P. SWEETSER, - - - - - 46 Market Street.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

This safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Bandages sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Office, 652 Broadway, N. Y., and 45 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays, Boston, Wednesdays, Thursdays and Fridays, every other week. my18

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified tissue did she turn to Dr Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and endeavored the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE BEST AND The Richest **BLOOD, BRAIN and NERVE -F-O-O-D-**

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are the most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

WHEAT BITTERS CO., M'f'rs, N. Y.

The Channel Tunnel.

The English channel tunnel is to be twenty-two miles long, eighteen by twenty feet wide, and have two railroad tracks. From each end there will be down grade of one in eighty for four miles, and then a rise of one in 2460 to the center. The rock and earth to be taken out would make a pyramid as large as the great one in Egypt. It is estimated that the yearly receipts will be £850,000 from passengers, £300,000 from freight, and £50,000 from mail. If expenses take forty per cent of this, there will be £782,000 left for interest on the capital.

Mistaking a Girl for a Panther.

The coroner held an inquest at Lynchburg, Virginia, on the body a negro girl about ten years of age, who was killed by a man named Lewis Joyce, in whose house she had been living. It appears that Joyce heard a rumor that a panther had been seen in the neighborhood of his residence, and on going to bed at night placed an axe by his bedside ready for use should the panther invade the premises. During the night he heard a noise in his room, and jumping out of bed he seized the axe and struck at what he supposed was the panther. He was horrified on procuring a light to find that he had cleft the skull of the girl, who was the neice of his wife, killing her instantly. She had been wandering through the house in her sleep. He was acquitted of all blame by the jury.

Salt for Fruit Trees.

About this time of the year many of our farmers are emptying the brine from their meat barrels. Instead of throwing it away as worthless let them pour it around their quince bushes and plum trees, and then note results latter in the season; two or three pails full of strong brine will not injure but prove highly beneficial to any single tree or bush of the kinds above mentioned. It would be still better to wait till the blossoms are out and give a thorough salting, and still another waen the young fruit appears. We have tried salt on old quince bushes that had not borne fruit for years and have seen them loaded down with fruit in the fall succeeding such treatment. Be sure to use enough and to begin early in the season.

—Will Tennyson kindly write up a poem on the charge of the gentleman who has money to loan?

—If the time and effort that have been wasted in vain attempts to destroy the liquor traffic had been devoted to the proper regulation of that business, the country would be much better off. Too many reformers reject the good that is attainable, in their zeal to grasp that which is beyond human reach.—*Exc.*

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists. Depot, J. H. Thacher's.

Catarrh of the Bladder.

Stinging irritation, inflammation, all kidney and urinary complaints, cured by "Buchupaiba." $1. Depot, J. H. Thacher's.

—It is said that the secret of Lord Brougham always wearing trousers of shepherd's plaid is this. He once sent an order to Inverness for "two pieces" of cloth, and the manufacturer, interpreting this in a wholessle s nse, despatched two large webs, which afforded an ample supply of trousers for the noble lord during the last thirty years of his life.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with fever, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc. It is the most *effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharper, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dos says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are the best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. Unlike most medicines it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., Insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A faint attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or at least relief—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not be behind when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape which will more you or essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence, but nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR,

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2831.

$30 PER WEEK can be made in any locality. Something entirely new for agents. $5 outfit free. G. W. Ingraham & Co., Boston, Mass. may1

Daily Chronicle.

A Thieving Democratic Governor.

Gov. Churchill of Arkansas, a good democrat of course, is being investigated; or rather, the accounts he kept when state treasurer, which office he filled before being elected governor, are being overhauled, as he is not charged with stealing anything since being elected governor. The committe appointed to examine the accounts find the shortage to be about $125,000. Now if Gov. Churchill were only a republican, what a beautiful thing this would be for the northern democratic press.

—A lot of St. Louis heirs were much agitated by the unexpected reappearance of a supposed dead man whose estate was being administered. The heirs tried to smile and look glad to see him, but it was terribly hard work.

—*Vanity Fair* of San Francisco says that Oscar Wilde has received a more generous welcome on the Pacific coast than from any of the eastern cities, and then asks, "Is it because we are more intellectual, or is it because we are the greater fools?"

A sure cure for impoverished blood, pimples, and sallow complexion, is Brown's Iron Bitters. It will produce a healthy color, smooth skin, and is absolutely not injurious.

—Let a man start out to commit suicide, and on his way to the river be murderously assaulted, and he'll fight like a fiend for his life.

Nothing Short of Unmistakable Benefits

Conferred upon tens of thousands of sufferers could originate and maintain the reputation which AYER'S SARSAPARILLA enjoys. It is a compound of the best vegetable alteratives, with the Iodides of Potassium and Iron,—all powerful, blood-making, blood-cleansing and life-sustaining—and is the most effectual of all remedies for scrofulous, mercurial, or blood disorders. Uniformly successful and certain, it produces rapid and complete cures of Scrofula, Sores, Boils, Humors, Pimples, Eruptions, Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it always relieves and often cures Liver Complaints, Female Weaknesses and Irregularities, and is a potent renewer of waning vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and is to-day the most available medicine for the suffering sick.

For sale by all druggists.

—Henry Watterson says the Parisians who eat jackasses are cannibals.

"Pinafore" never goes to sea without a good supply of that famous remedy, Adamson's Botanic Balsam, for coughs and colds. Trial bottles, 10 cts.

—When the Brooklyn bridge is lighted by the electric light perhaps the tax-payers will see where a good deal of their money has gone.

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material, than all other forms of malt or medicine, while free from the objections urged against malt liquors.

—You have often seen a high-stepping horse who seems to be pride incarnate; but the horses he meets in the street do not appear to specially admire him; on the contrary he is only a horse to them, and nothing more. It is about the same with horses as with men and women.

I Was a Fool.

Yes, they said I was a fool not to try Sulphur Bitters for rheumatism, from which I had suffered over two years; but I had tried so many doctors and medicines without getting relief that I was discouraged. I am now on my fourth bottle and almost cured. I was a fool that didn't try that wonderful remedy before. —*C. G. Pratt, Manchester.*

—A census of the elephants in the United States shows the number to be just seventy-seven. Barnum, with his usual enterprise, will have ninety of these animals before the summer closes, and Forepaugh will own the remaining sixty. This will leave less than 100 to be divided among the score of other "greatest shows" now on the road.

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

—A Sunday school boy at Concord, Contra Costa county, Cal., being asked who killed Abel, promptly replied, "Guiteau."

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

—A court in Orange county, New York, has awarded $5000 to John Gottlieb, a brakeman on the Erie road, for damages received recently while coupling cars in making up a train. A few more such decisions as this might induce railroad corporations to fit their cars with automatic couplers, or at least tend to discourage the present practice of using brakemen for "bumpers."

A Caution to our Readers.

Inferior imitations frequently follow successful invention. This has been the case with the patent Linoleum floor cloth. Beyond all controversy its durability and beauty are proven. When purchasing, look on the back of the cloth for the word "Linoleum." It is printed on every square yard. None other is genuine. All carpet dealers keep it.

—"I'm saddest when I sing," warbled a young lady at an evening party; and the other guests said: "So are we! so are we!"

"I was attacked with muscular rheumatism in my limbs on a late visit to Boston," said Mr. B. B. Hardwick, 350 Washington street, New York. "Three bottles of St. Jacobs Oil cured me completely."

—A clergyman who had just married a couple and was indignant when the bridegroom gave him a fee of only half a dollar, smiled grimly, and said: "Never mind. You'll have to pay a lawyer $50 for undoing what I have done."

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficiens exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire Items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston.

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER, Hopedale, January 1, 1882. 3tawlyr

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y.

eod&wlyrs

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

—The new spring hat or bonnet is becoming multiplied in our streets. It is of dark straw, and is about three times as large as an ordinary six-lap race-track. It appears to be trimmed with anything from artificial violets down to old tomatoe cans.

Composed of the best known tonics, iron and cinchona, with well known aromatics, is Brown's Iron Bitters. It cures indigestion, and all kindred troubles.

Portsmouth Chronicle.

SATURDAY, APRIL 29, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Death of Emerson.

Ralph Waldo Emerson, poet and philosopher, died at his home in Concord, Mass., on Thursday evening, April 27th, at about nine o'clock, in the 79th year of his age. The last time he was absent from Concord was when he attended the funeral of the poet Longfellow. His death resulted from a gradual breaking-up of his physical system, hastened no doubt by a cold caught a few days previous to his demise.

Putting Up the Bars.

Ex-Judge Jeremiah Smith, Hon. E. A. Hibbard, and Wm. M. Chase, Esq., of the committee to examine applicants for admission to the New Hampshire bar, have at the request of some of the judges made an outline of reading for students at law. The court has adopted a new rule, which provides that a person who fails in an examination for admission to the bar will not be admitted to another examination until the court, upon a special consideration of his case, makes an order to that effect. The standing of one who does not pass will not be made known. The court evidently intends that a person lacking legal acquirements, attempting admission to the bar, shall not be pulled through except in a legitimate mode.

The Life-Saving Service.

On Thursday, April 27th, the conference committee on the life-saving stations bill reported in the house, but Mr. Dunnell, of Minnesota, raised the point of order that the report created some entirely new sections in the bill, and therefore could not be entertained.

One of the sections provides for the pensioning of the members of the life-saving service who have been disabled in the execution of their duty, and over this a sharp colloquy arose between Mr. Cox of New York and Mr. Randall of Pennsylvania, the latter objecting to the creation of any civil-service pension list, and the former insisting that Mr. Randall had misinformed the house.

Mr. Reagan, of Texas, attacked the report, and Mr. Cox, of New York, made an eloquent defence of the members of life-saving stations, saying that we give hundreds of millions of dollars to men who killed people, and it was only just to take care of the noble heroes who amid storm and wave risked their lives to save the perishing.

Randall opposed the bill. Mr. Hewitt of New York and Mr. Hill of New Jersey favored it, and Mr. Candler of Massachusetts followed in a similar strain with a most effective speech.

The report was agreed to by 135 ayes to fifty-five nays—a decided victory for Mr. Cox, who has ever been one of the most intelligent and active workers for the efficiency of the life saving service.

News and Notes.

The steamer Nankin, from New York for Liverpool, and the steamer George W. Clyde, from the West Indies for New York, collided near Sandy Hook on April 25th; the former was sunk, and the latter's bow was badly stove. No lives were lost.

There was a lively scene in Washington on Thursday last, in the investigation now going on before the foreign affairs committee concerning the Shipherd story. Ex-Secretary Blaine was cross-examined by Perry Belmont, a young man whose principal claim to eminence seems to be that he is the son of his father, a wealthy banker of New York. Belmont persisted in maintaining the truth of a statement which Mr. Blaine had conclusively shown to be false, and his conduct was spoken of by Mr. Blaine in fitting terms. Belmont retorted in the language of a blackguard, and there was an exciting time in the committee room for a few minutes.

The board of visitors of Andover (Mass.) seminary have refused to approve the election of Rev. Newman Smyth, D. D., to the Abbott professorship of that institution.

Scott, the noted thief, on April 26th died in the Massachusetts state prison at Concord, where he was serving a sentence of twenty years for complicity in the Northampton bank robbery. He left a will giving $15,000 to his wife and $500 to Jacob Dunlap, another of the bank robbers.

At Lake City, Col., Thursday morning, April 27th, 100 masked men overpowered the guard and took from jail George Betts and Jim Brown, who shot and killed Sheriff Campbell the previous morning while he was attempting to arrest them. The men were taken to a bridge, and hung from the railing.

Mrs. Saltzman of St. Joseph, Mo., has brought a suit against the state of Missouri for $2,000 damages, that she alleges has been done to her house, which was occupied by Jesse James at the time he was killed by the Fords. Relic hunters have dismantled the house and carried off many articles of value as mementoes of the desperado.

Edna Dora Avery, charged with poisoning the inmates of a den in Providence, R. I., where she was cook, has been acquitted.

Prince Leopold of England and Princess Helen of Waldeck were married in London with much pomp, April 27th.

William and Bradford Courts, brothers, killed James Smith in a quarrel at Brooksville, Ky., April 22d; on the 27th they were taken from jail by a mob, and hanged.

Three hundred and twenty-eight Italians arrived at New York on April 26th; their combined capital amounted to nine cents, and their clothing was worth as much more. Keep out the Chinese.

James and Norah Bean of Fort Fairfield, Me., were arrested recently on a charge of cruelty to two daughters, aged seven and ten years respectively. They waived examination and were ordered to recognize in the aggregate sum of $1,500 for their appearance for trial at the September term of court. The case is one of fiendish cruelty, the youngest girl having been made a drivelling idiot by the devilish brutality of the parents. It is said the girls are children of Bean's by a former wife.

Wright Patten, a hack driver at Minneapolis, Minn., has been arrested for carrying out a mock marriage with Emma Baxter. A horse jockey personified the minister. Patten deserted the girl after living with her five days. The villain has pretended to marry and then deserted three other girls in the same way.

Naval Affairs.

Passed Asst. Engineer Nicholas H. Lumbdin, for disobedience of orders, has been sentenced to suspension for one year, and to be reprimanded; Lieut. Daniel W. Davis, absent from station without leave, suspension for one year on three-quarters pay; Lieut. Comdr. George R. Durand, disobedience of orders, dismissal from the service, (mitigated to suspension for one year on furlough pay:) Passed Asst. Paymaster S. D. Hurlburt, drunkenness, suspension for five years on two-thirds pay.

The Galena arrived at Malta, April 1st, from Palermo, and sailed on the 5th for Leghorn.

Rear Admiral E. T. Nichols has been appointed acting secretary of the navy, to act during the absence of Secretary Chandler.

Lawrence A. Wedderburn, a cadet engineer at the naval academy, fell from a ring-rope in the gymnasium, April 27th, striking on his head, and died in half an hour.

Capt. L. E. Fagan and First Lieut. Frank Scott, of the marine corps, at Norfolk, Va., have been granted leave, the former for thirty days, and the latter until the 5th of May.

The Vandalia is to go out of commission at Norfolk, Va., immediately. The Tennessee, Yantic and Kearsarge are to be examined at that yard.

Capt. Joseph Fyffe is detached from command of the flagship Tennessee; Lieuts. Totten and Kelley are detached from the same vessel, and all placed on waiting orders.

In the national house of representatives, April 27th, the speaker laid before the house a communication from the secretary of the navy, stating that the expenditures at the Boston navy yard during the fiscal year ending June 30th, 1881, amounted to $433,000.

We had a call on Wednesday from Jos. B. Stearns, Esq., who arrived in Boston last week on the steamer Parisian from Liverpool. Mr Stearns was to leave for Peru on Thursday, to proceed with the laying of 3000 miles of submarine telegraph cable from Peru to Tehuantepec, Mexico, whence the line crosses overland to the gulf of Campeachy, and thence up the coast to Galveston, touching at Tampico and Matanoras. He was to meet the cable steamer at Peru. Mr. Stearns is enjoying good health and spirits, and is leading a very busy life, flying from continent to continent with no more concern than ordinarily attends a journey to Boston or New York.—*Journal.*

Hon. Wm. J. Armstrong, who is to lecture for the benefit of the Public Library, on Tuesday evening, May 2d, at Franklin theatre, has the highest recommendations from New York and Brooklyn. Mr. Armstrong had a public mission abroad during the war, and became personally acquainted with Castelar and Gambetta, the leaders of the liberal parties in Spain and France, and with present European politics. The lecture upon Castelar is greatly praised. It is hoped that both for the subject, and the object, our citizens will be induced to purchase tickets liberally.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying Irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjans2

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountains over 2000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*not assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
April 29, 12:00 A. M.

Probabilities for New England:—

Local rain followed by clearing weather winds shifting to northwesterly, stationary or higher barometer, stationary temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 40 deldegrees above zero.

Cloudy.

THE WILSON HOUSE.

In the board of mayor and aldermen, at their last meeting, the subject of the Wilson house obstruction of the Vaughan street extension was brought up, and one alderman suggested that the simplest way of dealing with the matter would be for the city to cut the old house down to the line of the street without any further talk. Alderman Martin hoped there would be no more wars on account of the Vaughan street extension, and reminded his brother aldermen that there had already been one pitched battle between the city's forces and an abutter on that street, which had resulted in some haw business, while the enemy still had the disputed territory covered with his boards. No definite line of action was decided upon.

As the city has already paid seventy-five dollars on account of the damage done the Wilson property by the new street, we cannot see why the legal rights of the municipality are not enforced, and this dangerous obstruction removed from what would be quite a good-looking street were it once cleared. Why that one little old house should be allowed to still bar the highway, when all other property had to get out of the way in a hurry, is a mystery to the great body of citizens.

"REV. A. A. WAITE" AGAIN.

The Lynn correspondent of the Boston *Globe* writes that paper as follows:

Elder Waite, the evangelist, who left the town suddenly late winter, leaving behind him numerous unpaid bills, has written to a friend in this city expressing a desire to come back to the scenes of his former labors. He states that his western tour has been successful, and that he has $1700 at his disposal, which he proposes to invest in Lynn. His correspondent was requested to collect and arrange all accounts held against him by Lynn parties with a view to their settlement. After he has liquidated all his debts and established a character for financial honesty, he proposes to take up the building of a tabernacle, and carry out the plans that were left uncompleted. Some people profess to believe that Waite will return and become a preacher, but it is exceedingly doubtful if a congregation can be found who will select for a spiritual guide a man who is alleged to be a swindler and absconder.

"MASSACHUSETTS BAY BLUE-FISH."

It is said the pollock, of a size suitable for the frying-pan or for baking, can now be found in any eating house or hotel in Boston under the *alias* of "Massachusetts Bay blue-fish," and that they command a good price in that market. A gentleman of Kittery, Me., who has caught tons of pollock during his life, was in Boston a few days ago, and seeing this new kind of fish on the bill of fare concluded to try some, and did so; he says: "I thought I had tasted that kind of fish before—but 'twas good, anyway. Afterward, when I found out I'd paid thirty cents for a slice of fried pollock I was kind o' mad—but it tasted good."

Old down-river rangers on the Piscataqua have long known that a good-sized pollock, killed and cleaned as soon as caught, makes an excellent chowder, and that small ones, skinned and with the finbones removed, the same as "cunners are dressed, cannot be beaten as "pan-fish;" but it is a new thing for them to be sold in Boston market as fresh fish. The once-despised cat-fish, too, re-named "rock salmon" or "black salmon," has proved quite popular in Boston during the past winter; and not a few of them have been purchased in this city by housewives who would have shuddered at the thought of cooking and eating a "horrible old cat-fish." The unprepossessing sculpin, even, which consists principally of mouth and horns, can furnish a good meal to a hungry man; but this fish is not yet introduced in the market, so far as we have heard.

A PLEASANT OCCASION.

On Thursday evening, April 27th, at the residence of the bride's parents, No. 5 Newcastle street, Miss Ella R. Jackson and Mr. Ordway R. Hall were united in the holy bonds of matrimony by Rev. J. Herbert Yeoman. The affair called together many friends, the friendship and good wishes being manifested by the display of many valuable presents to the happy couple, to enumerate which would require a large space. After congratulations and the exchange of many pleasant words, and the due discussion of a generous supply of refreshments, the party separated, the newly-made pair going to their new home on Lincoln avenue with hearts filled with pleasant thoughts of happy days to come. C. H. C.

AROUND HOME.

A large number of people assembled in the Church of the Immaculate Conception on Thursday afternoon last, the occasion being the marriage of Mr. C. Sullivan, senior member of the fish and provision dealing firm of C. Sullivan & Co., and Miss Mary Canty. Rev. Father O'Callaghan tied the nuptial knot. "Con" has always been a pretty good kind of a man, and we expect he will hereafter very nearly approach perfection.

A very discriminating and appreciative audience warmly greeted Mr. George Riddle at Miss Morgan's school-room on Friday evening, and listened to his rendering of a portion of the Midsummer Night's Dream, the killing of Lalus, given in the Greek, from Œdipus Tyrannus, and other recitations. Mr. Riddle has always been greatly enjoyed in his former appearances in this city, and the generous applause and the rapt attention on this occasion show the unabated interest of the listeners in the varied parts he so satisfactorily recited. It was a feast seldom to be enjoyed in our community.

At the conclusion of Mr. Armstrong's lecture in Brookiyn, Henry Ward Beecher said: "I can confidently and cordially commend Mr. Armstrong to those who desire to have a clear understanding of the eminent contemporary men who are making the history of our own day. I urged every one, and especially the young men and ladies of my congregation, to attend these lectures; and I can since their delivery commend them yet more confidently." Mr. Armstrong's lecture on Castelar will be given at Franklin theatre on next Tuesday evening at eight o'clock, for the benefit of the Public Library. Tickets can now be had at Mr. Stavers' store.

Walter E. H. Fentress, at one time clerk to the commandant at this navy yard, is lecturing in Massachusetts on eastern travels. He appeared before the Young Men's Christian association at Lynn on the evening of April 26th.

New Hampshire Lodge of Odd Fellows, of this city, observed the 63d anniversary of the introducing of the order into the United States by a levee and dance on Wednesday evening, April 26th, the date of the anniversary.

The schooner Storm King arrived at Rockport, Mass., at one o'clock P. M. on Thursday, April 27th, with 9000 lbs. of fish. She encounted a heavy southeast gale, but, sustained no damage beyond the carrying away of some blocks. Haddock are reported as plentiful from Cape Elizabeth to Cape Cod.

The heavy sea of last Thursday damaged the Harding weir at Gerrish's island to the amount of several hundred dollars.

The funeral of the late Temple Lord of Salmon Falls took place in that village on Friday last, and was largely attended a number of people from this city and Dover being present. Mr. Lord was for a number of years during the first half of the present century extensively engaged in the freighting business between Portsmouth and South Berwick, Me., when the carrying trade between the towns on the Piscataqua river and its branches was all done by the "packets" that have now passed out of existence. He was an honored and respected citizen of Salmon Falls, and had occupied many positions of trust in the town. He was a member of the legislature of 1871-72, and a prominent Freemason.

The people up in the good city of Charlestown are trying to make themselves and us believe that the sale of the Kittery navy yard is highly probable. There is no occasion, neighbors. New Hampshire and Maine will take good care that Uncle Sam holds on to that patch of land.—*Journal.*

Captain William Storer, for many years a prominent citizen of Wells, was found dead in his bed on the morning of April 27th by his wife, on her awakening from sleep. He retired as well as ever, and heart disease is supposed to have caused his death.

—The variety of shapes of the new spring hats and bonnets is so great that it must be more difficult for the ladies to tell what is not in style than what is. Some of the bonnets and hats in the shop windows are enough to make a stern and dignified paterfamilias laugh—until he learns their prices; then he will look very disconsolate.

—The wife of Senator Edmunds is to receive a gift of a silk quilt from the women of the Utah as a mark of their appreciation of her husband's recent services.

—Taglioni, the once famous danseuse, was a year ago going about London on crutches, giving lessons at a dollar an hour, but has now given that up and is living with her son-in-law in Marseilles.

—The Rev. Whangdoodle Baxter has the most flourishing Sunday school in Auburn. A few Sundays ago he asked one of his pupils, "Who is dat ar mysterious Bein' from whom nuffin' am hid, who sees and knows eberything what happens? I axed yer dat queshun las' Sunday and I now wants de answer." "I knows hit. My fadder told me de right answer," said one boy. "Well, den, who does yer fadder say am dat mysterious Bein' who knows all things what happens?" "De foahman ob de grand jury."

Lake Winnipesaukee opened for navigation on April 27th.

At Warren Sunmit, on the Boston, Concord & Montreal railroad, a special freight train broke apart, and the rear section, running back, collided with a way freight, smashing an engine and a number of cars, tearing up fifteen rods of track, killing conductor Stone of the special train, and fatally injuring a brakeman named Keniston, April 27th.

SUNDAY SERVICES.

At the South Parish, Rev James DeNormandie pastor, morning service at 10 30; Sunday school a chapel on oart street at 2 45 P. M. Vespers at 7.30.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later fail. Yet the nervous and mental system, bring on organic diseases, impotency, destroy energy and social pleasures, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 45 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. tmy15

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. Freeman.)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to overwhelmingly it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

WHEAT BITTERS CO., M'f'rs, N. Y.

FISTULA AND PILES.

TRUNK REPAIRING!

a specialty. Trunks called for and returned without extra expense at

John H. Tilton's

Harness Dispensatory,

18 CONGRESS STREET.

MAIN & WINCHESTER BLOCK.

New Hampshire Items.

There is still good sleighing between the Profile and Flume houses, Franconia Notch, White mountains.

Gilman Corser and wife, of Colebrook, have celebrated the sixty-first anniversary of their union.

The citizens of Exeter are agitating the expediency of placing a monument on Front street in that town, where the celebrated Whitefield preached his last sermon.

The first passenger cars completed for the Pemigewasset Valley railroad, now in process of construction, were turned out from the Laconia car company's shops a few days ago.

Mr. and Mrs. Aldrich Horton, of Hinsdale, celebrated the fiftieth anniversary of their marriage on the 12th instant.

Rev. William L. Gaylord, of Chicopee, Mass., will deliver the address at Fitzwilliam on Memorial day.

F. W. Sanborn has disposed of his entire interest in the Laconia *Democrat*, and Charles W. Vaughan and Albert P. Brown, who have for some years been connected with the office, have purchased an interest in it. The new firm is Lewis, Vaughan & Co.

Joseph Lamere of Littleton lost a valuable horse a few days ago. He attempted to give him some mackerel brine by pouring it through the horse's nostrils, and in so doing the horse was strangled.

"When I publicly testified that I had been cured of a terrible skin humor by Cuticura Remedies, I did so that others might be cured, and do not regret the time given to answering inquiries."—Hon. Wm. Taylor, Boston.

The stock books of the Laconia & Lake Village horse railroad are closed, the amount of $10,000 having been subscribed. The work of building and grading the road will commence at once.

Catarrh.

Relief in five minutes in every case; gratifying, wholesome relief beyond a money value. Cure begins from first application, and is rapid, radical and permanent. Ask for Sanford's Radical Cure. Complete for $1.

Mrs. Hannah Barton Munsey, of Gilford, died April 25th, aged ninety-nine years, nine months and twelve days. She was the oldest person in that town; widow of Dr. D. W. Munsey, and mother of B. Munsey, M. D., the latter a white-haired patriarch.

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

—G. W. Rogers pastor of the Baptist church, Austin, Tex., writes to the Kansas City *Times*, under date of April 12th, to say that the *Times* in its sketch of the religious views of Jesse James who in error as to the time of his baptism. "In October, 1877," Mr Rogers goes on to say, "at a meeting I held in the Baptist church in Kearney, he professed conversion, and I baptized him. He prayed several times publicly in the prayer meetings, and seemed very much interested in Frank, for whom he prayed as 'his wayward brother.'" All this, however, hardly excuses the Taunton *Gazette* for saying; "Jesse James was baptized in 1877, and became at once especial y gifted in watching and preying."—*Boston Globe.*

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

—Nothing pleases an hostler in quite the same degree as working to make a harness fit a horse, and then finding he has put it on the wrong horse. He generally gets square by kicking the horse, which is of course much to blame in the matter.

My Family Doctor

For the last two years has been Sulphur Bitters, and until I began using them in my family we had more or less sickness, and our doctor's bill had been very large. Since we began their use we have had no doctor to pay, and three dollars invested in Sulphur Bitters has kept health in our family.—*E. Knott, Postmaster, Waverly, Iowa.*

—The daughter of J. W. Mackay, who is heiress to many millions, is said to be nineteen, pretty, and reserved. Wonder whom she is reserved for?

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells Health Renewer." $1. Depot, J. H. Thacher's.

—The Brooklyn bridge is now the real bridge of size. The Venetian imposition should be promptly kicked into the dust-iron. Steal was largely used in the construction of the Brooklyn bridge.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., It is the most effectual remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and know it to be a good article.

From I. S. Polter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Richfield, N. Y., says:
I use your PAIN KILLER frequently. It relieves pain and soreness, and heals wounds like magic.

J. W. Dee says:
For colds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is entirely because of its merit. Since the Pain Killer was first introduced, hundreds of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued than ever before. Every family should have a bottle ready for use. Much pain and heavy doctors' bills may often be saved by prompt application of the Pain Killer. Unlike most medicines it is perfectly safe even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

Catarrh

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS. Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the seasons of low vitality with that of leaves and roses. No loss in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home then going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WOR H SENDI G FOR

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the Lungs and how they can be Cured," which is offered free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2831.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Yellow Dock, Mandrake, Gentian, Dandelion, Juniper Berries, etc., combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. It cures Dyspepsia, Rheumatism, Sleeplessness, all diseases of the Stomach, Bowels, Lungs, Liver, Kidneys, and all Female Complaints.

If you are wasting away with Consumption or any disease, use the TONIC to-day. It will surely help you. Remember! it is far superior to Bitters, Essences of Ginger and other Tonics, as it builds up the system without intoxicating. 50c. and $1 sizes, at all dealers in drugs. None genuine without signature of H. McDonald & Co., N. Y. Send for circular. LARGE SAVING IN BUYING THE DOLLAR SIZE.

From the Cradle to the Grave—A large elegant engraving, size 22x28 inches, suitable for a family with a single sense of shame, 25 fine cuts on the one heavy plate. The family groups are perhaps the most chaste. Single copies 25c., $5 per hundred—300,000 sold in New York and Brooklyn in two weeks. J. W. Young & Co., Publishers, 22 Dutchy street, N. Y.—Agents wanted everywhere.

Daily Chronicle.

[Written for this paper.]

Across the Continent.

Dear Chronicle: In late February my way took me across the continent by the southern route; you might like to see through my eyes a few of the interesting scenes of the panorama.

You have, perhaps, heard of the consequential young man in the east who said he did not dare go west for fear the east would *tip up*; you hadn't noticed my absence, had you?

We will take Kansas City as a starting point, a city of fifty-five thousand inhabitants, and a rival of Chicago as a railroad centre. Perhaps you can form some idea of its importance in that respect when you remember that twelve trunk lines centre here. It has, besides, immense stock yards and packing establishments.

In its union depot may be found a most motley and interesting crowd. As I sat watching a Swedish family, big with little children, I was impressed with the difference between a Swedish child of six, and the average American child of the same age. The former would sit for an hour at a time quietly munching cakes, the mother as quietly looking on, perhaps thankful, like Mrs. Tulliver, that "her children can eat as much victuals as most;" while the latter type of childhood would be investigating every part of the depot or out examining the engine, to the constant terror of its fond mamma.

There are "black spirits and white" here, the millionaire and the miner, the lady in Gainsborough hat and the rosy-cheeked Irish lass fresh from the old country. One lass has a pensive, faraway look, and I wonder if she is thinking of the little farm way back from the highway, along the little foot-path by the hedge-row and over the stile. Is she thinking, I wonder, of an old mother there, and of

"The buttermilk, fresh as the daisy?"

We leave Kansas City behind, and cross the Missouri river, entering the fertile and interesting state of Kansas, which wears an air of thrift and prosperity even in the glimpse we get of it from the car windows. There are flourishing towns and pleasant homes here, with churches and school-houses dotting the prairie, and as we look on it to-day we see no trace of the bitter struggle which was enacted here thirty years ago. Does anything reconcile you to growing old better than the thought that you are constantly moving away from some unhappy experience in your life?

Many of the fields here are separated by hedges of Osage orange, which look somewhat dreary this winter day, but I can fancy the prettiness they must lend to the summer landscape. A New Englander notices here an absence of barns, which are not needed, owing to the style of farming; but the country homes seem to lack something, nevertheless.

One meets on these western trains many commercial travelers, who know all about the country and all about everything else, if you judge by their manner and conversation. They speak of "Our branch house in Chicago, you know," and "our firm," till I wonder if they did not expect the firm to "*tip up*" during their absence.

Leaving Kansas we enter Colorado. The climate is delightful this February day, the air pure and sweet, and the twilights longer than I ever saw them elsewhere.

La Junta is the first place of any importance which we reach, and is the junction where passengers change for Denver. People who reside in Denver acquire such a fondness for it, and speak of it with such admiration, that it makes one desire to become acquainted with it.

Later on we stop for a short time at a little town, or "city," as perhaps we should respectfully speak of it, called Trinidad, where we as learn from its daily paper a grand party took place the evening before. There were silks and jewels, fair women and brave men at that party, if we are to judge from the description given in this ambitious little sheet. Surely no aristocratic gathering in Portsmouth could be "written" up with finer phraseology than this smart little western town gets its social items into print.

We come now into the region of Mexican adobes, and very quaint and ancient they look. I had been accustomed to them in California, but here they are built with flat roof and open court, many of them covering a large area, though low studded and indifferently lighted.

This is a great stock country, and the stock as I saw it was in fine condition, owing to the mildness of the winter. No herder is kept during the latter season, but when spring comes the owners have what they term a general round-up, when the stock is separated and branded.

We wind along for miles by the Arkansas river, which is here a modest little steam, and keep in sight for miles, as well, of the old Santa Fe trail.

Raton tunnel is the gateway, so to speak, between Colorado and New Mexico, and is the highest point above the level of the sea attained by the railroad on this route—over seven thousand feet. This tunnel is nearly a mile and a half in length, and when we emerge from it we are in northeastern New Mexico.

An immense engine, affectionately called "Uncle Dick" by the employes of this section, is kept here to assist in heavy train work. The grade on the New Mexico side is very steep, and in the earlier days of the road accidents were of frequent occurrence.

The scenery is wild and grand here, but we gradually descend into the valley of the Rio Grande. No rain falls here for at least eight months of the year, and the summer heat is great, the thermometer sometimes reaching 120 degrees, yet the air is so pure and dry that those who reside here hardly appreciate the indications of the thermometer.

We pass through several genuine Mexican towns which are singularly interesting. Each hamlet, no matter how poor or small, has its Catholic church, and each church has its bell, of which a Mexican is very fond. These houses are of adobe, too, with open court, and walls two feet thick at least, furnishing the best possible protection from the heats of summer. The Mexican women were sitting around the doorways in the pleasant sunshine, with the usual shawl thrown carelessly over their heads, and I wondered, Yankee fashion, if their kitchens were tidy, and if they had no cooking or mending to do. If a Mexican at home is not a type of indolent indifference, then I have never seen it.

[Concluded in next issue.]

"Pinafore" never goes to sea without a good supply of that famous remedy, Adamson's Botanic Balsam, for coughs and colds. Trial bottles, 10 cts.

—Will Tennyson kindly write up a poem on the charge of the gentleman who has money to loan?

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

AN EXTRA LOT OF

Sponges, Chamois Skins and WHIPS

at reasonable prices at

JOHN S. TILTON'S

Harness Maker and Trunk Repairer,
18 Congress Street.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self-cure, which he will send FREE to his fellow-sufferers. Address J. H. REEVES, 43 Chatham St., N. Y. eod&wtyst

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

—"What colored frame will you have, ma'am?" inquired a shopman of a lady who had called to have her prospective husband's picture framed. "Well, you ought to know more about it than I," was the lady's reply; "I want a frame that will match the picture." "Oh, of course, ma'am," said the dealer, selecting one from the large assortment; "How would a green one do?" That man has never discovered to this day why that woman got out so quickly, leaving the door on a wide jar.

Composed of the best known tonics, iron and cinchona, with well known aromatics, is Brown's Iron Bitters. It cures indigestion, and all kindred troubles.

Portsmouth Chronicle.

MONDAY, MAY 1, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Attempted Highway Robbery.

On Tuesday evening of last week Mr. Stephen Sears of Great Falls, engineer on the Boston & Maine road, went to Dover to attend a meeting of Knights Templar of which order he is a member. He proceeded home with a team about ten o'clock alone, and when near the old trotting park of Great Falls he met a man driving a team toward Dover, who said he had just escaped from the clutches of a gang of men who attempted to rob him. Mr. Sears took no heed, thinking the affair an impossibility in this civilized part of the world at this late day. So he proceeded onward. But a little later he found the highway strewn with fence rails, and soon four ruffians jumped over from behind the fence, two of them seizing his horse by the head, while the others attempted to pull him out of the carriage. Mr. Sears had no firearms, but he is a muscular man, and a thump on the nose sent one ruffian "to grass" while a vigorous kick satisfied another that he was not wanted in that team, and Mr. Sears was soon allowed to proceed. There is no clue to the criminals.

The "Country Week."

The special committee of the Boston Young Men's Christian Union have issued their seventh annual report of the "Country Week," which has for its object the sending of poor children and others from the city during the summer months, for a vacation of ten days or more, to pleasant homes in the country.

Since the inauguration of the work in 1875, there have been sent out 6,669 children and adults, the visits averaging twelve days for each.

The statistics of the work are interesting, showing an increase each year, and a tenfold increase during the past season over the first season. The number sent in 1875 was 160; in 1876, 320; in 1877, 651; in 1878, 1,046; in 1879, 1,316; in 1880, 1,377; and in 1881, 1,589.

Visitors were sent last year into 155 different towns, remaining 18,596 days, and the average expense per week for each was $2.57. A Country Home has been established at Wellesley, Mass., where 161 children, and others, principally invalids, remained last season, 1,952 days.

The report, which contains many interesting details of the work, will be sent to any one desiring it.

Subscriptions are now being received for the season of 1882, and should be addressed to Wm. H. Baldwin, President Boston Young Men's Christian Union, No. 18 Boylston street, Boston, Mass.

Shocking Steamboat Disaster.

On Friday, April 28th, the steamer Marion on Wateree river, S. C., exploded one of her boilers. She had on board a picnic party, thirty-five or forty in number. Miss Minnie Henry was instantly killed; Misses Mattie and Nannie Henry are missing, and are supposed to have been drowned; Miss Lizzie Henry was badly hurt, and is not expected to live; J. C. Eason was badly hurt, and is not expected to recover; William Trumble was badly scalded; Miss Minnie Bates had an arm broken and other serious injuries; Arvell Stiles is missing, and is supposed to have been drowned; Tom Richardson, colored, one of the crew, was drowned; John Williams, another of the crew, was badly hurt. The steamer is a wreck.

News and Notes.

A four-years-old girl named Mina Spear was decoyed into the woods at Minneapolis, Minn, April 27th, by a man giving his name as Tim Crowley of South Boston, and brutally assaulted, receiving fatal injuries. The wretch was taken from jail that night, and hung by a mob.

At Yanceyville, N C., April 26th, Felix Roan, the postmaster, shot and instantly killed Nathaniel Johnston, and wounded George Williamson, Jr., in the forehead, probably fatally. All of the parties are of the highest class of fire-eating chivalry.

Kingman Young, of Barrington, broke his leg on the 27th ult. in jumping from his wagon in Dover.

A verdict of $15,000 has been rendered in the circuit court at Frederick, Maryland, against the Baltimore & Ohio railroad company in favor of the children of Luther M. Haver, who was run over and killed at Waverton, Maryland, June 4th, 1880.

A small boy at Glenwood, Iowa, named Dufoe, while playing "Jesse James," shot Harry Wildeman dead for refusing to hold up his hands.

Mrs. W. H. Gray, wife of a well-to-do farmer of Centralia, Ill., hung herself to a tree in front of her house. The reason for the deed is not known.

Mrs. Mary Gallagher and daughter of Philadelphia are severely afflicted with trichinosis, and will die. They partook of boiled ham.

The boiler of Hyman's saw mill at Goldsboro, N. C., exploded Friday, tearing the building to pieces, killing Fireman Maybry, fatally injuring three others, and scalding badly two more.

As the result of a dispute about the pre-emption of eighty acres of land in Uvalde, Texas, John Mitchell was tied to a tree and whipped nearly to death, while his two sons were shot dead in his presence, by two neighbors.

Probable Wreck.

On Saturday, April 29th, Collector Doten of Plymouth, Mass., received information from the life-saving station at Manomet in regard to a seaman's chest reported found on the previous day, that leaves little doubt that a vessel must have been lost with all on board near the coast in the storm on Thursday night. The chest when opened showed several articles of clothing, outer and underwear, with small articles usually carried by seamen. On the fly leaf of a Testament was written the name "Robinson B. Millbury, Hampton." There was also a watch chain, with an acorn for a charm. In a memorandum-book was the entry, "April 5, 1882, shipped in the Anna for $15 per month." Also a piece of manuscript poetry, signed Isaiah Millbury. The surfmen also picked up during the day, Saturday, pieces of panel work of cabin finish, and a barrel of flour but slightly wet.

New Hampshire Items.

Mrs. Sallie Tilton, of New Hampton, died on Wednesday of last week at the age of 100 years, eleven months and twenty-one days. She was born in Allenstown, and was the daughter of Samuel Keniston. In 1810 she married Josiah Tilton, and located on the farm where she died. She left five children, twenty grandchildren and thirteen great-grandchildren.

Miss Nancy Cram, an elderly maiden lady living alone in Newmarket on the Durham road, near the residence of William F. Chapman, was found dead last Friday morning in her house. The old lady, who was very feeble, evidently fell into the fireplace, and was unable to extricate herself before fatal results ensued. When found the left side of her face and body to the waist was burned to a crisp. The body was taken in charge by the selectmen, and from the circumstances an inquest was deemed unnecessary.

A horse twenty-seven years old, owned by Col. A. H. Young of Dover, dropped dead on Friday last in the street. He was used as a saddle horse by his owner during the war.

The *Army and Navy Journal* of last week has the following: "Civil Eng. Craven is in Washington in connection with the matter of his recent detachment from the Portsmouth navy yard. It is understood that the order of detachment has been suspended for ten days. The difficulties between the commandant, captain of the yard and the civil engineer are the subject of extensive correspondence. It is possible that the true condition of affairs can only be determined by a court of inquiry."

The Boston *Post* of April 28th says: "Naval Constructor William L. Mintonye is ordered to temporary duty at the Kittery navy yard. Assist. Naval Constructor John F. Hanscom will have charge of the construction department in his absence."

A derrick sloop, with the apparatus to be used in the removal of Badger's island ledge arrived at this port from the eastward on Sunday.

The steamer Mystic on Saturday towed the contractor's sloop Gazelle from her anchorage above Gangway rock to C. E. Walker & Co.'s wharf, where her hoisting gear was utilized in putting in place the gallows-frame of the new coal-pocket, after which the sloop was towed back to her old moorings. The head of the gallows frame is fifty-six feet above the capsill of the wharf, and a three-inch wire rope will be used for hoisting purposes.

The schooner Joseph A. Proctor, Capt. Edw. Jameson, was on Saturday reported below, fitting for a trip to the Western banks. The schooner Mary S. Hontvet is nearly ready for the banks.

The schooner Grace Choate procured about fifty barrels of herring from the weirs on Saturday morning.

The gondola Edgar A. Weston came in on Saturday from Hampton, with a load of gravel for Dennis Shea, to be used in the making of cement drain-pipe.

Mlle. Rhea, a French actress who speaks English perfectly, commences an engagement at the Boston Museum this (Monday) evening, in "Adrienne Lecouvrier," with Miss Norah Bartlett as the Princess de Bouillon.

MARRIED.

SHANTON—WATSON. In Newmarket, April 17th, Mr. James Shanton of Durham and Miss Medora Watson of Newmarket.

DIED.

OSBORNE. In Exeter, April 22d, Miss Sarah Osborne, aged 87 years.

PALMER. In Hampton, April 4th, John Palmer, aged 79 years and 3 months.

GOOGIN. In Seabrook, April 15th, Mrs. William Googin of Hampton, aged 25 years and 10 months.

YORK. In Lee, April 26th, Israel D. York, aged 41 years.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

ARRIVED April 29th.

Br Sch Mary Eleanor, Marvin, Bridgewater, N S, with 2000 ties to Eastern railroad.

SAILED April 29th.

Steamer Acushnet, Bird, Boston.

Sch Hattie Lewis, Brewster, Eliot for Boston.
Sch Ocean Eagle, Maxwell, Eliot for Boston.
Sch Triton, Rand, Eliot for Boston.
Sch William Duren, Doyle, Dover for Bangor.

ARRIVED, April 30th.

Sch Jesse Elizabeth, Nixon, Richmond, Va. with 447 tons coal to J Albert Walker.

Sch Thomas W Hyde, Warren, Perth Amboy, with 700 tons of coal to C. E. Walker & Co.

IN LOWER HARBOR, 29TH, schs Lotilla, Amee, Dover for Boston; Golden Gate, Amee, Boston for Isles of Shoals, with salt to Lemuel B Caswell. A large number of vessels arrived in the lower harbor during the storm of Thursday and Friday, most of them proceeding on Saturday.

A couple of New York banco steerers somehow got hold of the identity of Sheriff J. Horace Kent, of Portsmouth, N. H., while he was in the former city last Thursday, and attempted to practice their little game. The sheriff played with them for a little as a cat plays with a mouse, and then to their astonishment turned them over to a detective, informing them at the same time of his usual business when at home. They claimed to have met him last summer at Portsmouth while they were visiting Frank Jones, and the sheriff gave them an invitation to repeat their visit the coming summer, promising to see to it that they should have a warm reception. They evidently concluded they had mistaken their man.—*Boston Traveller.*

Rewarding Politeness.

Some thirty years ago Mr. Green, an amiable Englishman, seeing a rather old man looking for a seat in church, opened his pew door, beckoned to him, and placed him in a comfortable corner, with prayer and hymn books. The old gentleman, who carefully noted the name in these latter, expressed his thanks warmly at the close of the services. Time had effaced the incident from Mr. Green's recollection, when he one day received an intimation that by the death of a gentleman named Wilkinson he had become entitled to $35,000 a year. Mr. Wilkinson was a solitary old man, without relatives. Green's act prepossessed him in his favor; he inquired about him, and found that he bore the highest character. There was a marvelously courteous hospitality in the matter of pews for that one time after that bequest, but nobody else has yet got $35,000 a year for a seat.

Portsmouth Wholesale Prices.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

PORTLAND & OGDENSBURG.

The Mercantile Trust company of New York has filed in the office of the clerk of the circuit court of the United States in this city an amended bill of complaint against the Portland & Ogdensburg railroad, and against Messrs. Spring, Milliken and Webb, trustees under the mortgage of the railroad.

It will be remembered that upon the case being heard, wherein the Mercantile Trust company, who own $80,000 of the bonds of the Portland & Ogdensburg railroad of the issue of November 1, 1871, complain that the earnings of the line in New Hampshire are taken to pay interest on the bonds secured on a previous mortgage on the part of the road in Maine, the interest on the plaintiff's bonds having been unpaid since November, 1876, the railroad company filed a demurrer, one of the grounds of which was that the trustees under the mortgage had not been made parties to the suit in equity. This position was sustained by Judge Lowell. The amended bill now makes Messrs. Spring, Milliken and Webb parties, as the judge allowed the trust company to thus amend within sixty days from the filing of his opinion. The papers have been served, and the answer of the defendants will be due at the June rule day of the circuit court, the first Monday in June.

A REMARKABLE AFFAIR.

On Tuesday night of last week the office of the Newmarket *Advertiser* was burglarized, the editor referring to the affair as follows:

Entrance was effected through a back window which had no fastening, (we never had the remotest idea of a printing office being burglarized, and consequently took no especial pains with our fastenings,) by climbing up a water-spout and walking along the window coverings of the lower story. The desk in the sanctum was "cleaned out" of every farthing it contained; about $15 in small change. The robbers left two one-cent stamps on the floor, for which we are very much obliged, as it would have been extremely discouraging to have been left entirely "dead broke." We have been a pretty thorough reader of the papers for a number of years, but we never before heard of a printing office being broken into, and our adventurous burglar ought to have a medal for his originality. We advise all other robbers to keep away from this office, as we have hired a vault of the Safe Deposit Co., Boston, and shall keep our ducats there hereafter.

The wonderful thing about this affair (even more remarkable than that a printing-office should be broken into) is, that the thieves should have been able to gobble so much plunder. Will Bro. Pinkham please explain how it came about that an editor should have fifteen dollars on hand, all at once? We never before heard of such a circumstance, and can only hope that our brother of the quill came legitimately by his store.

SUPREME COURT--CARPENTER J.

SATURDAY, April 29th.

Case State vs. Ingalls, charged with being a defaulter as late treasurer of the town of Candia, was given to the jury in the afternoon. During the trial on Friday, Capt. Patten, counsel for the defence, was taken sick quite suddenly, and carried out of the court house; and the trial had to be stopped for the day.

We were informed on Sunday by telephone that the court kept the jury out until half past eleven o'clock on Sunday morning, where they were discharged, being unable to agree. It is understood that the jurers stood four for conviction and eight for acquittal. At a former trial the jurors stood six to six. The prosecuting officers perhaps are now convinced that on such evidence as can be adduced. Mr. Ingalls cannot be convicted, and possible the county will be spared the expense of future trials of this indictment.

The trial of a civil case will be begun this (Monday) morning.

POLICE COURT.

SATURDAY, Apr 29; *Batchelder J.*

Abram Hurley was before the court on a charge of drunkenness; the charge was shown by the evidence to be only too true, but Abram was let off on probation.

Andrew Snow, a mariner, was charged with assault on Mary Fitzpatrick, found guilty, and fined $5, costs being taxed at $8.81; paid.

Mary Fitzpatrick, for drunkenness, was fined $3, costs assessed at $6.90.

TACKLED THE WRONG MAN.

Sheriff Kent, when he came from visiting President Arthur at Washington last week wore the air of a well-to-do New England citizen and a hat of conventional style. Indeed, as he came out of the Fifth Avenue hotel in New York and stepped down Broadway, he might have been taken by one of the swell mob of New York as a bank president, or a down-east vessel-owner. At all events, as our fellow citizen emerged from his hotel he was accosted by a chap who had marked him out as a respectable party from the rural regions, and called by name. The fellow followed up the enquiries after the condition of the colonel's health, by a statement that he was from New Hampshire and had often seen the colonel; and was quite anxious to know how Mr. Jones was as to his sanitary condition. Col. Kent has travelled before, and though he may have a slight deafness, his eyesight is as keen as any man's; and when a confederate of the first stranger came up and began his talk, the detective knew his men, but concealed his knowledge, and continued to let them think they were fooling him until Mr. Lowell, a well-known New York detective, happened to pass, when Horace gave in charge the "Son of New Hampshire," after informing him that he was the sheriff of the county in which he lived, and had spent very many years in watching for and apprehending just such fellows.

WEEKLY FISH REPORT.

The receipt of fish at this port for the week ending April 29th, foots up about 7,500 pounds, principally haddock, which is the smallest landed in a single week for many months past. It may be well to note that the larger fishing vessels belonging to this port carried their fares into other places, principally Boston, the total amount landed by them being reported at 58,658 pounds. Salmon of good size were taken in the weirs off this harbor the past week, and shipped off. Haddock have been reported plenty off these shores, and good catches made. The general scarcity of all kinds of fish has carried better prices to rule. A summary of the general receipts for the month of April foots up 50,837.

AROUND HOME.

The board of survey on the Plymouth will resume their services this morning.

It is nearly time to bring out the lawn mowers.

We have received from Weare a notification that "The anticipated temperance convention is delayed till further notice, to complete arrangements. A call will be issued announcing the time."

Among the certain things of this life is the fact that Schlotterbeck's Corn Solvent will remove a corn in the easiest and most certain manner possible. It is sold extensively by David Kimball & Co., No. 36 Market street, and it is safe to use it.

A meeting of citizens is called at the common council room this evening, at which time committees to act in conjunction with the committees selected by the G. A. R. will be appointed for Memorial day.

At a recent entertainment in Music hall, a lady occupying a chair on the lower floor was struck on the shoulder and quite painfully hurt by a missile thrown by some contemptible hoodlum in the gallery. The person who is more than suspected of the outrage is old enough to know better, and if conclusive proof of his ruffianism can be procured he will receive a lesson which will do him good.

John Lee of Biddeford went to Arizona some time ago, and has been shot and killed at Canon Diablo. Telegrams to his mother do not give a very clear statement as to his death, which is said to have had something to do with the passing of counterfeit money.

The Dover *Republican* says that Mr. Ralph Reinewald, formerly of this city but now of Dover, "has under consideration an offer to play with the orchestra of the Boston Museum." Mr. Reinewald is a gentleman and a musician, and would be an acquisition to any orchestra.

The steamer Fearless discontinued her trips to Kittery Point on Saturday. The steamer James Sampson, recently purchased by Mr. Keen, will take her place, running between this city and Kittery Point via Newcastle, and will also ply between this city and Kittery Foreside, making her headquarters in this city at the navy yard landing. The James Sampson will be in charge of Capt. Duncan. Mr. Charles Hart, late engineer of the Fearless, has been transferred to the James Sampson as conductor.

The schooner Albert Woodbury, Downs master, came in on Sunday from the Shoals, with her mainmast head sprung; the damage was sustained in a blow on the Wednesday night previous, since which time the schooner has taken a fare of fish into Boston. She will do no more shore fishing this spring, but will fit for mackereling after receiving a new main mast.

Our devout but doubting brother of the *Times* differs somewhat in his scriptural version from our neighbor of the *Journal*, who last week gave more credit to his scriptural items than to all the rest of the scissoring in his interesting paper.

The McKee Rankin Danites combination produced at Peck's opera house last evening the great and original play "The Danites." The play as given by this company loses none of its force and strength. It was well acted and well received by the audience.—*New Haven Register.*

At Music hall to-morrow evening.

After May 15th instant the price of stock in the Atlantic-Pacific Tunnel of Colorado, advertised for sale in this city by Mr. G. J. Greenleaf at $8 per share, will be advanced to $8.50; and the stock will soon be withdrawn from the market altogether, as enough has already been sold to continue the development work until September, before which time the managers are confident that the out-put of pay-rock will more than pay all expenses. Two veins which it had been expected to strike were some time ago crossed, according to anticipation, but they have not been regularly worked, the managers preferring to drive ahead on the original plan, to strike the main deposits.

STATED MEETINGS.

Oak Hall Agency in Portsmouth.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan22

CARRIAGE MAKING and REPAIRING

in all branches, at short notice, and to the guaranteed satisfaction of his patrons.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. Freeman.)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS THE Great LIQUID FOOD FOR BLOOD, BRAIN AND NERVES.

IS A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK. Highly recommended by Chemists and Physicians as

A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE,

as it does not stimulate the brain or irritate the system and leave deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, strengthens and quiets the nerves, purifies the heart's blood, and thereby makes only the best flesh, bone and muscle. It is worth its weight in gold. NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA, Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influence, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food tonic. For Sale by all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTERS CO., Office 19 Park Place, New York City.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing to do so should send 10c for his book, containing likenesses of bad cases before and after cure, also endorsements of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, Impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 43 Milk st., Boston. Days for consultation, each week—New York, Mondays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. myl8

Mistaken Kindness.

Mormon wagons took sunflowers along with them on their way to Utah, and Iowa farmers have had a hard time fighting the pest. A single Scotch thistle planted in Victoria—the Scotchmen there had a congratulatory dinner over it twenty years ago—has covered tens of thousands of acres, and been the destruction of farms. The scattered grain emptied from the bags of German troops in the Revolution knocked millions off the value of our grain crops for all time to come by bringing the Hessian fly. A careless man set out a French grape-cutting a few years ago with phylloxera on it, and the pest is now sprinkled along the Pacific coast, creeping inland. Its ravages in France have cost $400,000,000. A man with a taste for peppery greens planted water-cress in New Zealand, and the little plant has spread so that the local legislature has to appropriate a round sum yearly to improve the water-courses. Out of existence and the water-courses. A kindly, misguided man brought over to New York a basketful of sparrows, not twenty years ago, and the little wretches have already driven half our song-birds into the woods. In South America the same thing was done, and the birds are cleaning out the fruit crop; they will here soon. Natural selection is occasionally wiser in finding a place for men and animals than men.—*Exchange.*

That amphibious individual of rubber-suit fame, Capt. Paul Boynton, never attempts a trip without St. Jacobs Oil, the great rheumatic and neuralgic specific.

—Johnny's mother was reading to him about cleanliness. "In Africa," she read, "it's dreadful to think there are benighted tribes who do not know what soap is, and do not wash from one year's end to another." "Wish I was a 'nighted tribe!" said Johnny.

There is a Balm in Gilead.

The success which has marked the introduction of Cream Balm, a catarrh remedy, prepared by Ely Bros., Owego, N. Y., is indeed marvelous. Many persons in Pittston and vicinity are using it with most satisfactory results. A lady down town is recovering the sense of smell, which she had not enjoyed for fifteen years, through the use of the Balm. She had given up her case as incurable. Mr. Barber, the druggist, has used it in his family and commends it very highly. In another column a young Tunkhannock lawyer, known to many of our readers, testifies that he was cured of partial deafness. It is certainly a very efficacious remedy.—*Pittston, Pa., Gazette*, Aug. 15, 1879.

Price fifty cents.

—"Mr. Boatman," said a timid woman to the ferryman who was rowing her across a river, "are people ever lost in this river?" "Oh, no, ma'am!" he replied, "we always finds 'em again within a day or so."

Kidney Disease.

Pain, irritation, retention, incontinence, deposits, gravel, etc., cured by "Buchupaiba." $1. Depot, J. H. Thacher's.

"Rough on Rats."

Clears out rats, mice, roaches, flies, ants, bed-bugs, skunks, chipmunks, gophers. 15c. Druggists.

—A western editor offered a prize of $50 and a year's subscription for the best written proposal of marriage from a lady. He picked out a nice proposal from a beautiful and wealthy widow, answered it accepting the proposal, and, with the threat of a breach of promise suit, actually captured her.

A sure cure for impoverished blood, pimples, and sallow complexion, is Brown's Iron Bitters. It will produce a healthy color, smooth skin, and is absolutely not injurious.

—Mr. Barnum now owns Charles Dicken's overcoat—the one which he wore while in America the last time. It was presented to Mr. Barnum in Philadelphia the other day by Mr. G. W. Childs.

Parlor Decoration.

Horse-shoe, painted plaque and Sunflowers have each in its turn been the popular parlor ornament, but are now superseded by the Tamborine, which when tastefully decorated is very ornamental. For fifteen cents the Wheat Bitters Co., 19 Park Place, New York, will send free a beautifully decorated Tamborine.

—Miss Lizzie Sargent, the youngest daughter of the minister to Germany, intends to pursue her medical studies at a German university. She is already a qualified physician, having been graduated at the Pacific Medical College.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, scalds, pains, sores, etc. It is the *most effectual* remedy we know of. No family should be without a bottle or it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a perfect article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpar, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your Pain Killer frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dos Says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines*, it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever or Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing it thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—an ounced cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape which it can repay you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

WORTH SENDING FOR.

Dr. J. H. SCHENCK, of Philadelphia, has just published a book on "Diseases of the lungs and how they can be Cured," which is offered free, postpaid, to all applicants. It contains valuable information for all who suppose themselves afflicted with, or liable to, any diseases of the throat or lungs. Address Dr. J. H. SCHENCK & SON, 600 Arch St., Philadelphia, Pa. P. O. Box 2833.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Yellow Dock, Mandrake, Gentian, Dandelion, Juniper Berries, etc., combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. Do not ever take

BLUE PILLS

or arsenic, they are deadly. Place your trust in SULPHUR BITTERS, the purest and best medicine ever made.

Is Your Tongue Coated with a yellow sticky substance? Is your breath foul and offensive? Your stomach is out of order? Use SULPHUR BITTERS immediately! Your Urine thick, cloudy, or high-colored?

IT IS The Sulphur Bitters! Don't wait until you are unable to walk, or are flat on your back, but get some at once, it will cure you. Sulphur Bitters is

The Invalid's Friend. The young, the aged and tottering are soon made well by its use. Remember what you read here, it may save your life, it has saved hundreds. Don't wait until to-morrow,

Try a Bottle To-Day! PRICE, ONE DOLLAR.

A. P. Ordway & Co., Chemists, Sole Proprietors for U. S. and Canadas.

Don't Want! Dangerous!

SULPHUR PLASTERS cure pain in the side. KAUFMANN'S PILLS do not gripe. 25 cents

Parker's Hair Balsam

Satisfies the most fastidious as a perfect Hair Restorer and Dressing. Adopted for its cleanliness and elegant perfume. Never Fails to Restore Grey or Faded Hair to the youthful color. 50 cts. and $1 size at all druggists.

Get the Best

PARKER'S GINGER TONIC

Ginger, Buchu, Mandrake, Stillingia and many of the best medicines known are here combined into a medicine of such varied and effective powers, as to make the Greatest Blood Purifier & the Best Health and Strength Restorer Ever Used.

It cures Dyspepsia, Rheumatism, Sleeplessness, all diseases of the Stomach, Bowels, Lungs, Liver, Kidneys, and all Female Complaints.

If you are wasting away with Consumption or any disease, use the Tonic to-day. It will surely help you. Remember! it is far superior to Bitters, Essences of Ginger and other Tonics, as it builds up the system without intoxicating. 50c. and $1 sizes, at all dealers in drugs. None genuine without signature of H. Cox & Co., N. Y. Send for circular. LARGE SAVING IN BUYING THE DOLLAR SIZE.

From the Cradle to the Grave.—A large elegant engraving size 22x28 inches of a family with gentle owner of his life. 12 3c cts on the one heavy plate. The family groups of everybody the entire plate. Sent by mail 50c. $6 per hundred—$24.00 sold in New York and Brooklyn in two weeks. J. W. Stearns & Co., Publishers, 23 Barclay street, N. Y.—Agents wanted everywhere.

Daily Chronicle.

[Written for this paper.]

Across the Continent.

[Concluded from last issue]

Las Vegas is the first place in the territory of any considerable size through which we pass, and is a typical western or frontier town, with its vices and its go-a-headativeness.

Just west of Wallace we pass a reservation of Pueblo Indians, which furnish another type of humanity; and then we wind a long the valley of the Rio Grande for along distance. The valley is irrigated from the river, and the finest grapes and peaches are raised here by the Mexicans, who pack them on their little donkeys, or *burros* as they term them, to Las Vegas or Albuquerque, and sell them on the corners of the streets.

Sheep raising is an important interest about here, and stock men are trying to improve upon the little Mexican sheep that shear but one pound, by introducing Merinos.

Albuquerque is divided into the old and new towns, the latter growing rapidly. Provisions command the highest prices here, and we find the usual extravagances of towns of like stamp, and—would you believe it?—we find horse cars here, too!

Twenty-five years ago Albuquerque was the scene of hot conflicts between the Mexicans and Indians, and many were the raids made from either side, and many the unfortunates who were carried away as slaves for the victors. It is the eastern terminus of the proposed Atlantic and Pacific road, and is one of the most promising places in the territory.

Southwestern New Mexico is the region of the Apaches, by far the fiercest and most war-like of any of Uncle Sam's untamed children, and the region about San Marcial has been the theatre of several conflicts. Forts Stanton, West, McRae, and others, are in this vicinity.

Deming is the last place of any size which we touch in New Mexico, being, as you are probably aware, the western terminus of the Atchison, Topeka & Santa Fe road. This road is controlled by eastern capital, and has an excellent train service and comfortable coaches, so we leave it with real regret. Deming at the time I saw it, was not yet a year old; but it had made a rapid growth during its short life. It had a handsome and commodious depot and railroad offices, and though the other buildings were of the cheapest stamp, yet you felt a certain respect for a little town over five thousand feet above the level of the sea that could assume such *airs* in eleven months.

Leaving Deming we are soon within the limits of Arizona. It is a very dreary country to the benighted traveller, but how fascinating to many. At Benson, a small town a few miles east of Tucson, passengers change for Tombstone, some thirty miles away. A branch road runs to Contention City, eighteen miles; then stages are brought into requisition. Tombstone is given credit for being one of the smartest mining camps in the country, and though its population varies, it is said to have about six thousand.

The loungers about the depot at Benson were of the roughest possible stamp, and most of them were gracefully (!) attired in revolvers, cartridge belts and bowie knives.

Many of the better class of houses about here are built with two roofs a foot or eighteen inches apart; the upper one extending over several feet, and forming a porch. This method of building furnishes an excellent protection against "the dissolving heats of summer."

Southwestern Arizona makes a most interesting exhibit of cacti, of weird and curious shapes, so fantastic indeed that your imagination runs riot as you look at them, and you fancy them in league with some restless and mysterious phantoms below.

Fort Yuma has its own reputation for heat abetted by Mark Twain's allusion to it, and as we near it this February day we believe all that has been said of it. The station Yuma lies on the Arizona side of the river, and Fort Yuma on a bluff on the California side. There is a fine hotel here, owned by the railroad company, which is well patronized by those who desire "no winter in their year."

We see many Yuma Indians about here—very degraded and squalid in appearance. Evidently the squaws didn't believe in having anything "match," and were quite as happy in flowing robe made of red bandanna handkerchiefs as though the asthete was not abroad. As I look on them as a class I realize anew how difficult the question of how to ameliorate their condition. Is it true that in the treatment of such as these there has been a full "century of dishonor." If so, when and how will the betterment come? Shall we humanely (?) annihilate them as Mark Twain suggests, by means of soap and a spelling book?

The Colorado river here is a muddy, sluggish stream, although so wide, and gives no hint of the magnificent canons through which it wanders in the earlier part of its course.

As we leave Fort Yuma behind we enter upon the Colorado desert, where we are treated to a sand storm and a mirage—its specialities. As we traverse nearly two hundred miles of desert, two water cars are run with every train, for from Fort Yuma till an artesian well is reached one hundred and forty miles northward, no water is to be had.

At Colton the desert ends and we near the beautiful region about Los Angeles, which seems an oasis indeed.

The old Mission of San Gabriel lies eight miles south of the latter city—a most interesting relic, and one of a chain of missions founded in the last century by the padres, and stretching from San Diego to San Francisco.

Leaving Los Angeles, the Mojave desert claims some attention, stretching northward eighty miles or more. In general appearance it is quite unlike the Colorado desert, being covered with a peculiar palm called the Yucca palm, which grows from twenty to thirty feet in height, and at a distance gives the desert the appearance of a fruit orchard. An attempt has been made to utilize these palms by making them into paper, which has resulted quite satisfactorily.

A feat of civil engineering, and the only one of the kind in the world, is at a place called "The Loop," in the mountains after leaving the Mojave desert. In this vicinity we pass through seventeen tunnels in going twenty miles, and find the scenery very wild and grand. In surveying for the road the engineers had to make a rise of eighty-five feet within a space much too limited to make it possible. They were at a standstill for three weeks endeavoring to solve the problem, when a teamster who was hauling supplies to the company suggested the present route as possible, which was at once found feasible and so adopted. The train runs through a tunnel, then around a hill, and crosses its own track by running over the tunnel, thus making a complete loop. The distance around the hill is 3794 feet, and in going that distance the necessary rise is made.

We come down from the mountains into the San Joaquin valley. There has been but little rain here during the winter, and parts of the valley look sadly droughty.

At Madera passengers take stages for the Yosemite and Big Trees. An immense flume fifty-three miles long terminates here, and is used for floating logs and lumber from saw mills in the mountains; the water afterward being sold for irrigation purposes.

We near San Francisco; the blue waters of the bay dance merrily in the spring sunshine; roses are blooming in the gardens, and we begin to feel the bustle and stir of this occidental city of the union.

Did you think, because I am a woman, that I would never reach the end of my story?

If it *is* long, you'll excuse, won't you? because—because I'm a woman!

Very truly yours,
EMMA H. BEANE.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1878.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1849, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. 3tawtu28

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers. address J. H. REEVES, 43 Chatham St., N. Y.

eod&wtyz4

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poi-onous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

The house of John Brett, in San Jo-e, Cal., was burned April 30th, and Brett and his wife perished in the flames.

A Traveler's Story.

After spending months at watering places and consulting the best physicians without benefit, I returned home disheartened and expected to die. A friend urged a trial of Parker's Ginger Tonic. Three bottles and careful diet have brought me excellent health and spirits, and I hope my experience may benefit similar sufferers.—Cincinnati lady. See other column.

Frank Fisher, a negro, was lynched at Callon, Ohio, April 28th, for assaulting a girl thirteen years old.

A Peerless Perfume.

The refreshing aroma of Floreston Cologne, and its lasting fragrance make it a peerless perfume for the toilet.

The steamship Nurnberg arrived at Baltimore on the 30th ult. from Bremen, with 1478 immigrants, who all started at once for the western states.

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a frendly listener, "unless you want to make an animated sign for a drug store, and frighten the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted upon the advice, and is now a living exemplification of what this excellent remedy can accomplish.

Congressman Dezendorf, of Virginia, has reported to the house from the naval committee his bill to provide for the payment of the remainder of the Farragut bounty money.

I Was a Fool.

Yes, they said I was a fool not to try Sulphur Bitters for rheumatism, from which I had suffered over two years; but I had tried so many doctors and medicines without getting relief that I was discouraged. I am now on my fourth bottle and almost cured. I was a fool that didn't try that wonderful remedy before. —*C. G. Pratt, Manchester.*

The senate naval committee have made a favorable report on the nomination of Capt. Henry Erben for advancement.

Composed of the best known tonics, iron and cinchona, with well known aromatics, is Brown's Iron Bitters. It cures indigestion, and all kindred troubles.

Portsmouth Chronicle.

TUESDAY, MAY 2, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Naval Affairs.

Capt. James A. Greer, Lieut. D. G. McIntichie and Naval Constructor S. H. Pook have been appointed upon a board to examine and report upon the revolving rudder recently fitted to a steam launch at the navy yard in Washington.

The orders of Commodore S. P. Quackenbush, detaching him from the command of the navy yard at Pensacola, are suspended until further orders.

The orders of Commodore E. Y. McCauley, ordering him to command the navy yard at Pensacola, are suspended until further orders.

The retirement of Rear Admiral Thomas H. Patterson on the 10th of May will make the following promotions in the line: Commodore J. B. Creighton to be rear admiral; Capt. W. T. Truxton to be commodore; Commander Alfred Hopkins to be captain; Lieut. Commander C. D. Sigsbee to be commander; Lieut. G. W. Farrenholt to be lieut. commander; Master John Downs to be lieutenant; Ensign C. A. Corbin to be master; Midshipman Edward Lloyd, Jr., to be ensign.

In a committee report on the expenses of distributing the Farragut prize money, or so much of it as has been distributed, it is stated that Benjamin F. Butler and two other "proctors" for the claimants received $123,472, other payments amounting to $18,939; total, $142,411. The committee say: "The duties of the proctors were of the most nominal character, yet the enormous sum of $142,060.50 went to them."

Telephone Consolidation.

The Boston & Northern Telephone company has sold its property and franchise to a company of Boston, Lowell and Worcester gentlemen, who will conduct and develop the enterprise, for which, with a capital of $500,000, it was formed. Its field of operation includes the entire state of Vermont, with the exception of two points; all of the state of New Hampshire except Concord, Keene and Manchester; and the American Bell company's perpetual franchise for Essex county, Mass., including the right of way into Boston.

Chalmers Sent Home.

Gen. Chalmers, the associate with the infamous Butcher Forrest in the massacre of surrendered solders at Fort Pillow, has been turned out of the seat which he has wrongfully occupied in Congress, and the place given to Lynch, to whom it righfully belonged. Even so bitter and narrow minded a partisan as the Washington correspondent of the Boston *Post* says of this case:

Mr. Chalmers has been unseated, and Mr. Lynch has taken his place. There is not much dispute about the facts in this unfortunate case, and most of the democrats who voted against Lynch, and for Chalmers, are willing enough to admit that the majority of the voters of the district preferred the man who has been seated.

Books, Magazines, Etc.

"Tales of the Argonauts, and Eastern Sketches, by Bret Harte." The third volume of the edition of the complete works of Bret Harte, being the Riverside edition, collected and revised by the author, contains the Argonauts and Eastern Sketches, and is a republication of short stories and sketches which have from time to time before appeared in the magazines and elsewhere. Unlike the ephemeral writings of many who have endeavored to approach the style of the sketches of this author, the publication of the earlier papers of our consul at Glasgow (who perhaps one day will tell of the Scotch, as he has of the Chinese) bear rereading, and this compilation in the present form will be in five volumes, crown 8-vo. The admiral feature in Bret Harte's writings is the skill in depicting rare and valuable traits in many who present a coarse, perhaps repulsive outside to our first vision. He sees and shows us the fine gold concealed in the rough outside of careless dialect, coarse habits, and unrefined surroundings. Price $2 each volume. Sold by Myers.

Improper Use of the Mails.

In New York, on Saturday, an attempt was made by some miscreants on the lives of William H. Vanderbilt and Cyrus W. Field, by sending them explosives through the mails. Fortunately the dangerous character of the packages was discovered en route to the post office station whence they were to be delivered at the residences of these gentlemen. The package mailed to Mr. Vanderbilt exploded in the mail bag, nearly destroying it, with its contents. The package addressed to Mr. Field was found to consist of a pasteboard box, and had a small drawer in it from which depended a string, as is supposed for the purpose of drawing it open and causing the explosion. Inside of the box was found a tin canister containing half a pound of powder, and a glass jar containing a white powder and a liquid believed to be some kind of explosive.

Sunday morning, John A. Davenport visited police headquarters, carrying with him a package which contained an infernal machine similar to those sent to Vanderbilt and Field, and evidently prepared by the same person. It had been placed in his hall way the previous night, and exploded at ten o'clock, setting fire to the door mat, but doing no other damage. The intention was evidently to set fire to the house. The machine was a cigar box bound with wire, and contained cotton which was set on fire by the explosion, the powder being ignited by a fuse. There was but enough powder to shatter the box and ignite the cotton. Mr. Davenport heard the explosion, and found his door mat in a blaze. The box was probably intended for Superintendent Walling, the letter "W" being written on it, he living a few doors distant from Mr. Davenport.

News and Notes.

Surgeon Thomas Hiland, attached to the Alaska, of the Pacific squadron, was kicked by a horse while on a hunting expedition in Peru a few weeks ago, and had his right leg badly shattered just above the ankle; it was thought his leg would have to be amputated.

After June 18th the conductors and brakemen on the Maine Central railroad are to wear uniforms of blue cloth, with brass buttons.

Rev. Father Haide of Waterville, Me., has sued the Catholic bishop of Maine for $7,000, money he alleges due him as priest at Waterville.

L. N. Ireland, recently expelled from a Methodist church in West Troy, N. Y., after an exciting trial, on charges of immorality, has been received into another Methodist church in the same village. The action causes much comment.

People in North Hampton want the selectmen to call a town meeting and vote to exempt from taxation for a term of years a new hotel, if Frank A. Philbrick will build it on Little Boar's Head instead of the site of the destroyed Farragut. It is contended that as to view, opportunity for drainage, and sea breezes, the land just over the Rye line in North Hampton far excels the old site.

The supply of lobsters brought in on Saturday was not large. The heavy sea raised by the storm of Thursday night and Friday did much damage to the lobster pots set along the Newcastle and Rye shores.

The cutters at the shoe factory were set at work on Monday, and it is expected that the whole force will be employed by the last of the week.

Naval Constructor Benjamin F. Delano, on the retired list of the navy, died in Brooklyn, N. Y., April 30th, at the age of seventy-three years. He was born in South Scituate, Mass., and entered the service in 1846. He was for some years in charge of the department of construction and repair at the Portsmouth navy yard.

The new First National bank of this city, which commenced business May 1st as the successor of First National bank No. 19, has been numbered 2672.

BORN.

STACY. In Eliot, Me., April 29th, to Mr. James Buchanan Stacy, a daughter.

MARRIED.

WIGHTMAN—PETTIGREW. In this city, April 30th, at the residence of the bride's parents, by Rev. W. H. Alden, D. D., Mr. Frank B. Wightman of Haverhill, Mass., and Miss Annie F. Pettigrow, daughter of Joseph Pettigrew, Esq.

TOBEY—ROGERS. In Eliot, Me., May 1st, at the residence of the bride's father, Charles W. Rogers, Esq., by Rev. D. S. Hibbard, Mr. M. Parry Tobey and Miss Abbie E. Rogers, all of Eliot.

DIED.

CRAM. In Newmarket, April 27th, Miss Nancy Cram, aged 79 years. She had been in failing health for several weeks, and on the 24th had what her friends thought to be a slight apoplectic shock, but rallied again to her usual strength. On the 27th a friend left her sitting alone before an open fire, and on returning found her dead. She had fallen forward upon the hearth; her clothes were badly burned, and her face slightly. From appearance she had fallen dead from her chair. She was a woman of much excellence of character, and will be deeply missed by her relatives, neighbors, and a wide circle of friends. COM.

BROWN. In North Hampton, April 29th, Mrs. Oliver Brown, aged 74 years.

DAVIS. In Durham, April 25th, David Davis, aged 84 years.

To WILLIAM H. HACKETT, a Justice of the Peace for the County of Rockingham and State of New Hampshire;

THE subscribers, owners of one-twentieth part of the stock and property of the Rhyston Mangle Company represent that said Corporation has failed to hold its annual meeting for the present year. They therefore request you to call a meeting of the members of the said Corporation to be held at the office of William H. Hackett in Portsmouth on Saturday, the thirteenth day of May, A. D. 1882, for the following purposes: To choose a chairman to preside over said meeting, to choose directors, clerk and treasurer, and other officers of said Corporation, and to transact any other business which may come before said meeting.

April 25, 1882.

CHARLES REESE.
PERCY M REESE.
WILLIAM F. BURR.
SUSAN B. REESE.

The State of New Hampshire, Rockingham, ss.

To CHARLES REESE, of Philadelphia, Pennsylvania;

WHEREFORE application has been made to the undersigned, a Justice of the Peace for said County and State as above:

YOU are therefore required to warn a meeting of the said Corporation to be held at the time and place and for the purposes above mentioned in said application, by publishing a copy of said application and warrant ten days before time of said meeting in some newspaper printed in Portsmouth in said county, and make return of this warrant at said time and place of meeting.

Portsmouth, May 1, 1882.

WILLIAM H. HACKETT,
Justice of the Peace.

St. Jacobs Oil

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends—far than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*so cheap as assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

Sky clear.

POSTAL MATTERS.

Editor of the Chronicle: Could not the government or the Eastern railroad be more accomodating as to some of our mails? For example, the mail from Bangor and the east arrives here at four o'clock A. M., and is assorted I am unable to say when by referring to the time schedule printed in the CHRONICLE, but perhaps by half-past eight or nine o'clock A. M. The mails for the east close at 9:25 A. M., but leave Portsmouth at 10:30, more than an hour after, and a man who has received correspondence by the Pullman mail, if he wishes to seasonably reply to it, must post his letters at the railroad station or they will not leave here until nine o'clock in the evening. Now comes the annoying regulations. Those of us who are as near the station as the post office, do not mind going to the station to mail our letters; but when we send them, we must wait till the train arrives, or perhaps leave our mail matter with some accomodating friend or railway official. In Exeter, I have noticed that the postal clerks visit the mail box in the station at every train; but in this city, it is only the night clerks on the trains who take letters from these boxes. If our eastern-bound mail must close more than an hour before it leaves this city, (and I suppose this is because formerly the mail left at ten A. M., and the time of closing has not since changed,) why cannot the post-office department direct that letters shall be taken from the box at this railway station as is the practice in other places? NORTH END.

EDITORIAL CONDOLENCE.

Last season, during the dredging operations in Exeter river, the scows when filled were hauled upon the flats near by and their contents dumped there, every scow-load of course making a mound. The *News-Letter* protested against this, on the grounds that the excavated material would in course of time be washed back into the channel, and that until it was thus washed back it would be a constant source of annoyance to small crafts which previously had passed unimpeded over the flats at high tide. Recently the boss "mound-builder" met with a little accident, and is thus condoled with by the *News-Letter* man:

Last Friday morning the steamer belonging to the gentleman who has charge of clearing out the river went onto one of the mounds he erected on the flats. The sight of the gentleman "hoisted," so to speak, "with his own petard," was the first thing connected with the mounds that has commended itself to the general public. The mounds will doubtless now be removed with all possible expedition, for of course they were deposited in their present position under the impression that they would do no harm. Now that the contractor sees, by the evidence of his own boat, steered by himself, going onto them, that they are disagreeable, he will not wait for the slower process of disintegration by tides and storms, but cart them off to a place where they will indeed be harmless. Had he driven his boat on the mounds with a little more force, his stay on them would have been sufficiently prolonged to enable him to make good resolutions enough to last him through this entire job. If his conscience is not already awakened, it is to be hoped his next visit to them will find him without a tender, and with a falling tide. Those whose privilege it shall be to listen to his exhortations on that occasion, will have evidence of the capabilities of the English language for power and pathos beyond their wildest dreams; and if they own a sail boat their souls will be filled with peace.

EXEMPTION FROM TAXATION.

We have received a communication from a citizen of Rye regarding a proposition to exempt from taxation the real estate, etc., occupied for a new hotel on the site of the Farragut house, recently destroyed by fire.

Our opinion is that if the people of Rye pass this vote in town meeting, it would have no binding force, and that the tax-payers in the rest of the state would have something to say as to Rye escaping her share of public burthens in this manner. Property in Rye has never been valued very high for taxable purposes.

But before there is any indignation expended against the Philbricks for asking this exemption, it would be well enough to know if it was asked for by the owners of the estate, or by some officious intermeddler without their sanction. The property at the Farragut is valuable. Its name and location have an appreciable worth, and doubtless if Mr. Philbrick does not wish to utilize the work of three generations in building up a profitable business, some one will be found who will take the property off his hands.

What Rye needs is a more liberal encouragement to those who come within her borders, to beautify the town and develop its opportunities. The conservative—nay, more, the antiquated obstinacy which opposes the widening of the most beautiful drive in the town to a decent breadth, ought to be succeeded by a desire to extend every inducement to persons to enjoy the natural attractions of Rye.

The legal point that the suggested exemption cannot be granted save by legislative permission, will perhaps be sufficient to allay the fears of our correspondent.

KITTERY AND ELIOT INS. CO.

At the annual meeting of the Kittery & Eliot Mutual Fire Insurance Co., held in Eliot on the 1st inst., directors were elected as follows:

Kittery, Warrington Paul, Joseph Langton, John Wentworth;

Eliot, John D. Frost, Timothy Dame;

York, J. D. Bragdon, Joseph Moody.

MEMORIAL DAY.

At the meeting of citizens in the city rooms on Monday evening, to take measures for the observance of Memorial day in conjunction with Storer Post, G. A. R., Ex-Gov. Goodwin was chosen president, Col. William H. Sise vice president, and Samuel Dodge, Esq., secretary. Committees to act jointly with the committees of Storer Post, were appointed as follows:

On Invitations, Route, Procession, and selection of Chief Marshal—John S. Perry, Charles E. Batchelder, Wm. C. Denney;

On Flowers,—Wallace Hackett, Sam'l W. Moses, Jr., Wm. P. Benedict;

On Carriages,—Shirley B. Cunnigham, John E. Colcord, Henry Wendell;

On Finance,—Frank L. Pryor, Wm. A. Payson, C. M. Gignoux;

On evening exercises,—Samuel Dodge, R. Hamilton Perkins, Walter H. Page;

On Printing,—Walter H. Page, Richard I. Walden, George A. Mudge.

Voted that at the next meeting the chairman of each committee report their probable estimates.

Voted that the general committee hold a meeting at the common council room on Monday evening next at eight o'clock.

TESTING THE DEEP WELL.

On Monday evening the steam fire engine Col. Sise was placed at the deep well of the Eastern railroad, near the station in this city, to test the value of the reservoir as a water supply in case of fire. In twenty minutes pumping the engine lowered the water eight feet; and in one hour, fourteen feet and three inches.

A new hose pipe, a Cincinnati patent of which Mr. Thos. S. Nowell is agent, was also tried, and we understand gave unqualified satisfaction to the chief engineer and firemen. It works with a universal joint, and can be pointed in any direction without disturbing the line of hose.

POLICE COURT.

MONDAY, May 1; *Batchelder, J.*

Charles Vetter, a German, and cook of the schooner Thomas W. Hyde, which arrived at this port on Sunday from Perth Amboy, was before the court for larceny, and was held in the sum of $400. From the evidence it appeared that while the captain was on shore, the cook went to his stateroom and stole $100; about $60 was found concealed in and around the galley.

AROUND HOME.

This evening, in Franklin hall, will be given the May party and ball with which the "Owlets" will close their series of select assemblies. Harlow's orchestra have been practising a large amount of new music preparatory to the opening of the season at the Wentworth, and that which they will give this evening is all new. Gallery tickets will be for sale at the door.

Mr. Gayton O. Raynols assumed the superintendency of the county farm at Brentwood on the first instant.

We call the attention of our readers to the lecture to be given to-night at Franklin theatre by Hon. William J. Armstrong, upon Castelar, the poet, orator and leader of the liberal party in Spain. Prof. William Swinton, the author of American School Books, says "Mr. Armstrong is one who knows men and affairs, and who treats the studies of the cloister in the spirit of the nineteenth century." We think this an opportunity our citizens should not lose, to gain in an hour from one who has made an intimate study of modern European politics, knowledge which cannot but be of great value to all Americans,—knowledge presented in an interesting and eloquent manner. The hall ought to be well filled, as from the subject and object the indication now is.

Tickets thirty-five cents, without extra charge for reserved seats, to be had at Mr. Stavers' store. See adv't.

It is stated that the Maine Central railroad will pay a dividend of two per cent. This would give the Eastern railroad $42,000 on its 21,000 shares of stock in the Maine Central.

Channing Folsom, formerly principal of the Haven school in this city, and recently of the Eliot school in Boston, has been chosen superintendent of schools in Dover.

About a month ago Mrs. M. A. Hall, of Kennebunkport, stuck a splinter in her hand, from the effects of which she die about two weeks later. Her husband had since died from erysipelas.

At Music hall, this evening, "The Danites" will be presented by McKee Rankin's authorized company. The play is too well known as a realistic picture of life in California in former days, to need any description; and the company is said to be not in any way weakened by the changes in its make up.

The schooners D. K. Ham, Garland master, and Emily A. Staples, Coleman master, from Eliot with bricks, came down the river on Monday, and sailed for Boston. The schooner G. W. Raitt, Coleman master, came down from Durham the same day with a load of bricks, and sailed for Neponset, Mass.

STATED MEETINGS.

CITY GOVERNMENT.

In the City Building, Market Square.

Oak Hall Agency in Portsmouth.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan22

WHAT HAPPENED TO
Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calcious or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first day he began to use the medicine; on the 13th of September he voided a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorder, arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

A Situation Wanted
BY a Nova Scotia woman capable of doing general housework; good references given. apply at No. 10 Washington Street.

WHEAT BITTERS
THE Great LIQUID FOOD
FOR BLOOD, BRAIN AND NERVES.
IT'S A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK. Highly recommended by Chemists and Physicians as
A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE,
as it does not stimulate the brain or irritate the system and leave deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, gives vigorous and quiet the nerves, purifies the heart's blood, and thereby makes only the best flesh, bone and muscle. IT IS WORTH WONDERS, curing NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA. Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influences, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food tonic. It's For sale by all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTERS CO., Office 19 Park Place, New York City.

WILLIAM P. WALKER,
MERCHANT TAILOR,
No. 8 Market square.

Rupture
Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.
With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, being an organic disease, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 43 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. tmy15

A Portland Man's Good Luck.

Mr. Simpson, who keeps a retail fish market in the new city market, has fallen heir to a snug sum in the following way. Some five years ago he kept a fish market at Hyde Park, Mass. One day an old gentleman came into the market and asked the loan of $15 to enable him to get home. He said he had been on a spree, and although he had friends in the place he did not like to let them know of his moneyless condition, for he was a wealthy man and highly connected. Mr. Simpson let him have the money, and a few days later received the money back by mail. Now the old gentleman is dead, but before he died he deposited an amount of money in a Boston bank payable to the order of Mr. Simpson, whose kindness to him he thus repaid. The amount of the legacy is about $5000.—*Portland Advertiser.*

The West Shore railroad and the people of Oneida, N. Y., had a collision, Saturday, over the filling of a street to the depth of six feet to make an elevated grade crossing. As fast as an injunction was served on one foreman another took charge, and four or five feet of earth were put in. At noon the fire bells were rung and about 1,000 villagers assembled with the fire engine, teams, hacks, wagons, etc., and blockaded the road, throwing the railroad men out of their wagons. A bloody fight was imminent, but finally both sides quitted work until orders were received from New York. Guards of twenty-five men on each side were put on duty. It was thought the railroad men might attempt to lay rails, in which case the fire-bells were to be sounded to summon the citizens to armed resistance.

The obsequies of Mr. Emerson took place in Concord, Mass., on Sunday. Judge Hoar made an address, as did also Rev. Jas. Freeman Clarke; a favorite hymn of the deceased, "Thy will be done," was sung by the congregation, and A. Bronson Alcott read an original sonnet. The services were simple in the extreme, and correspondingly impressive. The biographies of Emerson recall what many people had forgotten, and many more never knew, that he was "Rev." Ralph Waldo Emerson.

"I keep that wondeoful medicine, St. Jacobs Oil, both at my home and office, and esteem it, without any exception, the most efficacious remedy in the world for rheumatism, etc.," says Supt. O'Neill, of the Dominion police, Ottawa, Canada.

—It would be difficult to find a stricter Sabbatarian than Rev. A. Busch of Winona, Minn. All his five children were born on Sunday.

The Secret Out at Last.

It has long been a source of wonder, as to why Courtney failed to meet Hanlan in a sculling contest. The general explanatory argument was, that he feared the little Canadian. The opinion, however, is exploded by the authentic announcement, that on the days fixed for the race, Courtney was unable to sit in his shell, on account of the intense itching and soreness caused by the piles. Having recovered through the use of Swayne's Ointment, he now announces that he will row Hanlan any time this summer.

The Methodist society in Keene has paid off the whole indebtedness on the church property, leaving only a small lien on the parsonage.

A Vigorous Growth

Of the hair is often promoted by using Parker's Hair Balsam. It always restores the youthful color and lustre to gray hair, gives it new life and removes all irritation and dandruff.

Jimmie Blanchard, who figured a few years ago as the lost Charlie Ross, and who has served four years in the New Hampshire state industrial school, was set at liberty last week, on probation.

Eighty-Five Dollars Lost.

"You do not tell me that your husband is up and entirely cured by so simple a medicine as Parker's Ginger Tonic?" "Yes, indeed, I do," said Mrs. Benjamin to her neighbor, "and after we had lost eighty-five dollars in doctor's bills and prescriptions. Now my husband feels as well as ever."

The new city market at Aberdeen, Scotland, was burned Sunday; loss $500,000. Three persons were killed.

"Buchupaiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists. Depot. J. H. Thacher's.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1. Depot, J. H. Thacher's.

Princess Marie, wife of Prince William of Wurtemburg, and sister of the duchess of Albany, is dead. She was recently delivered of a still-born child.

My Family Doctor

For the last two years has been Sulphur Bitters, and until I began using them in my family we had more or less sickness, and our doctor's bill had been very large. Since we began their use we have had no doctor to pay, and three dollars invested in Sulphur Bitters has kept health in our family.—*E. Knott, Postmaster, Waverly, Iowa.*

Edward S. Stokes, who murdered James Fisk, Jr., in a quarrel over a vile prostitute, is now proprietor of an elegant bar-room in New York. He gave a reception recently to "ladies," and a New York paper says 1,000 of them were present.

A sure cure for imporeshed blood, pimples, and sallow complexion, is Brown's Iron Bitters. It will produce a healthy color, smooth skin, and is absolutely not injurious.

SWAYNES OINTMENT
AN UNFAILING REMEDY FOR ALL SKIN DISEASES SUCH AS TETTER, ITCH, SORES, PIMPLES, ERYSIPELAS, RING WORM, BLOTCHES, &c.
THE GREAT CURE FOR ITCHING PILES.
Symptoms—Moisture, intolerable itching, of the most disagreeable character, worse by scratching, and if the reaction; the parts become excoriated, and bleed and ulcerate. Sufferers from this complaint will find SWAYNE'S OINTMENT is superior to any article in the market. Sold by druggists, or send 50 cts. in 3-ct. Stamps. 3 boxes, $1.25. Address, Dr. SWAYNE & SON, Phila. Pa.

PERRY DAVIS' PAIN KILLER
A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.
After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!
Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., It is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.
From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.
From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.
W. W. Sharper, Valdosta, Ga., says:
It is in instance for all bruises and burns.
From R. W. Adams, Saco, Me.:
It gave me immediate relief.
R. Lewis says:
In forty years' use it never has failed me.
W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.
J. W. Dee says:
For scalds and burns it has no equal.
PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.* Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, hundreds of new worthless imitations have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.
PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.
For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.
FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.
Hay-FeveR
—A fair trial will convince the most skeptical.—
ELYS' CREAM BALM
Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.
ELYS' CREAM-BALM CO., Owego, N. Y.
For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

A Spring Defence.
How to Repel the Assaults of Ill Health
--Dr. Kennedy's Favorite Remedy
Means Something for You.
The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less is respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The cause of prevention may be had where cure of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instantaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Yellow Dock, Mandrake, Dandelion, Juniper Berries, etc., combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. Do not ever take

BLUE PILLS

for arsenic, they are deadly. Your Kidneys are Place your trust in SULPHUR BITTERS, the purest and best medicine ever made. Use SULPHUR BITTERS. If you are sick, no matter what ails you, use

Is Your Tongue Coated with a yellow sticky substance? Is you breath foul and offensive? Your stomach is out of order? Don't wait until you are unable to walk, or read here, it may save your life, it has saved hundreds. Don't wait until to-morrow, but get some at once, it will cure you. Sulphur Bitters is

The Invalid's Friend.

IT IS The young, the aged and tottering are soon made well by its use. Remember what you read here, it may save your life, it has saved hundreds. Don't wait until to-morrow, but get some at once, it will cure you. Sulphur Bitters is

PARKER'S GINGER TONIC

Ginger, Buchu, Mandrake, Stillingia and many of the best medicines known are here combined into a medicine of such varied and effective powers, as to make it the Greatest Blood Purifier & the Best Health and Strength Restorer Ever Used.

It cures Dyspepsia, Rheumatism, Sleeplessness, all diseases of the Stomach, Bowels, Lungs, Liver, Kidneys, and all Female Complaints.

If you are wasting away with Consumption or any disease, use the Tonic Bitters. It will surely help you. Remember it is far superior to Bitters, Essences of Ginger and other Tonics, as it builds up the system without intoxicating. 50c. and $1 sizes, at all dealers in drugs. None genuine without signature of H. Cox & Co., N. Y. Send for circular. LARGE SAVING IN BUYING THE DOLLAR SIZE.

From the Cradle to the Grave.—A large elegant engraving, size 19x24 inches, of Lincoln, Washington, Grant and Wife, 22 fine cuts in the one heavy plate. The family group occupies the entire plate. Single copies 50c., $1 per pair, 4-pc. $2. 300,000 sold in New York and Brooklyn in two weeks. J. N. Bennett, Pub., 30 Bartley street, N. J. Agents wanted everywhere.

Daily Chronicle.

The Senate in 1882.

Of the twenty-six United States senators whose terms expire on the fourth of March next, eleven are republicans, fourteen democrats, and one, Davis of Illinois, independent.

The republicans are Chilcott of Colorado, McDill of Iowa, Plumb of Kansas, Kellogg of Louisiana, Frye of Maine, Hoar of Massachusetts, Ferry of Michigan, Windom of Minnesota, Saunders of Nebraska, Rollins of New Hampshire, Anthony of Rhode Island; all these, with the exception of Kellogg, will doubtless be succeeded by republicans, and the successor of Mr. Davis of Illinois will probably be a republican.

The democrats whose terms expire are Morgan of Alabama, Garland of Arkansas, Saulsbury of Delaware, Hill of Georgia, Beck of Kentucky, Lamar of Mississippi, McPherson of New Jersey, Ransom of North Carolina, Grover of Oregon, Butler of South Carolina, Harris of Tennessee, Coke of Texas, Johnston of Virginia, and Davis of West Virginia. Most of these of course will be succeeded by democrats, but the republicans, to offset their loss in Louisiana, where General Gibson is already elected in place of Kellogg, have gained one in Virginia, Riddleberger having been chosen in place of Johnston, and have a fair prospect of gains in New Jersey and Oregon as well as in Illinois.

Samuel N. Diman of Chelsea had one hand nearly cut off, and Odion Mitchell of Medford had several fingers cut, in the joiners' shop at the Charlestown navy yard on Saturday, by a circular saw. They were sent to the Massachusetts General hospital.

The Boston man calling himself Tim Crowley, who was lynched in Minneapolis, Minn., on Friday, is believed to have been Frank McManus, who formerly lived in South Boston, Mass., where his mother and brothers now are.

Don't Die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists. Depot, J. H. Thacher's.

—"Where do people go who deceive their fellow men?" enquired a Sunday school teacher. "Sometimes to Canada, but mostly they goes to Europe," was the reply of a youngster whose uncle had recently been a trusted officer in a local bank.

—A young man spent six years endeavoring to commit the bible to memory, and succeeded in getting committed to an insane asylum.

What gives a healthy appetite, an increased digestion, strength to the muscles, and tone to the nerves? Brown's Iron Bitters.

—A Lynn horse-car driver was recently kicked on the cheek by a horse. The man was uninjured, but the horse's leg was broken.

From Rev. H. P. Torsey, D. D., LL. D., President Maine Wesleyan Seminary and Female College, Kent's Hill, Me.

Dr. F. W. Kinsman.— Dear Sir: For five years the students under my care have used Adamson's Botanic Cough Balsam, and have, I think, found it second to no other remedy for throat and lung troubles.

—Colored stockings are more popular with the girls (and the men don't object to them) than ever.

Clear head and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions bought about in catarrh by the use of Sanford's Radical Cure. Complete treatment for $1.

—The wife of Senator Bingham used to tell a pleasant story of the time when her husband was trying to get votes in the Pennsylvania legislature. He gave a dinner party to a number of the members, one of whom managed to break a plate—one of an exquisite set of Sevres of great value. The unhappy guest fell into an agony, which Mrs. Bingham at once soothed by saying, with a careless air: "It is of no sort of consequence, for this ware is exceedingly brittle, and breaks very easily; just look"—and to illustrate her statement she took up another of the priceless plates and placidly broke in into bits with a knife. Fresh plates were brought, and the clumsy member was so pleased and relieved that as soon as night be, he voted for the husband of this woman of tact.

—A member of a London club was standing on the club-house steps, when a gentleman came up to him and asked him if there was a gentleman with one eye named Walker in the club. "I don't know," was the answer; "what is the name of his other eye?"

Terrible itching and scaly humors, ulcers, sores and scrofulous swellings cured by the Cuticura and Cuticura Soap (the great skin cures) externally, and Cuticura Resolvent (blood purifier) internally. Ask about them at your druggists.

—"Rosalind, my dear," said her mother, who was sweeping out the front hall way, "Does this button belong to your father's overcoat?" "Let me see it. Oh, dear no, ma! It comes from George's overcoat. Isn't it splendid?" "I don't see anything so very splendid about it." "Oh, why, ma! If you were only young and such a very nice young man like George should—should—" "Well, I shan't have any more such works in this house. I've no objection to a little moderate hugging in the house, but young men can't hug their overcoat buttons off in my hallway, not much." And Rosalind went to her boudoir to indulge in a weep.

Messrs. Ely Bros., Druggists, Owego, N. Y. Gents—I have improved greatly since I commenced using Cream Balm for catarrh. I feel like a new man. Ely's Cream Balm is a blessing to suffering humanity. John D. Farrell, Hartford, Conn.

Ely's Cream Balm Co., Owego, N. Y. Gents—I have never found anything like Ely's Cream Balm for the cure of catarrh. W. P. Bates, 130 Hanover street, Boston, Mass.

I have been a sufferer for years with catarrh, and under a physician's treatment for over a year, have tried a number of "sure cure" remedies and obtained no relief. I was advised to try Ely's Cream Balm. It gave me immediate relief. I believe I am now entirely cured. G. S. Davis, First National Bank, Elizabeth, N. J., Aug. 14, 1879.

Price fifty cents.

—A Millville, N. J., glass blower, has succeeded in blowing what is believed to be the largest bottle ever made in this country. It is a carboy, and will hold fifty gallons. It is to be sent to the Smithonian Institute.

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a frendly listener, "unless you want to make an animated sign for a drug store, and make the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted upon the advice, and is now a living exemplification of what this excellent remedy can accomplish.

C. EVERETT

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire Items: carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self-cure, which he will send FREE to his fellow-sufferers. address J. H. REEVES, 43 Chatham St., N. Y.

eod&wtyr

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

WEDNESDAY, MAY 3, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Navy.

Lieut. Comdr. Henry H. Gorringe, of the United States navy, regards it the duty, no less than the right, of every citizen to discuss matters pertaining to government and public policy, and that there can be no impropriety in a naval officer expressing his convictions frankly and honestly on matters pertaining to the navy.

We have seen instances of this kind, where young officers thought they knew it all, but as the test was applied to their offidousness we were in all candor compelled to admit concerning them, with the noble British tar, "He means well, but he don't know."

The lieutenant commander in his recent article in the *North American Review* attempts to prove that an efficient naval force is essential to the welfare of the United States;

That the vessels now on the navy list are useless for any operations of modern warfare; and

That our system of naval administration, and not Congress, is to blame for this, and that an efficient naval force may be created at a comparatively small outlay, and greatly to the advantage of our carrying trade.

To the first proposition, perhaps no one in a seaboard state would take any issue. The second count in the indictment the naval writer claims is sustained by the recent report of the naval advisory board and accompanying documents; and he gives us illustrations of inefficiency, and concludes that the unarmored vessels of the navy are utterly worthless for war service.

As to the system of administration of naval affairs, it is contended that the bureau system is far from being practical in its results; that it is absurd that these bureaus should have eight distinct and independent organizations in each navy yard, nominally under one commandant, but really receiving orders from their respective chiefs in Washington.

Then comes the prolific subject of the antagonism existing between the line and staff, which originated this bureau system. The defects in this mode of administration are assumed to be apparent, and the writer does not stop to point them out. He is an officer, and consequently knows—or presumes to know—it all; but the uninformed layman, or the virtuous congressman, is furnished with nothing save the glibly-repeated assertions of the professional writer upon which can be founded a proper opinion.

The expense of cruisers on the seas and in foreign ports is criticised, and we are led to conclude that the war ships are to be kept for battle only, and that the happy lot of the naval policeman, as he patrols the waters of other dominions, should not be continued, but that the United States, with such mercantile marine as it may possess, should not be represented in foreign ports or remote seas.

As we peruse the article, we incline to the belief that the writer assumes to know too much. In seeking to remedy the existing evils of our naval system, it so far has not been the good fortune of any one man to know it all; but here we see an officer of twenty years experience, telling us all about our ships, and our navy yard administration; the best mode of construction of vessels of war; that we should be in the hands of contractors when we want a ship built or repaired; what it will cost us to build vessels, and what kind of vessels we should have, their size and just what they should be in every respect, and then he puts in the trifle of three thousand tons of coal and sends them to sea in the pages of the *North American*, as the perfection of naval architecture.

The article shows that Lieut. Commander Gorringe is not a bureau man. By no means does he appear as a specialist, but he can do it all. He would begin by creating an assistant secretary of the navy from a chief clerk, and then turn the whole navy upside down with his ingenious notions. He would fix a board in such a mode as would, as Sir Joseph Porter intended in the British navy, "insure independence of thought and action;" while for skilled mechanics to build his beau ideal ships, he would have enlisted men to serve as mechanics in navy yards, while the contractors would probably use them to help out their jobs.

It may be the privilege of an officer to express his opinions on matters pertaining to the service; but when our lieutenant commander attains the advantage of the experience of a couple more decades, he will discover that beautiful theories and glibly detailed schemes for improving the condition of the navy may, however acceptable they seem from his standpoint, be far from being such as will stand the test of criticism or the strain of practical application.

Naval Affairs.

The Shenandoah arrived at New York last week from the South Atlantic station.

The Lackawanna and Pensacola are at Callao, Peru.

The Adams sailed from Panama for Acapulco, April 11th, on her way to Sitka, Alaska. All well on board.

Rear Admiral Rodgers is dangerously ill at the naval observatory, Norfolk.

Lieut. Charles Seymour reported for equipment duty at the Boston navy yard, May 1st.

News and Notes.

Hanlan, the Canadian oarsman, and Tricket, the Australian, pulled a race on the Thames river Monday, for £500 a side. Hanlan won as he liked.

The Indian outbreak in Arizona and New Mexico has caused the first and fourth infantry, and the third and part of the ninth cavalry, to be ordered to the scene of the trouble.

Capt. Jack, head chief of the White River Utes, attempted to escape from Fort Wassakie, Washington territory, where he was confined, and killed a sergeant in the attempt. As he was running away a guard shot him dead.

In New York, on Monday morning, William G. Kreuger blew his brains out. He was the inventor of an air ship, which was patented Jan. 1st. He served in the union army, and had long been an applicant for a pension, but was quite poor. His pension papers arrived Monday morning after he was dead. He was a Prussian by birth, and highly educated.

Judge Lord, of the Massachusetts supreme court, was stricken with paralysis at Salem on Sunday, and is very low.

At Fort Madison, Iowa, May 1st, Polk Wells, the train robber, escaped from the penitentiary with two accomplices named Fitzgerald and Cook, by chloroforming the attendant in the hospital, breaking through the iron roof, and overpowering the hospital guards. John Elder, one of the latter, died from the effects of his injuries and the chloroform. Pursuit has been organized.

The verdict of $100,000 recently given in the Hallett Kilbourn case for false imprisonment has been set aside as excessive.

Lizzie Banton, a noted female horse-thief, has been arrested at Decatur, Ill., where she has been working in order to be near her lover, Paisey Devine, a murderer under sentence to be hung May 19th.

At Moberly, Mo., May 1st, Alfred Jones shot and killed Dr. S. H. Blair, on account of Blair's improper intimacy with Jones.

AROUND HOME.

An audience more interested than numerous greeted Hon. Wm. J. Armstrong at Franklin theatre on Tuesday evening, and listened to his lecture upon Castelar, the Spanish patriot and orator. Mr. Armstrong is an enthusiastic admirer of Castelar, and his lecture contained a glowing account of his rise and progress, described his matchless oratory, and paid a high tribute to his political integrity. The lecture was listened to with the closest attention, and drew forth liberal tokens of approval.

The May ball in Franklin hall on Tuesday evening was a very successful wind-up to a well managed course of select assemblies given by the "Owlets" during the past winter. The galleries were well filled, and there were on the floor as many dancers as could conveniently move around to the excellent music of Harlow's orchestra. The order of dances was printed on the back of a wise-looking pasteboard owl.

Mr. John Greenough, of Newington, had a valuable horse badly bruised and cut one night last week, through the giving away of the floor of the stall.

The Lake Winnipesaukee steamer Mayflower has been calked and painted, and otherwise put in thorough condition for the summer's work. The calking was done by Mr. Benjamin M. Bailey and a gang from this city.

Mr. R. H. Beacham is improving the office arrangements of his premises on Fleet street. The wooden building in the stable yard is being refitted for a harness room, hack room, etc., and to the north of the office is being made a ladies' waiting room, for the convenience of persons driving in from outside the city, whose teams may be put in the stable while the owners are doing their business out in town. Mr. Beacham will have one of the best establishments of the kind in this vicinity, and knows how to run it.

The contractor's sloop will be put in position at Badger's island ledge to-day, and the work of removing the obstruction will commence at once.

GREAT FIRE IN DOVER.

L. B. Laskey's brush factory at Dover was burned on Tuesday morning; Laskey's loss was $1500, and his insurance $800; the building, owned by J. B. Stevens, was of small value, and insured. The fire spread to the Freewill Baptist church and Gen. Hoitt's barn, both of which were destroyed; Hoitt's loss was $300. The walls only of the church were left standing, the steeple falling with a great crash at about nine o'clock; the church, which was built twelve years ago and but recently cleared of debt, cost about $25,000, and was insured $6,000. Several houses in the vicinity were damaged by fire and water.

During a heavy squall in the afternoon, a portion of the wall of the church was blown down; a blacksmith named Burleigh, and several other men, were injured by the falling bricks, and a woman had her skull fractured and one arm and thigh broken. Mayor Sise and Mr. Dennis J. Lynch of this city were close to the building when the wall fell, but escaped harm.

DIED.

GREENLEAF. In Roxbury, Mass., May 2d, Miss Aletha Greenleaf, aged 37 years, eldest daughter of the late Mr. George Greenleaf of this city.

HANSCOM. In Brentwood, May 1st, Mr. Daniel Hanscom, formerly of this city.

LAWRENCE. At Kittery Point, Me., May 1st, Mrs. Lucy Lawrence, aged 88 years, widow of the late John Lawrence.

KNOWLES. In North Hampton, March 26th, Samuel Knowles, Jr., aged 63 years and 2 months.

COFFIN. In Auburn, April 20th, Thomas Coffin, aged 84 years.

FLOYD. In Newmarket, April 24th, Frank B. Floyd, aged 36 years.

44 MARKET STREET.

To WILLIAM H. HACKETT, a Justice of the Peace for the County of Rockingham and State of New Hampshire:

The subscribers, owners of one-twentieth part of the stock and property of the Rhyston Mangle Company represent that said Corporation has failed to hold its annual meeting for the present year. They therefore request you to call a meeting of the members of the said Corporation to be held at the office of William H. Hackett in Portsmouth on Saturday, the thirteenth day of May, A. D. 1882, at three o'clock, P. M., for the following purposes: To choose a chairman to preside over said meeting, to choose directors, clerk and treasurer, and other officers of said Corporation, and to transact any other business which may come before said meeting.

April 25, 1882.

CHARLES REESE,
PERCY M. REESE,
WILLIAM F. BURR,
SUSAN H. REESE.

The State of New Hampshire, Rockingham, ss.

To CHARLES REESE, of Philadelphia, Pennsylvania:

WHEREFORE application has been made to the undersigned, a Justice of the Peace for said County and State as above:

YOU are therefore required to warn a meeting of the said Corporation to be held at the time and place and for the purposes above mentioned in said application, by publishing a copy of said application and warrant ten days before time of said meeting in some newspaper printed in Portsmouth in said county, and make return of this warrant at said time and place of meeting.

Portsmouth, May 1, 1882.

WILLIAM H. HACKETT,
Justice of the Peace.

THE GREAT
GERMAN REMEDY.
FOR
RHEUMATISM,
Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains, Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals ST. JACOBS OIL as a *safe, sure, simple and cheap* External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Directions in Eleven Languages.

Reading Room free to members and strangers visiting the city. Quarterly Meetings the First Tuesday evenings in November, February, May and August. Election of officers at November meeting.

Fire Companies—At their respective Engine Houses on the first Monday of each month.

THE
Mutual Life Insurance Co.
of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1250 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

Probabilities for New England:—

Fair weather, northwesterly winds becoming variable, stationary or higher temperature and pressure.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 23 degrees above zero.

Sky clear.

SERIOUS ACCIDENT.

On Tuesday forenoon about ten o'clock, while Capt. James Barr was beating up river with his gondola he found the tide too strong for him, and when near the Eastern railroad wharf dropped his anchor. The gondola swung in toward a schooner lying alongside the wharf, and Capt. Barr went aft to keep clear a boat which lay between the schooner and his gondola, and in so doing got caught between the tiller of the gondola and the side of the vessel, and was badly hurt. He was placed on a mattress and conveyed by water to the navy yard landing, and from there to his home on Jefferson street. It is feared he is fatally injured.

EASTERN RAILROAD IN NEW HAMPSHIRE.

The annual meeting of the stockholders of the Eastern Railroad in New Hampshire was held at the passenger station of the Eastern railroad company in this city on Tuesday. Hon. Moody Currier, president of the corporation, called the meeting to order, and presided.

The report of the treasurer, Edward A. Abbot, was read, showing an unexpended balance of $8438.69. The report was accepted without debate.

A ballot was then had for seven directors, with the following result:

The whole number of shares voted upon was 1627, all of which were for Moody Currier, Dexter Richards, Francis Thompson, Edward L. Giddings, Edward A. Abbot, William H. Goodwin and Frank A. Philbrick, who were declared duly elected directors, and the meeting adjourned *sine die*.

At a subsequent meeting of the directors, Hon. Moody Currier of Manchester wes re-elected president, and William H. Hackett of Portsmouth, clerk.

THE ANCHOR TEST.

We are pleased to publish this morning the report of the committee appointed to conduct the recent trial test between the anchor patented by Major Urch and two other anchors, viz.: A United States regulation anchor, and a Cape Ann Fisherman's anchor, so-called. The report, as will be seen, is brief and markedly explicit; and coming as it does from gentlemen of well known conservative opinions, and eminently qualified to pass opinions upon the subject of anchors, it can but be of great value to Major Urch in the introduction of his anchor to the maritime public. The report is as follows:

PORTSMOUTH, N. H., April 24, 1882.

Major David Urch—Dear Sir: The undersigned, the Committee appointed to conduct the trial test of your patent anchor at Marvin's island on the 19th inst., hereby express their unqualified praise of its immense holding powers, as demonstrated at that time.

We deem it a duty we owe to the maritime public to say that it (your anchor) not only dragged a U. S. N. Regulation anchor weighing fifteen pounds more than yours, as it also did a Cape Ann Fisherman anchor weighing one hundred and eighty-five pounds more, firmly imbedded to its crown in the earth, but that it even dragged them both at the same time, the Cape Ann Fisherman anchor being backed by the U. S. N. anchor.

Its ability to hold at a short scope makes it invaluable to vessels compelled to anchor near a lee shore or in a crowded harbor, and its use upon our coasters would in our opinion materially diminish the risks incident to the navigation of our waters. Respectfully yours,

WILLIAM H. SISE,
JOHN G. MOSES,
GEORGE T. VAUGHAN,
WM. R. MARTIN.

Since the foregoing was put in type we learn that Major Urch is receiving offers of assistance from some of our citizens towards the manufacture of these anchors in this city; also that parties in Boston are in correspondence with the major, through local agents, to buy out his patent and interest in the anchor.

It is considered that when these anchors are properly placed before the public the demand for them will be enormous, and the manufacture a great industry. We hope our live and energetic capitalists will see to it that Portsmouth retains a plant so full of promise.

REFORM CLUB ELECTION.

An adjourned business meeting of the Portsmouth Temperance Reform Club was held on Monday evening, May 1st, at Good Templars' hall, when and where officers were elected as follows:

President, James Janvrin;
Vice Presidents, G. W. Randall, James W. Marden, Joseph T. French;
Chaplain, Rev. John A. Goss;
Secretary, Francis E. Hall;
Treasurer, Edward F. Hall;
Finance Committee, J. W. Marden, Benj. Powell, Charles Smart;
Ticket Takers, Benj. Powell, Reuben Rand;
Ticket Seller, Albert L. Stringer;
Standard Bearer, Oliver Dennett;
Trustees, Charles T. Wiggin, Joseph T. French, James Sanborn.

The club will hold a meeting at Sons of Temperance hall next Sunday evening at 7:30 o'clock.

ANNUAL MEETING OF THE RYE BEACH RAILROAD CO.

A meeting of the grantees of the Rye Beach railroad was held Monday afternoon at the residence of Hon. E. B. Philbrick in Rye, at which the following business was transacted:

Chose Emmons B. Philbrick, Frank A. Philbrick and David Jenness of Rye, Hon. Frank Jones of Portsmouth, and Albert Batchelder of North Hampton, as a board of directors.

Chose G. H. Jenness, of Rye, clerk of the corporation.

President E. B. Philbrick, in behalf of the board of directors, submitted the following report:

Agreeably to instructions given by a vote at a meeting of the directors held July 11, 1881, the president appeared before the New Hampshire legislature and procured the passage of a bill legalizing the first meeting of the grantees of the corporation, and extending the time for the completion of the road to ten years from the passage of the act. Also, in accordance with a vote taken at the same meeting to have a preliminary survey of the proposed route, the president made an arrangement with the president of the Eastern railroad whereby the engineer corps of that road has made a survey of a line starting from the Newburyport bridge and running to Salisbury beach, thence following the seashore until it strikes our proposed line on the northerly side of Hampton river, thence into Portsmouth, entering the city by three different routes. We have spent considerable time in prospecting for a marginal line on the head of the wharves but find several formidable impediments, and but few property owners that *manifest a desire* for the road to pass ever their land.

The first route surveyed crosses the Sagamore river about 1200 feet easterly of the highway bridge,—there a short and comparatively inexpensive bridge would have to be constructed—then enters the city easterly of Richards avenue, crossing Middle street at grade and under State and Islington streets, striking the main track of the Eastern road by the Kearsarge mill property. This is the shortest line, and much the easiest in grades; but the land damages must necessarily be somewhat heavy for a short distance in the city.

The second route crosses the river just westerly of Sagamore highway bridge, passing easterly of the residence of the late Frank W. Miller, under Middle street at the corner of Cass, and striking the main track of the Eastern by Frank Jones' malt house. This line is quite practicable.

The last line surveyed crosses the Sagamore river about one thousand feet westerly of the highway bridge, passing westerly of the residence of the late Samuel Langdon, thence onward to the main track of the Eastern about one mile from the Portsmouth station. The land damage would probably be less on this route than either of the others; but the distance is considerably increased, and a heavy grade has to be made in order to connect with the main track, as the latter is very much higher at the point of intersection than at the Portsmouth station.

Mr. Bissell, the engineer who made the surveys, has not yet had time to prepare an estimate of the cost of construction, but considers it comparatively small. For the most of the way the line passes over land of but little value, hence the land demages would be quite light. In fact, several of the owners of land have intimated their willingness to give the right of way over theirs, and all along the line we find an increasing feeling in favor of a railroad, and a strong determination to have one in some manner.

From Newburyport bridge to within three miles of Portsmouth station the route is near the seashore, and over land that is very nearly level, thus making the grading comparatively easy and inexpensive. Within the last three miles there are a few ledges that would require considerable blasting, but many of them could be avoided by slight changes in the line.

The line as now located, being for the most part a little back from the shore, with a strong beach in front, will be exempt from washouts during heavy storms, a danger to which many seashore railroads are continually exposed. We consider this a very important feature in locating a seashore line, in order to secure stability without great cost.

Within a few days the Farragut buildings have been destroyed by fire, and unless these are rebuilt it will greatly diminish the prospect of an income on our road. We trust, however, that the proprietors will receive sufficient encouragement to induce them to soon construct a finer establishment than the one destroyed. We therefore deem it of great importance that we push our road to an early completion, thereby increasing the facilities for reaching the summer resorts along the proposed line, and encouraging the erection of new buildings in order to meet the wants of the increase of travel

The officers of the Eastern railroad have manifested great interest in our proposed line, and have rendered us substantial aid in making the survey. We are hopeful that an arrangement can be made with them that will be mutually beneficial to both parties, and will result in the construction of a line near the seashore from Portsmouth to Newburyport —a line which would open up for seaside summer resorts the finest section of country there is in New England.

It was voted to accept and record the report of the board of directors.

The treasurer's report was read and accepted.

The board of directors chose E. B. Philbrick president, and David Jenness, treasurer.

The meeting then adjourned.

METHODIST APPOINTMENTS.

At the recent annual conference of the Methodist Episcopal church of Maine, the following were among the appointments made for the Portland district:

Presiding elder, C. J. Clark; Kennebunk, T. P. Adams; Kennebunk Depot, W. F. Marshall; Kennebunkport, R. Atkinson; Kittery First church, to be supplied; Kittery Second church, to be supplied by E. P. F. Dearborn; Knightville, P. Jaques; Maryland Ridge and Ogunquit, to be supplied by S. T. Records; South Eliot, H. B. Mitchell; York, G. C. Andrews; Eliot, J. M. Woodbury.

Maggie Mitchell will appear in Music hall May 10th, as "The Little Savage." Seats on sale at Preston's Friday morning.

[*For other local matter see second page.*]

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan29

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. He had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The person that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood Diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 30c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

Depot, WEEKS & POTTER, Boston, Mass.

WHAT HAPPENED TO

Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculous or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first day he began to use the medicine; on the 12th of September he voided a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorder, arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 16c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture soonor or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Office, 251 Broadway, N. Y., and 43 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. tiny13

New Hampshire Items.

In the supreme court at Lancaster the jury returned a verdict for the defendant in the case of John Morrison vs. the Boston, Concord & Montreal railroad, in a suit for damages on account of injuries caused by being hit by a locomotive in 1879.

Says the Boston *Post*: "Editor Richards of Dover, N. H., has in his possession a book containing the Lord's prayer in 131 languages, published by a firm in England. If Editor Richards can repeat the same in one language he will do as well as the average New Hampshire editor can do."

The locomotive and three cars of the Passumpsic stock train were derailed by a misplaced switch at Rumney on Monday afternoon, and the evening down express was delayed two hours in consequence. A temporary track has been built around the wreck, and trains are now running without interruption. The damage was slight.

Monday afternoon Eben Johnson of Manchester quarrelled with his wife, and then attempted suicide by shooting himself in the head with a small revolver. One shot ploughed his forehead, and the second one entered at the right temple, and flattened against his skull. He was so violent after the shooting that he had to be handcuffed so the wound could be dressed. The physicians consider his recovery as doubtful.

Wm. Hayne Leavell, pastor of the First Baptist church of Manchester, withdrew from the pastorate and from the Baptist church on Sunday last.

The oldest persons in Wolfeboro' are Mrs. Nancy Edgerly, aged ninety-seven years, and Mrs. Mary Edmunds, aged ninety-two years and seven months; both are smart and active, and help at doing light housework.

Thomas Foley of Bartlett, thirty years of age, was killed at Beatty's Landing at Guildhall, Vt., on Sunday, while rolling logs into the Connecticut river, by having a log strike him on the head. He leaves a wife and one child.

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. The origient and tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into dew life the entire process of digestion.

The schooner Sarah Louise, Hickey master, was dismasted on the 28th ult., sixty miles northeast of Cape Ann, and was abandoned next day, the crew being taken off by the British schooner Mary Jane, and carried into Boston. The Sarah Louise was from Calais, Me., bound for Newburyport.

Do not be deceived. Insist on having the genuine Brown's Iron Bitters, made only by the Brown Chemical Co., and take nothing else.

Mrs. Goodloe, of Harvard street, Charlestown, is endeavoring to prove her claim to property worth about $6,000,000 near Harlem, N. Y, which was formerly owned by her grandfather.

Parlor Decoration.

Horse-shoe, painted plaque and Sunflowers have each in its turn been the popular parlor ornament, but are now superceded by the Tamborine, which when tastefully decorated is very ornamental. For fifteen cents the Wheat Bitters Co., 19 Park Place, New York, will send free a beautifully decorated Tamborine.

Schooner Sarah Louise, before reported dismasted and abandoned off Cape Ann, was picked up by the schooner Carl Schurz, of Gloucester, and towed into Boothbay on the 1st inst.

The Secret Out at Last.

It has long been a source of wonder, as to why Courtney failed to meet Hanlan in a sculling contest. The general explanatory argument was, that he feared the little Canadian. The opinion, however, is exploded by the authentic announcement, that on the days fixed for the race, Courtney was unable to sit in his shell, on account of the intense itching and soreness caused by the piles. Having recovered through the use of Swayne's Ointment, he now announces that he will row Hanlan any time this summer.

SWAYNE'S OINTMENT
AN UNFAILING REMEDY FOR ALL SKIN DISEASES
SUCH AS TETTER, ITCH, SORES, PIMPLES, ERYSIPELAS, RING WORM, &c.
THE GREAT CURE FOR ITCHING PILES
Symptoms, Severe itching, especially at night; sometimes it gets inflamed, discharges, bleeds and becomes blind, protrudes, and becomes very painful. Are the serious symptoms of Piles? Swayne's Ointment is a pleasant, economical and positive cure. SWAYNE'S OINTMENT is superior to any article in the market, sold by druggists, or sent postpaid on receipt in 3-ct. Stamps. 3 boxes, $1.25. Address, DR. SWAYNE & SON, Phila., Pa.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., It is the most *efficacious* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Polter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It relieves pains and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it in the longest are its *best friends*.

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued than *ever before*. Every family should have a bottle *ready for use*. Much pain and heavy doctors' bills may thus be saved by prompt application of the Pain Killer. (*Unlike most medicines, it is perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., Insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELY'S CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indication of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The course of prevention may be had where cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. Its medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 188r.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Yellow Dock, Mandrake, Genian, Dandelion, Juniper Berries, etc., combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. Do not ever take

BLUE PILLS

or arsenic, they are deadly. Once your trust in SULPHUR BITTERS, the purest and best medicine ever made.

Is Your Tongue Coated? with a yellow sticky substance? Is your breath foul and offensive? Your stomach is out of order? Use SULPHUR BITTERS immediately! Is your Urine thick, cloudy, copy, or high-colored?

IT IS The Invalid's Friend. The young, the aged and tottering are soon made well by its use. Remember what you read here, it may save your life, it has saved hundreds. Don't wait until to-morrow,

Try a Bottle To-Day!

PRICE, ONE DOLLAR.

Daily Chronicle.

Books, Magazines, Etc.

"Notable Thoughts About Women: a literary mosaic, by Maturin M. Ballou." Boston; Houghton, Mifflin & Co.

This is a collection of nearly thirty-five hundred extracts of things said of women. There is an index of authors, as well as an index of subjects, indicating the number of the paragraphs so that anything good or severe can be easily discovered. In Mr. Ballou's "Pearls of Thought" subjects were arranged alphabetically. In the present work the index will serve to show the especial subject of the authors' views. Such a work must have required a vast expenditure of time, with a deal of discrimination in making selections of this character from nearly five hundred authors and poets, ancient and modern; and it will be, we opine, a work which will find a place in every library. It is printed on tinted paper, is handsomely bound, and cannot fail to be appreciated by all who examine it. Sold by W. G. Myers.

"The Fisher Maiden: by Bjornstjerne Bjornson." Boston; Houghton, Mifflin & Co.; price $1.00. This is one of an edition of the author's works published in this country, under an especial arrangement between the Boston publishing house and the author, who designates Prof. R. B. Anderson of Madison, Wis., as his translator. Prof. Anderson tells us that the story was written in 1867, and was published simultaneously in Norway and Germany. It has appeared in four German and in two English translations. The author in this volume aims to demonstrate the irresistible power of innate vocation and natural talent, and to defend the theatre as a place of instruction as well as amusement, against the unwarranted criticisms of certain of the clergy who may not have given the subject such a breadth of view as would enable them to fairly consider and test the question in every respect.

On the 17th inst., at 7:24 o'clock P. M., Washington time, the new moon, 16 1-2 hours after her change, will pass directly over Jupiter and occult or hide him from view. Jupiter, on that evening, will be about one and one-third degrees north of the sunset point, and about ten degrees east of the sun, and sets a few minutes before eight o'clock. The occultation of a planet by the moon is a rare sight, and that of Jupiter by the slender crescent will not soon be forgotten.

The straight greenback committee of Maine has decided to call a state convention in Bangor for May 30th, to nominate candidates for governor and four congressmen.

Lamprey Bros., of Tuftonboro', have cut on their farm on Ossipee mountain during the past winter $5000 worth of logs, which will be towed to Wolfeboro' to be sawed.

Capt. Ben. Finney, of the criminal court, St. Louis, Mo., known by every one in that city, says: "For three winters I suffered torture with rheumatism. I was unable to move at times without crutches. Some one recommended St. Jacobs Oil and I used it. Seven or eight applications cured me, and rheumatism has no terror for me now."

Since Maine became a state she has been represented in congress by sixty-eight lawyers, and only five farmers. Of her senators, eight were lawyers and one an editor.

A Vigorous Growth

Of the hair is often promoted by using Parker's Hair Balsam. It always restores the youthful color and lustre to gray hair, gives it new life and removes all irritation and dandruff.

In response to a petition numerously signed, the school committee of Portland, Me., have voted to lengthen the summer vacation of the city schools by three weeks, the schools to close June 30th and re-open Sept. 11th.

Catarrh of the Bladder.

Stinging irritation, inflammation, all kidney and urinary complaints, cured by "Buchupaiba." $1. Depot, J. H. Thacher's.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

A man arrested for drunkenness and brought before the court at Worcester, Mass., claimed to be a miner from California, and had over $4,000 in cash. His money was put in the city marshal's safe, and an effort made to induce him to put his money in the bank and not carry it about with him while he is drinking, but he paid his fine, took his money and went away.

Eighty-Five Dollars Lost.

"You do not tell me that your husband is up and entirely cured by so simple a medicine as Parker's Ginger Tonic?" "Yes, indeed, I do," said Mrs. Benjamin to her neighbor, "and after we had lost eighty-five dollars in doctor's bills and prescriptions. Now my husband feels as well as ever."

A pretty girl of sixteen, at Woonsocket, R. I., has cut and sold her luxuriant brown hair to a lady in Providence, for $200, to procure comforts for a sick mother.

My Family Doctor

For the last two years has been Sulphur Bitters, and until I began using them in my family we had more or less sickness, and our doctor's bill had been very large. Since we began their use we have had no doctor to pay, and three dollars invested in Sulphur Bitters has kept health in our family.—*E. Knott, Postmaster, Waverly, Iowa.*

Madame de Lesseps, wife of the eminent French engineer, gave birth to her tenth child a few week ago.

Do not be deceived. Insist on having the genuine Brown's Iron Bitters, made only by the Brown Chemical Co., and take nothing else.

Donald McLean of Chicago, a commercial traveller, has been arrested by his wife for eloping with a variety actress.

The Secret Out at Last.

It has long been a source of wonder, as to why Courtney failed to meet Hanlan in a sculling contest. The general explanatory argument was, that he feared the little Canadian. The opinion, however, is exploded by the authentic announcement, that on the days fixed for the race, Courtney was unable to sit in his shell, on account of the intense itching and soreness caused by the piles. Having recovered through the use of Swayne's Ointment, he now announces that he will row Hanlan any time this summer.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them the early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I shall give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. 3awtu1m

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y. cow1w4w8

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

THURSDAY, MAY 4, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Land League Victories.

Messrs. Parnell, Dillon and O'Kelly were released from Kilmainham jail on the 2d inst., and will take their seats in Parliament. On the same date Mr. W. E. Forster, chief secretary for Ireland, resigned that position, which caused great rejoicing in Ireland. The London *Times* says the policy now to be tried in Ireland is one of concession and conciliation, pure and simple. There were spontaneous rejoicings throughout Ireland over the release of the leading land leaguers.

News and Notes.

Hon. Horace Maynard of Tennessee died very suddenly on the 3d inst., at his home in Knoxville.

On the evening of the 2d inst., at about eight o'clock, as Alonzo W. Barton, who runs a shoe express between Seabrook and Haverhill, was on the main road half a mile from Newburyport in East Salisbury, in a skeleton wagon, he was stopped by three men and robbed of $400, one man holding his horse while another levelled a revolver at his head, demanding money or his life.

Thus far 103 persons have died of smallpox at South Bethlehem, Pa., and over thirty persons are still on the sick list, not half of them with an even chance of recovery. The scourge appeared in 470 houses in the village, and nearly one out of three of those attacked have been swept away. This is a terrible record, and made in a village than which there has been supposed to be none healthier in Pennsylvania.

Two inches of snow fell at Ottawa, Ont., May 2d.

Caleb S. Woodruff, clerk of the water board of Rahway, N. J., is missing; also $1,000 of the funds of the board.

Mrs. Guy Hollister of Westville Centre, N. Y., committed suicide May 2d, by shooting herself in the heart. Her mind has been slightly deranged for the past year.

Several cases of smallpox were reported on the steamship British Queen, at Philadelphia from Liverpool, May 1st. The health board on the 2d inst. ordered her 420 steerage passengers detained on board, until vaccinated.

Near Yarmora, Mexico, May 1st, a terrible battle was fought between a company of Mexican dragoons under command of Cavatano Novega, and the famous bandit Teodolo Caballerose. The troops were badly defeated after a hard and long fight, Novega being killed. The robbers rode away to their mountain fastnesses after the struggle.

The recent election at Pawtucket, R. I., was very exciting, and, with a single exception, the vote was the largest ever polled. The democrats elected nearly their whole ticket by majorities ranging from two to 266. The disaffected republicans voted with the democrats. A curious fact is the defeat of David J. White for third selectman on the republican ticket, and his election for second selectman on the democratic ticket.

Cunningham, who cut Mrs. Sprague's throat some months ago as she was walking home from church one Sunday night in company with another man, was on the 2d inst. convicted of murder in the second degree at Calais, Me. The evidence show that the woman, who was ten years older than Cunningham and whose husband died only about a year ago, established an improper intimacy with Cunningham when he was only fifteen years of age, and kept it up until within a few days of the murder.

The British ship Alexandrovna, owned in St. John, N. B., was wrecked at Swansage, Wales, a few days ago, with the loss of all hands. She carried eighteen men.

Rev. Standford S. Martin of New Haven, Conn., has accepted a call to the Congregational church at Peacham, Vermont.

In the Bow street police court at London, England, on the 2d inst., Henry Fredericks, who represents that he was formerly a captain in the American navy, was charged with having attempted to commit suicide by shooting himself with a pistol. Pecuniary difficulties are assigned as the cause of the act. He was remanded for one week.

The supreme court at Belfast, Me., adjourned after an eleven-days' session. Eight divorces were granted; George Spear, for an assault with intent to kill, was sentenced to one year in the Portland workhouse.

Horace Durgin, aged about seventy-five years, doing business on Main street, Bangor, Me., went to his store Monday morning, May 1st, apparently in good health. He commenced to read the morning paper, and fell back, dying without saying a word. Apoplexy was probably the cause.

Liquor taxes to the amount of $28,000 were paid into the county treasury by saloon keepers in Detroit, Michigan, May 1st. The tax is increased under the new law, which has just gone into effect.

At ther recent conference the Methodists of Maine paid particular attention to the question of marriage and divorce. The resolutions passed last year in relation to this subject were read and re-emphasized. They hold that ministers should preach at least once during the conference year on this subject; that no person should be employed by presiding elders as a stated supply who has been divorced for any other cause than that specified by our Lord, and that it is wrong for any minister to marry a couple when there is suspicion of either of the parties having been divorced for any other cause than breach of the seventh commandment.

At a meeting of the mayor and aldermen of Lawrence, Mass., it was voted to grant licenses for the sale of liquor the ensuing year, and at the following rates: Innholders, $350; common victualler, $125; brewers, first-class, $250; second-class, $200; wholesale, $150; retail, $100; The board granted 194 licenses; common victuallers, twenty-one; innholders, nineteen; grocers, six; and wholesalers, three.

Horace Atwood, principal of the high school in Norwood, Mass., was before Justice Grover in Canton, Saturday, April 29th, for an assault upon William E. Bowlester, one of the pupils in a grammar school under his supervision. The question was whether Mr. Atwood had a right to punish the child, it being claimed that the punishment should have been inflicted by the sub-teacher in whose school the offence occurred. The justice reserved his decision at the time, but on the following Monday discharged the defendent.

The Guion line steamship Alaska on her late trip passed Fastnet in six days, twenty-one hours and forty-six minutes from New York, the quickest time ever made.

Black smallpox is killing thousands in the states of Sinaloa and Campeche, Mexico. The doctors are serving the people free.

The "mystery" as to Francis Winn's disappearance from Biddeford can be explained, it is thought, by his creditors.

New Hampshire Items.

At the golden wedding of Hon. Hekeziah Parsons, a prominent citizen of Coos county, whose home is in Colebrook, but who has been in Washington on a visit to his son-in-law R. S. Parks, Hon. Ossian Ray presented a gold-headed cane which had been sent by a number of the Colebrook people as a testimonial of their neighborly regard. Congressman Ray's manner of presentation, we are told by a correspondent, was of that happy and graceful style which so naturally appears in his oratorical efforts.

Charles Minor, a Shaker, at Enfield, aged sixty-two, committed suicide at his room at Shaker Village some time during Monday night, May 1st, by shooting himself through the head with a small rifle.

The Laconia Car company, formerly doing business as partners, have formed a stock corporation with $60,000 capital and the following officers: Perley Putnam, president; John C. Moulton, treasurer; John C. Moulton, Perley Putnam and G. M. G. Moulton, directors.

The Dover *Democrat* in its account of the recent fire, says: "Bill Hurd sometimes manifests a deal of native wit. He is reported to have said to day-that the aldermen wouldn't allow him to run a brush factory on Third street, where, if it got on fire, it would burn up a lot of rum shops, but they allowed another man to run one on Washington street, where it would burn down a church."

Hon. Ossian Ray will deliver the address on decoration day at Claremont. Mr. Ray is expected to come to New Hampshire on leave of absence for this and other pressing duties this month.

AROUND HOME.

The prevalence of sombre colors in ladies' dresses at the present time was amusingly exemplified at the May ball given by the "Owlets" in Franklin hall on Tuesday evening of this week. The girls and young ladies on the floor generally wore white or bright colors, and made the scene as viewed from the galleries a variegated and brilliant one; but the occupants of the galleries, most of whom were ladies, were almost without exception dressed in black, and gave the general effect of a convocation of ministers, or a flock of gigantic crows.

Among the recent payments made by the Mutual Life Insurance Co. of New York, to the representatives of deceased members in this city, is one of $5049 upon a policy on the life of the late John Dixon.

The board of engineers, at a meeting held on Tuesday evening, the 2d inst., voted to suspend from duty George N. Jones, engineer of Kearsarge steam fire engine, until July 1st.

At a meeting of the Portsmouth Cavalry, held on Tuesday evening of this week, 2d Lieut. John S. Perry was elected to fill the vacancy occasioned by the resignation of 1st Lieut. R. H. Perkins. Sergeant S. H. Gates was elected to fill the vacancy occasioned by the promotion of Lieut. Perry.

DIED.

YOUNG. In Pittsfield, April 27th, Mrs. Harriet N. Young, aged 64 years, widow of Accanthus Young.

How young soever you may be,
With falling teeth, you're grim and old;
And losing your mouth's purity,
Your features seem both dull and cold.
Then man or maid, warned of your fate,
Seek SOZODONT, e'er it's too late.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan82

H. F. WEYDEEL, Auct.

To WILLIAM H. HACKETT, a Justice of the Peace for the County of Rockingham and State of New Hampshire:

The subscribers, owners of one-twentieth part of the stock and property of the Rhyston Mangle Company represent that said Corporation has failed to hold its annual meeting for the present year. They therefore request you to call a meeting of the members of the said Corporation to be held at the office of William H. Hackett in Portsmouth on Saturday, the thirteenth day of May, A. D. 1882, at three o'clock, P. M., for the following purposes: To choose a chairman to preside over said meeting, to choose directors, clerk and treasurer, and other officers of said Corporation, and to transact any other business which may come before said meeting.

April 25, 1882.

CHARLES REESE,
PERCY M. REESE,
WILLIAM F. BURR,
SUSAN H. REESE.

The State of New Hampshire, Rockingham, ss.

To CHARLES REESE, of Philadelphia, Pennsylvania;

WHEREFORE application has been made to the undersigned, a Justice of the Peace for said County and State as above:

YOU are therefore required to warn a meeting of the said Corporation to be held at the time and place and for the purposes above mentioned in said application, by publishing a copy of said application and warrant ten days before time of said meeting in some newspaper printed in Portsmouth in said county, and make return of this warrant at said time and place of meeting.

Portsmouth, May 1, 1882.

WILLIAM H. HACKETT,
Justice of the Peace.

THE GREAT GERMAN REMEDY FOR RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, BACKACHE, GOUT, SORENESS OF THE CHEST, SORE THROAT, QUINSY, SWELLINGS AND SPRAINS, FROSTED FEET AND EARS, BURNS AND SCALDS, General Bodily Pains, TOOTH, EAR AND HEADACHE, AND ALL OTHER PAINS AND ACHES.

St. Jacobs Oil

No Preparation on earth equals ST. JACOBS OIL as a safe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims. DIRECTIONS IN ELEVEN LANGUAGES.

SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE.

Fire Companies—At their respective Engine Houses on the first Monday of each month.

THE Mutual Life Insurance Co. of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
May 4, 12:00 A. M.

Probabilities for New England:—

Increasing cloudiness with rain, warmer southerly winds, lower barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 40 degrees above zero.

Sky clear.

POLICE COURT.

WEDNESDAY, May 3; *Batchelder, J.*

Willie B. Newton, charged with a violation of the petroleum ordinance, had the case continued until Friday morning at ten o'clock, and gave bonds in $100 for his appearance at that time.

SUPREME COURT--CARPENTER J.

The court finally adjourned on Wednesday morning, the 3d inst. In case Cochrane vs. the Town of Exeter, in which the verdict was for the defendant, the motion of plaintiff for a new trial was denied, and judgment on the verdict ordered.

"THE LITTLE SAVAGE."

On Friday morning, at Preston's, will be placed on sale the reserved seat tickets to the performance of "The Little Savage," which will be presented in Music hall on Wednesday evening of next week by Maggie Mitchell and her company, with the charming little actress as the Little Savage. Maggie is well known to our play-goers, and here as elsewhere is a great favorite; the play is a new one, never performed in this city, and was written expressly for her by George F. Fuller. Of it a New York paper says:

There are scenes of laughter and tears so tenderly and aptly intermixed as to deeply move the audience. The role of Cora, "the little savage," is admirably fitted to Maggie Mitchell's characteristics as an actress. Many of her old friends who have witnessed her in all the characters in her repertoire, declare that they have never seen her appear to better advantage than in "The little Savage." She is ably supported.

THE DISASTER AT DOVER.

The fall of a portion of the wall of the burned church at Dover, on the afternoon of the 2d inst., was more disastrous than at first reported. The details of the accident are given as follows:

When the firemen extinguished the flames they neglected to pull down the four tottering walls of the building, for which there is no excuse. During the afternoon the ruins were visited by hundreds of spectators, many of whom entered the ruined edifice to look on the work of the flames. At about quarter to four o'clock a hail-storm was in progress, and a high wind prevailed. The first floor of the church was but partially burned, and when the hail storm commenced five persons entered the open basement door to get shelter from the storm. Three boys were on the floor above, next the south wall, and while they were chattering the south wall was seen to swerve once or twice and then fall with a crash, carrying the floor with it into the cellar. Two of the boys swooned, and the third, a bright little lad named Charles G. Emerson, got out into the street and immediately entered the basement where the five persons had sought shelter. He then gave the alarm, the fire gong was sounded, and soon hundreds were on the scene. A rush was made for the basement door, and the groans of several persons were heard. A report was started that some fifty or sixty were in the ruins, and the excitement was intense. Anxious fathers and mothers were in search of their children, for it was about the time the pupils of several schools were dismissed. After half an hour's hard work the five occupants of the basement were taken out from under the beams and timbers of the floor on which rested the wall. The names of the victims are Mrs. Stuart Clifford, wife of a clothes dyer, one leg and two arms broken, and injured internally; Job H. Burleigh, blacksmith, one arm and one leg and several ribs broken, probably seriously injured internally; Mrs. Whitney, wife of a teamster, very seriously injured, one leg and one arm broken; Jerome Bernadotte, a young man, seriously injured. An unknown woman was found lying under a beam seriously hurt; she was taken away in a hack before her name could be learned.

The ruins were visited by many people from the surrounding country during the day, and it is said the necessity of pulling down the tottering walls was pointed out to Charles F. Dean, chief engineer of the fire department, but he replied that he did not feel authorized to order them levelled, as the church society might sue the city for damages. The management of the fire is severely criticised.

At a late hour in the evening it was announced that Judge John R. Varney, police justice of Dover and register of probate for Strafford county, had not been home to supper; and one of the wounded men, Bernadotte, said he saw in the ruins before the crash a man resembling him. A search party was organized, and at about eleven o'clock the dead body of Judge Varney was taken from under the mass of rubbish. As a public official the deceased was esteemed by all parties. He leaves a widow and two daughters.

SUNDAY SCHOOL CONVENTION.

The seventh annual session of the Rockingham County Sunday School association will be held in the Congregational church at Epping on Tuesday, the 16th inst. All members of Sunday schools are invited; and it is especially hoped that every Sunday school will be represented by the pastor of the church and the superintendent of the school, and by two delegates as business representatives. The citizens of Epping will cordially receive and entertain all who attend the convention. It is requested that persons attending take with them Gospel Hymns Nos. 1, 2 and 3.

The church where the convention will be held is only about five minutes walk from the junction of the Concord & Portsmouth and Nashua & Rochester railroads. There will be no postponement on account of the weather.

To meet the necessary expenses of the convention, the association at a former meeting voted to assess each school having a membership of over two hundred, the sum of $2; schools numbering less than two hundred but over one hundred, $1 each; schools of less than one hundred members, fifty cents each. The assessments may be forwarded to the secretary and treasurer, Frank R. Drake of North Hampton.

Among the topics of the day will be "Music in our Sabbath schools — how made more effectual," introduced by Rev. S. P. Everett of South Hampton and Rev. C. A. Holbrook of Portsmouth; "The needful preparation on the part of the teacher," introduced by Rev. C. A. Beck of Kittery, Me.; and "The duties of a superintendent," introduced by Supt. J. H. Hutchinson of Portsmouth, and Rev. J. W. Kingsbury of Rye. There will be discussion on all the topics, after the delivery of the introductory remarks.

JOHN R. VARNEY.

Judge John R. Varney, who was crushed to death in Dover on the 2d inst. by the fall of a brick wall, was a brother of Mrs. John B. Haley of this city, and uncle of Mrs. John Laighton. He was widely known and universally esteemed. He graduated at Dartmouth college in the class of '43, and was for three years professor of mathematics in that institution; he was principal of Franklin academy for several years, and for ten years followed the profession of civil engineer. He was admitted to the bar in 1863, and became a partner of Hon. John P. Hale; he was clerk of the Strafford county court for four years, and postmaster of Dover for the same length of time. About 1868 he became part owner of the Dover *Enquirer*, and has ever since been one of its editors, and also of the daily *Republican* since it was started; and at the time of his death he was police justice of Dover, and register of probate for Strafford county. In every position he ever held he won the respect of the community in which he resided, and had the confidence of the public in a large degree. He was sixty-three years of age.

Mr. Dennis J. Lynch, grocer at No. 44 Market street, in another column advertises choice St. Louis flour at a low price, and warrants it to give satisfaction; a full assortment of all articles, domestic and foreign, usually kept in a first-class grocery store, can also be found at his place of business.

The weather has seemed of late like a backward spring, and everyone wonders when the cold winds will give way to the gentle mildness which should prevail at this season; but if the spring is late the spring styles of hats appeared promptly on time, and at the opening at Tibbets' stores on Market street, recently, the new designs were greatly admired. A large number of the sterner sex gazed into the windows, made so attractive with their choice floral decorations, but it was vouchsafed only to woman to enter and behold the tasteful, jaunty and elegantly-becoming head decorations of the spring styles,—that is, of course, assuming that a lady's hat is worn for ornament principally. The store in Market street formerly kept by C. N. Shaw & Co. maintains its high repute for an extensive assortment of seasonable goods, while the old stand at the corner of Ladd street invites, as in seasons before, an inspection of its decorative capacities, which with the good taste of the management ought to satisfy the most fastidious purchaser, as well as the more economical buyer.

Mr. James Barr, the gondola skipper who was so badly (and it was feared fatally) injured on Tuesday of this week by being jammed between the tiller of his gondola and the side of a schooner to which he was taking a load of ballast, was on Wednesday reported as being more comfortable, and having a good chance of recovery.

As handsome a yoke of young oxen as has been brought to this market for many months was purchased on the 2d inst. of Mr. Nathaniel Horn of Dover, by C. Sullivan & Co. The cattle when dressed weighed 2800 lbs., and the beef will be sold at the market of the firm named, on the corner of Bow and Penhallow streets.

It was reported on Wednesday, the 3d inst., that all the breweries in the city have shut down brewing for a brief period.

Wood per cord, Hard $6; Pine $4.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.
Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.
Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The person that had fed the disease was completely driven out.

Eczema.
Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura soap externally, which entirely cured me so that my skin is as smooth and natural as ever.
ELLEN M. FRAILEY, 68 South St., Boston.

Cuticura.
The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 25c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.
Depot, WEEKS & POTTER, Boston, Mass.

WHAT HAPPENED TO

Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculous or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first day he began to use the medicine; on the 13th of September he voided a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorder, arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

Drinking Preachers.

A New England congregation has just been so horrified by a report that its pastor had been seen the worse for liquor that it removed itself from the charge of the offending divine, with whom no other fault was found. There was a time, however, and within the memory of many men still alive, when intoxicated preachers were not rare, and when their influence was not considered very bad. Fifty years ago a Yankee parson who made the customary round of pastoral visits had so much rum, gin, brandy and wine pressed upon him by the godly members of his flock that he sometimes had to break the day into by a long nap; yet strange to say, New England now moans for just the class of preachers that made pulpits lively in those days. Everywhere but in the United States the drinking habit is as common among pastors as parishioners. Probably every one who drinks would be better off if he were to restrict his potations to clear water; but the preacher who has no fault but that of occasionally drinking too much of stronger fluids may deserve better treatment than to be dismissed. Perhaps if the New England congregation alluded to had paid its minister a good salary, paid promptly, and not dumped all their petty troubles into his ears or expected him to compose too long and too many sermons every week, the unfortunate man would not have been compelled to ask help of a bottle.—*New York Herald.*

—"Behold the deeds of nighty men!" exclaimed a speaker at a recent dinner. That s une night sev-ral of those "mighty n.en" were carried home in a hack. The moral is obvious.

—A man does his courting in private and seclusion. John Henry, as a boy, goes behind the woodshed to suck his orange. Not because he is ashamed of it, but because he wants it all himself.

—The marquis of Lorne, it is said, claims that some of his ancestors put their feet under Arthur's Round Table. If his ancestors had been Americans they would have put their feet on top of it.

—The man who is continually giving advice to persons who don't want it, is the man who himself stands most in need of a dose of hard sense.

—The fewer balmy days a man has the more palmy days he is likely to enjoy.

At No. 1924 S. Tenth street, Philadelphia, Pa., lives Wm. G. Denniston, who suffered with rheumatic gout so severely that he could not stand, and was entirely relieved by the use of St Jacobs Oil.

—Most persons would rather read a scandalous narration than a story of virtue, and probity This must be because scandalous transactions are so rare.

What gives a healthy appetite, an increased digestion, strength to the muscles, and tone to the nerves? Brown's Iron Bitters.

—The work of the cabmen is driving, just now, and the bandcart men are pushing things.

A Traveler's Story.

After spending months at watering places and consulting the best physicians without benefit, I returned home disheartened and expected to die. A friend urged a trial of Parker's Ginger Tonic. Three bottles and careful diet have brought me excellent health and spirits, and I hope my experience may ben-fit similar sufferers.—Cincinnati lady. See other column.

—The man who was above has got married and gone to keeping house.

A Peerless Perfume.

The refreshing aroma of Floreston Cologne, and its lasting fragrance make it a peerless perfume for the toilet.

—At a recent annual sale of pews in Trinity church, New York, the first choice of seats in that sanctuary sold for $3,000, or $60 a sabbath, and yet people wonder why fashionable churches in the big cities are only partially filled.

I Was a Fool.

Yes, they said I was a fool not to try Sulphur Bitters for rheumatism, from which I had suffered over two years: but I had tried so many doctors and medicines without getting relief that I was discouraged. I am now on my fourth bottle and almost cured. I was a fool that didn't try that wonderful remedy before. —*C. G. Pratt, Manchester.*

Parties from Lowell Mass., propose to put up an observatory on the top of Ossipee mountain.

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a friendly listener, "unless you want to make an animated sign for a drug store, and make the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing Circulars should send 10c for his book, containing likenesses of bad cases before and after cure, also endorsement of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 43 Hill st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. 10y15

Symptoms are moisture, stinging, itching, burning, sight, scaly eruption, small tumors like blind piles, fissure; the private portions disfigured. Are pleasant, economical and positive cure. SWAYNE'S OINTMENT is superior to any article in the market, sold by druggists, or send 50 cts. in 3-ct. Stamps. 3 boxes, $1.25. Address, Dr. SWAYNE & Son, Phila., Pa.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc. it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen the magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your Pain Killer frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new and untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is owing to its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued than *ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. Dealer most *medicines* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., Insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing it thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in prospect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or attempted cure—may be wasting. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. This medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost Instantaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Yellow Dock, Mandrake, Gentian, Dandelion, Juniper Berries, etc., combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. Do not ever take BLUE PILLS or arsenic, they are deadly. Place your trust in SULPHUR BITTERS, the purest and best medicine ever made.

Is Your Tongue Coated with a yellow sticky substance? Is your breath foul and offensive? Your stomach is out of order. Use SULPHUR BITTERS immediately! Is your Urine thick, cloudy, ropy, or high-colored? IT IS Dangerous!

Sulphur Bitters! Don't wait until you are unable to walk, or are flat on your back, but get some at once. It will cure you. Sulphur Bitters is The Invalid's Friend. The young, the aged and tottering are soon made well by its use. Remember what you read here, it may save your life, it has saved hundreds. Don't wait until to-morrow,

Try a Bottle To-Day!

PRICE, ONE DOLLAR.

Daily Chronicle.

Books, Magazines, Etc.

"The Graphic Arts: a treatise on the varieties of drawing, painting and engraving, in comparision with each other and with nature; by Philip Gilbert Hamerton, author of 'A Painter's Camp' and other works." Boston; Roberts Brothers. Portsmouth,—sold by Mercer Goodrich; price $2.00.

This is an authorized American edition, being a reprint of the English edition without the illustrations, and of course afforded at a far less price than the work is sold for in England. In these days when so many seek instruction in drawing and painting, and when every one is seeking more knowledge of art in all its ways, the republication of this work in this country is timely. The book is divided into twenty-eight chapters, treating of drawing, materials, painting, wood engraving, etching, aquatint and mezzotint, lithography, etc., all under appropriate heads. Indeed it seems to be a work which will be eagerly read, not only by pupils, but by all who would be informed as to the different graphic arts. The author of course is a recognized authority upon the subject of which he treats, and from his numerous former volumes, is no stranger to the American public, which will gladly welcome in this form the production by the Boston publishing house of the English work, save the illustrations, while the price will be within the reach of every art student.

"Alexander Hamilton." The last-issued volume of the series of American Statesmen, edited by John T. Morse, Jr., and published by Houghton, Mifflin & Co. of Boston, is the life of Alexander Hamilton. As an officer in the army of the revolutionary war, as a brilliant legal orator and as a statesman, Hamilton was of prominence in our history, but his celebrity was derived from his inherent understanding and power of demonstrating his method in finance. He was the first secretary of the treasury of the United States, a position he assumed at the age of thirty-two years, and in ten days after his appointment Congress called upon him to prepare a report upon the public credit, and afterward sought from him a programme for the inauguration of the present system of treasury administration. Hamilton's ideas of banking, funding the debts of the country, and the management of its finances, were those which have since been adopted as the best possible system; and the theories of the first secretary, endowed as he was with a wonderful foresight and a correctness of plan, have been the guiding principles, to this day, of those who have most successfully and creditably managed this important branch of our administrative affairs. He was one of the wisest of the statesmen of his time, and to him our country owes an unliquidated debt of gratitude for his ability in thus early shaping its financial policy, which in effect took shape and gave the country its forward movement by his comprehension of the needs and possibilities of the new government. Sold by W. G. Myers; price $1.00.

A Railroad Map of Northern New England and the Maritime Provinces, showing all the railway lines between Springfield, Mass., and Reviere du Loup, and between Montreal and Cape Breton, has been published by Loring, Short and Harmon, of Portland. The delineator of the map is Mr. Foster, a draughtsman in the office of Superintendent Tucker of the Maine Central railroad at Portland. The map gives an accurate outline of the railway system of Maine, New Hampshire and Vermont, and shows us the growth of lines in Maine and the Provinces better than any previous publication of the kind, because it is not distorted to misguide as to the various routes laid down.

MESSRS. ELY BROS., Druggists, Owego, N. Y. Gents—I have improved greatly since I commenced using Cream Balm for catarrh. I feel like a new man. Ely's Cream Balm is a blessing to suffering humanity. JOSH D. FARRELL, Hartford, Conn.

Ely's Cream Balm Co., Owego, N. Y. Gents—I have never found anything like Ely's Cream Balm for the cure of catarrh. W. P. BATES, 130 Hanover street, Boston, Mass.

I have been a sufferer for years with catarrh, and under a physician's treatment for over a year, have tried a number of "sure cure" remedies and obtained no relief. I was advised to try Ely's Cream Balm. It gave me immediate relief. I believe I am now entirely cured. G. S. DAVIS, First National Bank, Elizabeth, N. J., Aug. 14, 1879.

Price fifty cents.

—"Cut you out in one minute, sir," said a silhouette man. "Nothing very remarkable about that," replied Fogg sadly; "I had a fellow cut me out a darned sight quicker than that once." And Fogg meandered sadly along, his mind haunted with visions of bright eyes and fair hair, and tormenting thoughts of what might have been.

Parlor Decoration.

Horse-shoe, painted plaque and Sunflowers have each in its turn been the popular parlor ornament, but are now superceded by the Tamborine, which when tastefully decorated is very ornamental. For fifteen cents the Wheat Bitters Co., 19 Park Place, New York, will send free a beautifully decorated Tamborine.

—Letter boxes in England are painted around the apertures with luminous paint, for the convenience of people at night. What a blessing it would be, if applied around keyholes, for the guidance of people who are kept out late at lodge meetings.

Do not be deceived. Insist on having the genuine Brown's Iron Bitters, made only by the Brown Chemical Co., and take nothing else.

—Query: If oleomargarine is as good as butter why persist in selling it always under the alias of "creamery butter?"

—A Michigan revivalist goes out this season with what he advertises as "the most complete camp-meeting outfit ever invented, consisting of a handsome pavilion, splendidly painted, and a portable stand, reed organ, and gilded cross in the pulpit."

The Secret Out at Last.

It has long been a source of wonder, as to why Courtney failed to meet Hanlan in a sculling contest. The general explanatory argument was, that he feared the little Canadian. The opinion, however, is exploded by the authentic announcement, that on the days fixed for the race, Courtney was unable to sit in his shell, on account of the intense itching and soreness caused by the piles. Having recovered through the use of Swayne's Ointment, he now announces that he will row Hanlan any time this summer.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire News: carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week'y invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Invalids, Epicures,

and, in fact, everyone should understand the value of that delicious food source—SEA MOSS FARINE. It is produced by inventive skill from the nutritious Irish Sea Moss, and is, without exception, the best Invalids' Food and most useful basis for light wholesome food and desserts now in existence. For puddings, jellies, creams, blanc manges and other table delicacies, the Sea Moss Farine excels everything known, and in the sick room it is simply indispensable.

PATENTS!

R. H. EDDY,

No. 78 State St., Opposite Kilby, Boston.

SECURES PATENTS in the United States, also in Great Britain, France and other foreign countries. Copies of the claims of any Patent issued by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them the early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1878.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1883. 3taw3w

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers. address J. H. REEVES, 43 Chatham St., N. Y. eod&wtyr

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

FRIDAY, MAY 5, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Land League Victory.

The abandonment of the coercion policy by England, and the removal of Mr. Forster from the chief secretaryship for Ireland—for that is what Mr. Forster's "resignation" amounts to—is unquestionably a victory, and a great one, for the Irish land leaguers.

At the time the land league movement was started, there seemed little prospect of its meeting with any measurable degree of success. The accumulated wealth, the ability to exist for a lengthened period without additions to the means then held, seemed all on the side of the land owners; and in this country even those who most warmly sympathized with the Irish tenantry in their revolt against the exactions of the landlords, hardly dared hope the revolt would accomplish anything, as it appeared evident that the tenants could exist for only a brief time without the use of the land, while the landlords could exist for a long time without their rents.

But in spite of all this; in spite of the numerous agrarian outrages, the murders and whippings and mutilations and fire-raisings committed by the ignorant and exasperated tenantry, and which, though far less in number than might reasonably have been anticipated, tended only to strengthen the resolves of the British government and to lessen the sympathy felt in other lands for the movement; and in spite of the powerful opposition of the Catholic church to some of the methods adopted by the leaders of the land league movement, the league has won a great victory. Parnell, Dillon and O'Kelley are in Parliament instead of in Kilmainham jail, and "coercion" is acknowledged to be a failure.

What will be the immediate outcome of the tremendous struggle we cannot pretend to say. The Irish problem is centuries old, and is yet unsolved. England's oppression of Ireland is repaid by Ireland's deep-seated hatred of England and England's rule, and while it is impossible that England can ever consent to Ireland's independence, it appears at present as though Ireland would be finally satisfied with nothing less.

The "Cowboy Insurrection" in Arizona.

The president on the 3d inst. issued a proclamation in which he recited the laws authorizing the executive to call out troops to suppress unlawful organizations in any state or territory, and closing as follows: "Now, therefore, I, Chester A. Arthur, president of the United States, do hereby admonish all good citizens of the United States and especially of the territory of Arizona, against aiding, countenancing, abetting or taking part in any such unlawful proceedings; and I do hereby warn all persons engaged in or connected with said obstruction of the laws to disperse and retire peaceably to their respective abodes on or before noon of the 15th day of May."

News and Notes.

Chester S. Cunningham, convicted of the murder of Harriet E. Sprague, was on the 3d inst. sentenced at Calais, Me., by Judge Danforth of the supreme court, to hard labor in the state prison at Thomaston for the term of his natural life.

A despatch from Santa Fe, New Mexico, on the 3d inst. says: "Mexican troops yesterday under Colonel Garcia met the Indians whom Colonel Forsyth is pursuing, and killed seventy-eight of them, also taking thirty-three prisoners. The carrier bringing this information arrived at Santa Fe on foot, being pushed so hard by Indians that he had to abandon his horse, barely escaping with his life. He reports that there are about a hundred Indians between Deming and Tresjouinas."

Three boys named Hetherman, Tobin and Welch broke into a house in Newburyport on the 3d inst., and stole a gold piece and a valuable ring. They also set fire to a woodshed, but the fire was extinguished without an alarm being given.

The sea-serpent is around early this year. The Portland *Advertiser* says that Capt. John F. Lovett of Cape Elizabeth, saw on Taunto fishing ground on Tuesday, the 2d inst., what it will be hard to convince him was not the genuine seaserpent. It came up out of the water about five feet, so as to plainly show its head and three feet of its body. It was of mammoth size, and spotted like a snake.

Reports from the interior counties of New York tell of a heavy white frost Tuesday, the 2d inst. Wednesday morning plowed land was found to be frozen two inches deep, and ice was visible on wayside pools. It is feared that much damage has been done to budding fruits.

Crops reports from Nebraska, Minnesota, Dakota, Wisconsin, Illinois, Kansas and other states give the outlook as very promising, in spite of the cold and backward spring, which has retarded farming operations in many localities.

AROUND HOME.

Mr. Lewis Holmes has got his fleet of rowing and sailing boats ready for launching, and persons in want of a boat of either kind for a day's pleasure will be able to procure it by applying at the boat office on Rollins' wharf, in the rear of Mr. Samuel G. Hooper's grocery store.

The schooner Hattie Lewis, Captain James S. Brewster, left this port on the morning of Saturday, April 29th, for Boston, with a load of 40,000 bricks from Eliot, discharged her cargo, and arrived back at this port on Tuesday morning, May 2d; and on Thursday, May 4th, was again at Portsmouth bridge, with another cargo for Boston on board.

Mr. William Riley, who lives on Gerrish's island, Kittery, near Bra' Boat Harbor, while descending the stairs into the cellar of his residence some days ago slipped and fell, spitting one of his thigh bones. Notwithstanding his advanced age (he is eighty-three years old) the old gentleman is slowly recovering.

Schooner Triton, Capt. James B. Freeman, one of the brick fleet, left, Boston on the 3d inst. at five o'clock A. M., and arrived at Portsmouth bridge at eleven o'clock the same forenoon, and had to beat up the river at that,—a performance which it would bother most of the steamers to equal.

The ladies of the Methodist Episcopal church at Spruce creek, Kittery, held a fair in the church on the evening of the 3d inst.; the net proceeds amounted to upward of $40, which will be applied to the furnishing of the church.

Messrs. Chase & Sanborn, importers and wholesale dealers in teas and coffees at No. 87 Broad street, Boston, have published a little pamphlet on "Coffee, its growth, adulterations, its varieties,"—indeed, containing all kinds of information concerning an article of which we are told our country consumes one-third of the entire production of the world. The firm are the importers of the standard Java coffee which is sold by D. J. Lynch in Market street, and other leading grocers. The little book is full of information, and is good reading for both consumers and dealers. It will be sent free, on application for a copy to the firm.

Mrs. Sarah Nason, of Eliot, celebrated her 97th birthday on the 3d inst. The venerable lady's faculties are in a good state of preservation; she is able to read without glasses, and is active and cheerful; and she bids fair to complete a century of life. About forty persons sat down to supper, including four generations of Mrs. Nason's descendants.

The directors of the Eastern railroad had a meeting on Tuesday of this week, and decided in rebuilding the station house at Salem to use the towers and walls of the old station so far as practicable.

A newly-employed brakeman on the Eastern railroad had one of his hands mashed between the buffers of two cars at Salem on the 24 inst.

The derrick sloop of the contractor for the removal of Badger's island ledge was towned to her position at the ledge on the 4th inst., by the steamer James Sampson.

The Manchester *Union* says that Alexander Robinson, late brewer for the Eldredge Brewing Co., has been appointed to a similar position in the Norfork brewery at Boston Highlands.

Capt. Dennis Mahoney, of Greenland, arrived at Stonington, Conn., April 29th, with the schooner Express, which brought in 1700 seal skins taken in the vicinity of Cape Horn. The schooner Thomas Hunt arrived at Stonington on the same date, and within half an hour of the Express, bringing 2808 skins. The two schooners sailed from a port in the straits of Magellan on the same day. The Express was struck by lightning on the passage, home, but was only slightly injured.

Capt. Albert Dow, of Rye, was planting corn on Tuesday of this week—the first of that crop to be put in, in that vicinity.

While Mr. Edmund Whalley was driving near the Creek on Wednesday afternoon of this week his horse became frightened and ran—the third time within three weeks—and when near Cass street, on Islington, he and his son, who was with him, were thrown out. Mr. Whalley received a cut on his head, but the boy was not injured. The wagon received some slight damage.

Mrs. Bigelow Lawrence, of Washington, D. C., has leased the Bragdon and Nowell houses, adjoining, at York harbor, for the coming season.

Capt. Elvin Rand, of Rye, has recently had the buildings on his fine farm painted by Mr. Josiah Grover of this city.

The fishing schooner Mayor Jones, of this port, put into Halifax, N. S., from the Western banks, for bait, and in beating out on the morning of the 1st inst. misstayed and went ashore on Nab's island. She was hauled off in the evening by a tug.

A diver went to the bottom of the dock at steamboat wharf on Thursday last, to recover a crow-bar dropped overboard by a man in the employ of one of the contractors now engaged in removing obstructions from this harbor; he found the bar, and had a good look around to see if he could not find something else, but failed to discover anything of value.

DIED.

STAPLES. In this city, May 4th, Mr. Abram S. Staples, aged about 75 years.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

ARRIVED May 4th.

How young soever you may be,
With failing teeth, you're grim and old;
And losing your mouth's purity,
Your features seem both dull and cold.
Then man or maid, warned of your fate,
Seek SOZODONT, e'er it's too late.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan82

Fire Companies—At their respective Engine Houses on the first Monday of each month.

THE
Mutual Life Insurance Co.
of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountains over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins or ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

Sky clear.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, May 4th, Mayor Sise in the chair:

Present, the full board.

The records of last meeting were read and approved.

Mr. Joseph E. Stoddard appeared before the board to ask an abatement of taxes in favor of Mrs. John Lyford, owning a place on Lafayette road; referred to the committee on claims, to report.

The general committee on the observance of Memorial day were granted the use of the court house.

Mrs. Samuel Trefethen asked leave to cut down a cherry tree on State street; referred to the committee on streets.

George A. Jackson was granted leave to encumber "New Vaughan street" (a magnificently clumsy name, by the way) for building purposes.

Albert Magee was granted a sidewalk in front of his residence on Middle street.

R. H. Beacham asked for a sidewalk on Fleet street, near his stable; also for leave to repair drains. Granted.

Charles H. Foote was appointed special police without pay at the Eastern railroad station, and Wm. Shannon in the neighborhood of the almshouse.

D. H. Montgomery submitted a claim of $6 for damage done to an awning post by a fire engine running into it some years ago; referred.

Mr. Wood, who has been granted leave by the city to pasture calves on Pest island, reported to the board that he had been notified by the authorities of Newcastle that the city has no control over the island. The mayor read deeds conveying Antony's island (Pest island) to the town of Portsmouth, one of them being dated 1748, and signed by Wm. Cotton. In answer to a question by Ald. Green as to whether Newcastle had ever made any claim to the island before, the mayor replied not till last year, when Geo. W. Towle claimed that it was within the limits of Newcastle. The mayor was authorized to notify Mr. Wood that the city would ensure him against any damages resulting from his use of the island under the city's permission.

The committee on street lights reported favorably on the petition of Frank Jones for lights on North and Creek streets; the cost of the proposed lamps it was stated would be about $264. Report approved.

In regard to Mr. Willey's statement concerning his right of way at the gravel pit near his residence, he was requested to show his title, and the city solicitor's opinion in the case was called for.

The annual appropriation bill was sent up from the Common Council, and referred to the committee on bills on their second reading.

Request of George H. Clark for a hitching post on Daniel street was referred to the committee on streets, with power.

The councils went into convention for the purpose of electing a fish and game warden. The whole number of votes cast was twenty; Dr. Sherburne had several, A. B. Sherburne a number, Andrew B. Sherburne some more, and Nathaniel K. Raynes three—and there was no choice. On the second ballot Dr. Andrew B. Sherburne was elected. It was voted that the warden be instructed to prevent the discharge of coal tar into the river from the gas works. The convention then arose.

In board of aldermen, the report of the inspector of petroleum was received and placed on file.

The mayor paid the Portsmouth fire department a high compliment for efficiency and promptness, in striking comparison with what he witnessed in Dover on the occasion of the late fire there.

Three crows' heads were presented to the board with a claim for the payment of the state bounty; but the only action taken by the aldermen was to turn up their noses at the smell emitted by the relics. The odor was so powerful that the board at once adjourned.

INSTALLATION OF OFFICERS.

The following officers of Strawberry Bank Lodge, No. 54, I. O. G. T., were installed on Wednesday evening of this week, by State Deputy Frank E. H. Marden:

W. C. T., Edward S. Smart;
W. V. T., Miss E. M. Gammon;
W. S., Mrs. S. L. Blatchford;
W. A. S., James T. Gammon;
W. F. S., Mrs. R. D. Smart;
W. T., George W. Frost;
W. C., Mrs. Annie Adams;
W. M., Mrs. W. A. Plaisted;
W. D. M., Mrs. Josiah Grover;
W. R. S., Mrs. Susan J. Huse;
W. L. S., Mrs. D. H. Spinney;
W. I. G., Miss Bertha G. Gammon;
W. O. G., Edgar J. White;
P. W. C. T., John A. Goss;
Organist, J. E. Robbins.

The following officers of Rockingham Lodge, No. 37, I. O. G. T., were installed on Thursday evening last by Deputy Charles E. Humphreys:

W. C. T., Daniel D. Waldron;
W. V. T., Miss Annie Rowland;
W. S., Joseph Morrill;
W. A. S., Miss Ida M. Deering;
W. F. S., Charles E. Bailey;
W. T., Delhi Spinney;
W. C., Clarence Martin;
W. M., Ceylon Spinney;
W. D. M., Fred P. Jones;
W. R. S., Miss Annie Morrill;
W. L. S., Miss Fannie Peterson;
W. I. G., Miss Louise Rowland;
W. O. G., Arthur Martin;
P. W. C. T., George P. Webber.

THE BURGLAR ABROAD.

Some time during the night of Wednesday, the 3d inst., the blacksmith shop of Mr. H. Almon Jenness on Christian Shore was broken into, and a monkey wrench and screw driver stolen therefrom. The wrench was found next morning near the manufactory of George M. Huntress, on Dearborn street, the screw driver being found in the grocery store of Mr. George Cox, at the Christian Shore end of the north millbridge, the thieves having used it to effect an entrance at the latter place. The upper and lower panes of glass in one of the double doors of the grocery store were broken, and the bolts drawn; six boxes of cigars were stolen from this store, and a small sum in change, among the coins being an English florin or two-shilling piece.

An attempt was made the same night to break into the White Hart hotel, not long after midnight, Mr. Lane thinks. There were two or three of the would-be burglars, and they attempted to get in at a small window in the rear of the office. Having climbed over the fence into the yard, and unfastened the gate and set it wide open so as to secure an unimpeded retreat in case of trouble, the burglars knocked a hole through a pane of glass in the window, and attempted to throw back the catch by reaching through the hole. The attempt to get in by this method failed, for several reasons. That window does not work very well, under the most favorable circumstances. In the first place, it takes a machinist with a hammer and cold chisel about an hour to throw back the catch, working on the inside and in the daytime; and after the catch is opened it takes another half hour's labor with wedges and levers, to raise the sash. Besides this, Mr. Lane was awakened by the falling of the broken glass on the floor, and at once jumped out of bed and proceeded down stairs "to see what that confounded cat was up to," and as he reached the lower floor he heard the clatter of boots as the thieves hurriedly departed. Had he only known the true state of affairs when he awake, he could have had some beautiful pistol-practice at the fellows from his chamber window as they were running out of the yard and up the street.

From the bungling manner in which the thieves worked, it is supposed they are green hands at the profession of burglary—probably some of the two-thirds-grown hoodlums of the city, who are in training for state prison honors.

POLICE COURT.

THURSDAY, May 4; *Batchelder J.*

Luella Marden, for drunkenness, was fined $5, and costs taxed at $6:90; jail in default of payment. Our impression is that Luella's name has appeared in our police court report before, and that she has considerable room for improvement in some respects.

ABRAM A. STAPLES.

Mr. Abram A. Staples died very suddenly on Thursday morning last, presumably from heart disease. He was about town on the previous day, apparently in a fair state of health considering his age, which was about eighty-five years. His father dropped dead on the navy yard in the year 1836.

Mr. Staples was a well known joiner, and by industry and economy during his working years accumulated sufficient property to support him in comfort in his later days. He was one of the earliest subscribers to the CHRONICLE, having put his name down on the list before the first number was issued, and he continued to take it up to the time of his death; he assisted in fitting up the office for Millers & Gray, and some of the stands made by him more than quarter of a century ago are still in use, and likely to last as much longer.

"THE LITTLE SAVAGE."

The ever young, ever charming Maggie Mitchell drew one of the largest audiences of the season at the Opera house last Saturday night. Every seat in the lower part of the house was sold hours before the performance. The piece of the evening was "The Little Savage," in which Maggie Mitchell appeared in one of her best and purest creations. Her acting was simply superb, and carried the house by storm. The support throughout was excellent.—*Bradford Star.*

At Music hall next Wednesday evening. Sale of tickets commences this morning at Preston's.

The ladies of the Orthodox church at York village had a fair in the town hall on Wednesday evening, the 3d inst. The attendance was quite large, and the net receipts will go toward furnishing the church with a carpet.

[*For other local matter see second page.*]

Wood per cord, Hard $6; Pine $4.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.
Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.
Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The poison that had fed the disease was completely driven out.

Eczema.
Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.
ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.
The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 25c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.
Depot, WEEKS & POTTER, Boston, Mass.

Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculous or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first day he began to use the medicine; on the 15th of September he voided a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorder, arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

A Situation Wanted

BY a Nova Scotia woman capable of doing general housework, good preferences given. apply at **No. 10 Washington Street.**

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also endorsements of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social degree, making the young old and the old useless. Office, 294 Broadway, N. Y., and 43 Hill st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. 1mp13

A New Saint.

St. James—St. Jesse James—is the latest contribution of America to the noble army of saints and martyrs. He was the son of a Baptist minister of Missouri; at fourteen years of age applied for a post in Quantrell's band of guerillas, and was refused because too young, though certainly not of too tender an age; vindicated his right to the coveted position by several cut-throat exploits on his own account, and soon became a member and then a leader of the gang; helped to sack Lawrence, Kansas, and to murder nearly every male inhabitant; captured a railroad train near Centralia, Missouri, and killed in cold blood thirty-two sick and helpless men whose only offense was that of being Union soldiers on the way to the hospital; abandoned guerilla business at the close of the war, and went into train and bank robbing; became the terror of Kentucky and Missouri; lived from 1868 to 1882 always with a price, and steadily increasing price, upon his head; deserted his own gang, like the coward that he was, whenever his gang was hotly pursued and capture was imminent; showed his bravery never except in shooting the inoffensive, and was always as ready to run from the well-armed as to murder the helpless.

At last the offer of $10,000 for him, "dead or alive," stimulated the cupidity of two of his gang; and in his own house, while unarmed and dusting some of the pictures on his walls, he was shot through the head like the mad dog that he was.

He seems to settle all accounts; and no sooner was this murderous villain dead than the whole community set to work with extraordinary unanimity to canon ze him. His funeral was an ovation; the attendant throng crowded the Baptist church, "where he was converted in 1866"—heavens! what sort of a man would he have been if he had not been converted?—the sheriff and under-sheriff acted among the pall-bearers; the services were opened with the hymn, "What a friend we have in Jesus;" the officiating ministers comforted the stricken community with extracts from the plaints of Job and David, and with a comforting discourse on Christ's forbearance and forgiveness of sins; and, finally, the procession to the grave was one of immense proportions.

Out upon such a religion as this. If a Dr. Thomas intimates that there may be perhaps a probation in another world for those who seem to have no true probation in this, he is turned out of the fellowship of the church as a heretic. If a Mr. Jones and a Mr. Martin send a free-booter and a life-long robber and murderer straight to heaven in a chariot of fire, without as much as a baptismal bath by the way, will any church call them to account for their falseness to the law of God and the sacredness of morality? We shall see.—*The Christian Union.*

What gives a healthy appetite, an increased digestion, strength to the muscles, and tone to the nerves? Brown's Iron Bitters.

—An Indian chief, while in Washington, was taken to see a burlesque show. After the performance he remarked, through an interpreter, that the Great Father was very kind to send the poor Indians blankets when they were so much needed at home.

—Gen. Chalmers of Mississippi, under the redistricting of the state finds himself in a district having 26,000 colored, and 8000 white voters. But he doesn't despair for all that. A shot-gun neutralizes a good many votes.

John Carr Moody, counsellor-at-law, Vallejo, Cal., says that he suffered seven years from a cruel joint trouble—rheumatic in its nature and exceedingly painful. Commander Coghlan, of the U. S. navy, strongly urged him to use St. Jacobs Oil. After continuous use of the remedy the effect was so wonderful that he must congratulate himself specially, and the human race generally, on the perfection of the product.

—"The camel's kick," writes a naturalist, "is a study." It may be added that it's a study you'd better not know too much about.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells Health Renewer." $1. Depot, J. H. Thacher's.

Kidney Disease.

Pain, irritation, retention, incontinence, deposits, gravel, etc., cured by "Buchupaiba" $1. Depot, J. H. Thacher's.

—Women are not as strong as men, and yet a fighter can only break a man's bones, when a woman can easily break his heart.

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a frendly listener, "unless you want to make an animated sign for a drug store, and make the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted

Any Manual, containing full directions and testimonials for cure, SWAYNE'S OINTMENT is superior to any article in the market. Sold by druggists, or send 50 cts. in 3-ct. Stamps, 3 boxes, $1.25. Address, Dr. SWAYNE & Son, Phila., Pa.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have *seen* its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia.
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpor, Valdosta, Ga., says:
It is a painless balm for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Monroville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are *its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills may often be saved by prompt application of the Pain Killer. *Unlike most medicines* **it is *perfectly safe* even in the hands of a child. Try it and be thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.**

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing it thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.
For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less is respect and kindness due to natural phenomena in this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The cause of prevention may be laid where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. So medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Yellow Dock, Mandrake, Gentian, Dandelion, Juniper Berries, combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. Do not ever take BLUE PILLS or arsenic, they are deadly. Place your trust in SULPHUR BITTERS, the purest and best medicine ever made.

Is Your Tongue Coated with a yellow sticky substance? Is your breath foul and offensive? Your stomach is out of order? Use SULPHUR BITTERS immediately! If your Urine thick, cloudy, ropy, or high-colored? IT IS The Sulphur Bitters! The Invalid's Friend. The young, the aged and tottering are soon made well by its use. Remember what you read here, it may save your life, it has saved hundreds. Don't wait until to-morrow, Try a Bottle To-Day! PRICE, ONE DOLLAR. A. P. Ordway & Co., Chemists, Sole Proprietors for U. S. and Canadas.

Your Kid Gloves? Your Wife? Your Children? Your Dog? Your Property? Your Life? Your Health? Your Business? Your Friends? Your Enemies? Your Soul? Your Tongue? Your Stomach? Your Liver? Your Kidneys? Your Blood? Your Pocket? Your Pocket? Your Pocket?

SULPHUR PLASTERS cure pain in the side. KAUFMANN'S PILLS do not gripe. 25 cents.

Parker's Hair Balsam

Restores the most fastidious to perfect Hair Health and Vigor. Unrivaled for its cleanliness and elegant perfume. Never Fails to Restore Grey or Faded Hair to its youthful color. 50 cts. and $1 sizes at all druggists.

A Patriot's Record.

Hon. Horace Maynard, who died suddenly on the 3d inst. in Knoxville, Tenn., was a native of Westboro', Mass., and a graduate of Amherst college. Removing to east Tennessee, he was admitted to the bar in 1844, and soon became conspicuous in politics, serving as representative in the thirty-fifth and two succeeding congresses. His property was confiscated by the rebels in 1861 because of his loyalty, but in 1865 he was again elected to Congress, and three times re-elected. In 1875 he was appointed minister to Turkey, and in 1880 became postmaster general, which position he retained until the close of the Hayes administration. Mr. Maynard was a man of large ability, and a representative of the best type of the southern loyalists.

A New Use for Cork.

The wonderful success of the American make of "Linoleum" floor cloth is fully deserved. It is a beautiful floor covering composed mainly of finely ground cork and solidified oil, making a remarkably durable floor cloth, unexcelled for excellence in designs and colorings. Especially suitable for all classes of dwellings, dining rooms, halls, churches and hospitals. The genuine has "Linoleum" printed on the back of every square yard. Kept by all carpet dealers.

—The marquis of Lorne, it is said, claims that some of his ancestors put their feet under Arthur's Round Table. If his ancestors had been Americans they would have put their feet on top of it.

Do not be deceived. Insist on having the genuine Brown's Iron Bitters, made only by the Brown Chemical Co., and take nothing else.

—"They tell me Brown has a great ear for music," said Fenderson. "Yes," replied Fogg; "I knew he had a great ear, two of them, in fact; but I did not know that they were for music. I supposed they were for brushing flies off the top of his head!"

"Rough on Rats."

Clears out rats, mice, roaches, flies, phers. 15c. Druggists. chipmunks. 50c.

"Buchupaiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists. Depot, J. H. Thacher's.

—"Do you admire the principles of Jefferson? asked an enthusiastic politician of a society friend. "I really don't know much about his principles," was the reply, "but he plays 'Rip Van Winkle' superbly."

I Was a Fool.

Yes, they said I was a fool not to try Sulphur Bitters for rheumatism, from which I had suffered over two years; but I had tried so many doctors and medicines without getting relief that I was discouraged. I am now on my fourth bottle and almost cured. I was a fool that didn't try that wonderful remedy before. —*C. G. Pratt, Manchester.*

—The Jamestown *Sunday Leader* has discovered that the way of the transgressor is across other people's lots. It is quite possible.

A Peerless Perfume.

The refreshing aroma of Floreston Cologne, and its lasting fragrance make it a peerless perfume for the toilet.

—The small-minded swindler arrested for stealing railroad passes deserves the severest condemnation. If he had simply stolen the railroad itself he might in time have become an honored and respected member of the Wall street board of brokers.

A Traveler's Story.

After spending months at watering places and consulting the best physicians without benefit, I returned home disheartened and expected to die. A friend urged a trial of Parker's Ginger Tonic. Three bottles and careful diet have brought me excellent health and spirits, and I hope my experience may benefit similar sufferers.—Cincinnati lady. See other column.

—The man who has a good heart, but no discretion, makes a dangerous friend.

From Rev. H. P. Torsey, D. D., LL. D., President Maine Wesleyan Seminary and Female College, Kent's Hill, Me.

DR. F. W. KINSMAN,—Dear Sir: For five years the students under my care have used Adamson's Botanic Cough Balsam, and have, I think, found it second to no other remedy for throat and lung troubles.

—He who is ashamed of his own ignorance is not quite so ignorant as he supposes.

Clear head and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions brought about in catarrh by the use of Sanford's Radical Cure. Complete treatment for $1.

—Don't expect an advertisement to bear fruit in one night.

Terrible itching and scaly humors, ulcers, sores and scrofulous swellings cured by the Cuticura and Cuticura Soap (the great skin cures) externally, and Cuticura Resolvent (blood purifier) internally. Ask about them at your druggists.

—Thank a kind Providence for the decorated banjo craze. After a banjo is decorated, it cannot be played on without spoiling the pictures. Now, won't some good angel start a mania for decorating accordeons?

Various Causes—

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its results, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts.

AYER'S HAIR VIGOR is colorless; contains neither oil nor dye; and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous, imparting an agreeable perfume.

For sale by all druggists.

—The man who is in the habit of "smiling" too much, generally has a sorrowful wife.

The Secret Out at Last.

It has long been a source of wonder, as to why Courtney failed to meet Hanlan in a sculling contest. The general explanatory argument was, that he feared the little Canadian. The opinion, however, is exploded by the authentic announcement, that on the days fixed for the race, Courtney was unable to sit in his shell, on account of the intense itching and soreness caused by the piles. Having recovered through the use of Swayne's Ointment, he now announces that he will row Hanlan any time this summer.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned in port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in local cities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PATENTS!

R. H. EDDY,

No. 16 State St., Opposite Kilby, Boston.

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1878.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases and procured many patents, reissues and extensions. I have, occasionally, employed agents and agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. 3tawtfrgw

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, and having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y. eod&wtyr

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. The theory and infallible remedy for the lives of thousands of children. When the child is in pain, or restless, teeth shooting in its gums, the gums for two or three days the "Cure." What little it will relieve colic, pain and prevent fever, and avoid that pain of lancing the gums, makes the next tooth hard-ch and sometimes causes upon it. Mothers, it will relieve and immediate relief. Two year infants. A very [illegible] says a large [illegible] says: "Rubbing [illegible] lotion, is the [illegible] method for children teething; [illegible] drugs should never be be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Eighty-Five Dollars Lost.

"You do not tell me that your husband is up and entirely cured by so simple a medicine as Parker's Ginger Tonic?" "Yes, indeed, I do," said Mrs. Benjamin to her neighbor, "and after we had lost eighty-five dollars in doctor's bills and prescriptions. Now my husband feels as well as ever."

Portsmouth Chronicle.

SATURDAY, MAY 6, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Naval Affairs.

Commodore J. B. Creighton, Captain William T. Truxton, Commander A. Hopkins, Lieutenant Commander C. D. Sigsbee, Master John Downs, and Midshipman Edward Lloyd, Jr., have been ordered to examination for promotion.

Capt. Rush R. Wallace is ordered to command the Vandalia, and Capt. R. W. Meade is placed on waiting orders.

Lieutenant Commander F. M. Green is ordered to duty in the bureau of navigation in connection with the reduction of telegraphic longitude observations; Lieutenant Commander C. H. Davis to duty in the bureau of navigation in connection with telegraphic longitude observations.

Paymaster Wm. N. Watmough is ordered to the Vandalia. Paymaster John McMahon is ordered to settle his accounts, and then wait orders.

The department has been advised of the arrival of the Ranger at Altata, Mexico, on a surveying expedition.

[illegible] Berry, commander of the United States search steamer Rodgers, dated at Irkutsk, Russia, May 4th: "Rodgers destroyed by fire, originating in the fore hold, Nov. 30th. Efforts to save ship were unavailing. People landed safe with difficulty through young ice. Now quartered at native house. Little clothing. One month's provisions saved. Native food abundant. No danger of starving. Bearer despatched en route."

The secretary of the navy received on the evening of the 4th inst. the following cablegram from the commanding officer of the United States steamer Brooklyn at Montevideo: "Brooklyn anchored. Ran foul by Liverpool Holt steamer Mozart. Brooklyn cut down below water line, starboard quarter. Brooklyn keeled over; hole stopped. Lightering for immediate docking. Company agree to pay expenses. No person injured."

The speaker laid before the house on the 4th inst. a communication from the secretary of the navy, in response to the house resolution calling for information, relative to the condition of the navy. The communication is a voluminous document, its most important feature being a tabulated statement showing the estimated time and cost which would be required to make each vessel in the navy efficient to engage in battle with an enemy of the same general classification. Omitting those whose hulls are considered unfit for repairing, there are sixty-three vessels included in the list, of which thirty-three are reported as "efficient for immediate use." To repair and put in condition the remaining thirty it is estimated will cost $8,173,000, and time necessary for that purpose is variously estimated at from two to eighteen months—eighteen months being the estimated time required on five of the vessels. The communication also embodies a detailed statement of the cost of repairs on vessels since 1865, the total being $23,075,000, and the total cost of vessels in the navy is set down at $72,-845,778.

Secretary Chandler, Engineer in Chief Shock and Chief Naval Constructor Wilson will leave Washington in a few days to visit Wilmington and Philadelphia for the purpose of inspecting the unfinished monitors in the private shipyards at those places. The secretary is desirous of seeing for himself the exact condition of these monitors before the appropriation committee of Congress take any steps toward recommending an appropriation for the purpose.

The Indian Outbreak.

A despatch from San Francisco dated May 4th, is as follows: "A Lordsburg despatch says that it is positively stated that in the fight on April 29th between the Mexicans, under Col. Garcia, and Loco's band of Indians, the latter lost seventy-eight killed, and all their stock. Loco was killed, and thirty-three Indians were taken prisoners. The Mexican loss is stated at thirty-seven killed and wounded. This information is from a reliable source, and if it is confirmed may be regarded as the death blow to the present Indian outbreak. A careful summary shows that a total of 141 Americans and Mexicans were killed by the Indians during the past two weeks, 500 head of stock killed and captured, and $75,000 worth of property destroyed."

An outbreak of the Snakes and Bannocks, at Fort Washakie, Wyoming, was reported on the 4th, but is not credited by the army officers. The tribes named number over 2000, and are brave and shrewd warriors.

New Hampshire Items.

In the case of Mrs. Georgianna W. Ela vs. George W. Ela, at Concord, a suit for divorce, a bill was decreed, with alimony of $25,000. The parties live in Allentown. The case has been on trial for some time, and has excited much attention. A motion for a new hearing has been made, on the ground of newly-discovered evidence.

John G. Tallant of East Concord recently shipped three Jersey heifers, the prices received for which were $1,000, $650 and $500.

Frank Mack, a ten-years-old son of Miles Mack of Ashuelot, while shackling cars for fun, had his head caught between the cars and was killed instantly.

News and Notes.

At Minneapolis, Minn., May 3d, a young man named William Emdy was killed by a switch engine. A crowd gathered at the scene, and another engine ran over John Cochrane and John Griffin, beheading one and mangling to death the other.

Robert Smalls, the colored contestant for the seat in Congress now held by Tillman of South Carolina, democrat, will probably be seated. The case is nearly ready to report, and is said to show the most extensive and unblushing frauds on the part of Tilman's friends.

Cornelius O'Brien, conductor on the Portland & Rochester railroad, was run over by his train at Morrill's Corner, Me., Wednesday night, May 3d, and disembowelled. The train had started from the station. He was attending a brake, and is supposed to have slipped and fell, two years ago, and was then on the slippery [illegible] the road thirty-two years.

The Chicago *Inter-Ocean* makes a mysterious but positive announcement that an advanced step in railroading has been discovered, which will revolutionize that science and put it fifty years ahead of the age. It says the officials of six of the largest and most enterprising roads in the Mississippi valley have been for two days discussing the new improvement, the nature of which will be announced in a few days.

There is great excitement in Laramie City, Wyoming, over an alleged wonderful discovery of native copper and silver at a point twelve miles south of that place. The ore is said to contain from sixty to one hundred per cent of copper, and gold and silver in paying quantities. There is a grand rush to the scene of the alleged deposits.

Senator Windom on the 4th inst. stated in the senate that the whiskey ring had raised an immense sum of money to rush through the whiskey bill now before Congress. The charge caused great excitement.

John Coffee of Newburyport has been held in $1500 for the grand jury, for outraging his wife's sister, a girl seventeen years old.

William Tobin, George Welch and Thomas Hetherman, boys under twelve years of age, have been handed over to the Massachusetts commissioner of state charities for breaking and entering, stealing, and setting fires, in Newburyport.

John Anderson, who killed Horatio G. Hall in Wallingford, Conn., in March, 1874, and was sentenced to the Connecticut state prison for life, and was afterward adjudged insane and sent to the insane asylum at Middletown, escaped from that institution on the night of May 3d. There is considerable excitement in Wallingford, owing to the threats made by Anderson that if he escaped he would be revenged on the people of Wallingford, who were active in prosecuting him for murder.

Commissioner Loring is sending large quantities of seeds to the submerged districts of the lower Mississippi valley, Congress having made liberal appropriations for that purpose.

It is reported that the resignation of Senator Ben Hill is in the hands of the governor of Georgia, and that Senator Brown will also resign on account of failing health. Both resignations will be acted upon at the same time. There is no hope of Senator Hill's recovery.

An absent-minded mother boarded the train at Barton, Vt., and, after proceeding some distance, suddenly remembered that she had left her baby behind her at the station. On the arrival of the train at Barton Landing a despatch was immediately sent, and the distracted lady received a reply, saying, "Boy here all right;" and in about two hours "boy" arrived in charge of the engineer of a freight train.

Frank James, brother of Jesse James, and a partner with that wretch in several murderous raids, is said to be living in New York city. How it is known is not stated.

Polk Wells, the notorious train robber, and Cook, another convict, who recently escaped from a penitentiary by murdering one of the keepers, were captured on the 4th inst. at Madison, Iowa, by a farmer and his son.

Fire Companies—At their respective Engine Houses on the first Monday of each month.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an experiness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

Sky clear.

MEMORIAL DAY.

At a meeting of the committee on invitations, route and procession, and the selection of a chief marshal, held on the evening of the 4th inst., Dr. John W. Parsons was elected chief marshal for Memorial day, and the following route was laid out:

The procession will form on Market square, and march through High, Deer, Vaughan, Congress, Islington, Cabot and Middle streets to Cass street, where it will countermarch, proceeding through Middle street, Richards avenue, South street and Sagamore road to the south gate of the cemetery. After the ceremonies the procession will leave the cemetery by the south gate, and march through Sagamore road, and South, Pleasant, Court, Middle and Islington streets to Market square, where the parade will dismiss.

POLICE COURT.

FRIDAY, May 5; *Batchelder J.*

Willie B. Newton, charged with a violation of the petroleum ordinance in keeping in his store petroleum condemned by the inspector as being below the state standard, was before the court on a case continued from the 3d inst. Calvin Page appeared for Newton, who took the witness stand and swore that he did not intend to keep the oil, but had only stored it a short time to accommodate a Boston firm; why this statement was not made when the case was first called, was not explained. Newton was discharged.

PETROLEUM INSPECTOR'S REPORT.

The report of the city inspector of petroleum, Mr. Forrest J. Trafton, for the year ending May 1st, 1882, submitted to the board of mayor and aldermen at their meeting on the 4th inst., gives the following information:

Number of barrels of petroleum inspected during the year, 1889 1-2; number of barrels approved, 1813; number of barrels condemned as being below the lawful standard, 76 1-2. Of the barrels rejected, thirty-seven were sent to Boston by steamer; twelve were sent off as freight on the Eastern railroad, and four and one-half barrels by express; thirteen barrels were disposed of in some manner unknown to the inspector; and at the time the report was submitted there were in the city ten barrels of rejected oil. The oil condemned during the year comprised twelve different brands. The report concludes as follows:

I have kept an accurate record of all oils inspected, and such barrels as failed to come up to the required standard have been returned as above; all oils which have passed through my hands have received my careful and close inspection, for the protection of the public. For the co-operation and support of the board in the performance of my duties during the past year I desire to express my thanks, and trust the public as well as the board will be fully satisfied with the statement rendered.

THE RAILROAD WELL.

Mr. A. F. Chick, of Kittery Depot village, a noted "water witch," inspected the grounds in the vicinity of the Eastern railroad well near Frenchman's lane on Tuesday of this week. He says the water there is not from what can in any sense be called a spring, being simply the surface drainage of a considerable area; that there will be plenty of it in any ordinary season, but though the single well put down last autumn has furnished an abundance of water for use at this station during the winter, and one or two others are to be sunk this summer, the supply will fail in very dry seasons. He says that under the soil in which the well is sunk is a solid ledge, beneath which is a body of water which if tapped by drilling would yield an abundant supply at all times. Mr. Chick in making his explorations uses a forked stick from a sweet apple tree as an indicator.

BOON ISLAND LEDGE BUOY.

The whistling buoy was placed at Boon island ledge on Monday, the 1st inst. It is set in twenty fathoms of water, southeast by east from the ledge, and about three hundred yards distant from the shoalest water.

AROUND HOME.

Mr. John Williams of Kittery, a workman on the navy yard, while at work repairing a boat a few days ago was considerably injured through the falling upon him of a heavy shore, used to support the boat.

The little steamer Three Brothers came down the river on Friday from South Newmarket, where she has been hauled up since fall; during the winter she has been widened in the hull, received a new boiler and propeller, and been otherwise improved. She is to start to-day for Salem, Mass., and will return here in September for towing. She is owned and commanded by Capt. J. C. F. Upton.

Last evening as Mr. William C. Denny was driving home, two men attempted to stop his horse in the road just this side of the railroad track, taking the horse by the head. He immediately drew a revolver and ordered them off, and, whipping up his horse, left them to themselves. These may be the same men who broke into the store on Christian Shore.—*Times, May 5th.*

There has been during the past year some growling among certain manufacturers of kerosene oil, at the manner in which the city inspector of petroleum has done his duty; but we have not heard of any complaint being made by the manufacturers of high-class, safe oils. If the dealers in liquid explosives don't like it, they can easily circumvent the inspector in one way—by making better oil.

A. C. Hadden, of Eliot, is to take charge of the Eastern railroad station at Amesbury and Salisbury, Mass.

The Newburyport *Herald* says "It is very probable that several of the daily trains on the Eastern railroad will soon make through trips from Boston to Portland, with but one stop, at Portsmouth for water."

The sophomore class of Dartmouth college have elected Thomas Manning Hodgdon of Greenland as one of the editors of the *Ægis* for the next college year.

Members of the Royal Arcanum in this vicinity will be interested in knowing that during the past twelve months there were 175 deaths of members of the order, and payments to the beneficiaries amounting to $531,000 were made. The receipts amounted to $532,630.95. The death rate per 1000 members was 5.45; average age at which assessed, thirty-five years; average amount of assessment, $1.96. The number of councils in the Union is 642, against 571 last year. During five years the number of deaths in the whole order has been 384; amount of payments, $1,146,000. Present membership, 7,871.

A salute of seventeen guns was fired from the battery at the navy yard on Friday, in honor of Ex-Gov. Goodwin, who on that day paid a visit to the yard.

There are now two band-stands on the river for careless or unlucky vessels to run into, the one to be used in removing the Badger's island ledge having been placed in position this week.

President Arthur on the 4th inst. sent to the senate the nomination of Edward A. Bragdon to be collector of customs at York.

SUNDAY SERVICES.

At the South Parish, Rev. James DeNormandie pastor, morning service at 10:30; Sunday school a chapel on court street at 2:45 P. M. Vespers at 7:30.

Universalist church, Pleasant street. Services at 10:30 A. M., and 7:30 P. M. Sunday school at 2:45 P. M.

The subject at the Court street Christian church, Sunday morning, will be "Martin Luther, and the Reformation."

Rev. L. Boutell will preach in the Advent church on Sunday.

Rev. T. W. Critchett, of Canton, Mass., will preach in the Universalist church.

"Nothing Lost" will be the subject of Rev. Dr. Alden's lecture on Sunday evening.

Reform Club meeting at Sons of Temperance hall, Sunday evening at 7:30 o'clock.

The United States circuit begins its May term in this city Monday, before Judge Clark. The grand and petit jurors will report on Tuesday, at which time trials of civil actions will begin. Judge Gray is expected to be in court on Thursday.

The herring schools along the Cape Ann coast are said to be larger this spring than for thirty years past.

Mrs. Caroline E. Brown, of Waterford, Me., mother of the late "Artemus Ward," writes to a friend that her health is quite good, but she is troubled with lameness, from the spraining of an ankle two years since, and from this she does not expect to recover.

The president has granted a respite till July 7th in the case of Crow Dog, the Sioux Indian under sentence of death at Deadwood May 11th for the murder of Spotted Tail, in order to allow time for the case to be heard before the supreme court of Dakota on a writ of error.

"The Art Amateur" for May contains fourteen large pages of designs for china painting, needlework, "etching" on linen, and general decoration. Much space is also devoted to the spring picture-exhibitions. Clarence Cook criticises the paintings at the National Academy, many of which are illustrated; Edward Strahan writes of the Belgian "Salon" at Philadelphia; the work of the American Artists is editorially discussed, and there is a page of charming drawings from pictures in the French Water Color Exhibition. The Metropolitan Mu eum trustees are sharply arraigned for their failure to investigate the Feuardent charges with fairness, and there are excellent practical articles on photograph painting, modelling in clay, amateur photography, and needlework. Some "Classic hints for modern costumes," with illustrations from the Greek, are specially interesting. No one of artistic taste can afford to be without this beautiful magazine, which completes its third year with the current number. Price, $4 per year; single numbers, thirty-five cents. Montague Marks, publisher, No. 23 Union square, New York.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The poison that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cure. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

Depot, WEEKS & POTTER, Boston, Mass.

and continue on Wednesday and Saturday afternoons for a course of Twenty Lessons.

TERMS.—Eight dollars for the course. A discount will be made for two or more pupils from the same family.

WHAT HAPPENED TO

Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mrs. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculous or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first, and by its use he passed the stone, on the 18th of September he voided a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorder, arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

Patients may run the papers of Sanguinolino and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses so adapted as to insure comfort after cure of the nervous and mental system, brings on premature decrepitude, destroys energy and social desires, making the young old and the old DEAD. Office, 251 Broadway, N. Y., and 43 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. 1my15

An Old Cry Revived.

Referring to the anti-Chinese bill, and the so-called arguments in favor of prohibiting the admission to this country of Chinamen, the Providence *Journal* says:

In this connection it is curious to note that the objections to the introduction of the Chinese are similar in tenor and almost identical in language with those used during the prevalence of the Know Nothing agitation to urge the restriction of foreign immigration, chiefly that of the Irish, and objections to their being admitted to citizenship. It was declared then against the Irish as now against the Chinese that they were so fundamentally different in race, education, habits of thought, and religion, that they could not be assimilated into the American body politic, but would always remain an insoluble and dangerous element. It was declared that their affections were not with their adopted, but with their native country; that they were bound by clannish ties, and subject to a religion that authorized and encouraged disobedience to civil law and national authority. It was furthermore asserted that their habits were degrading so as to make them a danger to society, and that their methods of living were such as to make it impossible for the American laborer to compete with them on equal terms. It was declared that the Irish immigration should be restricted or prohibited so as to save the American laboring class from degradation, and even the fabric of American civilization and liberty from destruction. The movement failed, and time has so vindicated the wisdom of its rejection that no man in the possession of his senses would think of indulging in the old alarms or repeating the old arguments against the admission of Irish immigrants. Yet here they are in the same form, and almost identical language, against the Chinese, and for the most part founded on equal prejudice and error.

"I found it all that could be asked," said Mr. W. F. Hetherington, editor of the Emporia (Kan.) *Sentinel*, in speaking of St. Jacobs Oil for rheumatism. "The remedy caused the pain to entirely disappear."

The Unitarian society of Keene, of which Rev. Mr. Walkley is pastor, raised in a few hours, Sunday, April 30th, about $4,000, enough to pay their entire indebtedness, commencing the new year with no debt. The church rentals will pay current expenses.

A Vigorous Growth

Of the hair is often promoted by using Parker's Hair Balsam. It always restores the youthful color and lustre to gray hair, gives it new life and removes all irritation and dandruff.

Jimmy Blanchard, whose successful personation of Charlie Ross some time ago is well remembered, has been released from the industrial school on probation, and has returned to his father's home at Mount Vernon. Jimmy, despite his slyness in making people believe he was the genuine Charlie Ross, has shown himself at school to be a boy of unusual stupidity. On several occasions attempts were made by the teachers to have him memorize a piece for public recital, but it was impossible for the boy to do so. He could not retain anything in his mind twenty-four hours, and in other directions he was equally dull.—*Manchester Mirror.*

My Family Doctor

For the last two years has been Sulphur Bitters, and until I began using them in my family we had more or less sickness, and our doctor's bill had been very large. Since we have their use we have had no doctor to pay, and three dollars invested in Sulphur Bitters has kept health in our family.—*E. Knott, Poolmaster, Waverly, I wa.*

If we understand the Lowell *Courier*, they have some strange ideas about prison management in Massachusetts. That paper says, speaking of the new prison at Concord, in that state, "there are several prisoners in solitary confinement, who defy all decent treatment, and who are left to their filth and vermin because nothing else can be done with them," and "the fighting among prisoners is of daily occurrence, and it cannot be helped." That a good deal of vapid nonsense about prison management is talked by people who know nothing of the difficulties of dealing with a class of desperadoes, such as are generally found in state prisons, is certain enough, but it would seem that an efficient warden ought to be able to keep the worst of them decently clean, and above all, to prevent a free fight among them every day.—*Manchester Mirror.*

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. The original and tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into new life the entire process of digestion.

—A fashionable New York belle boasted, on her return from Europe, that while there she had some of the most celebrated men at her feet. It is more satisfactory to employ a first-class chiropodist than to goad your brother to profanity when he uses his razor.

What gives a healthy appetite, an increased digestion, strength to the muscles, and tone to the nerves? Brown's Iron Bitters.

The A B C Railway Guide for May has the official time tables of all the New England railway and steamboat lines, list of railway officers, and like information. The well posted traveller never starts on a journey without the latest Pathfinder in his satchel.

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a friendly listener, "unless you want to make an animated sign for a drug store, and make the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted

SWAYNES

THE GREAT CURE FOR ITCHING PILES

Symptoms are moisture, itching, burning worse at night; sometimes a protuberance; bleeding worse at the extreme; the private parts are often affected. Are frequent, troublesome and painful to cure. SWAYNE'S OINTMENT is superior to any article in the market. Sold by druggists, or send 50 cts. in 3-ct. Stamps. 3 boxes, $1.25. Address, DR. SWAYNE & SON, Phila., Pa.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In then wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have *seen* its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Richoville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is entirely because of its merit. Since the Pain Killer was first introduced, hundreds of new medicines have become and gone, while to-day this medicine is more extensively used and more highly valued than ever before. Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Dealer need medicines.* It is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

ELY'S CREAM BALM

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., Insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of peculiar ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR, 373 Prestmanst.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa.
Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

PARKER'S HAIR BALSAM.

The Best, Cleanest and most Economical Hair Dressing.
Never Fails to Restore the youthful color to grey hair. 50c and $1 sizes at druggists.
Florestan Cologne.
A new and exceedingly fragrant and lasting perfume. Price 25 and 50c.

PARKER'S GINGER TONIC

A Pure Family Medicine that Never Intoxicates.

If you are a mechanic or farmer, worn out with over-work, or a mother run down by family or household duties try PARKER'S GINGER TONIC.

If you are a lawyer, minister or business man exhausted by mental strain or anxious cares do not take intoxicating stimulants, but use PARKER'S GINGER TONIC.

If you have Dyspepsia, Rheumatism, Kidney or Urinary Complaints, or if you are troubled with any disorder of the lungs, stomach, bowels, blood or nerves you can be cured by PARKER'S GINGER TONIC.

If you are wasting away from age, dissipation or any disease or weakness and require a stimulant take GINGER TONIC at once; it will invigorate and build you up from the first dose but will never intoxicate. It has saved hundreds of lives it may save yours.

HISCOX & CO., 143 William St., New York. 50c. and one dollar sizes, at all dealers in medicines.

GREAT SAVING BUYING DOLLAR SIZE.

SULPHUR BITTERS

Why are you troubled with Pain in the Thighs

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

MONDAY, MAY 8, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Assassination in Ireland.

Lord Frederick Cavendish and Mr. Thomas Henry Burke, under secretary for Ireland, were assassinated last Saturday evening in Phœnix park, Dublin. Lord Cavendish and Earl Spencer had remained at Dublin Castle, engaged in the transaction of official business, until six o'clock in the evening, when each drove to his respective residence. After dinner Lord Cavendish and Mr. Burke went for a walk in Phœnix park. They were strolling in the park, about a mile from the city gate and a quarter of a mile from the chief secretary's lodge, when a car drove up containing four men, two of whom jumped down from the car and attacked them, stabbing them both several times in the throat and breast. The victims struggled hard for life, and in the struggle became separated, their bodies being found some ten paces apart. The tragedy occurred about 7:10 o'clock in the evening, and in broad daylight. The bodies were discovered by two young gentlemen who were riding bicycles in the park, and who immediately gave the alarm to the police.

The bodies were mangled in a shocking manner, and both were dead. It is said that, after the act, the murderers immediately drove off. There seems to be no clue to the assassins at present, but the police are taking extraordinary measures to discover the perpetrators. A large quantity of notes and gold coin, besides their gold watches, were found in the pockets of the victims, which showed that the object of the crime was not robbery. The prominent land leaguers express the utmost abhorrence of this base and cowardly crime, but the effect must be to embitter the English against the Irish, and to deprive the latter of much of the sympathy of the outside world. The excitement in Ireland and England is intense.

The Arctic Explorers.

The New York *Herald* of the 5th had the following from its special correspondent, Mr. Jackson, the despatches having been received at Irkutsk by special messenger, and forwarded from there by telegraph:

PEER STATION, Kenurach, in District of Verchuaransk, April 10, 1882.

A rumor is current among the Tungus natives that five men have been found by Tungus at the mouth of the Lena. They describe one as wearing gold faced uniform. Noros tells me Capt. DeLong wore his uniform coat under his ulster at the time of landing. I give this as rumor, but it is remarkable that news spreads among the Tungus with great speed.

JACKSON.

FORTY MILES BEYOND KENURACH, April 12, 1882.

A Cossack estafette (special express) has just arrived here with despatches bringing the news that the bodies of Capt. DeLong and ten men have been found, all in one spot. He takes sealed despatches, which you will receive with this.

JACKSON.

The secretary of the navy on Friday evening received from Passed Asst. Engineer George W. Melville, late of the Arctic steamer Jeannette, and now in charge of one of the expeditions searching for the survivors of the wreck, the following telegram:

LENA DELTA, March 24, 1882. Found DeLong and party dead. Found all papers and books. Will continue search for Chipp.

MELVILLE.

The opinion in naval circles is that Lieut Chipp's boat capsized in a gale, and that nothing but the bodies will be found, if indeed anything is ever discovered. The recovery of Lieut. DeLong's papers is regarded as extremely fortunate.

The American legation in St. Petersburg has received a telegram from Lieutenant Berry, commander of the ill-fated United States steamer Rodgers, dated Colynsk, northeastern Siberia, stating that thirty men belonging to the Rodgers have been lost.

The state department at Washington on the 6th received a despatch from Charge d'Affairs Hoffman at St. Petersburg, correcting the previous despatch concerning the Rodgers. As first received by Hoffman the despatch read: "Steamer Rodgers lost by fire, St. Lawrence bay; November; thirty lives lost." As subsequently corrected: "Steamer Rodgers lost by fire, St. Lawrence bay, November thirtieth; no lives lost."

Terrible Conflagration.

A fire broke out in Goodrich's warehouse in Racine, Wis., at ten o'clock Friday night, the 5th inst., and before its progress was stayed it burned over fifteen acres of ground, destroying the St. Paul elevator, linseed oil mill, the Chicago, Milwaukee & St. Paul railroad buildings, many large lumber yards, salt sheds, docks, and many stores. Four engines were sent from Milwaukee, in answer to urgent calls for aid. The first estimates of the loss were from ten to thirteen millions of dollars, but this is said to be a large over-estimate, as the loss probably does not exceed $2,000,000.

Proposed Removal of the Brooklyn Navy Yard.

The New York *Tribune* of the 5th inst. had the following:

An expression of opinion in Brooklyn in regard to the proposed removal of the navy yard from that city having been sought by Congressman Bliss, of the fourth district, Mayor Low and the aldermen's committee on public lands and buildings held a consultation yesterday. The mayor said he believed it would be for the best interests of the city to have the navy yard removed, but it would be to the detriment of the federal government to take such a step. If the yard was removed the city should purchase a part of the land, and have one or two public docks in that part of the water-front. Of the members of the committee present Aldermen Houghton and Armitage opposed the removal, and Aldermen Mergle and Malcolm favored it. The latter said that the yard depreciated the value of property near it. The navy yard was established on the Wallabout in 1800. It occupies 230 acres of ground. The property is valued at $14,715,694.15.

News and Notes.

Rear Admiral John Rodgers died at his residence in Washington on the evening of May 5th. He had been superintendent of the naval observatory at Washington for a number of years.

A steamer which sailed from New York for England on Saturday carried over six hundred saloon passengers.

President Arthur has removed the political disabilities of Gen. Fitz John Porter.

Alfred Messier, an operative at the Victoria mill, Newburyport, had his right arm torn off above the elbow in the machinery, May 5th. He has a wife and nine children.

As a dummy train of the Fort Wayne railway was entering the Union stock yards at Chicago on the 5th inst., it was run into by an engine on the Grand Trunk road, and James Corrigan was killed. Three men were fatally injured, and J. J. Joy, auditor of the Grand Trunk road, had both feet cut off.

Capt. Tupper and his command had a fight with Indians on the 1st inst., at a point forty-five miles south of Cloverdale, New Mexico; forty Indians were killed, and 200 stolen cattle recaptured. One soldier was killed and one wounded.

Rev. Silas A. Mitchell, for some years pastor of Zion's church (colored) in Great Barrington, Mass., has decamped, and is charged with immoral conduct with a girl nine years old, and also with the wife of one of his parishioners.

William Crocker, a ship carpenter, of Newburyport, fell fifteen feet, May 5th, striking on his back, since which time he has been unconscious, and but slight hopes are entertained of his recovery.

A man living near Burlington, Vt., recently got divorced from his wife, whom he now employs as hired girl. He is already engaged to marry another woman.

The *Union* newspaper establishment of Springfield, Mass., has been sold by the Springfield Printing company to Joseph L. Shipley, the responsible editor of the *Union*.

Jennie O. Wonnell, a carder employed in the spooling and warping rooms of the Pacific mills at Lawrence, Mass., had her left leg broken in two places by a flying piece from a bursting pulley striking it, one day last week.

Emil J. Corsie, a Frenchman thirty years old, and a girl named Lillie J. Bent, aged twenty-five, took passage on steamer Providence from Fall River for New York on the night of the 4th inst., occupying one stateroom. They not appearing on the arrival of the boat at New York, the stateroom door was broken down, and they were found suffocated, having blown out the gas.

—A Kentucky dog has been trained to build fires in an open grate, and the man who owns the beast gets along very well with his wife now.

Old Orchard Railroad.

The stockholders of the Old Orchard & Ferry Beach railroad, at their annual meeting in the municipal court room in Saco, chose the following directors:

James T. Furber of Lawrence, Samuel E. Spring of Haverhill, Mass., Amos Paul of South Newarket, N. H., George F. Calef and W. S. Dennett of Saco, and M. G. Palmer of Portland. At a subsequent meeting of the directors, James T. Furber was chosen president.

The company will commence forthwith to make improvements in their road-bed. The rails now laid are found to be too light for heavy trains, and they are to be taken up, and new sleepers and heavier rails laid. Several turn-outs will be constructed along the line, and new cars added for the accommodation of the public. The new cars are to be in the main open, although some are to be constructed with a baggage car attached. There is some talk of adding a smoking car.

As soon as the season has advanced, and the crowd at the beach assumes any size, it is proposed to station a band at the railroad pavilion at Ferry beach, and make it an attractive spot. George F. Calef, Esq., has charge of the park improvements, and proposes to open up new avenues, build plank roads, etc.

The Boston & Maine railroad company have bought the Clark farm and beach in Wells, just below Wells beach, and it is supposed they contemplate building a hotel there.

The French Canadian institute of Biddeford having refused to dismiss one of its members who had joined a lodge of Odd Fellows, the French priest, Father Dupont, has resigned the honorary presidency of the institute.

MARRIED.

MITCHELL—SMITH. In Dover, April 28th, Josiah K. Mitchell of Dover and Mrs. Metta F. Smith of Newport, R. I.

DIED.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millions of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1300 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

Warmer fair weather, winds mostly southerly stationary or lower pressure.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 36 degrees above zero.

Sky clear.

A VETERAN BUSINESS MAN.

The improvements made at the store occupied by William P. Walker on Market square, next door west of the Portsmouth Athenæum, remind us that our friend of the shears has become one of the veterans of Market square. Mr. John Woodman Moses, just around the corner in Market street, has been in the tailoring business longer than any other man in Portsmouth, and Mr. Myers has been in the same business for forty years; both are Mr. Walker's seniors.

Mr. Walker is a native of Chesterfield, in Cheshire county. After his brother, the late Horton D. Walker, had come to Portsmouth from Salem, Mass., he also came to Portsmouth, and in 1843 commenced learning the tailor's trade of Brown & Clark, who kept in Daniel street. Here he remained until he went to Lynn for a season, and subsequently to Salem, where he remained until 1848. At that time Mr. Alonzo F. Brown, the successor of Brown & Clark, occupied the chambers in Gray's building over what is now Connell's jewelry store, then occupied by the late Robert Gray. Mr. Brown being desirous of selling out, Mr. Walker bought over his business in the fall of 1848, and began his career as a tailor in the Gray's building. The first order on the measure-book appears to have been made Oct. 7th, 1848, when he measured Benjamin Whitcomb, the well-known confectioner on State street, for a dress coat.

Mr. Walker remained in Gray's building till March, 1849. At that time the "California fever" was raging. Particularly in Portsmouth and Newburyport were seen the effects of this new outbreak, which "carried off" many of the resident male population. Among those attacked was George Gaines, a watch maker on Market square, who was doing a good business, but who wanted to get rich. Mr. Gaines could take his stock of watches, rings and diamond pins to the Pacific coast, but not his large clocks. Mr. Walker thought the store would prove a good business stand, and he purchased of Mr. Gaines his stock of clocks, etc., which he afterward sold to Augustine Dunyon, then a watch maker in this city, and removed on the 18th of March, thirty-three years ago, to his present location.

The men in business in Portsmouth who have longest retained the same location are James M. Carr, Charles E. Myers, and Wm. Downs. Edmund M. Brown, John Woodman Moses and Albert J. Badger keep in the same trade in the same street, but not on the same spot as thirty years ago; others now in business have changed their business as well as their location since that time.

Here then, is the veteran of Market square, who for thirty-five years has occupied one store, and has attended to his business more strictly and perhaps spent more hours at his calling than any other one of his age in Portsmouth, still to be found, with a renovated store, as ready as of yore to welcome his friends and patrons, some of whom all these years have been his constant customers. During all the changes in Portsmouth, Mr. Walker has ever had a constant share of business, which may be attributed to the facts that he is a gentlemanly salesman and an accomodating business man, and above all knows that he can reach his customers, both local and suburban, by means of an invitation through the medium of our advertising columns.

THE "ELECTRICAL DOLL."

Atkinson's "Jollities" will present their specialty, "The Electrical Doll," at Music hall on Friday evening, the 12th inst. The piece was played here several years ago; it was very amusing then, and has since been greatly improved; and as performed by the "Jollities" in Dover not long since, drew from the local papers such commendations as seemed extravagant. The several members of the company are good singers and actors, and their constant performance of this amusing and popular musical absurdity must have made them nearly perfect in its presentation. The piece has a definite plot, and this is adhered to from beginning to end, all the incidental fun, even, having a logical connection with it, and the details being managed in a very clever way; it is not only laughable, but wholly free from any taint of vulgarity. The music is exceedingly good. Tickets now on sale at Preston's.

The largely increased use of coal of late years by farmers in this vicinity on both sides of the river, has allowed the trees to grow to such size that they can be profitably felled for firewood; and more wood has been chopped in Eliot, Kittery and York during the winter just ended—if it is ended yet—than for many years previous. In Rye, too, the old style of getting up in the winter the fuel for the summer has been largely revived, and nearly every farm house has in its yard an old-fashioned wood pile all ready for the kitchen stove.

The concussion of a blast at Gangway rock on Friday afternoon was distinctly felt by the persons on board the steamer Emerald, then at the landing at the navy yard.

A string of about twenty-five handsome dump-cars belonging to the Boston, Lowell & Nashua railroad arrived in this city on Saturday, and were run down to the Concord railroad wharf to be filled with "black diamonds."

The managers of the Eastern railroad are contemplating the entire giving up of the use of aqueduct water at the station in this city, and relying entirely on the new wells above Frenchman's lane.

The fishing schooner Mary E. Smith, Short master, came in here from Newburyport on Friday for bait; Capt. Short has been entering this harbor more or less frequently for the past eighteen years. The schooner Flying Dutchman came in on Friday with a fare of fish, which was purchased by Randall & Caswell.

The Rockingham County Temperance Association met at South Newmarket, Thursday of last week. The forenoon was taken up with reports from different sections. At 1:30 o'clock in the afternoon an able address was delivered by Rev. Dr. Spaulding of Dover. The remainder of the afternoon was taken up with discussions on general features of the prohibitory law, and its non-enforcement in different sections of the county. The association adjourned to meet at Exeter on the first Thursday in June. Rev. J. H. Stearns of Epping is president for the ensuing term.

"Where is William E. Chandler?" is the facetiously "put" question of the new collector of internal revenue, in a long article in the *Mirror*, recently. If no one else is to answer the enquiry, we will venture the remark that Mr. Chandler has accepted a position under the general government, the proper discharge of the duties of which demand all the expenditure of his time and energies, and as far as we can learn he is attending to the requirements of the office just now, and of course unable to devote himself to newspaper work.

New Hampshire Items.

Ground has been broken for the new Catholic schools and nunnery to be erected on the old New Hampshire house lot in Dover. The buildings are to be ready for occupation in November.

The second session of the Dartmouth summer school of science will begin on July 12th at Hanover. Instruction in astronomy, chemistry, qualitative and quantitative analysis, microscopy and physics will be given.

Frank E. French went to Young's hotel in Franklin Falls at noon Friday, armed with a loaded rifle, and asked for Dr. C. B. Nichols, who was at dinner. He said he would shoot him at sight. To put him off the track the landlord told him the doctor was on the street, when French at once went in pursuit of him. Officer Morrison was notified, and he arrested French with the weapon in his possession. He was tried and put under bonds, in default of which he will go to jail. Dr. Nichols had attended French's family. No cause is assigned.

The Washington street society of Dover have voted to rebuild the church at once on the ruins of the one destroyed by last week's fire. For the present the members will worship in the Belknap church.

Rev. W. R. G. Mellen of Dover recently preached a sermon on the moral condition of Dover, and it has been printed in pamphlet form, for free distribution in that city. Mr. Mellen advocates a free public library for the benefit of the young people of Dover.

The board of aldermen of Dover last week passed appropriate resolutions of respect to the memory of the late John R. Varney, whose obsequies were held in the First Parish church on Friday.

How young soever you may be,
With falling teeth, you're grim and old;
And losing your mouth's purity,
Your features seem both dull and cold.
Then man or maid, warned of your fate,
Seek SOZODONT, e'er it's too late.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of you rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan22

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.
Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The poison that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.
ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.
Depot, WEEKS & POTTER, Boston, Mass.

and continue on Wednesday and Saturday afternoons for a course of Twenty Lessons.

TERMS:—Eight dollars for the course. A discount will be made for two or more pupils from the same family.

WHAT HAPPENED TO

Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculous or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first day he began to use the medicine; on the 15th of September he voided a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorder arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing Truss should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 63 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. my15

Good Writers Who Write Badly.

Among journalists and "literary fellers" generally, says the Brooklyn *Eagle*, one is prepared to look for remarkably illegible scrawls. That this is not always the case numerous autographs in our collection prove. The late Bayard Taylor was a fine penman. George William Curtis' signature, although showing some signs of unusual care, is written in an easy running hand, as legible as print. Whitelaw Reid, although not a fancy writer, evidently gives his compositors no trouble. Authors of Charles A. Dana would hardly imagine that his fine editorials are written in a small, neat hand, and with a pen dipped in violet ink, instead of gall. William Cullen Bryant wrote legibly in an old-fashioned style, though rather nervously toward the last. That A. Oakey Hall could write well, even under trying circumstances, appears from a polite note of his. dated about a week before he brought fit to disappear suddenly from New York, some years ago. Eli Perkins is a better penman than any one would believe upon his own unbacked assertion. Bob Burdette, of the Burlington *Hawkeye*, could, with the necessary knowledge of mathematics, obtain a position in any mercantile house as book-keeper. Longfellow wrote a really beautiful Italian hand, and Whittier and Holmes rival him in their own peculiar styles. Murat Halstead is certainly the worst writer in the world, and the sight of what purports to be his signature would lead one to doubt the truth of his whole paragraph.

—"Mine is a remarkable case," says Postmaster J. E. Bonsall of Liverpool, Pa. "At fifteen years of age, I was seized with a fearful attack of rheumatism which lasted for twenty-five weeks, resisted medical treatment until my physician said I would never get well, and finally left me with my system liable to frequently recurring attacks. In the winter of 1879-80, I was so used up with rheumatism that I could scarcely walk from my house to my office. When I was worst, I happened to hear of that wonderful substance St. Jacobs Oil. I obtained a supply, used the article as directed, and was entirely cured. Its action in my case was almost miraculous, as I am now perfectly free from rheumatism after being afflicted with it for thirty-four years."

—Don't expect an advertisement to bear fruit in one night.

Do not be deceived. Insist on having the genuine Brown's Iron Bitters, made only by the Brown Chemical Co., and take nothing else.

Perry Belmont is quite willing to have his "unparliamentary" language left out of the committee's record. We do not wonder at that. He also concluded not to challenge Mr. Blaine to mortal combat. We do not wonder at that, either.—*Lowell Courier.*

Don't Die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists. Depot, J. H. Thacher's.

—It is a great mistake for a girl who has been crossed in love to hold her head under a pump until life is extinct. She makes such a damp looking remains.

From Rev. H. P. Torsey, D. D., LL. D., President Maine Wesleyan Seminary and Female College, Kent's Hill, Me.

Dr. F. W. KINSMAN.—Dear Sir: For five years the students under my care have used Adamson's Botanic Cough Balsam, and have, I think, found it second to no other remedy for throat and lung troubles.

—"Mother," said little Ned, one morning after having fallen out of bed, "I think I know why I fell out of bed last night. It was because I slept too near where I got in." Musing a little while, as if in doubt whether he had given the right explanation, he added: "No, that wasn't the reason; it was because I slept too near where I fell out."

MESSRS. ELY BROS., Druggists, Owego, N. Y. Gents—I have improved greatly since I commenced using Cream Balm for catarrh. I feel like a new man. Ely's Cream Balm is a blessing to suffering humanity. JOSH D. FARRELL, Hartford, Conn.

Ely's Cream Balm Co., Owego, N. Y. Gents—I have never found anything like Ely's Cream Balm for the cure of catarrh. W. P. BATES, 130 Hanover street, Boston, Mass.

I have been a sufferer for years with catarrh, and under a physician's treatment for over a year, have tried a number of "sure cure" remedies and obtained no relief. I was advised to try Ely's Cream Balm. It gave me immediate relief. I believe I am now entirely cured. G. S. DAVIS, First National Bank, Elizabeth, N. J., Aug. 14, 1879.

Price fifty cents.

—The Mormons are getting ready to convince that commission that they are not polygamists, never were, and that really there isn't any such thing as polygamy.

Parlor Decoration.

Horse-shoe, painted plaque and Sunflowers have each in its turn been the popular parlor ornament, but are now superceded by the Tamborine, which when tastefully decorated is very ornamental. For fifteen cents the Wheat Bitters Co., 19 Park Place, New York, will send free a beautifully decorated Tamborine.

—A young actress had made signal failures in the first two acts of a comedy. After the third, in which she did not appear, one of her fellow actors came up to her with much ardor: "Charming, adorable! Your third act quite redeems the other two!"

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a trendly listener, "unless you want to make an animated sign for a drug store, and make the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharper, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued than *ever before*. Every family should have a bottle *ready for use*. Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS. Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

For sale in Portsmouth by J. H. Thacher, A. P. Preston, David Kimball & Co. and F. B. Coleman.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The cause of premature age may be bad where not of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not be over-hasty when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. Mrs. MARY E. BRASHEAR, 173 Prestman St.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
Mrs. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

PARKER'S HAIR BALSAM.

The Best, Cleanest and most Economical Hair Dressing.

Never Fails to Restore the youthful color to grey hair. 50c and $1 sizes at druggists.

Floreston Cologne.

A new and exceedingly fragrant and lasting perfume. Price 25 and 75c.

PARKER'S GINGER TONIC

A Pure Family Medicine that Never Intoxicates.

If you are a mechanic or farmer, worn out with overwork, or a mother run down by family or household duties try PARKER'S GINGER TONIC.

If you are a lawyer, minister or business man exhausted by mental strain or anxious cares do not take intoxicating stimulants, but use PARKER'S GINGER TONIC.

If you have Dyspepsia, Rheumatism, Kidney or Urinary Complaints, or if you are troubled with any disorder of the lungs, stomach bowels, blood or nerves you can be cured by PARKER'S GINGER TONIC.

If you are wasting away from age, dissipation or any disease or weakness and require a stimulant take GINGER TONIC at once: it will invigorate and build you up from the first dose but will never intoxicate. It has saved hundreds of lives it may save yours.

HISCOX & CO., 163 William St., New York. 50c. and one dollar sizes, at all dealers in medicines.

GREAT SAVING BUYING DOLLAR SIZE.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier, SULPHUR BITTERS. Why suffer with Boils? Why are you troubled with Carbuncles? Why lay and toss on your bed with Scrofula? Why suffer with Nettlerash and all manner of eruptions? Why let your blood become so impure? Why make you so miserable with Dyspepsia? Why let your system become so full of poison that every pore is a sore? Why suffer with Rheumatism? Why let your blood become so thick and sluggish? Why let your liver become torpid? Why let your kidneys become so deranged? Why let your nerves become so unstrung and unsteady? Why let your blood become so impure

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

The Dover police on the night of the 5th inst. raided a den kept by one William Cowan, and in one small room found nine persons—three women, a man and two children occupying one bed, while two men and one woman were on the floor; all were drunk excepting the two children. The men were sent to jail, the women being discharged on giving evidence.

Eighty-Five Dollars Lost.

"You do not tell me that your husband is up and entirely cured by so simple a medicine as Parker's Ginger Tonic?" "Yes, indeed, I do," said Mrs. Benjamin to her neighbor, "and after we had lost eighty-five dollars in doctor's bills and prescriptions. Now my husband feels as well as ever."

The Manchester *Mirror* says: "The city of Concord appropriates $900 with which to pay its aldermen for services rendered on committees, and in view of the vast amount of labor which the aldermen of this city are called upon to do, the matter of reimbursing them for their time is receiving some consideration at present."

I Was a Fool.

Yes, they said I was a fool not to try Sulphur Bitters for rheumatism, from which I had suffered over two years; but I had tried so many doctors and medicines without getting relief that I was discouraged. I am now on my fourth bottle and almost cured. I was a fool that didn't try that wonderful remedy before. —*C. G. Pratt, Manchester.*

Steam fire engines one and three, of Dover, had a trial practice on the 6th inst. under the superintendence of Mr. John Wilson, an engineer from Manchester; the trial was entirely satisfactory, and it was made evident that the failure of the engines to work properly at the fire of the 2d inst. was not any fault of the machines.

A Vigorous Growth

Of the hair is often promoted by using Parker's Hair Balsam. It always restores the youthful color and lustre to gray hair, gives it new life and removes all irritation and dandruff.

Portsmouth Chronicle.

TUESDAY, MAY 9, 1882.

(Entered at the Post-Office at Portsmouth, N. H. as second-class matter.)

The Assassinations in Ireland.

Lord Frederick Cavendish, the murdered chief secretary for Ireland, who was butchered in Phenix park, Dublin, on Saturday evening, was only appointed to that position on the previous Thursday to succeed Mr. Forster, and had not been in Ireland a day at the time of his murder.

All parties in England and Ireland agree that the brutal butchery of Lord Cavendish and Under Secretary Burke will prove disastrous to the cause of Ireland, at least for a long time.

Parnell, Davitt and Dillon, the land league leaders, denounce the crime in the most forcible terms. Mr. Parnell said:

I am horrified more than I can express. This is one of the most atrocious crimes ever committed. Its effect must be certainly most damaging to the interests of the Irish people. I have always found Lord Frederick Cavendish a most amiable gentleman, painstaking and strictly conscientious in the fulfillment of his official duties. * * There seems to be an unhappy destiny presiding over Ireland, which always comes at a moment when there seems some chance for the country, to destroy the hopes of her best friends. I hope the people of Ireland will take immediate and practical steps to express their sympathy with Mr. Gladstone in his most painful position.

Mr. Davitt, in an interview with a reporter, expressed himself as follows:

No language I can possibly command can express the horror with which I regard the murders, or my despair at their consequences. When I heard of them I could not credit the news. I grieve to think that when the government had just run a risk in introducing a new policy—when everything seemed bright and hopeful—when all expected the outrages to cease, this terrible event should dash our hopes. I wish to God I had never left Portland. The crime was without motive. It is not only the most fatal blow that has ever been struck at the land league, but one of the most disastrous blows which have been sustained by the national cause during the last century. Its occurrence at this particular juncture seems like a terrible destiny.

At a meeting of the land league in London on Sunday a manifesto signed by Parnell, Davitt and Dillon was issued "To the people of Ireland," in which it is said:

On the eve of what seemed a bright future for our country, the evil destiny that has apparently pursued us for centuries has struck at our hopes another blow which cannot be exaggerated in its disastrous consequences. In this hour of sorrowful gloom we venture to give expression to our profoundest sympathy with the people of Ireland in the calamity that has befallen our cause through this horrible deed, and with those who determined, at the last hour, that a policy of conciliation should supplant that of terrorism and national distrust. * * It may entail consequences more ruinous than those that have fallen to the lot of unhappy Ireland during the present generation. We feel that no act that has ever been perpetrated in our country during the exciting struggles of the past fifty years, has so stained the name of hospitable Ireland as this cowardly and unprovoked assassination of a friendly stranger, and that until the murderers of Cavendish and Burke are brought to justice, the stain will sully our country's name.

Mr. James Mooney, president of the Irish National Land League of America, on Sunday issued an order express-ing the strongest condemnation of the murders, and cabled the following message to Mr. Gladstone:

As president of the land league in America I beg to express deepest abhorrence of the terrible crime just committed in Dublin, especially in an hour which, owing to your change of policy, looked brightest for Ireland.

John Boyle O'Reilly and Patrick A. Collins of Boston, Monday cabled to Mr. Parnell that the Irishmen of Boston offered a reward of $5000 for the arrest of the murderers, or either of the murderers of Lord Cavendish and Mr. Burke.

The Fatal Arctic.

A letter dated Irkutsk, March 2d, gives interesting details of the search for De-Long's party. When the captain decided to send Noros and Ninderman on ahead, food had been quite exhausted, and the party was existing on brandy. Noros thinks it was Sunday when they left. The captain had held divine service on the banks of the river. After the service he called the two men and told them he wanted them to push ahead, and that the rest would follow. "If you find game," were his last words, "then return to us. If you do not, go to Kumak-Surka." Noros thus describes the parting:

The captain read divine service before we left. All the men shook hands with us, and most of them had tears in their eyes. Collins was the last. He simply said, "Noros, when you get in New York remember me." They seemed to have lost hope, but as we left they gave us three cheers. We told them that we would do all that we could do, and that was the last we saw of them.

Such is Noros' story of the last seen of Captain DeLong and his suffering party. No additional particulars concerning the fate of the band have been received at Washington. The following is a correct list of DeLong's party, according to records found in a hut by Melville:

Lieutenant DeLong, Surgeon Ambler, J. J. Collins, A. Gortz, Ah Sam, Alexis, H. H. Kock, G. H. Boyd, W. Lee, N. Ivorsen and A. Dressler.

There were originally fourteen men in DeLong's party. Of these Noros and Ninderman are safe, and Erickson died and was buried in the Lena.

News and Notes.

It is now said that the loss by the Racine fire was enormously exaggerated, and will not exceed $750,000, with $250,000 insurance.

Robert Bechter, a farmer, living near Leona, Kan., was shot dead on Saturday last by his wife, who then killed herself. She left a letter, saying she shot her husband because he intended to disinherit their son, and she preferred that both should die, that the son might enjoy the property undisturbed.

As a young lady by the name of Terrid, a pupil at the Salem Normal school, was passing through a piece of woods in Middleton, Mass., Saturday morning, she was seized by an unknown man, who sprang from the bushes and attempted to outrage her. She managed to escape, but was considerably injured. There have been five or six such attempts on different persons in eastern Massachusetts within a few days.

At a social gathering in the apartments of Frank Clifford and wife, in New York city on Saturday night, Mrs. Clifford was badly hurt and a number of the guests slightly injured by a terrific explosion at the back parlor window. The explosive was thought to be giant powder. William Thornton, a blaster, occupying the rooms above, was arrested on suspicion of having committed the crime, but was discharged for want of evidence.

An unknown man, supposed to be a tramp, was killed by the cars at Ayer, Mass., on the 3d inst. He had on two coats, three vests, five shirts, two pairs of pants, two pairs of overalls, and on one foot a base ball shoe, and on the other a heavy brogan.

New Hampshire Items.

Henry T. Watkins' farm buildings at Walpole were burned by an incendiary fire on the night of the 5th inst., with seventeen head of horned cattle, three horses, ten sheep and four hogs, and all the contents of the buildings except a small quantity of furniture. Loss $4500; insurance $2500. A former laborer on the farm has been arrested on suspicion.

The Dover *Democrat* says: "An unmarried lady, rather advanced in years and living in the vicinity of the corner, is said to be the possessor of forty-three cats."

The New York & Boston Depatch Express Company,

Which heretofore covered only the line of the Old Colony railroad and the Stonington Line, between New York and Providence, in connection with Messrs. Earle & Drew, have now extended their line over the old Boston, Clinton & Fitchburg railroad, now the Northern Division of the Old Colony railroad, and over the Farmingham & Lowell railroad to Lowell. They have also commenced to operate the Massachusetts Central railroad, and it is rumored, with good reason, that they will soon extend their operations to cover the Eastern and Maine Central railroad lines and their branches. The effect of such a change would be to open a competing line of express for the business of the state of Maine, not only to Boston and New York, but many other points. There has long been felt on the part of many of our largest mercantile houses a desire for some other express facilities for reaching the large New England cities and towns than simply one line of express, whose charges, whether reasonable or not, were just so much tax on the business of Boston, and not unfrequently were felt to be onerous and much more than they would be had there existed any competing line. The New York & Boston Despatch Express company has been very popular with merchants here, and it is to be presumed that it will carry out in any newly acquired territory the same principles which have made it so justly popular here and elsewhere where they have been.—*Boston Journal.*

MARRIED.

Fire Companies—At their respective Engine Houses on the first Monday of each month.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

For the States of Maine and New Hampshire.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*not assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

CIRCUIT COURT OF THE UNITED STATES.

MONDAY, May 8th; *Clark J.*

The court began its May term in this city on Monday morning, Hon. Daniel Clark, district judge, presiding.

In the morning the docket was called.

In Kelly vs. Scott, case removed from state court of Belknap county, referred to Hon. L. W. Clark, judgment on the report of referee in favor of the defendant was ordered. Wheeler for pltf.; J. H. Benton, Jr., for deft.

In Town of Franklin vs. Norcross and als., action for damages caused by a run of defendants' logs against the bridge of the town, referred some time since, judgment was ordered on the report, which was for $1000 against one of the defendants, and in favor of the other two defendants. Pike and Barnard for the town; Wm. L. Foster for the defendants.

In Huntress vs. Town of Epsom, marked for trial, the counsel for the town moved to have the action continued, for the reason that several of the jurors summoned at this term were from a section of the state where similar cases had been tried with verdict in each case against the towns which were defendant. The court explained the mode of fixing upon the places from which jurors are drawn in the federal courts, and that this was not a case of local prejudice. The pltf. objected to trial of the case in the county in which the defendant town is situated. The motion to continue was over-ruled.

The following is the list of grand jurors to report on Tuesday morning: Frank E. Lang, Dummer, (excused;) Abram Sanborn, Milton; Samuel H. Hill, Strafford; Frank N. Piper, Northumberland; John A. Hicks, Jefferson; Henry J. Cummings, Seneca B. Congdon, Lancaster; John H. Osborn, Chas. H. Bragdon, Rochester; Geo. W. Hall, Jr., Samuel B. Hartford, Barrington; Woodbury B. Gates, Gorham; Chas. W. Cole, Whitefield; Oscar G. Fletcher, Colebrook; Stephen Meade, James W. Burnham, Durham; Leander H. Twombly, Farmington; Alphonzo Jones, Lee.

On motion of Hon. Charles W. Woodman, Hon. Jeremiah Smith of Dover was admitted to practice in this court.

The trial of cases will begin Tuesday at eleven o'clock A. M.

POLICE COURT.

MONDAY, May 8; *Batchelder J.*

Daniel Hurley, drunk, $9.90.
John H. Temple, drunk, $9.90.
William Stringer, drunk, $9.90.
James Hartley, drunk, left the city.

Timothy Hennessey and James Hurley, for brawl and tumult, were fined $2 each, and each ordered to pay one-half the total costs, $7.67.

"THE LITTLE SAVAGE."

Maggie Mitchell will have a very large audience to-morrow evening at Music hall, when the Little Savage will be performed. The advance sale of reserved seats is heavier than for any entertainment given here for many months, and there will be few choice seats unengaged when the doors open. If you intend going, better get your ticket to-day.

GRAND CONCERT.

On Thursday evening, May 25th, Mr. Henry L. Harlow will give in Music hall a concert which he intends shall eclipse anything of the kind presented in this city in recent years. The full orchestra engaged for the Wentworth hotel during the summer will take part, as will also Mrs. Martha Dana Shepard, the popular pianist, and Miss Ella Chamberlain of Cambridgeport, Mass., the solo whistler. One of the numbers on the programme will be the overture to William Tell.

WEEKLY FISH REPORT.

The receipts of fresh fish at this port for the week ending May 6th were less than 8,000 pounds, shore fishermen, who brought the bulk thereof, reporting the poorest business for months. Small lots of herring and rock salmon were landed, finding ready shipment. Some two thousand lobsters were taken from the lobster pots set along these shores, most of which were sent off. Wholesalers received large orders for fish during the week, but were unable to fill them.

AROUND HOME.

The annual "May training" of the New Hampshire national guard occurs to-day.

The Ladies Relief Corps of Storer Post, G. A. R., will be formally instituted this (Tuesday) evening by the proper officials, and the previously-elected officers of the corps installed, at Grand Army hall. All members of the post are invited to be present.

The first blast on Badger's island ledge was made on Monday, two cubic yards of stone being thrown out. This ledge is found much softer to drill than is Gangway rock.

On Sunday afternoon last, as a Newington man and his wife were riding out in that town, a fellow described as a ferocious-looking person attempted to stop the team by jumping in front of the horse and trying to catch the bridle, but a smart cut from the whip caused the animal to spring suddenly forward, and the assailant had to scrabble pretty lively to get out of the way. Our informant thinks if the driver of the team had not had his wife with him, the other man would have found himself in trouble.

Nathan & Co.'s circus, museum and menagerie will exhibit in this city on the 19th inst. The advertising car arrived on Sunday afternoon, and is a very handsome affair. The city bill-posters were on Monday engaged in covering the billboards with some most gorgeous and soul-harrowing paper. The advance agent, a very intelligent and gentlemanly young man with whom it is a pleasure to deal, asserts that the show will more than fulfill all the promises of the advertisements.

Mr. Newell Philbrick arrived home on Saturday last, after an absence of two years in California.

The steamer Pinafore left this city for the Shoals on the 7th inst., taking out a gang of carpenters and masons to lay the foundation for a new gasometer at Appledore. The iron work will be done by Messrs. Critchley & Whalley of this city, the machinists and iron and brass founders.

Mr. Asa Caswell leaves this week for "Lunging" island, Isles of Shoals, where he will be engaged during the summer in making cod liver oil for Elvin Newton & Co.

Mrs. Martha C. Pook, the widow of Samuel M. Pook, long and favorably known as one of the principal naval constructors of the government, died at Brooklyn, New York, on the 4th inst. She was a noble lady, much beloved by all who knew her, and was well known to the older people in this city, her husband having been attached to the Portsmouth navy yard for many years as naval constructor. She was a native of Brooklyn. She leaves an only son, Mr. Samuel H. Pook, who like his father is a constructor in the navy.

The schooner Storm King has within a few days land 28,000 lbs. of fish at Smutty-nose island, Isles of Shoals, to Lemuel B. Caswell.

On the 3d inst. orders were issued by the navy department detaching First Lieut. George C. Reid, U. S. M. C., from the marine barracks at the Portsmouth navy yard, and ordering him to report for duty on the 9th at Hampton Roads, Va., to command the marine guard of the U. S. S. Vandalia, relieving First Lieut. F. F. Robinson, who is ordered to the Brooklyn navy yard. On the 4th inst. Lieut. Reid's orders were modified so much as to detach him from the barracks on the 20th, and allow him to report for duty on the Vandalia on the 31st.

The fishing schooner Albert Woodbury, Downs master, which came in some days ago with her mainmast head carried away, is nearly ready for sea again, having had the needed repairs made, and been fitted with two topmasts and a flying-jibboom by Mr. Warren Keen. She will go for mackerel.

The building on one of Fishing islands, used as a restaurant for two or three summers past by Mr. Charles Hall, was taken down and removed last week.

Capt. George F. Towle, nineteeth United States infantry, having been announced as aide-de-camp to the brevet major-general commanding the department of Dakota, a special order of April 27th says: "there being no public quarters available at Fort Snelling, Minn., for Capt. George F. Towle, A. D. C., the chief quartermaster of the department of Dakota will hire quarters for him until he can be provided with public quarters."

How young soever you may be,
With falling teeth, you're grim and old;
And losing your mouth's purity,
Your features seem both dull and cold.
Then man or maid, warned of your fate,
Seek SOZODONT, e'er it's too late.

A Cough, Cold or Sore Throat
Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjans2

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. He had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.
Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.
Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The poison that had fed the disease was completely driven out.

Eczema.
Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.
ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.
The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.
Depot, WEEKS & POTTER, Boston, Mass.

CATARRH

Sanford's Radical Cure.
Head colds, watery discharges from the nose and eyes, ringing noises in the head, nervous headache and chills and fevers, instantly relieved. Choking, putrid mucus is dislodged, membrane cleansed, disinfected and healed, breath sweetened, appetite and hearing restored and constitutional ravages checked.
Cough, bronchitis, droppings into the throat, pains in the chest, dyspepsia, wasting of strength and flesh, loss of sleep, etc., cured.
One bottle Radical Cure, one box Catarrhal Solvent and one Dr. Sanford's Inhaler, in one package, of all druggists, for $1. Ask for Sanford's Radical Cure. WEEKS & POTTER, Boston.

WHAT HAPPENED TO

Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculous or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first day he began to use the medicine; on the 15th of September he voided a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorder, arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED.
THOROUGHLY TESTED,
ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the tissues which bear the strain of every day work and life, and in order to avoid sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richer in the Phosphates, while the starch and impure matter are eliminated. These take in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containing likenesses of bad cases before and after cure, also endorsements of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 15 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. may15

Senator Blair and the Peruvian Co.

The New York *Tribune* correspondent thus describes our junior senator as he appeared before the house committee on foreign affairs on Thursday last:

Senator Blair is an enthusiast upon this subject, as was shown by his statement the other day and his testimony to-day; just as he is an enthusiast upon temperance and other subjects, concerning which, as is usually the case with enthusiasts, he thinks certain things can be accomplished which many men do not consider practicable. His personal appearance seems to show how largely the element of the ideal enters into his intellectual temperament. He is a tall, grave man, whose bearing suggests the college professor rather than the soldier and legislator. He has a lofty forehead, and large, mild eyes; sandy hair which is combed up high in front, and a sandy beard streaked with gray; his whole expression being one of quiet dignity. His appearance seems to be a fair indication of the character of the man. His favorite subjects are temperance, education and the like; and, to those who know him, the insinuations of improper motives in this matter thrown out by the newspapers are so ludicrous as to damage Mr. Blaine that they assail anyone associated with him, are almost as amusing as a charge would be that Robert Collyer or Cardinal McCloskey had been making away with church funds. Senator Blair seems to have put more faith in Mr. Shipherd than most persons who came in contact with him, and so was apparently drawn closer to him than other figures in this Peruvian episode. But it is to be remembered that Shipherd is a very glib and persuasive person; that Senator Blair is not the first individual upon whom Shipherd in his varigated career seems to have made a good impression; and that he came armed with a long list of capitalists which necessarily caused even so quick a judge of human nature as Mr. Blaine to receive him at first with the respect he supposed to be the due of a man representing such interests.

The general agent for the sale of the star chewing tobacco for the Pacific coast, Mr. W. H. McAllister, 206 Front street, San Francisco, Cal., thus speaks of the great German remedy: "I was tortured with pain from acute rheumatism, and cared not whether I lived or died. I tried the remedy that is setting every one wild now-a-days—St. Jacobs Oil—just two applications of which entirely cured me."

It is rumored that important developments in the Morey letter forgery are expected. It is reported that the president has granted immunity to Henry H. Hadley, a prominent lawyer in New York, and that the details will soon be made public through John I. Davenport.

Do not be deceived. Insist on having the genuine Brown's Iron Bitters, made only by the Brown Chemical Co., and take nothing else.

The orders of Commodore Edward Y. McCauley to command the Pensacola navy yard are revoked, and he is placed on waiting orders from June 15th.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1. Depot, J. H. Thacher's.

Catarrh of the Bladder.

Stinging irritation, inflammation, all kidney and urinary complaints, cured by "Buchupaiba." $1. Depot, J. H. Thacher's.

The leave of Commodore Albert G. Clary, (retired list), at present at San Miguel, Azores, has been extended one year from May 1st, with permission to remain abroad.

A Peerless Perfume.

The refreshing aroma of Floreston Cologne, and its lasting fragrance make it a peerless perfume for the toilet.

Paymaster Tolfree, of the Shenandoah, will relieve Paymaster Watkins of the Colorado about the 1st of July.

A Traveler's Story.

After spending months at watering places and consulting the best physicians without benefit, I returned home disheartened and expected to die. A friend urged a trial of Parker's Ginger Tonic. Three bottles and careful diet have brought me excellent health and spirits, and I hope my experience may benefit similar sufferers.—Cincinnati lady. See other column.

Chief Engineer E. D. Robie, Pay Director A. H. Gilman, and First Lieutenant J. H. Washburn of the marine corps, are absent on leave from the Boston navy yard.

My Family Doctor

For the last two years has been Sulphur Bitters, and until I began using them in my family we had more or less sickness, and our doctor's bill had been very large. Since we began their use we have had no doctor to pay, and three dollars invested in Sulphur Bitters has kept health in our family.—*E. Knott, Postmaster, Waverly, Iowa.*

There is a strong sentiment in Brooklyn in favor of the removal of the navy yard. The three-quarters of a mile of water front which it now occupies could then be devoted to manufacturing and shipping interests, and the taxable property of the city would be increased fifty millions. Where hundreds of men are now employed, thousands could be put at work. The removal is not a new idea. It was urged in Congress as early as 1868.

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a friendly listener, "unless you want to make an animated sign for a drug store, and make the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted

SWAYNE & SON, Phila., Pa.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have *seen* its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpsr, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In over 30 years use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. Every year it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before*. Every family should have a bottle *ready for use*. Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines*, it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELY'S' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELY'S' CREAM BALM CO., Owego, N. Y.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, wanton appetite, constipation, or a dull state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. Nature is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It freeg the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR, 173 Prestmanst.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

PARKER'S HAIR BALSAM.

The Best, Cleanest and most Economical Hair Dressing.

Never Fails to Restore the youthful color to grey hair. 50c and $1 sizes at druggists.

Floreston Cologne.

A new and exceedingly fragrant and lasting perfume. Price 25 and 50c.

PARKER'S

GINGER TONIC

A Pure Family Medicine that Never Intoxicates.

If you are a mechanic or farmer, worn out with overwork, or a mother run down by family or household duties try PARKER'S GINGER TONIC.

If you are a lawyer, minister or business man exhausted by mental strain or anxious cares do not take intoxicating stimulants, but use PARKER'S GINGER TONIC.

If you have Dyspepsia, Rheumatism, Kidney or Urinary Complaints, or if you are troubled with any disorder of the lungs, stomach, bowels, blood or nerves you can be cured by PARKER'S GINGER TONIC.

If you are wasting away from age, dissipation or any disease or weakness and require a stimulant take GINGER TONIC at once; it will invigorate and build you up from the first dose but will never intoxicate. It has saved hundreds of lives it may save yours.

HISCOX & CO., 403 William St., New York. 50c. and one dollar sizes, at all dealers in medicines.

GREAT SAVING BUYING DOLLAR SIZE.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great SULPHUR BITTERS. Why suffer with Dyspepsia, Headache, Biliousness, Constipation, Rheumatism? Why rack with that terrible Neuralgia? Why suffer with Kidney Complaint, Dropsy, Female Weakness? Why? Because SULPHUR BITTERS is a sure cure for all these and kindred diseases. Why? Because SULPHUR BITTERS is the great blood purifier, and nature's own remedy. Why? Because SULPHUR BITTERS is a sure cure for Liver Complaint, Jaundice, Biliousness, and all diseases of the Liver. Why? Because SULPHUR BITTERS is the best tonic to assist nature to expel the disease germs from your system. Why? Because SULPHUR BITTERS is the cheapest and purest medicine. Why? Because SULPHUR BITTERS is a sure cure for Rheumatism, Gout, Neuralgia, Sciatica, Lumbago, Kidney Complaint, Dropsy, Female Weakness, Fever and Ague, Liver Complaint, Jaundice, Biliousness, Constipation, Dyspepsia, Nervous Debility, Diseases of the Blood, Skin, Liver, Stomach and Bowels. Why? Because SULPHUR BITTERS is a sure cure for all these diseases. Why? Because SULPHUR BITTERS is the best medicine ever made. Why? Because SULPHUR BITTERS is the best medicine for your children. Why? Because SULPHUR BITTERS is the best medicine for your wives. Why? Because SULPHUR BITTERS is the best medicine for your husbands. Why? Because SULPHUR BITTERS is the best medicine for you. Why? Because SULPHUR BITTERS is the best medicine for everybody. Why? Because SULPHUR BITTERS is the best medicine for all diseases. Why? Because SULPHUR BITTERS is the best medicine for all diseases. Why? Because SULPHUR BITTERS is the best medicine for all diseases

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

WEDNESDAY, MAY 10, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

News and Notes.

In Boston, early Tuesday morning, Mary Konig, a German woman with four children, three boys and a girl, who was recently deserted by her husband, a lithographer, attempted to kill the children and herself. She cut the throat of a son five years old, and then attacked her daughter, aged thirteen, wounding her chest in three places, but probably not fatally; she then stabbed a ten-years-old son several times in the left arm, and cut the oldest boy on the elbow, after which she gashed her own left leg and arms, but failed to kill herself.

L. Green, agent for a transportation company at Columbus, Miss., has disappeared, after swindling various manufacturers in Fall River, Mass., out of $50,000 or $60,000 in cotton transactions. It is said he also swindled parties in Boston, Taunton and Lawrence.

A decision has been rendered by the supreme court of the United States in the case of Sergt. John A. Mason, petitioner upon application for a writ of habeas corpus. The court in a carefully prepared opinion by the chief justice decides that the court martial had full jurisdiction to try Mason for the offence charged; and that its proceedings were all within its proper jurisdiction, and that the sentence pronounced was not in excess of its power. The petition for a writ of habeas corpus is therefore denied, and the rule to show cause discharged.

Mrs. James Dennison of East Machias, Me., left her house Saturday night, it is supposed while slightly demented on account of ill health, and committed suicide. Her body was found in a fish weir at Machiasport on Monday evening.

Prof. Dare, while performing on a tight rope suspended from house tops across Broadway in Flushing, L. I., Monday, was precipitated to the ground, a distance of thirty feet, by the breaking of the rope. He was fatally injured.

Mrs. Mary Blessing, aged seventy-two, committed suicide at Hummelstown, Pa., Sunday night. She stripped herself of all her clothing, placed the latter in a pile on the floor, saturated it with kerosene, lighted it and sat down on the fire. She was burned to a crisp.

In the police court at Lawrence, Mass., Monday morning, George M. T. Everett was arraigned on the charge of criminal libel, on complaint of Rev. A. E. White. He pleaded not guilty, and the case was continued for one week. Everett furnished bonds in $200.

As a result of the recent boycotting of G. L. Rist of Turners Falls, Mass., boot and shoe dealer, by the Irish population, on account of his serving on the McMillan grand jury, the Protestants have become indignant and withdrawn their patronage from Irish dealers, of which there are quite a number.

One of the largest seizures of liquor made in Lowell, Mass., for years, occurred Monday morning at the shop of Michael Murphy. Fifteen barrels of hard liquors and two partly filled hogsheads of ale were confiscated. The liquor is worth several hundred dollars.

Correspondence has developed the fact that the discharge papers of Ohio soldiers in the late war, which were entrusted to the state agent at Washington for collection of bounty claims, were boxed up by the agent and afterward sent to New York without authority, and are now lost. Great indignation is expressed by the ex-soldiers, as might be expected.

H. H. Warner of Rochester, N. Y., offers three scientific prizes: One for the discovery of comets in Great Britain and America, and two for meteoric stones seen to fall during the present year.

The secretary of the navy on the 8th inst. sent to the senate, in compliance with Mr. Hoar's resolution of the 26th ult., the "Histories of the Boston and Portsmouth Navy Yards," by Rear Admiral George H. Preble. Secretary Chandler, in his letter of transmittal, remarks: "The history of the Boston navy yard is contained in nineteen volumes, and that of the Portsmouth yard in three volumes. They are in manuscript, and there is no copy of them on file in the navy department." He, therefore, suggests that unless the senate decide to have these histories printed, they should, within a reasonable time, be returned to the department. The documents, when received by the senate, were temporarily tabled at the request of Senator Hoar, who said he desired an opportunity to designate what portions of them should be printed.

A negro named Jackson was arrested in Dallas, Texas, May 6th, for murdering a farmer in Brazos county, Texas, five years ago. After murdering him he killed the man's wife to prevent detection.

Gen. McClellan was hardly more popular on the Virginia peninsula in the spring days of 1862 than is his daughter at the same place now in the spring of 1882. It is generally conceded in Washington that Miss McClellan's recent campaign at Old Point Comfort, where she has been the belle of the military circles, was a brilliant success.—*Post.*

AROUND HOME.

On Monday evening of this week Old Oaken Bucket Division, No. 2, Sons of Temperance, had at their hall a social entertainment, supper and party at which there was a large attendance and enjoyed by all who participated. The recitations were exceptionally good, especially those of Miss Bertha G. Gammon, Miss Fannie L. Deverson, and Master Percy O. Smart; the latter's recitation, by the way, would have done credit to a much older person.

In the bench show of dogs by the Massachusetts Kennel club in Music hall, Boston, this week, there are two entries from Portsmouth—Elcho III., in the champion Irish setter class, entered by Adolph Nelson, and Dash Elcho, in the Irish setter class, entered by J. H. Locke.

A gondola load of salt went to Exeter from E. F. Sise & Co.'s on Tuesday, and another gondola took in a cargo of coal at the same place for South Newmarket.

Carpenters, painters and calkers are at work on the steamer Appledore, getting her in readiness for the summer's work.

The gross earnings of the Eastern railroad for March, 1882, were $255,890.17; for March, 1881, $238,594.37; increase, $17,295.80. Gross earnings for the six months ending March, 1882, $1,515,682.-71; for the six months ending March, 1881, $1,365,149.56; increase, $150,-533.15.

The patrons of the Phibricks, who have enjoyed the comforts provided by them at the hotels on Rye beach, regard the burning of the Farragut house as a personal loss, and have been urging the proprietors to go ahead and rebuild at an early day, and propositions have been made, some one of which is likely to lead to that result. It is determined for the coming season to carry on the old Atlantic house, formerly occupied by them, and it will be put in good condition in every respect, with accommodations for fifty to seventy-five guests. The Club house, contracted last year, and several cottages, will be utilized for the benefit of patrons, and a good season is anticipated. The question of rebuilding, now under consideration, will soon be decided.—*Boston Traveller.*

The schooner E. A. Creed, Capt. "Jud" Randall, was on Monday evening reported as ready to start for the Shoals at the first favorable opportunity, with a load of lumber to be used in the construction of the cottages now in course of erection at Appledore.

Mr. Edward N. Russell of this city has opened a cottage for public entertainment near Wallis' sands, Rye.

Mr. L. L. DeRochemont, of Newington, has this spring purchased a ton and a quarter of Bradley's X L superphosphate, and a carload of ashes; Mr. Clark L. Coleman has purchased a carload of ashes.

Mr. John S. Remick, of Foss' beach, Rye, last week raised and boarded a new barn, and celebrated the event by giving grand New England supper to his neighbors and friends, a large number of whom attended.

Mr. Charles E. Meloon of this city on the 7th inst. caught a cod-fish in "Simpson's stream," Great bay, weighing fifteen pounds.

Secretary of War Lincoln is expected to arrive at Thomas Sanborn's boarding house in Rye some time in June.

The schooner Albert Woodbury went on the marine railway at Kittery on Tuesday, to have her bottom cleaned.

Mr. S. E. Grant, who last season conducted the Mo-ly house at York beach, has given up the lease of that establishment. Mr. Grant is now proprietor of the Limerick house at Limerick, which is receiving a good run of trade.

L. R. Herson & Co.'s wool pulling establishment in Berwick was damaged to the amount of $1200 by fire on the morning of the 8th inst.

The lot of twenty new passenger cars commenced in Salem by the Eastern railroad company are nearly completed, and on Saturday last nineteen men employed on the woodwork were discharged. It was expected that twenty old cars would be brought in at once to be remodelled, but their anticipations were not realized. The last of the lot of new cars are now in the paint shop, and when completed probably more men will be dispensed with. The estimated cost of these cars is $4000 each. In addition, two cars have been purchased by the company at a cost of $5000 each. All of these cars are elegant, and the extensive addition brings the road's rolling stock up to a high standard.

A train on the Eastern railroad, Monday afternoon, struck a man named James Henry Burns as he was walking on the track near the West Lynn station, and fatally injured him. He came from England about eight weeks ago, was twenty-three years of age, and unmarried.

DIED.

MARSHALL. In this city, May 8th, Capt. Edward J. Marshall, aged 78 years.

SENTER. In this city, May 9th, Mrs. Lydia Senter, aged 70 years and 6 months, wife of Mr. Oliver Senter.

SANBORN. In Seabrook, May 8th, Capt. William Sanborn, aged 73 years and 11 months.

MORROW. In Atlanta, Ga., May 8th, of consumption, Helen M. Morrow, aged twenty years, daughter of the late James Morrow of Bangor, Maine.

JACKSON. In Cambridge, Mass., May 8th, of diphtheria, Emma Isabella Jackson, aged 4 years and 3 months.

How young soever you may be,
With failing teeth, you're grim and old;
And losing your mouth's purity,
Your features seem both dull and cold.
Then man or maid, warned of your fate,
Seek SOZODONT, e'er it's too late.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan23

An April Shower that Brought May Flowers.

On Tuesday, April 11th, the 143d Grand Monthly Distribution of The Louisiana State Lottery occurred as it always does on the day fixed. Gen'ls G. T. Beauregard of La., and Jubal A. Early of Va., had as usual the sole supervision. The amount scattered was $110,400—next time it will be over half a million of dollars. The first capital was sold in halves (co-ting each only one dollar) and was drawn by ticket No. 78,681—one-half to Louis Sauer, a well known jeweler at No. 223 Calhoun st., Fort Wayne, Ind.; the other by W. J. Whitney, a locomotive engineer on the Wabash R. R., of No. 418 Broadway, Fort Wayne, also. This city seems in luck. A few months before the capital went there. The second capital, $10,000, also sold in halves to No. 99,746—one-half to State Senator J. B. Judkins, through the German Bank of Little Rock, Ark.; the other to S. L. Hatfield of Boston, Mass. The third capital, $5,000, was sold to ticket No. 78,942, Messrs. Philomene Laurent, No. 315 Chartres st., and J. Pelletier, No. 14 Carondolet st., New Orleans, La. The two-fourth capital prizes, $2,500 each, to ticket No. 18,-193, in halves—one of which went to J. W. Cohen, of No. 630 Pennsylvania ave., and A. M. McDaniels, No. 1900 Fourteenth st., Washington, D. C.; and the other to No. 35,720—sold in halves to parties in Chicago, Ill., and Providence, R. I., and whose names are withheld by request. The next Extraordinary Semi-Annual Drawing will occur June 13th, of which M. A. Dauphin, New Orleans, La., will give any one inquiring the full particulars.

Reading Room free to members and strangers visiting the city. Quarterly Meetings the First Tuesday evenings in November, February, May and August. Election of officers at November meeting.

Fire Companies—At their respective Engine Houses on the first Monday of each month.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Office National Block.....Portsmouth, N. H.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More profitable than bonds. The first-year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
May 10, 12:00 A. M.

Probabilities for New England:—

Fair weather followed by increasing cloudiness and local rains, northerly veering to easterly winds, stationary or lower temperature, rising followed by falling barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 42 degrees above zero.

Sky clear.

CIRCUIT COURT OF THE UNITED STATES.

TUESDAY, May 9th; *Clark J.*

The grand jury were empanelled at eleven o'clock A. M. Seneca B. Congdon, of Lancaster, was appointed foreman.

The following-named gentlemen were returned to serve as petit jurors:

James Hanson, Sam'l W. Wallingford, Milton; Wm. A. Foss, John G. Holmes, Strafford; Alonzo L. Berry, Jefferson; Dana P. Jones, Geo. W Horne, Jr., Durham; Benjamin F. Hayes, Rochester; Frank H. Buzzell, Barrington; Chas. M. Blood, Whitefield; Jabez H. Stevens, Durham; Joseph L. Demerritt, T. Elean Pearl, Farmington; Jno. G. Davis, Joseph E. Jenkins, Lee. Aaron H. Hill, Portsmouth, was summoned as talesman.

The grand jury reported two indictments upon the coming in of the court in the afternoon, and were discharged.

Alvin F. Wheeler, of Troy, indicted for sending a false and forged paper to the pension office at Washington, was arraigned, and pleaded guilty; sentenced to one years confinement at hard labor in the jail at Manchester, [which is the only jail except the one at Concord where sentences to hard labor, in this state, can be performed.]

William Hoag of Jefferson, indicted for being a retail liquor dealer without payment of the special tax in such case provided, and not showing his license as required by law, was arraigned, and pleaded guilty as to the second count in the indictment. Plea accepted by the attorney for the United States. Sentenced to a fine of twenty-five dollars, and costs taxed at seventy-five dollars. W. L. Foster for respondent.

The petit jurors were called, and a jury of which Sam'l W. Wallinford was appointed foreman, was empanelled to try the case Simeon P. Huntress against the Town of Epsom, an action to recover for damages occasioned, as the plaintiff claims, by reason of a defect in a highway leading through said town called the "Concord turnpike," over which he was passing Nov. 12th, 1877, with a loaded team. The jurors left by the afternoon train for Suncook, whence they will go to view the premises on Wednesday, and come in on Thursday at 10:30 A. M., to which time the court adjourned.

POLICE COURT.

TUESDAY, May 9; *Batchelder J.*

Albert W. Ham, for drunkenness, was sent to Brentwood for sixty days, costs being taxed at $5.76.

MAY TRAINING.

Tuesday, May 9th, being "May training day" for the New Hampshire National Guard, the Portsmouth Cavalry, Capt. E. D. Coffin, turned out in good numbers, thirty-nine saddles being filled, and had a drill at the Plains. They made a fine show.

The City Guards drilled in their hall, under command of Capt. Ford, who we understand will soon tender his resignation on account of ill health.

"THE LITTLE SAVAGE."

Few artists who visit Portsmouth are seen with more interest than is Maggie Mitchell. Not that our visitors at Music hall expect to see a new or exciting play, but because they know that she is an artist of great merit, a lady of refined tastes and wonderful powers in the art dramatic, the audience which greets this favorite and her company this evening will be, as it has been on her former appearances in our city, composed of very many of our best people, whose discriminating powers of appreciation may not be learned from frequent applause, as from close attention to the "Little Savage" throughout the piece, and an enjoyment which can be seen and felt better than described and manifested.

MEMORIAL DAY.

Commander-in-Chief George S. Merrill, of the Grand Army of the Republic, has issued the following orders for the observance of Memorial day:

In accordance with the provisions of the rules and regulations, Tuesday, the 30th day of May, will be observed as Memorial day. It is hoped that the unprecedented growth of the Grand Army during the past year will be an incentive to preparation for such a universal observance as belongs to this day of sweet memories and tender service. * *

To the ever-lengthening roll of those already passed from our ranks to join the invisible host beyond, the past year has added the conspicuous names of our beloved comrades, Stephen A. Hurlbut, the first, and Ambrose E. Burnside, third commander-in-chief of our organization; and our great nation has watched through weary weeks of anguish at the bedside, and wept beside the tomb of its stricken soldier president. To our country our comrades offered the service and sacrifice of their lives; let us reverently give one day in loyal devotion to their memories; search out every one of their known resting places, so that in all our broad land, wherever exists a post of the Grand Army, not a single grave of a Union soldier or sailor shall be unvisited—not one which willing finger and grateful hearts do not unite to cover with myrtle and evergreen, and entwine with bright blossoms upon which the glad sunlight has painted something of eternal beauty, tokens of life's frailty, emblems of valor's immortality.

The Ladies Relief Corps of Storer Post, G. A. R., was formally instituted at Grand Army hall on Tuesday afternoon, and previously-elected officers installed in the evening, by officers of the State Relief Corps.

A meeting of the general Memorial day committee was held in the common council room on Monday evening, and the reports of the several sub-committees were received. A committee on music was appointed, and Dr. John W. Parsons was elected treasurer of the general committee. The meeting adjourned to Monday evening, May 15th, at eight o'clock.

The British flag, which has been flying from vessels alongside the Eastern railroad wharf for a good portion of the time during the past month or six weeks, was again displayed there on Tuesday, another vessel having arrived from a port in Nova Scotia with ties for the railroad.

Of the "Electrical Doll" as presented by Atkinson's Jollities, the Boston *Herald* says:

The "musical absurdity" fairly sparkles with gems of song and chorus. Of course there is a happy ending, but ere that is reached the audience is treated to two hours of mirth, music and masquerading. Encores were the order of the evening.

The Boston *Transcript* says:

The piece is full of comical situations, and in portraying them the audience is treated to two hours of almost uninterrupted fun; the military drill in particular is received with roars of laughter. Shouts of merriment and frequent calls for repetitions attest the gratification of the audience.

The Jollities will be at Music hall on Friday evening with their wonderful "doll," and tickets can now be procured at Preston's.

Miss A. C. Morgan's vacation trip to Europe, this season, begins June 17th, when the party will sail from New York in the Inman steamer "City of Berlin" for Liverpool. The steamer is 5600 tons burthen, and the company will doubtless have a most elegant tour. This year Miss Morgan goes to Italy.

As showing the alacrity with which the patriotic people of New Hampshire "seek to hold up the hands of the government" it is asserted that one of the jurymen summoned to serve in the United States court now in session in this city reported for duty just twenty-four hours before the time designated for his appearance.

Capt. Edward J. Marshall, once a well-known shipmaster, but for twenty-five years or more wharfinger for the Portsmouth Pier Co., which position he held until the company's property was sold a few years ago to Samuel Adams & Co. and C. E. Walker & Co., died on Tuesday at the age of seventy-eight years, after a long illness.

Nathans & Co.'s circus opened in Boston on Monday for a week's business. The *Post* endorses the circus as first-class, and says "all the ring performances are good, while many deserve more than a passing comment." This circus will show here on the 19th inst.

A gentleman dining at the Rockingham house Tuesday, remarked to his next neighbor, "I suppose we are dining at the same table with the next governor of New Hampshire." Directly opposite sat Samuel W. Hale of Keene, who apparently considered that he was the gentleman referred to, and in a half deprecatory manner by his looks seemed to say, "You are quite right there, my fellow citizen." Mr. Hale was in town on Tuesday looking over the situation.

James Bailey, alias Alfred Lee, alias Alfred Legg, who was sentenced to hard labor in the state prison at the late session of the supreme court in this county for picking the pocket of Nellie Niles of Portland, Me., in a car at Newmarket junction, on Monday last when he went to work held his neck against a circular saw to commit suicide, and received injuries which will probably prove fatal.

The Boston *Post* of Tuesday says: "Hon. Daniel Marcy of Portsmouth, N. H., is in New Orleans." He must have moved very rapidly, for he was at home on the previous day.

[*For other local matter see second page.*]

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The poison that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 25c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

Depot, WEEKS & POTTER, Boston, Mass.

CATARRH

Sanford's Radical Cure.

and continue on Wednesday and Saturday afternoons for a course of Twenty Lessons.

TERMS:—Eight dollars for the course. A discount will be made for two or more pupils from the same family.

WHAT HAPPENED TO

Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculous or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first day he began to use the medicine; on the 13th of September he passed a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorder, arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

A Situation Wanted

BY a Nova Scotia woman capable of doing general housework, good preferences given. apply at **No. 10 Washington Street.**

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

This is safely from the dangers of strangulation and without the injury trusses inflict. Those wishing proofs should send 10c for his book, containg likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy memory and social desires, making the young old and the old useless. Office, 251 Broadway, N. Y., and 13 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. tmy15

Naval Affairs.

Comdr. A. S. Crowningshield is detached from duty in the signal office, and granted leave of absence for one year.

The training ships Saratoga and Portsmouth arrived at Plymouth, Eng., on the 8th inst. The Portsmouth had been in collision.

Lieut. Chas. W. Christopher is detached from the Iroquois, and placed on sick leave.

The Tennessee, Vandalia, Alliance, Kearsarge, Enterprise and Yantic, composing the North Atlantic squadron, have received orders to proceed to sea for twenty days of squadron drill, and to return to Hampton roads by May 30th.

The Alert was run down by a Japanese war steamer, April 18th, and cut down to the water's edge, while on the way from Kobe to Yokohama. She put back to Kobe for repairs. No lives were lost.

New Hampshire Items.

Minnie Farnharm, the five-years-old step-daughter of Frank Young of Dover, on Monday afternoon got some matches and kindled a fire in the basement of the building. Her clothes caught, and before the flames could be extinguished she was probably fatally burned. The building was damaged to the amount of $300 by fire and water. Mr. Young's loss is $200, with no insurance; he is in the last stage of consumption.

By a collision of two trains on the Boston, Concord & Montreal railroad between New Hampshire and Ashland, Monday afternoon, two men were killed, and two engines, baggage car and several freight cars wrecked. One of the colliding trains was a passenger train, and the other the Passumpsic railroad cattle train. William H. Abel of Laconia, the inventor of the knitting machine, and Hiram Jones of Barre, Vt., a drover, were the persons killed. The train men jumped off in safety, and the other passengers were unhurt.

David Twombly, a machinist employed in C. E. Marston's machine shop at Dover, committed suicide Sunday afternoon by shooting. His body was discovered at 7:30 Monday evening at his lodgings over Pinkham & Lathrop's drug store in Franklin square. Cause unknown.

The Manchester Locomotive Works have contracted with the city of New Bedford, Mass., for one second-sized improved steam fire engine.

Ground was broken in Dover on the 8th inst., for the new horse railroad.

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. The original and tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into dew life the entire process of digestion.

The county jail at Brookhaven, Miss., was entirely consumed by fire Sunday night. Three colored prisoners were burned to death. The fire originated in the cell in which they were confined, and it is believed they set it on fire in hope of making their escape.

Not an experiment or cheap patent medicine is Brown's Iron Bitters. It is prepared by one of the oldest and most reliable chemical firms, and will do all that is claimed for it.

Northfield, Minn., is excited over attempts to blow up the town with infernal machines.

Enjoy all the good things of life, and keep St. Jacobs Oil convenient in case of rheumatism. Such would seem to be the view of Mr. Roberts, business manager of the Milwaukee (Wis.) *Sentinel*, who says: "I believe St. Jacobs Oil to be the very best remedy known to mankind."

The steamship Baltimore on the 8th inst. landed at Baltimore 1275 immigrants from Bremen, who all left for the west the same night.

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a frendly listener, "unless you want to make an animated sign for a drug store, and make the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted

Prepared only at the Laboratory in the market, sold by druggists, or send 90 cts. in 3-ct. Stamps. 3 boxes, $1.25. Address, DR. SWAYNE & SON, Phila., Pa.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single day.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpor, Valdosta, Ga., says:
It is a balmless for all bruises and burns.

From R. W. Adams, San Jose, Cal.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your Pain Killer frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends*.

Its success is due to its merits.

Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before*. Every family should have a bottle *ready for use*. Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines*, it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

A Spring Defence.

How to Repel the Assaults of Ill Health --Dr. Kennedy's Favorite Remedy Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Springtime is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A trifling attack may easily result from neglect or a disordered condition of the bowels. The ounce of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring with indigestion, torpid or disordered liver, want of appetite, constipation, or a feeling of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, condensed and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with disgust. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.
Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR, 173 Prestman st.

Kidney Disease Cured.
Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.
Vine St., Harrisburg, Pa.
Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

PARKER'S HAIR BALSAM.

The Best, Cleanest and most Economical Hair Dressing.
Never Fails to Restore the youthful color to grey hair. 50c and $1 sizes at druggists.
Floreston Cologne.
A new and exceedingly fragrant and lasting perfume. Price 25 and 75c.

PARKER'S
GINGER TONIC
A Pure Family Medicine that Never Intoxicates.
If you are a mechanic or farmer, worn out with overwork, or a mother run down by family or household duties try PARKER'S GINGER TONIC.
If you are a lawyer, minister or business man exhausted by mental strain or anxious cares do not take intoxicating stimulants, but use PARKER'S GINGER TONIC.
If you have Dyspepsia, Rheumatism, Kidney or Urinary Complaints, or if you are troubled with any disorder of the lungs, stomach bowels, blood or nerves you can be cured by PARKER'S GINGER TONIC.
If you are wasting away from age, dissipation or any disease or weakness and require a stimulant take GINGER TONIC at once; it will invigorate and build you up from the first dose but will never intoxicate. It has saved hundreds of lives it may save yours.
HISCOX & CO., 163 William St., New York. 50c. and one dollar sizes, at all dealers in medicines.
GREAT SAVING BUYING DOLLAR SIZE.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

SULPHUR BITTERS. Why suffer with Boils? Why are you all broken out with Pimples? Why have such foul breath? Why are you dull and sluggish? Your system needs cleansing. What makes you feel so miserable? Your nerves are all out of order. Sulphur Bitters is not a cheap rum or poor whiskey drink, but is a pure medicine made from the choicest ingredients, which will stimulate the liver, regulate the bowels, purify the blood, and restore the system to a healthy condition. It is composed of the choicest Roots, Herbs and Berries combined with the purest Sulphur Springs water, and in such proportions as to make it a perfect Great Nervine.

SULPHUR Bitters

Daily Chronicle.

Anna Dickinson as Hamlet.

SPRINGFIELD, Mass., May 6th.

Of course you know that Anna Dickinson is making a provincial tour through the middle and eastern states, playing "Hamlet" with a carefully selected support. Well, Miss Dickinson and I chanced to strike Springfield on the same day. There was no collusion in this, only a mere coincidence. Attracted by the masculine lithographic cuts of Miss Dickinson which were displayed upon the billboards and in the shop windows everywhere about the city, as well as by her fame as an intrepid reformer, I resolved to witness the celebrated lady in this, the most difficult role, and yet most attractive of Shakespeare's heroes. Booth has done much to immortalize the play, and as I had seen his Hamlet, I was desirous of making a comparison. Yet I ought not to have done so. It was unfair to the fair lady in question. Not that I am not in favor of women's rights. I believe that a woman has all the rights that belong to a man. The right to life, liberty and the pursuit of happiness. Life of course, with all that it implies—liberty to do what she can to improve her-elf, to evolve herself from a lower condition to a diviner one, and in doing this to pursue any avenue through which man has travelled, or through which he has never travelled or even explored, provided she does not interfere with the rights of her neighbor, be he man or be she woman—the pursuit of happiness, yea, God bless her, the happier the better. But Miss Dickinson's audience was not thus liberal. And so she had to struggle against great odds. In the first place, as a matter of course, she was compelled to appear in masculine attire. In doing this, she labored under the double embarrassment of being a special target of criticism from the feminine portion of the house, and that of being particularly awkward in this (to her) unbecoming garb. She has not a comely form. I never observed it when I have seen Anna on the stage as a lecturer, dressed in the conventional female cover, but she seemed very round-shouldered and hunched in her tunic and tights. In addition to this, too, whenever she said anything that called for violent declamation, she hunched up all the more, so that her head appeared to be right down on her shoulders, the effect being similar to that of a turtle suddenly hiding himself in his shell after being surprised by a rap on the back. However, this was only a physical obstacle to success, and it was something that one ought to shut his eyes to, but I couldn't. Her colloquy with Horatio about the ghost that had appeared to him and his companions was very good, but when the ghost introduced himself to Hamlet, her Hamlet very unnaturally rushed toward it (the ghost) at once, instead of behaving a little distrustfully at first, and not giving himself away as an already converted apostle of spiritualism. But we forgive all this in the knowledge of the fact that Miss Dickinson's ideal Hamlet is a very impulsive boy, instead of a cool and level-headed man of thirty or so. Some of her acting was very good indeed; but every one of her climaxes was marred by a flat, shrewish voice, that she couldn't help, and yet it told greatly upon the effect of her effort. The same intelligent conception of the part, if uttered by a good male voice, would have been simply grand—as grand as any of Booth's efforts in this role. So you see Providence (whatever that may mean) never designed her to play Hamlet with success, as I look at it. Still, I think she is wonderfully energetic, and commendably aspiring to essay such a task, even if she does fail. It may inspire some other woman to take it up and succeed better. I omitted to mention that the famous soliloquy of "to be or not to be" was excellently rendered. But the effect of that, too, was greatly marred by her posture. She came upon the stage and dropped, as suddenly as if stricken with paralysis, upon an uncomfortable looking chair that had been placed with its back to the audience, and there, crouched upon its edge, recited her meditative lines. As I have hinted, the emphasis was natural and therefore good; but she didn't know how to sit gracefully with a man's clothes on; i. e., if it was necessary for her to sit, which I gravely question. It seemed to me, if I may be forgiven the illustration, that she suspected some designing rogue had placed a robust tack or pin in the chair, and hence the cautious dropping upon its edge, instead of sitting right down squarely upon its seat.

On the whole, though, Miss Dickinson did well, and deserves encouragement for daring to break through the terrible bonds of conventional restraint which society is ever holding before those who have put on the armor of reform, and are acting as outposts in the great battle of the soul's emancipation. Looking at her, as a whole, in spite of her faults and failures, she is a heroine, and as such a success.

I learn that her venture is not a *financial* success, by any means, for which she has my profoundest sympathy. If everybody does as well as I did, however, she will be pecuniarily rewarded, for notwithstanding this lengthy notice of her performance I was not a dead-head, but paid full fare. Go and do thou likewise, reader, if she comes along.

SOJOURNER.

Eighty-Five Dollars Lost.

"You do not tell me that your husband is up and entirely cured by so simple a medicine as Parker's Ginger Tonic?" "Yes, indeed, I do," said Mrs. Benjamin to her neighbor, "and after we had lost eighty-five dollars in doctor's bills and prescriptions. Now my husband feels as well as ever."

The Newfoundland seal fishery this spring is a failure, owing to the inability of the vessels to get through the ice to the sealing grounds.

"We were seized a few mornings ago by a terrible pain in the left shoulder and neck," says W. F. Cook, Esq., editor of the Canajoharie (N. Y.) *Courier*. "Having been favorably impressed for some time with the virtue of an article recommended for all sudden pains, and especially rheumatism, we thoroughly rubbed the offending part, and in less time than we write it, relief came. The article in question is St. Jacobs Oil, and we are loud in its praise."

C. EVERETT

Informs his former patrons and the public in general that he has resumed business at

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them a speedy and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1878.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. Jlawtjauz8

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers. Address J. H. REEVES, 43 Chatham St., N. Y.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

—It is a difficult thing for a dog without a tail to show his master how much he thinks of him.

My Head Was Fairly Rotten,

And how much I suffered it is hard to describe. That loathsome disease, catarrh, caused the above, and the doctors said they could not relieve me. I paid hundreds of dollars, for which I received no benefit. I got more good from two bottles of Sulphur Bitters than from all the money I paid to doctors. I shall continue the Sulphur Bitters as I have great faith that they will cure me.—*Section Hand, Lowell.*

—There's an immense difference between dinner for nothing, and nothing for dinner.

The Secret Out at Last.

It has long been a source of wonder, as to why Courtney failed to meet Hanlan in a sculling contest. The general explanatory argument was, that he feared the little Canadian. The opinion, however, is exploded by the authentic announcement, that on the days fixed for the race, Courtney was unable to sit in his shell, on account of the intense itching and soreness caused by the piles. Having recovered through the use of Swayne's Ointment, he now announces that he will row Hanlan any time this summer.

—Pastor—"When father and mother both abandon you, who then will take you in?" Scholar—"The police."

A Peerless Perfume.

The refreshing aroma of Floreston Cologne, and its lasting fragrance make it a peerless perfume for the toilet.

—"My wife," remarked Fitznoodle, "is fairly crazy over the fashions. She's got the delirium trimmins."

Not an experiment or cheap patent medicine is Brown's Iron Bitters. It is prepared by one of the oldest and most reliable chemical firms, and will do all that is claimed for it.

Portsmouth Chronicle.

THURSDAY, MAY 11, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

News and Notes.

George Otto Trevelyan has been appointed chief secretary for Ireland, vice Lord Frederick Cavendish, murdered, and has accepted the position. Trevelyan's appointment is said to be very satisfactory to the Irish members of parliament.

The chief signal officer at Washington is making arrangements to communicate this summer with the Arctic signal service stations at Point Barrow and Lady Franklin bay. Negotiations are pending for the charter of a suitable ship at San Francisco to take stores to Lieutenant Ray, and an officer has left Washington for St. Johns, Newfoundland, to get transported in a sealing vessel to Lieutenant Greely's station at Lady Franklin bay.

Says the Portland *Advertiser*: "A few months ago the various branches of the Land League in America were contributing thousands to assist in carrying on the great rebellion. Now they are anticipating even the English authorities in offering rewards for the capture of the murderers of Cavendish and Burke. Nothing goes further to prove—if there were need of proof—that assassination formed no part of the programme of the league. The crime lies at the doors of the desperadoes who have plotted the blowing up of English vessels. The end of Fenianism, at least in the British dominions, is at hand, and none will help more zealously to stamp it out than right-minded Irishmen."

John C. Newhouse, one of Chicago's earliest settlers, has died at his residence there in squalid poverty. His wife, to whom he had given property worth $200,000, refused to allow him a pillow when he was dying.

In New York, on the 9th inst., Eliza Harrington, aged eighteen years, attempted to commit suicide by jumping into the river. She was rescued and arraigned in a police court, when she stated that she went to New York from Bridgeport, Conn., two weeks before, with a young man, who ruined and then deserted her; that she tried to find respectable employment, but failing, had become desperate. She was committed to the House of Mercy for six months.

The ninth annual session of the supreme lodge of the Knights of Honor met in Baltimore on the 9th inst. Delegates were present from nearly every state and territory in the union.

Louis Klemm of Milwaukee, Wis., a striking cigar-maker, being unable to obtain work on account of belonging to the union, with wife and five children starving, suicided by hanging himself.

Marshal H. Mallory, proprietor of the Madison square theatre, New York, has been granted, by Judge Wallace, a permanent injunction against Steele Mackaye from playing "Hazel Kirke."

In the national house of representatives, Mr. Dezendorf, by unanimous consent, from the committee on naval affairs reported back the bill introduced by Hon. Phineas Jones of New Jersey, to provide for the payment of bounties due to the officers and crews of naval vessels under the command of the late flag officer D. G. Farragut, which was referred to the committee of the whole house on the private calendar, and the accompanying report was ordered printed. This looks very much like business, and the indications are that the long-delayed payment of the balance of the New Orleans prize money will soon be made.

"The Season" is a monthly fashion magazine recently established, containing the n-west Paris fashions and the most elegant designs in fancy-work, needle-work, embroidery, crochet, etc. Among the features that add greatly to its interest is the gallery of national and historical costumes, which gives in each number two engravings with descriptions of historical costumes of interest. Each number contains two large colored plates; the work does not treat of science or literature, but confines itself to subjects belonging solely to female attire and the toilette, and in spite of the moderate price, furnishes more patterns and designs than any paper yet published. Published by the International News Co., No. 31 Beekman street, New York city; annual subscription, $3.50; single numbers thirty cents each, procurable at the bookstores and newsrooms.

We have received the February number of "The New Moon," a bright, popular, illustrated monthly of thirty-two pages, published by the New Moon Publishing Co., Lowell, Mass., at the low price of $1 a year. Its novel title promises much, and its popularity seems assured.

District Police Officer Thomas of South Weymouth, Mass., assisted by Officer Locke of Quincy, seized thirty dozen smelts in a Boston bound express team on the 8th inst. They were consigned to the Fifth Avenue hotel, and other well-known establishments in New York, and are alleged to have been caught and shipped by W. Gardner Prescott, ice dealer of Quincy. The penalty of taking smelts at this season in Massachusetts is $5 for each fish, one-half of which goes to the complainant. If the officers prove their case in the present instance, therefore, they will realize a very handsome reward for their vigilance.

A despatch from Gloucester, Mass., says: "Herring catchers continue to meet with good success, and the old fishermen says the like was never known before on these shores. One hundred and seventy barrels were taken in a trap at Magnolia in one night last week. The schooner Northern Eagle took forty barrels on the 4th, sixty-five barrels on the 6th, sixty-six barrels on the 7th, and seventy-eight barrels on the night of the 8th. The schooner Phenix took sixty barrels, and the Rising Star fifty barrels, on the night of the 8th."

Isaac Downing, of Kennebunk, died on the 6th inst., and was buried on the 9th. He was a member of the Masonic Grand Lodge of Maine, having been senior grand warden, and had been a mason fifty-five years. He was about eighty years old.

The Scoville's Again.

An argument was heard on the 9th inst. in the supreme court at New York by Judge Donahue, on the return of a writ of habeas corpus obtained the day before by Mr. Scoville, who claims that his wife is being held in custody by her brother John W. Guiteau, who refuses him all information of her whereabouts. Scoville claims that his wife is of unsound mind, and that her efforts in behalf of her brother have impaired her intellect. J. W. Guiteau denies that his sister is in his custody, and claims to know nothing of her whereabouts. The case was adjourned.

It appears that Mr. Scoville visited the police headquarters on the 8th to obtain the aid of the police in the search for his wife. He declared then that she was restrained of her liberty by her brother, against whom he threatened legal proceedings.

The Chinese Must Stop Out.

President Arthur has signed the anti-Chinese-immigration law, and it goes into effect in ninety days. All Chinese intending to emigrate to this country will have to come before August. After that the bars will be put up for ten years. No Chinaman can become a citizen, and Chinese residents wishing free departure from and return to the country must provide themselves with passports. The measure is a wide departure from the traditional policy of this nation. San Francisco advices say the signing of the bill by the president gives much satisfaction. Despatches from the interior announce great exultation over the news, and in a number of interior cities guns were fired and other demonstrations made.

MARRIED.

CLOUGH—PIKE. In this city, May 9th, by Rev. John A. Goss, Mr. Herbert A. Clough and Miss Mary J. Pike, both of Kittery, Me.

AMAZEEN—HURD. In Newcastle, May 7th, by Rev. G. D. Garland, Andrew W. Amazeen of Newcastle and Miss Ada A. Hurd of Lincoln, Me.

DIED.

MARSHALL. In this city, May 9th, Capt. Edward J. Marshall, aged 76 years.

☞ Funeral from his late residence this (Thursday) forenoon at eleven o'clock.

ORION. In Temple, May 7th, Mr. Thomas Odlon, aged 82 years and 8 months. The remains were brought to this city for interment.

EATON. In Sedgwick, Me., April 22d, at her father's residence, Miss Alice Eaton, recently of Boston, Mass.

She had been suffering for nearly a year from the effects of a fall, but her friends were very hopeful of her recovery until a few days before her death, when pleurisy fever set in, and after severe suffering she died April 22d. She leaves father, mother, sisters and brother, and many dear friends who sincerely mourn her loss and to whom she had endeared herself by her true Christian character and unselfish disposition. The patience with which she bore her tedious illness, and her appreciation of every effort of her friends to relieve and make here comfortable, was remarkable.

Patient Alice, kind and gentle,
Farewell till we meet once more;
Thou art watching, waiting for us,
Thou will greet us on the better shore.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troc es" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&w1jan82

How young soever you may be,
With falling teeth, you're grim and old;
And losing your mouth's purity,
Your features seem both dull and cold.
Then man or maid, warned of your fate,
Seek SOZODONT, e'er it's too late.

Notice.

THE SUBSCRIBER gives notice that he has been duly appointed administrator with the will annexed of the estate of Ellen T. Pickett, late of Portsmouth in the County of Rockingham, deceased, testate.

All persons indebted to said estate are requested to make payment; and all having claims to present them for adjustment.

Portsmouth, May 10th, 1882.

Fire Companies—At their respective Engine Houses on the first Monday of each month.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—no *assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

THE LOBSTER LAW.

By special request we publish the sections of the fish laws of New Hampshire which relate to the protection of lobsters, as follows:

SECT. 16. No person shall catch, preserve, sell, or expose for sale, within the limits of the state of New Hampshire, any lobster between the fifteenth day of August and the fifteenth day of October of each year; and from the said fifteenth day of October to the fifteenth day of August next following of each year no lobster shall be caught, preserved, sold, or exposed for sale, under ten and a half inches in length, measuring from one extreme of the body to the other, exclusive of claws or feelers, nor shall any female lobster be killed or destroyed while carrying her spawn or hatching her young; and any person violating any provision of this section shall be punished by a fine of ten dollars for every lobster so caught, used, sold, or exposed for sale, as aforesaid.

SEC. 25. All fines, penalties, and forfeitures imposed and incurred under the provisions of this chapter, shall go one-half to the use of the complainant. *

From the foregoing it will be seen that the penalty for catching, offering for sale, or having in possession lobsters not up to the legal standard in size, is a serious one; and that one-half the fine goes to the person making the complaint. The housekeeper who has in the house an "illegal" lobster is liable to the full penalty, possession being "*prima facie* evidence of violation of the law."

The Game & Fish League of the state, of which organization Hon. Marcellus Eldredge of this city is one of the vice presidents, have published in pamphlet form the game and fish laws of New Hampshire, and any person sending to the office of the Manchester *Mirror* a three-cent postage stamp can procure a copy; so no person need infringe the law through ignorance.

The city councils of Portsmouth have elected a fish and game warden to enforce the provisions of the bird, fish and game protecting laws, and under the statute he has "all the powers * * that are now vested in police officers and constables of this state," in enforcing the laws specified.

AROUND HOME.

To-morrow evening, in Music hall, the amusing musical comedy "The Electrical Doll" will be presented by an excellent company. The entertainment offered will deserve a full house.

Capt. James E. Ford, of the Portsmouth City Guards, has forwarded his resignation to Col. John B. Hall of the 1st Regt. on account of ill health. The company, now under command of Lieut. William E. Grogan, is undergoing a thorough overhauling, and we have every reason to expect a fine appearance of the company on the 30th inst.

The pupils of Miss Lizzie Davis and Miss Alice Swasey had a social and musical reunion at the house of Miss Davis on Tuesday evening of this week, between thirty and forty persons being in attendance. The early part of the evening was devoted to musical recitations and instrumental music, and later all partook of a bountiful repast. The young lady teachers named enjoy the well-earned confidence of all who have been under their instruction.

The senate on the 9th inst. passed all the pending house bills donating condemned cannon for monumental, cemetery and other purposes. The committee report in all cases for the donation only of cast-iron ordnance, the supply of the bronze or brass material having been exhausted, and further provide that the guns shall be used only for ornamentation and not in the construction of monuments. One of the bills provides for the donation of cannon to the Soldiers' Monument Association of this city.

A fisherman named Amazeen brought in 277 lbs. of hands me cod-fish, taken by hand-line, on the 10th inst., and Edward Amazeen brought in 216 lob-sters; both fares were bought by John Caswell & Co., near the Spring market. A considerable quantity of fish, brought in by shore boats, was bought by George Herbert the same day.

Mrs. Mary Leehy, wife of James Leehy, was taken to the county insane asylum at Brentwood on the 10th inst., having attempted to commit suicide by cutting her throat. She made three gashes, but the wounds are not considered dangerous.

The fishing schooner Sylph, Hiltz master, arrived at this port on Tuesday evening of this week, and in making a berth at a wharf ran into and smashed a lobster-car belonging to Randall & Caswell, letting all the lobsters out.

Two British schooners arrived at the Eastern railroad wharf on the 10th inst. from the provinces, with ties to the railroad company. Six more schooners were reported as being on the way from Nova Scotia ports, with similar cargoes.

The construction of the new schooner now being built by Mr. Fernald at Freeman's point has progressed so far that the calkers have commenced work on her.

Mr. Fred Frisbee will open to the public in about ten days the Eldorado house at York beach. There is a good bowling alley attached to the establishment, and the yacht Wanderer is kept in readiness to accommodate fishing or sailing parties.

Rev. A. J. Patterson, formerly of this city but now pastor of the Roxbury Universalist church at Boston Highlands, was recently presented with a beautiful gold watch—a Howard stem-winder costing $150—the occasion being his 55th birthday. At the same time Mrs. Patterson who occasionally fills her husband's pulpit during his absence, to the entire satisfaction of the congregation, was presented with a fine writing desk of black walnut, costing $100. Both presents were made by the members of the church and congregation.

Miss Mary Huntress, of Newington, has a cow which she purchased in 1862, the animal being at that time four years old; she is in good condition, and furnishes milk sufficient for two families; besides butter enough for her owner's use. The cow's dewclaws are four or five inches long, and her last calf was produced in 1879.

The schooner Christie Campbell, Jameson master, came in on Wednesday evening for an outfit, but brought in no fish, having just sold a full fare at Rockport, Mass.

At the bench show of dogs by the Massachusetts Kennel club, in Music hall, Boston, this week, the red Irish setter "Dash Elcho," aged three years and six months, entered by Mr. Joseph H. Locke, took the first prize in class thirteen, for Irish setter dogs.

One of the suggestions for Decoration day is that instead of having the soldiers' graves adorned with bouquets or strewn with perishing flowers, there should be planted hardy perennials which would bloom from year to year.

The Railroad Consolidation War.

Hon. William E. Chandler has instructed his counsel at Concord, Messrs. Bingham & Mitchell, to proceed at once against the Concord railroad company for contempt of the injunction of the supreme court against the contract made by that company with the Boston & Lowell company for a joint operation of the two lines and a division of the receipts. The *Monitor* in a vigorous editorial "begs to remind the railroad managers who are thus flagrantly defying public opinion and incurring contempt of judicial judgments, that while railroad money and passes may control the state house the courts still control the jails!" and declares, "We misjudge the gentlemen who constitute the supreme bench if they tolerate such a reckless, glaring, bold and criminal defiance of deliberate orders as has been perpetrated by the Concord railroad managers."

The Boston *Post* has reduced its price to three cents a copy, and seventy-five cents a month. The *Post* is one of the very best papers in New England, and barring an occasional lurch toward the democratic side of politics, is in every respect reliable. The yearly price is $9 for a single copy, $8 per copy for clubs of five, and $7.50 per copy for clubs of ten, cash in advance.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loathsome appearance is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 12 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that "through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The poison that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

Depot, WEEKS & POTTER, Boston, Mass.

WHAT HAPPENED TO

Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculous or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first day he began to use the medicine; on the 15th of September he voided a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties of the Kidneys and Bladder, or any disorder, arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, neither a stimulant nor a narcotic, but the most perfect nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to avoid sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a medicinal Bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Rupture

Its Relief and Cure as certain as day follows day by Dr. J. A. Sherman's method.

With safety from the dangers of strangulation and without the injury trusses inflict. Those whose ruptures should send 10c for his book, containing likenesses of bad cases before and after cure, also testimonials of professional gentlemen, Ministers, Merchants, Farmers and others who have been cured. Trusses and Rupture sooner or later affect the nervous and mental system, bring on organic diseases, impotency, destroy energy and social desires, making the young old and the old useless. Offices, 251 Broadway, N. Y., and 43 Milk st., Boston. Days for consultation, each week—New York, Mondays, Tuesdays and Saturdays; Boston, Wednesdays, Thursdays and Fridays, every other week. tmy15

Bugus Satsuma Ware.

Prof. E. Morse, in a recent lecture, struck a fatal blow at the rage for what is called Japanese decoration, which has transformed so many otherwise elegant homes into nonsensical curiosity shops, and made many unambitious esthete simply a collector of spurious antiquities. The professor knows whereof he speaks, having studied his subject on the ground. He says:

"Satsuma ware (which is not held in any special estimation in Japan) is of four kinds—the gray painted, the gray inlaid, the brown and the light-colored or yellow. If we may believe the Japanese themselves, who surely ought to know, yellow clay was not discovered until the present century, and there is no ancient Satsuma pottery, dealers in this country to the contrary notwithstanding. All articles of real Satsuma are small, and have no stamp upon them; and plates with heavy rims, cups with handles and saucers and pitchers have absolutely no existence as genuine Japanese pottery. Two rare old articles of genuine Satsuma ware, which I obtained at great trouble and expense, were made sixty-five years ago.

The large articles sold as ancient Satsuma are from two to four years old, are principally manufactured in Tokio, and are rubbed with charcoal dust to give them an appearance of age. I have myself stood beside an agent of an American firm which deals in 'Satsuma' ware, and heard him give an order for a great quantity of this 'ancient' pottery, directing the designs and telling the maker to put on plenty of decorations, no matter what. These large pieces are regarded by the Japanese as abominable paraphrases, and a name is applied to them which signifies that they are made solely to be exported. They are for the most part not Satsuma at all, but Awata, and the decoration is performed by children and cheap workmen of all kinds."

Lima Beans.

Lima beans should be planted in rows four feet apart, and the hills two to three apart in the rows. Cultivate and hoe lightly, but allow no weeds to grow. Let no other plants of any kind be near them. Limas want rich land, but above all they want plenty of room, plenty of sun and no weeds. Plant the beans as early as the soil can be got warm and mellow. Put five or six of the beans in each hill, and cover one or two inches deep. The poles should be six or seven feet long, and put firmly in the ground eighteen inches to two feet deep, which is best done before planting the beans.

A customer of the Bank of France was recently going down the steps with five thousand francs of gold in a handkerchief, when the handkerchief broke and the money went rolling over the sidewalk among the crowd. The bystanders helped him pick the money up, and every coin was returned to its owner.

The only iron preparation that does not color the teeth, and will not cause headache or constipation, as other iron preparations will, is Brown's Iron Bitters.

—"Poor fellow! he died in poverty," said a man of a person lately deceased. "That isn't anything," exclaimed a seedy bystander. "Dying in poverty is no hardship; it's living in poverty that puts the thumbscrews on a fellow."

Kidney Disease.

Pain, irritation, retention, incontinence, deposits, gravel, etc., cured by "Buchupaiba." $1. Depot, J. H. Thacher's.

"Rough on Rats."

Clears out rats, mice, roaches, flies, ants, bed-bugs, skunks, chipmunks, gophers. 15c. Druggists.

—The man who originated the saying, "Hurry is the mark of a weak mind," never was chased by a bull-dog.

A Vigorous Growth

Of the hair is often promoted by using Parker's Hair Balsam. It always restores the youthful color and lustre to gray hair, gives it new life and removes all irritation and dandruff.

—"What is the matter, old fellow? You seem worried." "Well, I am—I'm being dunned up hill and down dale by my infernal creditors." "Oh, you owe a large sum of money?" "No, but a great many small sums, and debts are like children—the smaller they are the more bother they are."

A Traveler's Story.

After spending months at watering places and consulting the best physicians without benefit, I returned home disheartened and expected to die. A friend urged a trial of Parker's Ginger Tonic. Three bottles and careful diet have brought me excellent health and spirits, and I hope my experience may benefit similar sufferers.—Cincinnati lady. See other column.

—Apprentice: "Ever since I came to my new master I haven't been able to swallow a piece of meat." Mother: "Poor boy, were you homesick?" "Oh, no, we don't get any meat."

A Burglar Captured.

This morning about two o'clock, John Wood, the well known plumber, who resides on Main street, was awakened by hearing glass break, on getting out of bed he received a severe blow on the head; he immediately grappled with the burglar, and after a terrible struggle succeeded in holding him until his wife obtained help. On being searched at the station, Mr. Wood's watch and wallet was found on his person. He gave the name of Robert Terry. The broken glass proved to be a bottle of Sulphur Bitters which had almost cured Mrs. Wood of rheumatism.—*Exchange.*

—A fashionable young lady being asked to subscribe for "The Woman at Work," exclaimed, "Why I never heard of such a thing in good society. A woman at work? How too awful!"

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a friendly listener, "unless you want to make an animated sign for a drug store, and make the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted

SWAYNE'S OINTMENT

AN UNFAILING REMEDY FOR ALL SKIN DISEASES

SUCH AS TETTER, ITCH, SORES, PIMPLES, ERYSIPELAS, RING WORM, BLOTCHES, &c.

OINTMENT

THE GREAT CURE FOR ITCHING PILES

Symptoms are moisture, extreme itching, worse at night; sensation as if pin-worms were crawling about the rectum; the private parts are often affected. An element, unassailed and positive cure, SWAYNE'S OINTMENT is superior to any article in the market. Sold by druggists, or send 50 cts. in 3-ct. stamps, 3 boxes, $1.25. Address, Dr. SWAYNE & Son, Phila., Pa.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the most *effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After four years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpar, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years use it never has failed me.

W. W. Lunn, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before*. Every family should have a bottle *ready for use*. Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines it is perfectly safe even in the hands of a child.* Try it once, and you will be convinced of its virtues, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw four strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

ELYS' CREAM BALM CO., Owego, N. Y.

A Spring Defence.

How to Repel the Assaults of Ill Health
--Dr. Kennedy's Favorite Remedy
Means Something for You.

The months of March, April and May are the three successive arches of a bridge which connect the season of ice with that of leaves and roses. No less in respect of health than outward natural phenomena is this true. Spring is a trying season for invalids, and particularly for those who either suffer, or are liable to suffer, from Biliousness, Kidney complaints and Constipation of the Bowels, and for women who are chronically subject to any of the long catalogue of physical ailments to which their delicate sex is heir. Indications of disease in Spring should be heeded at once. A fatal attack may easily result from neglect or a disordered condition of the bowels. The occasion of prevention may be had where tons of cure—or attempted cure—may be unavailing. Are you vexed or troubled in Spring by indigestion, torpid or disordered liver, want of appetite, constipation, or a feverish state of the skin? If so take without an hour's unnecessary delay Dr. Kennedy's Favorite Remedy. No medicine is so harmless and yet so quick and positive in its action. It is Nature's own idea, concocted and made tangible by human skill. Do not leave home when going upon a journey without a bottle of it in your valise. You cannot possibly put one dollar in any other shape where it can render you so essential service. The Favorite Remedy is almost instaneous in its action, but does not tear you to pieces with its violence nor nauseate you with illnesses. It frees the liver from bile and sets the machinery of your body into normal and healthy operation. Remember: Dr. D. Kennedy's Favorite Remedy. Ask your druggist for it and take nothing else. Price One Dollar a bottle.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR, 173 Prestman st.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JENNIE HISS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

PARKER'S HAIR BALSAM.

The Best, Cleanest and most Economical Hair Dressing.

Never Fails to Restore the youthful color to gray hair. 50c and $1 sizes at druggists.

Floreston Cologne.

A new and exceedingly fragrant and lasting perfume. Price 25 and 50c.

PARKER'S

GINGER TONIC

A Pure Family Medicine that Never Intoxicates.

If you are a mechanic or farmer, worn out with over-work, or a mother run down by family or household duties try PARKER'S GINGER TONIC.

If you are a lawyer, minister or business man exhausted by mental stress or anxious cares do not take intoxicating stimulants, but use PARKER'S GINGER TONIC.

If you have Dyspepsia, Rheumatism, Kidney or Urinary Complaints, or if you are troubled with any disorder of the lungs, stomach, bowels, blood or nerves you can be cured by PARKER'S GINGER TONIC.

If you are wasting away from age, dissipation or any disease or weakness and require a stimulant take GINGER TONIC at once; it will invigorate and build you up from the first dose but will never intoxicate. It has saved hundreds of lives it may save yours.

HISCOX & CO., 161 William St., New York. 50c. and one dollar sizes, at all dealers in medicines.

GREAT SAVING BUYING DOLLAR SIZE.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Most of Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? They will burst out on your neck and face. Why have Salt Rheum? Why let your blood get so bad that a humor can lay and fester on that foul blood? Why let your system get so full of poison that a boil will come on any part of your body? Why let your liver become torpid, your food not digest, your bowels become costive, your nerves are all unstrung, and you tremble and feel miserable? Why not take SULPHUR BITTERS and be happy? Why not be healthy? Why not be free from all these troubles? Why not take SULPHUR BITTERS and be free? Why not take SULPHUR BITTERS and be free from all these troubles? Why not take SULPHUR BITTERS and be free from all these troubles? Why not take SULPHUR BITTERS and be free from all these troubles

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

FRIDAY. MAY 12. 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The New Hampshire Club.

The New Hampshire Club had its regular monthly dinner at Young's hotel in Boston on the 10th inst. There were about eighty members present, and among the guests were Ex-Senator Wadleigh and Ex-Governor Weston of New Hampshire, and Gen. Wilson of the New York & New England railroad. The following vote was passed, extending the hospitalities of the club to Hon. W. E. Chandler, secretary of the navy.

Resolved, That the New Hampshire Club extended an invitation to Hon. W. E. Chandler, secretary of the navy, to be the guest of the club at its June meeting.

News and Notes.

Rev. Elias Dowe, of Deerfield, near Adrian, Mich., a Methodist minister, has been arrested, charged with burning a parsonage two years ago.

Judge Lochran, of Minneapolis, Minn., has instructed the grand jury to indict the participants in the lynching of McManus for murder in the first degree.

The trial of the Malleys and Blanche Douglass for the murder of Jennie E. Cramer is progressing at New Haven, Conn. On the 10th inst a large number of witnesses testified that they saw Jennie and Blanche Douglass, with the Malley boys the afternoon and evening preceding the murder. This testimony in the trial is held by the state to be of the utmost importance. By these witnesses the state claimed to have shown that pretty much all of that Thursday afternoon and evening, Aug. 4th, Jennie was in Blanche's company, flatly contradicting the prostitute's statements.

The jury in the suit of Miss Catharine A. Pennington against the Pennsylvania railroad company, tried at Philadelphia, to recover compensation for permanent injuries received in the Bear swamp accident a year ago, rendered a verdict in the lady's favor for $10,000.

Donald McDonald and James Fowler, two young men, are under arrest for the robbery of the post office at Jacksonville, Fla. McDonald has confessed to this robbery, and also to other robberies and a murder. There is considerable excitement over the arrests, as both the men are well connected.

Hon. T. B. Reid it is conceded will be renominated as one of the representatives in Congress from Maine. There can be little doubt that the conduct of Gov. Plaisted in his official career will sufficiently disgust the Maine voters to insure a very large republican majority at the September election.

George Gardner of East Gloucester, Mass., aged twenty-three years, suicided with arsenic on the night of May 9th.

A man about twenty-one years old, named James McDonald, has been arrested at Bellows Falls, Vt., for highway robbery. McDonold and a railroad employe named Sullivan were together across the river in New Hampshire, when McDonald is reported to have drawn a large knife and demanded "money or life" of Sullivan, who chose the former and gave about $35 to him. He was arrested soon after, and taken to Keene for trial by Sheriff Perry of Walpole.

The assessors of Portland, Me., will assess for taxation the property of the Freemasons, Odd Fellows and other secret societies in that city.

Mrs. Catherine B. Folsom, aged seventy-two years, a retired milliner of Lowell, Mass., hung herself May 10th.

The British schooner Pet was sunk in March last by a sperm whale, while on the passage from Bunbury, West Australia, for Melbourne. The schooner was about fifty miles from Cape Leeuwin when a large sperm whale was sighted on the starboard quarter, and it suddenly charged the ship. So unexpected was the onslaught made that there was no time to take any steps to evade or repel the attack. The huge animal struck the vessel on the starboard bow, knocking a large hole in her. The captain at once saw that the ship was lost, and ordered away the boat. This having been accomplished, and provisions and water thrown in, the captain descended to the cabin for his log-book and papers, but before he could regain the deck the vessel sank, and he was drowned. The survivors, six in number, were picked up by another vessel.

Dr. Euston Buckner, of Greenville, Miss., was a slave to opium. While under the influence of the drug he wandered into a neighbor's house, and was killed in the dark as a burglar.

The people of All Soul's church at New York have raised a fund of fifty-two thousand dollars for the support of the widow and children of Rev. Dr. Bellows, who was their pastor many years.

Eight persons were killed and forty injured by a hurricane which wrecked many buildings at McAllister station, in the Indian territory, Tuesday night, May 9th.

A gentle chaffing between Senators Hoar and Rollins has been magnified by the correspondent of the New York *Sun* into a deadly feud. The sensational correspondent must have been badly sold by some wicked fellow.

By a fire-damp explosion in a mine at Bochum, Westphalia, many lives were lost; fifty-six dead bodies were recovered up to the 11th inst.

Books, Magazines, Etc.

During Mr. Aldrich's absence in Europe the "Atlantic" will be edited by Mr. H. E. Scudder.

The author of "Will Denby" in the "No Name" series has a new novel in press, the scenes and incidents of which deal with modern Irish life.

Among the recent new papers which have come to our table, is "Outing: a journal of recreation," published at Albany, N. Y., to appear monthly, at $1.00 a year. It is designed to afford information and facts of every kind for all who seek recreation. It gives information as to pleasure and health resorts, travels, out-of-door sports, etc., and will it is claimed fill a new place in journalistic niches. The first number contains a view of "Woodlawn," Judge Hilton's cottage at Saratoga. It is finely printed upon tinted paper. Wm. B. Howland is the publisher, at No. 59 North Pearl street, Albany.

Naval Affairs.

Rear Admiral Balch, commanding the Pacific Station, reports to the navy department under date of Callao, Peru, April 19th, that the Lackawanna left there on the 16th for Chimbote, and was expected to return on the 28th, and that the Alaska, upon her return to Callao from Panama, will cruise in search of the island reported by the German schooner Phœnix.

Master W. H. Nostrand has been detached from the coast survey steamer Eagre, and placed on waiting orders.

RAILROAD NOTES.

An exchange says "the Boston & Maine railroad, aided by the Boston, Concord & Montreal railway company, will make another effort the coming summer to secure a charter for the proposed Lake Shore road in New Hampshire." It will be a good time for the Boston & Maine lion and the B. C. & M. lamb to lie down together, the coming summer, as there will be no session of the legislature this off year to disturb the amicable relations of the two lines, or to hurry up the contest of the proposed charter.

Over $2,000,000 has been spent in building improvements at Bar Harbor, Mount Desert island, Me. The Eastern railroad is to have at this point one of the finest piers to be found on the whole coast.

The Portland & Ogdensburg railroad is about to erect an office building on Commercial street, Portland, near the office of the Maine Central Co.

A car load of kindling wood recently reached Bangor, Me., over the European & North American railroad, bound over the Eastern railroad to Chelsea, Mass. Upon examination of the fuel by the customs officer, there was found carefully concealed in tubs about five hundred pounds of butter, which was removed to the custom house.

The construction of the new horse railroad at Dover is being rapidly pushed, and it is predicted that the road will be completed at a date earlier even than was stipulated.

The Dover fire department is being "investigated."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfect y safe to use in all cases, and pleasant to the taste, and is the prescription of one of the ol lest and best female phys icians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. cod&wtjan28

How young soever you may be,
With falling teeth, you're grim and old;
And losing your mouth's purity,
Your features seem both dull and cold.
Then man or maid, warned of your fate,
Seek SOZODONT, e'er it's too late.

Hon. Avery Plumer of Boston, formerly of this city, has resigned the position of president of the National Bank of the Republic, Boston, on account of failing health.

David Clark of Kennebunk has contracted to build a three-masted schooner for New Bedford owners.

The *Citizen*, of Lowell, Mass., says the new Fisk house at Old Orchard will be three hundred feet front, and nine stories high. Lofty building that.

The store of O. E. Lowell & Co., near the Eastern railroad station in Kennebunk, was entered by burglars during the night of the 9th inst., and money and goods to a considerable amount were stolen. The operators are supposed to have been three tramps who were put off the Pullman train by the conductor at Kennebunk station.

Fire Companies—At their respective Engine Houses on the first Monday of each month.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policyholders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $4.00.—*no assessments.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

PORTSMOUTH SHOE CO.

The annual meeting of the stockholders of the Portsmouth Shoe company was held at the shoe factory in this city on Thursday evening last, W. W. Whitcomb, Esq., of Boston, president of the corporation, presiding. The reports of the auditory committee was read, accepted, and placed on file. The following named gentleman were unanimously chosen directors: Wm. W. Whitcomb, Frank Jones, Ezra H. Winchester, William H. Hackett and William Ward. Messrs. Henry M. Clark, James F. Jenness and William H. Hackett were chosen auditors. James F. Jenness was unanimously re-elected clerk of the corporation, and the meeting was dissolved.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, May 11th, Mayor Sise in the chair:

Present, the full board, except Alderman Noyes.

The records of last meeting were read and approved.

The mayor read the state law regarding the licensing of dealers in petroleum and its products, which law renders an unlicensed dealer liable to a fine. Many prominent traders of the city applied for licenses, which were granted.

Bills approved by committee, to the amount of $2414.19, were ordered paid; also a bill of Officer Shannon's, of $53.40, he having been confined by illness caused by exposure while on duty.

Charles E. Walker was granted a relay of sidewalk on Islington street, and a new sidewalk on Brewster street, next his property.

John Senter was granted a sidewalk in front of his residence.

Petition for a cross-walk at the Bow street end of Linden street, was referred.

Mrs. Trefethen was granted leave to cut down a cherry tree on State street.

The committee on bills on their second reading reported the appropriation bill as received from the Common Council, recommending its passage. The bill is as follows:

AN ORDINANCE making appropriations for the year 1882.

Be it Ordained by the City Councils of the city of Portsmouth as follows:

There shall be raised and is hereby ordered to raised on the polls and estates of the inhabitants of this city and non-residents, to pay the current expenses of the city for the year ending December 31st, 1882, and to pay such debts as are required to be paid the current year, the sum of ninety-five thousand dollars, which with the sums to be received from the railroad and savings bank taxes and other income of the city shall be appropriated as follows:

State tax	$16,400.00
County tax	20,675.74
City debt	5,000.00
Interest	8,000.00
Salaries of city officers	5,000.00
Streets	8,700.00
Fire department	8,000.00
Support of the poor	6,000.00
Police	2,000.00
Watch	4,000.00
Street lights	2,800.00
Repairs and rents of school houses	1,500.00
Public library	500.00
Printing	400.00
Roads out of compact part of city	1,800.00
Repairs of bridges	100.00
Schools (in addition to literary fund)	19,500.00
Sidewalks	500.00
Sewers	600.00
Sprinkling streets	500.00
Health committee	125.00
Memorial day	150.00
Repairs of almshouse and buildings	200.00
Contingent	3,000.00
Collector's commissions	750.00
Discount on taxes	6,000.00
For the completion of Vaughan street extension	900.00
To pay the bonds of the city of Portsmouth, N. H., due in 1869, with eleven coupons attached to each, being numbers 51, 52 and 53, issued March 30, 1859, and presented for payment since January, 1882	3,442.50

And be it further *Ordained*:

That the receipts of this city from all sources shall be paid as cash to the city treasurer, and not credited to the several departments.

And the treasurer of this city is hereby instructed and ordered not to pay any bills against the city for account of any department or appportionment of the appropriations for 1882 according to this ordinance, after he has received bills regularly approved and ordered paid amounting to the sum of money hereby appropriated for such department or apportionment.

Within ten days after the passage of this ordinance a copy thereof shall be given to the city treasurer.

The board considered the bill by items, and it was approved, excepting that the appropriation for street lights was increased from $2,800 to $3,500, and the supplementary clauses were stricken out. An appropriation of $800 for experimental heating of school houses was added. As amended, the bill was passed.

It was voted that twenty-two lights be placed on the North and Creek roads, three on the Vaughan street extension, and five on Sagamore road.

The following questions were brought up by the mayor, and referred to the city solicitor for his opinion: The removal of the Wilson house obstruction on Vaughan street, the north millpond nuisance, the gates (or lack of gates) at the railroad crossings, the closing of Russell alley by the Eastern railroad, the dispute with Daniel Mason, and the case of a woman named White who claims to have fallen at one of the railroad crossings.

The light at Randall's corner of State and Pleasant streets was ordered to be moved to Brimstone hill.

The request of Mrs. Lyford for abatement of taxes was laid over for one week.

D. H. Montgomery was given leave to withdraw his claim for $6, for damage done to awning post.

Adjourned.

CIRCUIT COURT OF THE UNITED STATES.

THURSDAY, May 11th; *Clark J.*

Huntress vs. Town of Epsom. The jury having returned from Epsom on Wednesday evening, the trial of this cause began on Thursday morning. The case was opened by Mr. Edgerly, who stated that the plff. was a resident of South Berwick, Me., and was transporting a monument from South Berwick to Henniker, N. H., in company with a Mr. Knights. The roads were rough, as they had thawed and froze just before. The place of alleged injury was at Kelley hill, where they arrived in the early part of the evening and proceeded down the hill until they came to a water-bar extending diagonally across the road, and it is claimed that the right-hand wheel struck the bar first and threw the pole over, and the left wheel sank into a gully and the pole was broken four or five feet from its end. It was a "loose" pole, and it dropped down. Huntress applied the brake, but could not hold the wagon, and the pole ploughed the centre of the road until, reaching what was called the dry culvert, the pole was driven under a log lying embedded in the road; this brought up the wagon suddenly, and threw it over. Huntress and Knights were under the load. Huntress extricated himself, and went for assistance after he got up, the monument holding him down by its resting on some of his clothing, which it was stated had to be cut; the carriage was demolished, save the wheels; the four horses were injured, the pole horses being badly lamed, and one of the leaders rendered practically worthless. Mr. Edgerly stated what would be proved as to the condition of the road. The evidence, consisting of the testimony of the plaintiff and other witnesses upon that side, occupied the day. Thirteen witnesses were examined on the part of the plaintiff.

On motion of Hon. John S. H. Frink, George Prescott Montague, Esq., of Manchester, was admitted to practice as an attorney.

THE ELECTRICAL DOLL.

"The Electrical Doll" is full of life and spirit. There are disguises, love, sun and music in delightful proportions, and if there was a single person in the audience who had not laughed until his sides ached at the fall of the curtain last evening his is indeed a helpless case.—*Boston Traveller.*

"The Electrical Doll" is one of the best of the pieces of its class. It has an actual and tangible plot, and not a bad one either. The text is bright and witty, and the music pleasing and appropriate All who enjoy an evening of pure fun, free from coarseness, should certainly "take in" the doll.—*Boston Star.*

The "Jollities" are a very jolly set, and their ability for keeping an audience in the best of humor is unsurpassed. This is warm praise, but it is bestowed with consideration, for the performance of that deliciously absurd musical composition, "The Electrical Doll," given last night, was one of the most enjoyable entertainments of the season. It is pure humor from begining to end.—*Boston Journal.*

At Music hall this evening; tickets at Preston's.

AROUND HOME.

The largest audience gathered in Music hall for many months assembled there on the evening of the 10th inst, to see Maggie Mitchell and her company play "The Little Savage." The company is an excellent one; the piece is the poorest one Maggie Mitchell has ever appeared in here.

Frank Jones has been in Washington, D. C., in attendance upon the Brewers' Congress. This is a kind of congress, as we understand it, which passes "beer measures."

On Wednesday of this week a schooner engaged in fishing off this port took on a cod-trawl three fine halibut, weighing together 475 lbs., and brought up into sight two others, which however escaped by breaking the gear. The three taken were brought in here, and sold to C. Sullivan & Co.

The annual meeting of the stockholders of the Concord railroad will be held in White's opera house at Concord on Tuesday, May 30th.

J. Horace Kent, the Dover *Republican* says, is the New Hampshire agent for the Boston *Traveller.*

Thirty-one hundred pounds of fish were bought by Randall & Caswell on Thursday of this week. The schooner Nettie Adams arrived on Thursday with forty-five hundred pounds of fish, but found no market for her fare.

The schooner Albert Woodbury came off the marine railway at Kittery in the evening on the 10th inst., and was towed across the river by the steamer Mystic. The schooner Water Lily was taken on the railway Thursday morning, the 11th.

Ezra H. Winchester, Esq., of this city, was elected one of the board of directors of the Little Rock, Mississippi River & Texas railway at the recent election of officers held at Little Rock, Ark.

The board of physicians who at the request of Judge Stanley made a special examination of the physical condition of Albee, the alleged savings bank defaulter now in Keene jail, have reported that in their opinion Albee is unfit to be removed and tried at the present term of the court, when it was arranged that he should be tried. Dr. John W. Parsons of this city was one of the board of examining physicians appointed by the court.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment with but little relief. I prevailed upon him to use the Cuticura Resolvent internally, and the Cuticura and Cuticura Soap externally. He did so and was completely cured. The skin on his head, face, and many other parts of his body, which presented a most loath-some appearance is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured 13 months.

Reported by
F. H. BROWN, Esq., Barnwell, S. C.

Scrofula Sore.

Rev. Dr. Dorr, in detailing his experience with the Cuticura Remedies, said that through Divine Providence one of his parishioners was cured of a scrofula sore, which was slowly draining away his life, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The person that had fed the disease was completely driven out.

Eczema.

Sixteen months since an eruption broke out on my leg and both feet, which turned out to be Eczema, and caused me great pain and annoyance. I tried various remedies, with no good results, until I used the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally, which entirely cured me so that my skin is as smooth and natural as ever.

ELLEN M. FRAILEY, 64 South St., Boston.

Cuticura.

The Cuticura treatment, for the cure of Skin, Scalp and Blood diseases, consists in the internal use of Cuticura Resolvent, the new Blood Purifier and the external use of Cuticura and Cuticura Soap, the great skin cures. Price of Cuticura, small boxes, 25c.; large boxes, $1. Cuticura Resolvent, $1 per bottle. Cuticura Soap, 25c.; Cuticura Shaving Soap, 15c.

Depot, WEEKS & POTTER, Boston, Mass.

CATARRH

Sanford's Radical Cure.

Head colds, watery discharges from the nose and eyes, ringing noises in the head, nervous headache and chills and fever instantly relieved. Choking, putrid mucus is dislodged, membrane cleansed, disinfected and healed, breath sweetened, and all taste and hearing restored and constitutional ravages checked.

Cough, bronchitis, dropplugs into the throat, pains in the chest, dyspepsia, wasting of strength and flesh, loss of sleep, etc., cured.

One bottle Radical Cure, one box Catarrhal Solvent and one of Sanford's Inhaler, in one package, of all druggists, for $1. Ask for Sanford's Radical Cure. WEEKS & POTTER, Boston.

TERMS.—Eight dollars for the course. A discount will be made for two or more pupils from the same family.

WHAT HAPPENED TO

Mr. Joseph Beach.

Stone in the Kidney Expelled after Using Dr. David Kennedy's "Favorite Remedy" about two weeks.

One of the most remarkable cases that has ever been brought to the notice of the public is that of Mr. J. Beach, of Stone Bridge, Ulster Co., N. Y. Mr. Beach had suffered since October 18th, 1874, from the presence of Calculous or Stone in the right Kidney. No less than seven physicians were employed at different times, to whom Mr. Beach paid hundreds of dollars for medical treatment, with only temporary relief from his agony.

By the urgent solicitations of his friends he was induced to try Dr. David Kennedy's "Favorite Remedy"—experienced a marked improvement from the first day he began to use the medicine; on the 18th of September he voided a stone as large as could passed through the natural channel.

Mr. Beach concludes a long letter to Dr. Kennedy by saying: "It will always afford me pleasure to recommend the "Favorite Remedy" to those who may be suffering from difficulties the Kidneys and Bladder, or any disorder, arising from an impure state of blood. The "Favorite Remedy" sold by all druggists. The doctor's only address is Rondout, New York.

JOHN CRITCHLEY. NATHAN WHALLEY.

Little Romance in Jesse James' Life.

On the part of certain sentimentalists, from whose ranks are recruited the idiots that go maudlin over murderers, adore them with flowers and baptize them with tears, there is some disposition to gush over Jesse James' kindness to his wife and children. Just how kind and tender he was only his intimate friends can say. One of his assassins says he was kind and indulgent to his children, and "would get mad at his wife for correcting them." Even if he were tender and good toward them, it was only a trait he had in common with tigers and other beasts of prey toward their off-spring. This trait doesn't go very far toward reconciling the people of India to the habits of the man-eating tiger after it has made a raid upon one of their villages. Sitting Bull and the Modoc chieftains were doubtless kind to their papooses, but we never knew the frontiersmen or their wives and daughters at the posts and garrisons out west, to admire those warriors any more because of their paternal affection. The widows and orphans of the conductors and bank officers killed by Jesse James could not, we think, be lifted to any ungovernable enthusiasm over the late Mr. James' treatment of his wife and children.

He was essentially ferocious, not chivalrous. He was a savage at heart, with a varnish of what might pass for chivalry, if his bloody wantonness had not washed the varnish all off. He was, when killed, planning a raid on a bank at Platte city, Nebraska, in which he had made the most elaborate preparations to kill the cashier, whether it was necessary or not. He killed one conductor because, previous to the robbery, one of his band had surrendered too easily, and he wanted all the gang to be liable for murder, so they would be too desperate to be caught and "give him away." He never seems to have hesitated to imperil the lives of his followers to insure his own safety. He recently told an acquaintance that there was another member of his gang whom he must kill, as they were surrendering too fast, and he would be in danger if they were permitted to live.

There is as little romance about such a creature as there is about a panther. Even his courage may be doubted. He was so quick and sure with the pistol that he felt safe, and for this reason did not really expose his life as he seemed to. However this may be it was a kind of savage and physical courage rather than a high moral bravery. He seldom if ever came to an open fight like a hero of a battle or the leader of a clan. This is not the kind of courage that leads forlorn hopes, or does its duty in plague-stricken hospitals.

The only iron preparation that does not color the teeth, and will not cause headache or constipation, as other iron preparations will, is Brown's Iron Bitters.

A young man in Rockland, Me., was refused a marriage license until he could ascertain the name of his intended bride. He had courted her two years, but only knew her by her nickname.

"Buchupalba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists. Depot, J. H. Thacher's.

Don't Die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

The circus run by W. C. Coup, a son-in-law of Barnum, has one unique characteristic. No lemonade or candy is sold in the tents. He declares that, while clearing his show of swindlers, he has concluded to make a clean sweep.

"An Ambitious Individual."

"Oh! I'm boiling over to do some good act," shouted a politician the other day, as his red nose protruded from a face ornamented with unhealthy blotches. "Well, sir," replied a frendly listener, "unless you want to make an animated sign for a drug store, and make the passers-by sick, I would advise you to use Swayne's Ointment and be cured of that skin disease." The ambitious man acted

Portsmouth Wholesale Prices.

Reported by JOHN LAIGHTON, Grocer.

Butter, per ℔ 25 to 30c.
Corn per bushel, Western 95c; Northern $1.00.
Cheese, 10 1-2c per ℔.
Coal, Anthr, per ton $6.00, Smith's. per ton $6.00.
Eggs per dozen, 18c.
Flour, Fancy, $7.00 @ $8.00; Ex. $9.00.
Fish per ℔ by the qtl., Cod 5 @ 7c; Pollock 4 1-2c.
